#### **Independent Auditors' Report**

Based on a report originally issued in Korean

The Board of Directors and Shareholders POSCO:

We have audited the accompanying consolidated statements of financial position of POSCO and subsidiaries (the "Company") as of December 31, 2013 and 2012 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended. Management is responsible for the presentation of these consolidated financial statements in accordance with Korean International Financial Standards. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012 and its financial performance and its cash flows for the years then ended, in conformity with Korean International Financial Reporting Standards.

Without qualifying our opinion, we draw attention to the following:

KPMG Samjong Accounting Corp.

The procedures and practices utilized in the Republic of Korea to audit such consolidated financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying consolidated financial statements are for use by those knowledgeable about Korean auditing standards and their application in practice.

Seoul, Korea

February 25, 2014

This report is effective as of February 25, 2014, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

- (\*1) Included as a subsidiary from 2011 as the Company has the power over more than half of the voting rights by virtue of an agreement with Postech, which has a 4.72% ownership interest.
- (\*2) These subsidiaries are included in the consolidated financial statements as the controlling company has control over them in consideration of the board of directors' composition and others.

The amounts recognized in equity as a result of changes in the Company's ownership interests in subsidiaries that did not result in a loss of control (2013: POSCO Specialty Steel Co., Ltd., POSCO ICT Co., Ltd., POSCO TMC Co., Ltd. etc., 2012: POSCO Specialty Steel Co., Ltd., POSCO ENERGY Co., Ltd., POSCO-Thainox Public Company Limited, etc.) were  $\mbox{$W$31,417$}$  million and  $\mbox{$W$41,924$}$  million for the years ended December 31, 2013 and 2012, respectively.

Cash flows from increase in non-controlling interest, net for the years ended December 31, 2013 and 2012 amounted to 385,122 million and 375,850 million, respectively.

Cash dividends paid to POSCO by subsidiaries for the years ended December 31, 2013 and 2012 amounted to  $\frac{1}{2}$ 71,970 million and  $\frac{1}{2}$ 22,581 million, respectively.

As of December 31, 2013, there are no restrictions on the ability of subsidiaries to transfer funds to the controlling company, such as in the form of cash dividends, repayment of loans or payment of advances.

(c) Summarized financial information of subsidiaries as of December 31, 2013 and 2012 are as follows:

#### 1) December 31, 2013

(\*1) These subsidiaries are included in the consolidated financial statements as the controlling company has control over them in consideration of the board of directors' composition and others.

2) Cash outflows (inflows) caused by the acquisitions for the year ended December 31, 2013.

(in millions of Won)	Amounts		
Consideration transferred	₩	4,359	
Less: Cash and cash equivalent acquired		(10,088)	
Total	₩	(5,729)	

#### (g) Excluded subsidiaries

Subsidiaries that were excluded from consolidation during the year ended December 31, 2013 are as follows:

Company	Date of disposal	Reason
Postech 2006 Energy Fund	January 2013	Reclassification from subsidiary to associate
Postech Early Stage Fund	January 2013	Reclassification from subsidiary to associate
Pohang SPFC Co., Ltd.	January 2013	Statutory merger by SPFC Co.,LTD. (formerly, Gwangyang SPFC Co.,LTD.)
Gunsan SPFC Co., Ltd.	January 2013	Statutory merger by SPFC Co.,LTD. (formerly, Gwangyang SPFC Co.,LTD.)
POSCALCIUM Company, Ltd.	January 2013	Statutory merger by POSCO CHEMTECH
Reco Metal Co., Ltd.	January 2013	Statutory merger by POSCO M-TECH
9Digit Co., Ltd.	January 2013	Statutory merger by POSCO M-TECH
SeungGwang Co., Ltd.	January 2013	Statutory merger by POSMATE
POSWITH Co., Ltd.	January 2013	Statutory merger by POSCO Humans Co., Ltd. (formerly, POS ECO HOUSING Co., LTD.)
MCM Korea	March 2013	Exclusion by liquidation
DAEWOO CANADA LTD.	March 2013	Exclusion by liquidation
DAEWOO HANDELS GmbH	March 2013	Exclusion by liquidation
Dalian POSCO Steel Co., Ltd.	March 2013	Disposal
MAX STEEL Co., LTD.	April 2013	Statutory merger by POSCO-Vietnam Processing Center Co., Ltd.
POSCO PLANTEC Co., Ltd.	July 2013	Statutory merger by Sungjin Geotec Co., Ltd. (currently, POSCO PLANTEC Co., Ltd. by changing its name)
Dakos Co., Ltd.	October 2013	Disposal
BLUE O&M Co., Ltd	December 2013	Statutory merger by Plant Engineering Service Technology Co., Ltd.
NEW POWER TECH CO., LTD	December 2013	Statutory merger by POSCO ENGINEERING & CONSTRUCTION CO., LTD.
Tancheonene Co.,Ltd	December 2013	Statutory merger by Poscoene
SANTOS CMI COSTA RICA S.A.	December 2013	Exclusion by liquidation
INGENIERIA Y CONSTRUCCION HOLANDCO S.A.	December 2013	Exclusion by liquidation
ASESORIA Y SERVICIOS EPC S.A. CHILE	December 2013	Statutory merger by SANTOSCMI CONSTRUCCIONES DE CHILE S.A.
SANTOS CMI CONSTRUCTION ARGENTINA S.A.	December 2013	Exclusion by liquidation
DAEWOO STC VINA LTD.	December 2013	Disposal
GEZIRA TANNERY Co., Ltd.	December 2013	Exclusion by liquidation
		-

#### 2. Statement of Compliance

#### Statement of compliance

The consolidated financial statements have been prepared in accordance with Korean International Financial Reporting Standards ("K-IFRS"), as prescribed in the Act on External Audits of Corporations in the Republic of Korea.

#### **Basis of measurement**

The consolidated financial statements have been prepared on the historical cost basis, except for the following material items in the statement of financial position, as described in the accounting policy below.

- (a) Derivatives instruments are measured at fair value
- (b) Financial instruments at fair value through profit or loss (FVTPL) are measured at fair value
- (c) Available-for-sale financial assets are measured at fair value
- (d) Defined benefit liabilities are measured at the present value of the defined benefit obligation less the fair value of the plan assets

#### **Functional and presentation currency**

These consolidated financial statements are presented in Korean won, which is POSCO's functional currency and the currency of the primary economic environment in which POSCO operates.

#### Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

#### (a) Judgements

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

- Note1 Subsidiaries, associates and joint venture
- Note 8 Other financial assets
- Note 12 Joint operations
- Note 13 Investment property, net
- Note 14 Property, plant and equipment, net
- Note 15 Goodwill and other intangibles

#### (b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Note 20 Provisions
- Note 21 Employee benefits
- Note 29 Construction contracts
- Note 39 Commitments and contingencies

#### (c) Measurement of fair value

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS including the level in the fair value hierarchy in which such valuation techniques should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the
  assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from
  prices).
- Level 3 inputs for the assets or liability that are not based on observable market data (that is, unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about the assumptions made in measuring fair values is included in the following notes:

• Note 23 – Financial instruments

#### Changes in accounting policies

Except for the changes below, the Company has consistently applied the accounting policies set out in note 3 to all periods presented in these consolidated financial statements.

The Company has adopted the following new standards and amendments to standards with a date of initial application of January 1, 2013.

- (a) K-IFRS No. 1001, "Presentation of Financial Statements"
- (b) K-IFRS No. 1019, "Employee Benefits"
- (c) K-IFRS No. 1107, "Financial Instruments: Disclosures"
- (d) K-IFRS No. 1110, "Consolidated Financial Statements"
- (e) K-IFRS No. 1111, "Joint Arrangements"
- (f) K-IFRS No. 1112, "Disclosure of Interests in Other Entities"
- (g) K-IFRS No. 1113, "Fair Value Measurement"

The details of changes in accounting policies are as follows:

#### (a) Classification of other comprehensive income

As a result of the amendments to K-IFRS No. 1001, the Company has modified the presentation of items of other comprehensive income in its statement of comprehensive income to present separately items that would be reclassified to profit or loss from those that would never be reclassified to profit or loss. Comparative information has been re-presented accordingly.

#### (b) Post-employment defined benefit plan

As a result of the amendments to K-IFRS No. 1019, the Company has changed its accounting policy with respect the basis for determining the income or expense related to its post-employment defined benefit plans. Under the amendments to K-IFRS No. 1019, the Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the thennet defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Consequently, the net interest on the net defined benefit liability (asset) now comprises: interest cost on the defined benefit obligation, interest income on plan assets, and interest on the effect on the asset ceiling. Previously, the Company determined interest income on plan assets based on their long-term rate of expected return.

#### (c) Offsetting of financial assets and financial liabilities

As a result of the amendments to K-IFRS No. 1107, the Company has expanded its disclosures about the offsetting of financial assets and financial liabilities (Note 23).

#### (d) Subsidiaries

As a result of K-IFRS No. 1110, the Company has changed its accounting policy for determining whether it has control over and consequently whether it consolidates its investees. K-IFRS No. 1110 introduces a new control model that focuses on whether the Company has power over an investee, exposure or rights to variable returns from its involvement with the investee and ability to use its power to affect those returns.

In accordance with the transitional provisions of K-IFRS No. 1110, the Company reassessed the control conclusion for its investees at January 1, 2013. As a consequence, the Company changed its control conclusion with the following investees:

	Company
Newly included subsidiaries	POSCO Engineering (Thailand) Co., Ltd.
Excluded subsidiaries	Postech 2006 Energy Fund, Postech Early Stage Fund

#### (e) Joint arrangements

As a result of K-IFRS No. 1111, the Company has changed its accounting policy for its interests in joint arrangements. Under K-IFRS No. 1111, the Company has classified its interests in joint arrangements as either joint operations (if the Company has rights to the assets, and obligations for the liabilities, relating to an arrangement) or joint ventures (if the Company has rights only to the net assets of an arrangement). When making this assessment, the Company considered the structure of the arrangements, the legal form of any separate vehicles, the contractual terms of the arrangements and other facts and circumstances. Previously, the structure of the arrangement was the sole focus of classification.

The Company has re-evaluated its involvement in its only joint arrangement and has reclassified the investment from a jointly controlled entity to a joint venture. Notwithstanding the reclassification, the investment continues to be recognized by applying the equity method and there has been no impact on the recognized assets, liabilities and comprehensive income of the Company.

#### (f) Disclosure of interests in other entities

As a result of K-IFRS No. 1112, the Company has expanded its disclosures about its interests in subsidiaries (see Note 1) and equity-accounted investees (Note 11).

#### (g) Fair value measurement

K-IFRS No. 1113, establishes a single framework for measuring fair value and making disclosures about fair value measurements when such measurements are required or permitted by other K-IFRSs. It unifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It replaces and expands the disclosure requirements about fair value measurements in other K-IFRSs, including K-IFRS No. 1107. As a result, the Company has included additional disclosures in this regard (Note 23).

In accordance with the transitional provisions of K-IFRS No. 1113, the Company has applied the new fair value measurement guidance prospectively and has not provided any comparative information for new disclosures. Notwithstanding the above, the change had no significant impact on the measurements of the Company's assets and liabilities.

#### Impact of changes in accounting policies

As management believes the impact of the amendments to K-IFRS No. 1019, No. 1110 and No. 1113 on the Company's prior year's consolidated financial statement is not significant, the comparative period's consolidated financial statements are not restated.

#### Approval of financial statements

The consolidated financial statements were authorized for issue by the Board of Directors on January 29, 2014, and will be submitted for approval at the shareholders' meeting to be held on March 14, 2014.

#### 3. Summary of Significant Accounting Policies

The significant accounting policies applied by the Company in preparation of its consolidated financial statements are included below. The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except for those as disclosed in note 2.

The comparative amounts in consolidated statements of comprehensive income have been re-presented as a result of a change in the accounting policy regarding the presentation of items of other comprehensive income.

#### **Basis of consolidation**

#### (a) Business combinations

The Company accounts for business combinations using the acquisition method when control is transferred to the Company.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on bargain purchase is recognized in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities. The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognized in profit or loss.

Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognized in profit or loss.

If share-based payment awards (replacement awards) are required to be exchanged for awards held by the acquiree's employees (acquiree's awards), then all or a portion of the amount of the acquirer's replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based measure of the replacement awards compared with the market-based measure of the acquiree's awards and the extent to which the replacement awards relate to pre-combination service.

#### (b) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

#### (c) Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

#### (d) Loss of control

When the Company loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

#### (e) Interests in equity-accounted investees

The Company's interests in equity-control investees comprise interests in associates and joint ventures. Associates are those entities in which the Company has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Company has joint control, whereby the Company has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and joint ventures are accounted for using the equity method. They are recognized initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Company's share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

#### (f) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Company's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

#### Foreign currency transactions and translation

#### 1) Foreign currency transactions

Foreign currency transactions are initially recorded using the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. At the end of each reporting period, foreign currency monetary items are translated using the closing rate. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the original transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rate at the date fair value was initially determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in profit or loss in the period in which they arise. When gains or losses on non-monetary items are recognized in other comprehensive income, exchange components of those gains or losses are recognized in other comprehensive income. Conversely, when gains or losses on non-monetary items are recognized in profit or loss, exchange components of those gains or losses are recognized in profit or loss.

