Note: As it is difficult to calculate reasonably at this time, dividends from the next fiscal year's surplus will not be determined. The exact dividend amount will be disclosed as soon as the calculation becomes feasible.

3. Forecast of Consolidated Financial Results for the Fiscal Year Ending December 2024 (From January 1, 2024 to December 31, 2024)

The business environment remains uncertain due to factors such as the possibility that the ferroalloys product market may remain bearish due to sluggish steel demand, and concerns about a decline in demand for electronic components and other products due to the economic downturn in China.

In addition, because there are uncertain factors such as price increases due to high electricity costs and pay hikes, and the impacts of the Noto Peninsula Earthquake, it is difficult to make a reasonable calculation at this time, so Nippon Denko Co., Ltd. (the “Company” or “We”) has not yet determined its forecast for the fiscal year ending December 31, 2024 and will disclose it as soon as it becomes possible to make the calculation.

(Segment information, etc.)

[Segment information]

1. Description of reportable segments

The Company's reportable segments have separate financial information available from constituent units of the Company and are subject to regular review by the Board of Directors to make decisions on management resource allocation and assess performance.

The Company has business divisions, etc. by product and service at its head office, and each business division, etc. formulates comprehensive strategies for products and services handled in Japan and overseas, and develops business activities.

Therefore, the Company consists of segments by product and service based on business divisions, etc., and has four reportable segments of "Ferrous alloys business," "Functional Materials business," "Environment business," and "Electric Power business".

The main products and services in each reportable segment are as follows.

Reportable segments	Overview
Ferrous alloys business	Manufacture and sale of ferromanganese, silicomanganese, ferrosilicon, sale of ferrochromium, ferrovanadium and other special metal products, warehousing, port cargo handling and on-site work contracts, manganese mine interests, etc.

(Significant subsequent events)

The Noto Peninsula Earthquake, which took place on January 1, 2024, resulted in damages to our non-current assets and inventories at the Toyama Plant and Myoka Plant. However, we have not identified any significant impact on our business operations at present.

While our plants are operating normally overall, certain production facilities have been found to require time for restoration following inspections. We are actively implementing measures to expedite the recovery process.

The extent of the damage caused by this earthquake is currently being investigated.
