1. Qualitative Information on Quarterly Financial Results for the Period

(1) Explanation of Operating Results

During the nine months ended December 31, 2023, the Japanese economy indicated a modest recovery trend as the government downgraded COVID-19 to a Category V Infectious Disease and eased restrictions on activities in Japan and entry of people from abroad, while seeing progress in the normalization of economic activities. However, the economic outlook remains uncertain for a number of downside economic risks, including the increased geopolitical risks in Ukraine and the Middle East.

In the housing industry, we faced challenges, such as price hikes in housing construction due to increases in construction materials and housing equipment prices, and undermined consumer sentiment for purchasing a home caused by rising living costs. As a result, new housing starts for the nine-month period decreased by 6.3% year on year. Meanwhile, the number of housing starts for owner-occupied houses and built-for-sale detached houses, which represent the main targets for the Group, registered a 10.1% year-on-year decline.

The Group pursued business opportunities with a focus on growth fields by promoting sales of products aimed at achieving carbon neutrality, capturing remodeling/renovation demand, and reaching out to non-housing markets, among other efforts.

Against this backdrop, in the nine-month period, net sales increased by 0.2% year on year to 87,059 million yen due to the effect of corporate acquisitions. However, operating profit decreased by 8.2% year on year to 1,991 million yen, ordinary profit decreased by 7.0% year on year to 2,431 million yen, and profit attributable to owners of parent decreased by 13.5% year on year to 1,602 million yen.

Results by segment were as follows:

<Construction Materials Business>

The Group focused on expanding sales of products aimed at achieving carbon neutrality, including solar power generation systems, storage batteries, and high-efficiency water heaters, capturing demand for remodeling/renovation to enhance comfort in wet areas and improve air quality and promoting the introduction of wooden structures and wooden interior decorations to non-housing buildings. Moreover, in May 2023, we acquired TRESSA Co., Ltd. and made it a new subsidiary, aiming to strengthen the construction function. The company, headquartered in Nagasaki City, is engaged in housing construction work, mainly on exterior wall work, and sales of housing materials.

However, due to factors such as the decline in new construction starts for owner-occupied houses and built-for-sale detached houses, net sales of this business decreased by 0.0% year on year to 53,071 million yen and operating profit decreased by 10.8% year on year to 807 million yen.

<Air-conditioning, Heating and Cooling, and Household Products Business>

Net sales of this business increased by 5.6% year on year to 14,193 million yen and operating profit increased by 50.1% year on year to 293 million yen, due to the inclusion of the results for ten months of Terada Co., Ltd., which has changed its accounting period, in addition to strong performance in sales and installation work of freezing and air-conditioning equipment.

<Pre-cut Lumber Business>

We made greater efforts to win orders for non-housing projects, including offices, shops, and other facilities, in addition to detached houses, our mainstay. However, due to lower lumber prices as well as the decline in new construction starts for owner-occupied houses and built-for-sale detached houses, net sales of this business decreased by 21.9% year on year to 11,521 million yen and operating profit decreased by 43.9% year on year to 741 million yen.

<Engineering Business>

Net sales of this business increased by 76.7% year on year to 6,211 million yen and operating profit increased by 403.5% year on year to 597 million yen, because All Japan Data Service, Co., Ltd. and Hagaya Construction Co., Ltd., which both became our subsidiaries in the previous fiscal year, contributed to the performance of this business, and construction sales at existing subsidiaries were also robust.

<Other>

The business of Taihei Shoko Co., Ltd., which sells industrial materials, is classified into the Other Business that is not included in any reportable segment.

Net sales of this business decreased by 3.8% year on year to 2,418 million yen due to a decline in automotive-related sales, while operating profit increased by 2.6% year on year to 101 million yen through efforts to improve the gross profit margin.

(2) Explanation of Financial Position

Total assets increased by 1,123 million yen, or 1.7%, from the previous fiscal year-end to 65,655 million yen. This was mainly attributable to increases of 1,038 million yen in land, 983 million yen in electronically recorded monetary claims - operating, and 388 million yen in merchandise, with decreases of 723 million yen in cash and deposits, 335 million yen in costs on construction contracts in progress, and 308 million yen in notes and accounts receivable - trade, and contract assets.

Total liabilities increased by 55 million yen, or 0.1%, from the previous fiscal year-end to 43,030 million yen. This was mainly attributable to increases of 1,063 million yen in electronically recorded obligations - operating and 669 million yen in notes and accounts payable - trade, with decreases of 877 million yen in short-term borrowings, 332 million yen in income taxes payable, 249 million yen in provision for bonuses, and 202 million yen in long-term borrowings.

Total net assets rose by 1,067 million yen, or 5.0%, from the previous fiscal year-end to 22,625 million yen. This was mainly attributable to increases of 892 million yen in retained earnings and 120 million yen in valuation difference on available-for-sale securities.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

There are no changes to the consolidated financial results forecast for the fiscal year ending March 31, 2024 from the earlier forecast announced on May 9, 2023.