#### 2) Foreign operations

If the presentation currency of the Company is different from a foreign operation's functional currency, the financial statements of the foreign operation are translated into the presentation currency using the following methods:

The assets and liabilities of foreign operations, whose functional currency is not the currency of a hyperinflationary economy, are translated to presentation currency at exchange rates at the reporting date. The income and expenses of foreign operations are translated to functional currency at exchange rates at the dates of the transactions. Foreign currency differences are recognized in other comprehensive income.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of that foreign operation are treated as assets and liabilities of the foreign operation. Thus they are expressed in the functional currency of the foreign operation and translated at the closing rate.

When a foreign operation is disposed of, the relevant amount in the translation is transferred to profit or loss as part of the profit or loss on disposal. On the partial disposal of a subsidiary that includes a foreign operation, the relevant proportion of such cumulative amount is reattributed to non-controlling interest. In any other partial disposal of a foreign operation, the relevant proportion is reclassified to profit or loss.

Foreign exchange gains or losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely to occur in the foreseeable future and which in substance is considered to form part of the net investment in the foreign operation, are recognized in other comprehensive income in the translation reserve.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, and short-term investments in highly liquid securities that are readily convertible to known amounts of cash with maturities of three months or less from the acquisition date and which are subject to an insignificant risk of changes in value. Equity investments are excluded from cash and cash equivalents.

#### Non-derivative financial assets

The Company recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for-sale financial assets. The Company recognizes financial assets in the consolidated statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets are measured at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the asset's acquisition or issuance.

#### (a) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit or loss if they are held for trading or designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

#### (b) Held-to-maturity financial assets

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Company has the positive intention and ability to hold to maturity, is classified as held-to-maturity. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest rate method.

#### (c) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method unless the effect of discounting is immaterial.

#### (d) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity financial assets or loans and receivables. Subsequent to initial recognition, they are measured at fair value, with changes in fair value, net of any tax effect, recorded in other comprehensive income in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost. When a financial asset is derecognized or impairment losses are recognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Dividends on an available-for-sale equity instrument are recognized in profit or loss when the Company's right to receive payment is established.

#### (e) Derecognition of non-derivative financial assets

The Company derecognizes non-derivative financial assets when the contractual rights to the cash flows from the financial asset expire, or the Company transfers the rights to receive the contractual cash flows from the financial asset as well as substantially all the risks and rewards of ownership of the financial asset. Any interest in a transferred financial asset that is created or retained by the Company is recognized as a separate asset or liability.

If the Company retains substantially all the risks and rewards of ownership of the transferred financial assets, the Company continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

#### (f) Offsetting a financial asset and a financial liability

Financial assets and financial liabilities are offset and the net amount is presented in the consolidated statement of financial position only when the Company currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

#### **Inventories**

Inventories are measured at the lower of cost and net realizable value. Costs are determined by using the moving-weighted average method. The cost of inventories comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The allocation of fixed production overheads to the costs of finished goods or work in progress are based on the normal capacity of the production facilities.

When inventories are sold, the carrying amount of those inventories is recognized as cost of goods sold in the period in which the related revenue is recognized. Inventories are measured at the lower of cost and net realizable value. The amount of any write-down of inventories to net realizable value and all losses of inventories are recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories arising from an increase in net realizable value is recognized as a reduction in the amount of inventories recognized as a cost of goods sold in the period in which the reversal occurs.

#### Non-current assets held for sale

Non-current assets or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. In order to be classified as held for sale, the assets or disposal groups must be available for immediate sale in their present condition and their sale must be highly probable. The assets or disposal groups that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell.

The Company recognizes an impairment loss for any initial or subsequent write-down of an asset or disposal group to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036 "Impairment of Assets".

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

#### **Investment property**

Property held to earn rentals or for capital appreciation or both is classified as investment property. Investment property is measured initially at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is carried at depreciated cost less any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of investment property at cost or, if appropriate, as separate items if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

#### Property, plant and equipment

Property, plant and equipment are initially measured at cost and after initial recognition, are carried at cost less accumulated depreciation and any accumulated impairment losses. The cost of property, plant and equipment includes expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, when the Company has an obligation to remove the asset or restore the site, an estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The cost of replacing a part of an item is recognized in the carrying amount of the item of property, plant and equipment, if the following recognition criteria are met:

- (a) it is probable that future economic benefits associated with the item will flow to the Company;
- (b) the cost can be measured reliably.

The carrying amount of the replaced part is derecognized at the time the replacement part is recognized. The costs of the day-to-day servicing of the item are recognized in profit or loss as incurred.

Items of property, plant and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the asset is completed and ready for use. Other than land, the costs of an asset less its estimated residual value are depreciated. Depreciation of property, plant and equipment is recognized in profit or loss on a straight-line basis, which most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset, over the estimated useful lives of each component of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Land is not depreciated.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in profit or loss when the item is derecognized.

The estimated useful lives for the current and comparative periods are as follows:

Buildings	10-60 years
Structures	4-50 years
Machinery and equipment	2-25 years
Vehicles	3-10 years
Tools	4-10 years
Furniture and fixtures	3-10 years
Lease assets	3-18 years

The estimated residual value, useful lives and the depreciation method are reviewed at least at the end of each reporting period and, if expectations differ from previous estimates, the changes are accounted for as changes in accounting estimates.

#### **Borrowing costs**

The Company capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets and inventories that are manufactured or otherwise produced over a short period of time are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. The Company immediately recognizes other borrowing costs as an expense. To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Company capitalizes during a period shall not exceed the amount of borrowing costs incurred during that period.

#### **Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, as there are no foreseeable limits to the periods over which club memberships are expected to be available for use, this intangible asset is determined as having an indefinite useful life and not amortized.

Intellectual property rights	5-10 years
Development costs	3-10 years
Port facilities usage rights	5-75 years
Other intangible assets	2-25 years

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Expenditures on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

#### Exploration for and evaluation of mineral resources

POSCO is engaged in exploration projects for mineral resources through subsidiaries, associates and joint ventures in the mines or other contractual arrangements. Expenditures related to the development of mineral resources are recognized as exploration or development intangible assets. The nature of these intangible assets are as follows:

#### (a) Exploration and evaluation assets

Exploration and evaluation assets consist of expenditures for topographical studies, geophysical studies and trenching. These assets are reclassified as development assets when it is proved that the exploration has identified an economically feasible mine.

#### (b) Development assets

Development assets consist of expenditures for the evaluation of oil fields, facility construction, drilling for viability and others. These development assets are reclassified as industrial rights (mining rights) at inception of the extraction when the technical feasibility and commercial viability of extracting mineral resources are demonstrable. When proved reserves of oil and natural gas are determined and development is sanctioned, the relevant expenditure is transferred to property, plant and equipment and depreciation is computed by the unit of production method.

