* In addition to "Securities" on the consolidated balance sheets, NCDs in "Cash and Due from Banks," certain items in "Other Debt Purchased" and certain items in "Other Assets" are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥33,688 million and ¥3,311 million, which were recognized in the statement of income for September 30, 2013 and March 31, 2013, respectively, by applying the fair-value hedge method and others. As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of September 30, 2013 and March 31, 2013 are ¥1.016.834 million and ¥878.131 million, respectively.

* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of September 30, 2013 and March 31, 2013 are ¥729,899 million and ¥615,883 million, respectively.

* In addition to "Securities" indicated on the balance sheets, NCDs in "Cash and Due from Banks" and certain items in "Other Debt Purchased" are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the balance sheet date.

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥33,688 million and ¥3,311 million, which were recognized in the statement of income for September 30, 2013 and March 31, 2013, respectively, by applying the fair-value hedge method and others. As a result, the base amounts to be recorded directly to Net Assets after tax adjustment as of September 30, 2013 and March 31, 2013 are ¥919,128 million and ¥1,022,947 million, respectively.

* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax adjustment, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of September 30, 2013 and March 31, 2013 are as follows:

Unrealized Gains/Losses on Other Securities

(the base amount to be recorded directly to Net Assets after tax and other necessary adjustments)

For certain Other Securities, Unrealized Gains/Losses were recognized in the statement of income by applying the fair-value hedge method and others. They were excluded from Unrealized Gains (Losses) on Other Securities. These adjusted Unrealized Gains/Losses were the base amount, which was to be recorded directly to Net Assets after tax and other necessary adjustments. The base amount was as follows:
