2. Reason

The DMG MORI Group strives to enhance corporate value for our shareholders, who understand that machine tools are both capital assets and products which need longer period of investment cycle, from 10 to 20 years. Our principle for profit appropriation is stable and continuous payment of dividend based on an overall judgment concerning our future business plan, business results, financial conditions, and so on.

For internal reserve, we continue to invest in the development of pivotal new products and technologies as well as consolidating our production equipment in order to reinforce our competitive strength in the market.

Our dividend policy is to maintain stable dividends even during periods of declining demand and to maintain a dividend payout ratio of approximately 30% during periods of earnings growth, taking into consideration factors such as free cash flow and repayment of interest-bearing debt.

Based on the policy, we have decided to pay the year-end dividend of ¥50.00 per share, considering the operating results for the fiscal year ended December 31, 2023. As a result, cash dividends applicable for the fiscal

year ended December 31, 2023 will be ¥90.00 per share, including the interim dividends of ¥40.00 per share.