#### **Government grants**

Government grants are not recognized unless there is reasonable assurance that the Company will comply with the grant's conditions and that the grant will be received.

#### (a) Grants related to assets

Government grants whose primary condition is that the Company purchase, construct or otherwise acquire long-term assets are deducted from the carrying amount of the assets and recognized in profit or loss on a systematic and rational basis over the life of the depreciable assets.

## (b) Grants related to income

Government grants which are intended to compensate the Company for expenses incurred are deducted from the related expenses.

#### Leases

The Company classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Company assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

#### (a) Finance leases

At the commencement of the lease term, the Company recognizes as finance assets and finance liabilities the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the Company adopts for similar depreciable assets that are owned. If there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

#### (b) Operating leases

Lease obligations under operating leases are recognized as an expense on a straight-line basis over the lease term. Contingent rents are charged as expenses in the periods in which they are incurred.

#### (c) Determining whether an arrangement contains a lease

Determining whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset or assets (the asset) and the arrangement conveys a right to use the asset.

At inception or reassessment of the arrangement, management of the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If management of the Company concludes for a financial lease that it is impracticable to separate the payments reliably, the Company recognizes an asset and a liability at an amount equal to the fair value of the underlying asset that was identified as the subject of the lease. Subsequently, the liability shall be reduced as payments are made and an imputed finance charge on the liability recognized using the purchaser's incremental borrowing rate of interest.

#### Impairment for financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset or group of assets are impaired includes:

- (a) significant financial difficulty of the issuer or obligor;
- (b) a breach of contract, such as a default or delinquency in interest or principal payments;
- (c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- (d) it becoming probable that the borrower will enter bankruptcy or other financial reorganization;
- (e) the disappearance of an active market for that financial asset because of financial difficulties; or
- (f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group.

In addition, for an equity instrument classified as available-for-sale, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

If financial assets have objective evidence that they are impaired, impairment losses are measured and recognized.

#### (a) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. If it is not practicable to obtain the instrument's estimated future cash flows, impairment losses would be measured by using prices from any observable current market transactions. The Company can recognize impairment losses directly or establish a provision to cover impairment losses. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed either directly or by adjusting an allowance account.

#### (b) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

#### (c) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income shall be reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed, with the amount of the reversal recognized in profit or loss.

#### Impairment for non-financial assets

The carrying amounts of the Company's non-financial assets, other than assets arising from construction contracts, employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing their recoverable amount to their carrying amount.

Management estimates the recoverable amount of an individual asset. If it is impossible to measure the individual recoverable amount of an asset, then management estimates the recoverable amount of cashgenerating unit ("CGU"). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value-in-use and its fair value less costs to sell. The Company determined that individual operating entities are CGUs.

The recoverable amount of an asset or CGU is the greater of its value-in-use and its fair value less costs to sell. The value-in-use is estimated by applying a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

Goodwill acquired in a business combination is allocated to each CGU that is expected to benefit from the synergies arising from the goodwill acquired. Any impairment identified at the CGU level will first reduce the carrying value of goodwill and then be used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. Except for impairment losses in respect of goodwill which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### Derivative financial instruments and hedges

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

#### (a) Embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met: (a) the economic characteristics and risks of the host contract and the embedded derivatives are not clearly and closely related to a separate instrument with the same terms as the embedded derivative that would meet the definition of a derivative, and (b) the hybrid (combined) instrument is not measured at fair value through profit or loss. Changes in the fair value of separable embedded derivatives from the host contract are recognized immediately in profit or loss. However, convertible rights of convertible bonds are not separated from the host contract and the compound financial instruments of bonds and convertible rights are designated and measured at fair value through profit and loss.

#### (b) Other derivatives

Changes in the fair value of a derivative that is not designated as a hedging instrument are recognized immediately in profit or loss.

#### Non-derivative financial liabilities

The Company classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement and the definitions of financial liabilities. The Company recognizes financial liabilities in the consolidated statement of financial position when the Company becomes a party to the contractual provisions of the financial liability.

#### (a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as such upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the acquisition are recognized in profit or loss as incurred.

#### (b) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities.

Financial guarantee liabilities are initially measured at their fair values and, if not designated as financial liabilities at fair value through profit or loss, they are subsequently measured at the higher of:

- the amount of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period; and
- the amount initially recognized less, cumulative amortization recognized on a straight-line basis over the guarantee period

At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the acquisition. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

The Company derecognizes a financial liability from the consolidated statement of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

#### **Construction work in progress**

Construction work in progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognized to date less progress billings and recognized losses. Cost includes all expenditures related directly to specific projects and an allocation of fixed and variable overheads incurred in the Company's contract activities based on normal operating capacity.

Construction work in progress is presented as part of trade accounts and notes receivable in the consolidated statement of financial position for all contracts in which costs incurred plus recognized profits exceed progress billings. If progress billings exceed costs incurred plus recognized profits, then the difference is presented as amounts due to customers for contract work in the consolidated statement of financial position.

#### **Employee benefits**

#### (a) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within twelve months after the end of the period in which the employees render the related service. When an employee has rendered service to the Company during an accounting period, the Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as profit or loss. If the Company has a legal or constructive obligation which can be reliably measured, the Company recognizes the amount of expected payment for profit-sharing and bonuses payable as liabilities.

#### (b) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service, and are calculated at the present value of the amount of future benefit that employees have earned in return for their service in the current and prior periods, less the fair value of any related assets. The present value is determined by discounting the expected future cash flows using the interest rate of corporate bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid. Any actuarial gains and losses are recognized in profit or loss in the period in which they arise.

#### (c) Retirement benefits: Defined contribution plans

For defined contribution plans, when an employee has rendered service to the Company during a period, the Company recognizes the contribution payable to a defined contribution plan in exchange for that service as an accrued expense, after deducting any contributions already paid. If the contributions already paid exceed the contribution due for service before the end of the reporting period, the Company recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

#### (d) Retirement benefits: Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The fair value of plan assets is deducted. The calculation is performed annually by an independent actuary using the projected unit credit method.

The discount rate is the yield at the reporting date on corporate bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The Company recognizes all actuarial gains and losses arising from actuarial assumption changes and experiential adjustments in other comprehensive income when incurred.

When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Company recognizes an asset, to the extent of the present value of the total of cumulative any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of net defined benefit liabilities, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments, net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss in curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### **Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement shall be recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision is used only for expenditures for which the provision was originally recognized.

A provision for warranties is recognized when the underlying products are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

Regarding provision for construction warranties, warranty period starts from the completion of construction in accordance with construction contracts. If the Company has an obligation for warranties, provision for warranties which are estimated based on historical warranty data are recorded as cost of construction and provision for warranties during the construction period.

