Therefore, they do not constitute a guarantee that they will be realized. Actual results may differ from such estimates due to unforeseen circumstances.

## 4. Review of Operations

During the term under review (April 1, 2013 to June 30, 2013), Japanese acute care hospitals continued stable capital spending in response to the upward revision of medical treatment fees in April 2012 and progress in the regional medical care revival plan. The medical equipment industry has come into the spotlight as the Japanese government disclosed its growth strategy for the healthcare sector. Internationally, demand for medical equipment remained steady in the United States and emerging countries, while fiscal austerity created difficult market conditions in Europe.

Under these circumstances, the Company started its new 4-year Business Plan, Strong Growth 2017, in April 2013 and implemented key strategies such as further growth in core business and strengthening technological development capacity.

**Japan:** Both the hospital market and the clinic market remained favorable and AED sales increased in the PAD market. This resulted in increased sales of all product categories. In Treatment Equipment, sales of AEDs showed strong growth as new models were well received and attracted demand for replacement of older models. Sales of pacemakers and ICDs also increased. In Physiological Measuring Equipment, sales of EEGs, polygraphs for cath labs and diagnostic information systems increased. In Other Medical Equipment, sales of hematology analyzers increased as new models were well received. As a result, domestic sales increased 6.7% over the first quarter of FY2012, to ¥24,310 million.

International: Sales of all product categories increased due to favorable currency impact and strong sales growth of AEDs and hematology analyzers. Acquisition of Defibtech contributed to sales growth of AEDs. In the Americas, sales in the U.S. showed strong growth and sales in Latin America also increased. Comparable sales in Europe were nearly flat compared with the same quarter of the previous fiscal year. This was due to weak sales in Russia compared to a strong first quarter of FY2012. In Asia, sales in India and Middle East showed strong growth as the Company strengthened its local business structure. Sales in China decreased as a reflection of cooler Japan-China relations. As a result, international sales increased 22.3% over the first quarter of FY2012, to  $\pm 6,105$  million.

Overall sales during the term under review increased 9.5% over the first quarter of FY2012 to  $\$30,\!415$  million. Gross margin ratio declined due to an unfavorable sales mix and because yen depreciation raised import prices. SG&A expenses increased due to planned increase in R&D and sales force. As a result, operating income decreased 28.4% to  $\$1,\!552$  million. As foreign exchange gains were recorded, ordinary income increased 8.4% to  $\$2,\!010$  million and net income increased 24.2% to  $\$1,\!316$  million over the first quarter of FY2012.

## 5. Consolidated Sales Results by Product Category

#### 6. Consolidated Forecast for FY2013

The Company reaffirms its forecasts for the first half of FY2013 and FY2013, previously announced on May 8, 2013. Nihon Kohden will implement its new 4-year business plan, Strong Growth 2017, to achieve sustained group growth and enhance its corporate value. In Japan, Nihon Kohden aims to expand sales in acute care hospitals because these hospitals are expected to continue stable capital spending. Internationally, the Company aims to expand its sales in the Americas and Asia where it strengthened its business structure. New competitive products were launched since April 2013: a telemetry transmitter with a color display, a portable receiving terminal, and a clinical chemistry analyzer. Nihon Kohden will also launch a new transport monitor and a new high-end monitor in the near future. Nihon Kohden aims to expand its sales with these new products and with expanding its global sales activities.

The Company's forecast for FY2013 is based on an exchange rate of 90 yen to the dollar and 118 yen to the euro.