#### **Equity instruments**

#### (a) Share capital

Common stock is classified as equity and the incremental costs arising directly attributable to the issuance of common stock less their tax effects are deducted from equity.

If the Company reacquires its own equity instruments, the amount of those instruments ("treasury shares") are presented as a contra equity account. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of its own equity instruments. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase to equity, and the resulting surplus or deficit on the transaction is recorded in capital surplus.

#### (b) Hybrid Bonds

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of financial liability and an equity instrument. When the Company has an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation, the Company's hybrid bond has been classified as an equity instrument.

#### Revenue

Revenue from the sale of goods, services provided and the use of assets is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates, which are not significant for all periods presented.

#### (a) Sale of goods

Revenue from the sale of goods in the ordinary course of activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. The appropriate timing for transfer of risks and rewards varies depending on the individual terms and conditions of the sales contract. For international sales, this timing depends on the type of international commercial terms of the contract.

#### (b) Services rendered

Revenue from services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

#### (c) Construction contracts

Construction contracts of the Company primarily consist of contracts for the construction of plants and commercial or residential buildings, and revenue recognition for different types of contracts is as follows:

When the outcome of a construction contract can be estimated reliably, contract revenue is recognized in profit or loss in proportion to the stage of completion of the contract. Contract revenue includes the initial amount agreed in the contract plus any variation in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. The stage of completion of a contract is determined based on the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs.

When the outcome of a construction contract cannot be estimated reliably, the revenue is recognized only to the extent of contract costs incurred that it is probable will be recoverable. An expected loss on the construction contract shall be recognized as an expense immediately.

#### (d) Rental income

Rental income from investment property, net of lease incentives granted, is recognized in profit or loss on a straight-line basis over the term of the lease.

#### Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest rate method. Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established.

Finance costs comprise interest expense on borrowings and changes in the fair value of financial assets at fair value through profit or loss. Borrowing costs are recognized in profit or loss using the effective interest rate method.

#### **Income taxes**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

#### (a) Current income tax

Current income tax is the expected income tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit of future periods, and non-taxable or non-deductible items from the accounting profit.

#### (b) Deferred income tax

The measurement of deferred income tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Company recognizes a deferred income tax liability for all taxable temporary differences associated with investments in subsidiaries, associates, and joint ventures, except to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Company recognizes a deferred income tax asset for deductible temporary differences arising from investments in subsidiaries, associates and joint ventures, to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized. However, deferred income tax is not recognized for the following temporary differences: taxable temporary differences arising on the initial recognition of goodwill, or the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting profit or loss nor taxable income.

The carrying amount of a deferred income tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred income tax liabilities and deferred income tax assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred income tax assets and liabilities are offset only if there is a legally enforceable right to offset the related current income tax liabilities and assets, and they relate to income taxes levied by the same tax authority and they intend to settle current income tax liabilities and assets on a net basis.

#### Earnings per share

Management calculates basic earnings per share ("EPS") data for the Company's ordinary shares, which is presented at the end of the statement of comprehensive income. Basic EPS is calculated by dividing profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

#### **Operating segments**

An operating segment is a component of the Company that: a) engages in business activities from which it may earn revenues and incur expenditures, including revenues and expenses that relate to transactions with any of the Company's other components, b) whose operating results are regularly reviewed by the Company's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Management has determined that the CODM of the Company is the CEO.

Segment profit and loss is determined the same way that consolidated net after tax profit for the period is determined under K-IFRS without any adjustment for corporate allocations. The accounting policies used by each segment are consistent with the accounting policies used in the preparation of the consolidated financial statements. Segment assets and liabilities are measured based on total assets and liabilities in accordance with K-IFRS without any adjustment for corporate allocations. Also, segment assets and liabilities are based on the separate financial statements of the entities instead of on consolidated basis. In addition, there are varying levels of transactions amongst the reportable segments. These transactions include sales of property, plant and assets, and rendering of construction service and so on. Inter-segment transactions are accounted for on an arm's length basis.

Segment results that are reported to the CEO include items directly attributable to a segment and do not include allocated items. Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

#### New standards and interpretations not yet adopted

The following new standards, interpretations and amendments to existing standards have been published and are mandatory for the Company for annual periods beginning after January 1, 2013, and the Company has not early adopted them.

Management believes the impact of the amendments on the Company's consolidated financial statements is not significant.

(a) Amendments to K-IFRS No. 1032 "Financial Instruments: Presentation"

The amendments clarified application guidance related to offsetting of a financial asset and a financial liability. The amendments are mandatorily effective for annual periods beginning on or after January 1, 2014 with earlier adoption permitted.

#### 4. Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- · credit risk
- · liquidity risk
- · market risk
- · capital risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

#### (a) Financial risk management

#### 1) Risk management policy

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

#### 2) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. In addition, credit risk arises from finance guarantees.

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit rate evaluated based on financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of a nation or an industry in which a customer operates its business does not have a significant influence on credit risk. The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for companies of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets. Debt securities are analyzed individually, and an expected loss shall be directly deducted from debt securities.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high international credit ratings. The Company's treasury department authorizes, manages, and overseas new transactions with financial institutions with whom the Company has no previous relationship. Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

#### 3) Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's cash flow from business, borrowing or financing is sufficient to meet the cash requirements for the Company's strategic investments. Management believes that the Company is capable of raising funds by borrowing or financing if the Company is not able to generate cash flow requirements from its operations. The Company has committed borrowing facilities with various banks.

#### 4) Market risk management

Market risk means that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The goal of market risk management is optimization of profit and controlling the exposure to market risk within acceptable limits.

#### ① Currency risk

Each segment is influenced by a risk factor of changes in foreign currency exchange rates for the different directions due to the difference in structure of each industry regarding the cash inflows and cash outflows in foreign currency. The steel segment generally has a lack of foreign currency cash outflows, while the engineering and construction segments generally have excessive foreign currency inflows due to the nature of their respective business. Therefore, the result of the business is affected by the changes of foreign exchange rates.

The trading segment is structured such that the cash inflows and outflows of foreign currencies are to be offset; however, the trading segment is exposed to a risk of changes in foreign currency exchange rates when there are differences in currencies on receiving and paying the foreign currency amount and time differences.

The Company's policy in respect of foreign currency risks is a natural hedge whereby foreign currency income is offset with foreign currency expenditures. The remaining net exposures after the natural hedge have been hedged using derivative contracts such as forward exchange contracts. In addition, the Company's derivative transactions are limited to hedging actual foreign currency transactions and speculative hedging is not permitted. Based on this policy, the Company entities have performed currency risk management specific to various characteristics of different segments. The entities in the steel industry, which has a lack of foreign currency cash flows, has foreign currency borrowings from banks and hedges foreign currency risks of the foreign currency borrowings by using foreign currency swaps. The entities in the engineering and construction segments, which have excessive foreign currency cash flows, have hedged foreign currency risks by using forward exchange contracts. Entities in the trading industry have hedged foreign currency risks by using forward exchange contracts when the foreign currencies received and paid are different.

#### 2 Interest rate risk

The Company mostly borrows at fixed interest rates. The Company's management monitors interest rate risks regularly.

#### 3 Other market price risk

Equity price risk arises from listed equity securities among available-for-sale equity securities. Management of the Company measures regularly the fair value of listed equity securities and the risk of variance in future cash flow caused by market price fluctuations. Significant investments are managed separately and all buy and sell decisions are approved by management of the Company.

#### (b) Management of capital risk

The fundamental goal of capital management is the maximization of shareholders' value by means of the stable dividend policy and the retirement of treasury shares. The capital structure of the Company consists of equity and net debt, deducting cash and cash equivalents and current financial instruments from borrowings. The Company applied the same financial risk management strategy that was applied in the previous period.

Net borrowing-to-equity ratio as of December 31, 2013 and 2012 is as follows:

(in millions of Won)	2013	2012
Total borrowings W	26,246,605	24,921,433
Less: Cash and cash equivalents	4,208,562	4,680,526
Net borrowings	22,038,043	20,240,907
Total equity	45,822,030	42,429,418
Net borrowings-to-equity ratio	48.09%	47.70%

#### 5. Cash and Cash Equivalents

Cash and cash equivalents as of December 31, 2013 and 2012 are as follows:

2013		2012	
₩	12,575	8,595	
	1,199,768	1,609,934	
	2,959,380	2,945,537	
	36,839	116,460	
₩	4,208,562	4,680,526	
		₩ 12,575 1,199,768 2,959,380 36,839	

#### 6. Trade Accounts and Notes Receivable

(a) Trade accounts and notes receivable as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013		2012	
Current		<u> </u>		
Trade accounts and notes receivable	₩	10,299,826	9,865,436	
Finance lease receivables		36,029	44,918	
Unbilled due from customers for contract work		1,574,929	1,493,709	
Less: allowance for doubtful accounts		(418,183)	(366,090)	
		11,492,601	11,037,973	
Non-current				
Trade accounts and notes receivable		50,639	52,763	
Finance lease receivables		67,251	102,887	
Less: allowance for doubtful accounts		(20,890)	(13,446)	
	₩	97,000	142,204	

Trade accounts and notes receivable sold to financial institutions, for which the derecognition conditions were not met, amounted to \W73,956 million and \W80,258 million as of December 31, 2013 and 2012, respectively, and are included in bank borrowings (Note 17).

#### (b) Finance lease receivables are as follows:

(in millions of Won)

Customer	Contents	Contents 201	2013	2012
Korea Electric Power Corporation KC CHEMICAL Co.,Ltd	Combined thermal power plant 1~4 Machinery and equipment	₩	102,887 393	147,634
Tenant of EXPO Apartment	Leasehold contract		-	171
•		₩	103,280	147,805

(c) The gross amount and present value of minimum lease payments as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	ns of Won) 2013		2012	
Less than 1 year	₩	48,112	62,048	
1 year - 5 years		84,270	120,135	
Greater than 5 year		-	11,772	
Unrealized interest income		(29,102)	(46,150)	
Present value of minimum lease payment	₩	103,280	147,805	

## 7. Other Receivables

Other receivables as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013		2012	
Current			_	
Short-term loans	₩	298,289	271,067	
Other accounts receivable		1,322,352	1,298,878	
Accrued income		74,968	71,076	
Deposits		69,502	107,208	
Other checking accounts		275,892	302,738	
Less: allowance for bad debt accounts		(150,580)	(53,815)	
		1,890,423	1,997,152	
Non-current				
Long-term loans		604,478	574,255	
Long-term other accounts receivable		152,383	164,289	
Accrued income		1,110	1,204	
Deposits		111,482	110,681	
Less: allowance for bad debt accounts		(71,998)	(41,526)	
	₩	797,455	808,903	

#### 8. Other Financial Assets

(a) Other short-term financial assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Derivatives assets held for trading	₩	44,082	62,720
Short-term available-for-sale securities		10,772	133,656
Current portion of held-to-maturity securities (bonds)		2,232	31,237
Short-term financial instruments(*1,2,3,4)		2,913,579	1,621,668
	₩	2,970,665	1,849,281

2012

2012

- (\*1) As of December 31, 2013 and 2012, short-term financial instruments amounting to \$\pm 4,700\$ million and \$\pm 3,400\$ million, respectively, are provided as collateral in relation to long-term borrowings from the National Forestry Cooperative Federation.
- (\*2) As of December 31, 2013 and 2012, \(\psi\)949 million and \(\psi\)12,699 million, respectively, are restricted for the use in a government project.
- (\*3) As of December 31, 2013 and 2012, short-term financial instruments amounting to \$\pmu27,195\$ million and \$\pmu7,650\$ million, respectively, are provided as collateral for long-term borrowings.
- (\*4) As of December 31, 2013 and 2012, short-term financial instruments amounting to W261,034 million and W153,251 million, respectively, are restricted for use in financial arrangements, pledge and others.
- (b) Other long-term financial assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Derivatives asstes held for trading	₩	34,140	8,634
Long-term available-for-sale securities (equity instruments)(*1,2,	3)	4,068,766	3,711,169
Long-term available-for-sale securities (bonds)		32,456	26,430
Long-term available-for-sale securities (others)		54,390	43,267
Held-to-maturity securities (bonds)		1,602	3,251
Long-term financial instruments		274,376	68,215
	₩	4,465,730	3,860,966

- (\*1) As of December 31, 2013, 1,795,860 shares equivalent to 16,162,743 American Depository Receipts ("ADRs") of SK Telecom Co., Ltd. have been pledged as collateral for exchangeable bonds issued.
- (\*2) During the year ended December 31, 2013, there was a significant decline in the fair value of shares of KB Financial Group Inc. and others for a prolonged period, which was considered as objective evidence of impairment. As a result, an impairment loss of ₩280,237 million was recognized in profit or loss during the year ended December 31, 2013.
- (\*3) As of December 31, 2013 and 2012, \(\pi\)229,052 million and \(\pi\)167,100 million of long-term available-for-sale securities, respectively, have been provided as collateral for construction projects of CHUNGJU ENTERPRISE CITY DEVELOPMENT Co., Ltd. and others.

## **POSCO** and Subsidiaries

## Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

#### 9. Inventories

(a) Inventories as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013		2012	
Finished goods	₩	1,406,297	1,475,832	
Merchandise		711,802	703,923	
Semi-finished goods		1,711,294	1,876,196	
Raw materials		2,228,110	2,425,367	
Fuel and materials		801,992	893,137	
Construction inventories		1,183,390	1,324,873	
Materials-in-transit		1,848,389	2,007,106	
Others		96,389	93,007	
		9,987,663	10,799,441	
Less: Allowance for inventories valuation		(189,282)	(214,795)	
	₩	9,798,381	10,584,646	

(b) The changes of allowance for inventories valuation for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Beginning	₩	214,795	215,594	
Valuation losses of inventories	**	49,172	76,484	
Write-off		(73,220)	(71,459)	
Others		(1,465)	(5,824)	
Ending	₩	189,282	214,795	

#### 10. Non-Current Assets Held for Sale

Details of non-current assets held for sale as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013						
	Control	ling company	Subsidiaries	Total	Subsidiaries			
Property, plant and equipment(*1)	₩	-	1,190	1,190	1,190			
Investments in associates(*2)		1,304	<u>-</u>	1,304	-			
	₩	1,304	1,190	2,494	1,190			

- (\*1) POSCO AST determined to dispose of its land and building for employee welfare and classified them as assets held for sale as of December 31, 2012. The amount measured at the lower of those carrying amount and fair value less costs to sell of certain land and building was \W1,190 million, the Company recorded impairment loss for the assets held for sale of \W70 million.
- (\*2) The Company determined to dispose of the shares of POSVINA Co., Ltd., an associate of the Company, and classified it as assets held for sale as of September 2013. The amount based on the difference between those carrying amount and fair value less costs to sell was \W1,304 million. The Company recorded impairment loss for the assets held for sale of \W1,814 million.

#### 11. Investments in Associates and Joint ventures

(a) Investments in associates and joint ventures as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012	
Investments in associates	₩	1,830,047	1,530,802	
Investments in joint ventures		1,978,646	1,508,459	
	₩	3,808,693	3,039,261	

(b) Details of investments in associates as of December 31, 2013 and 2012 are as follows:

- (\*1) It is reclassified from subsidiary to associate due to the merger with Sungjin Geotec Co., Ltd. during the year ended December 31, 2013.
- (\*2) The Company is able to exercise significant influence even though the Company's percentage of ownership is below 20%.
- (\*3) As the Company's share of losses exceeded its interest in this entity, the carrying amount of that interest was reduced to nil and the recognition of further losses was discontinued. Unrecognized losses in this entity are \$10,258 million during the year ended December 31, 2013.
- (\*4) It is reclassified from associate to subsidiary due to the merger with Seoung Gwang Co., Ltd. during the year ended December 31, 2013.
- (\*5) Investments in associates amounting to \$64,810 are provided as collateral related to associates' borrowings.

(c) Details of investments in joint ventures as of December 31, 2013 and 2012 are as follows:

## 12. Joint Operations

Details of significant joint operations of the Company as of December 31, 2013 are as follows:

Jonint operations	Operation	Ownership (%)	Location
Myanmar A-1/A-3 mine	Mine development	51.00	Myanmar
Offshore midstream	Mine development	51.00	Myanmar
Gleenhills mine	Mine development	20.00	Canada
Actos Anthracite coal project	Mine development	20.00	Canada
Mt. Thorley J/V	Mine development	20.00	Austrailia
POSMAC J/V	Mine development	20.00	Austrailia
CD J/V	Mine development	5.00	Austrailia
Intergra Coal J/V	Mine development	5.95	Austrailia
RUM J/V	Mine development	10.00	Austrailia

## 13. Investment Property, Net

(a) Investment property as of December 31, 2013 and 2012 are as follows:

			2013	2012			
(in millions of Won)		Acquisition cost	Accumulated depreciation and impairment loss	Book value	Acquisition cost	Accumulated depreciation and impairment loss	Book value
Land	₩	200,468	(38,966)	161,502	252,846	(41,464)	211,382
Buildings		399,998	(160,805)	239,193	490,657	(186,154)	304,503
Structures		6,836	(3,237)	3,599	9,448	(4,142)	5,306
Others		20,935		20,935			
Total	₩	628,237	(203,008)	425,229	752,951	(231,760)	521,191

As of December 31, 2013, the fair value of investment property is \(\pi\)705,707 million, among which the Company evaluated investment property of 7 subsidiaries including International Business Center Corporation as its book value amounted to \(\pi\)84,479 million since it is believed that fair value is approximately same as book value. Also, the Company used the prior year's fair value for some of the investment property since it is believed to be approximately same.

- (b) Changes in the carrying value of investment property for the years ended December 31, 2013 and 2012 were as follows:
  - 1) For the year ended December 31, 2013

(in millions of Won)	Be	ginning	Acquisitions	Business combination	Disposals	Depreciation	Others(*1)	Ending
Land	₩	211,382	-	12,625	(4,410)	-	(58,095)	161,502
Buildings		304,503	10	8,432	(3,129)	(12,008)	(58,615)	239,193
Structures		5,306	-	-	-	(314)	(1,393)	3,599
Others			20,935					20,935
Total	₩	521,191	20,945	21,057	(7,539)	(12,322)	(118,103)	425,229

- (\*1) Includes reclassification resulting from changing purpose of use, adjustment of foreign currency translation difference and others.
- 2) For the year ended December 31, 2012

(in millions of Won)	Beginning		Acquisitions	Business combination	Disposals	Depreciation(*1)	Others(*2)	Ending
Land	₩	219,477	15,832	1,442	(38,575)	(475)	13,681	211,382
Buildings		301,733	13,857	1,560	(6,730)	(15,044)	9,127	304,503
Structures		6,323				(322)	(695)	5,306
Total	₩	527,533	29,689	3,002	(45,305)	(15,841)	22,113	521,191

- (\*1) Impairment losses of investment property amounted to \W1,053 million are included.
- (\*2) Includes reclassification resulting from changing purpose of use, adjustment of foreign currency translation difference and others.

- (\*1) Acquisition amounts include goodwill amounting to \$77,298 million related to the acquisition of PONUTech Co., Ltd.
- (\*2) Premium in rental includes memberships with indefinite useful lives.
- (\*3) Includes translation adjustment and reclassification.
- (c) For the purpose of impairment testing, goodwill is allocated to individually operating entities determined to be CGUs. The goodwill amounts as of December 31, 2013 and 2012 are as follows:

Reporting	Total numb	er of CGUs				
segments	2013	2012	CGUs		2013	2012
Steel	10	10	POSCO Thainox Public Company Limited(*3)	₩	18,624	109,779
			POSCO VST CO., LTD.		36,955	36,955
			Others		14,084	14,096
Trading	3	3	Daewoo International Corporation(*1)		1,163,922	1,163,922
			Others		9,711	11,906
E&C	4	4	POSCO Engineering Co., Ltd.(*2)		194,637	194,637
			EPC EQUITIES LLP(*4)		44,412	47,913
			Others		11,119	11,291
Others	10	10	PONUTech Co., Ltd		77,298	77,298
			POSCO ENERGY Co., LTD.		26,471	26,471
			Others(*4)		18,705	19,423
Total	27	27	_	₩	1,615,938	1,713,691

(\*1) Recoverable amounts of Daewoo International Corporation were determined based on value-in-use. As of December 31, 2013, value-in-use is estimated by applying 8.3% discount rate and 3.0% terminal growth rate with 5 years, the period for the estimated future cash flows, based on management's business plan. No impairment loss of goodwill was recognized during the year ended December 31, 2013 as the recoverable amount exceeded the carrying value of the CGU.

The estimated recoverable amount of CGU exceeded the carrying value by \$65,816 million. Value-in-use of the CGU was affected by the assumption such as discount rate and terminal growth used in discount cash flow model. When the discount rate increases by 0.25%, value-in-use will be decreased by 5.49% and when the terminal growth rate decreases by 0.25%, value-in-use will be decreased by 3.39%.

Management believes that any reasonably possible change in the key assumptions on which the recoverable amount is based would cause a change in impairment loss of goodwill.

(\*2) Recoverable amounts of POSCO Engineering Company were determined based on value-inuse. As of December 31, 2013, value-in-use is estimated by applying 12.3% discount rate and 1% terminal growth rate with 5 years. The estimated future cash flows based on management's business plan. No impairment loss of goodwill was recognized during the year ended December 31, 2013 as the recoverable amount exceeded the carrying value of the CGU.

The estimated recoverable amounts of CGU exceeded the carrying value by \( \forall 288,906 \) million. Value-in-use of the CGU was affected by the assumption such as discount rate and terminal growth used in discount cash flow model. When the discount rate increases by 0.25%, value-in-use will be decreased by 2.69% and when the terminal growth rate decreases by 0.25%, value-in-use will be decreased by 1.84%. The change has no effect on the impairment loss of the goodwill.

Management believes that any reasonably possible change in the key assumptions on which the recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the CGU.

- (\*3) Recoverable amounts of POSCO-Thainox Public Company Limited were determined based on fair value less cost to sell, which was calculated by adding a 28.8% control premium to the current stock price as of December 31, 2013.
  - The Company recognized goodwill impairment loss of \( \partial \text{97,245} \) million as the carrying value of the CGU was higher than its recoverable amount as of December 31, 2013.
- (\*4) The Company recognized goodwill impairment loss of W6,191 million as the carrying values of the EPC EQUITIES LLP and other subsidiaries were higher than recoverable amounts as of December 31, 2013.

#### 16. Other Assets

Other current assets and other long-term assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

	2013		2012
Other current assets			
Advance payment	₩	1,138,976	1,205,969
Prepaid expenses		130,272	189,647
Others		1,420	2,564
	₩	1,270,668	1,398,180
Other long-term assets			
Long-term advance payment	₩	3,090	2,119

Current portion of long-term borrowings(*1)	Korean Development Bank	June, 2003~ December, 2013	January, 2014~ December, 2014	0.5~9.0	856,188	898,564
Less : Present value discount					(59)	_
Current portion of foreign loan	NATIXIS	June, 1984~ March, 1986	March, 2014~ December, 2014	2.0	927	901
Current portion of debentures(*1)	Korean Development Bank	January, 2009~ November, 2011	January, 2014~ December, 2014	1.5~9.0	2,502,246	1,899,430
Less: Current portion of discount on debentures issued					(2,353)	(2,644)
Add: Premium on debentures redemption					-	2,419
•					3,356,949	2,798,670
					₩ 10,713,646	10,509,348

(\*1) Property, plant and equipment, trade accounts, short-term financial assets, available-for-sale financial assets and inventories amounting to \W5,437,689 million, \W43,872 million (three hundred fourteen sheets of note receivable), \W27,195 million, \W675,812 million and \W87,029 million, respectively, are provided as collateral related to short-term borrowings, long-term borrowings and debentures.

(b) Long-term borrowings, excluding current portion as of December 31, 2013 and December 31, 2012 are as follows:

(in millions of Won)				Interest			
	Bank	Issuance date	Maturity date	rate(%)		2013	2012
Long-term borrowings(*1)	Korean Development Bank	January, 1983~ December, 2013	February, 2015~ December, 2099	0.5~11.2	₩	7,017,532	5,161,711
Less : Present value discount						(43,897)	(44,293)
Foreign loan(*2)	NATIXIS	March, 1986	March, 2017	2.0		1,140	2,009
Bonds(*1,3)	Korean Development Bank	August, 2006~ December, 2013	February, 2015~ December, 2021	0.0~6.3		8,590,965	9,339,966
Less: Discount on debentures issued						(45,372)	(62,943)
Add: Premium on debentures redemption						12,591	15,635
					₩	15,532,959	14,412,085

- (\*1) Property, plant and equipment, trade accounts, short-term financial assets, available-for-sale financial assets and inventories amounting to \(\pi 5,437,689\) million, \(\pi 43,872\) million(three hundred fourteen sheets of note receivable), \(\pi 27,195\) million, \(\pi 675,812\) million and \(\pi 87,029\) million, respectively, are provided as collateral related to short-term borrowings, long-term borrowings and debentures.
- (\*2) Korea Development Bank has provided guarantees related to the foreign loan.
- (\*3) POSCO issued exchangeable bonds with SK Telecom Co., Ltd. ADRs through Zeus (Cayman) Ltd. August 2011. The Company accounted for these exchangeable bonds as long-term borrowings. The Company also provides guarantees for Zeus (Cayman) Ltd.

#### 18. Other Payables

Other payables as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Current			
Accounts payable	₩	914,288	737,802
Accrued expenses		873,613	868,015
Dividend payable		11,709	7,487
Finance lease liabilities		14,218	16,044
Withholding		315,026	205,556
	₩	2,128,854	1,834,904
Non-current			
Accounts payable	₩	116,160	117,462

	₩	177,929	166,537	(79,411)	(8,869)	(2,585)	253,601

- (\*1) Includes adjustments of foreign currency translation differences and others.
- 2) For the year ended December 31, 2012

(in millions of Won)	Be	ginning	Increase	Utilization	Reversal	Others(*1)	Ending
Provision for bonus payments	₩	47,682	343,062	(347,262)	(523)	(55)	42,904
Provision for construction warranties		50,623	24,694	(16,054)	(4,472)	(4,075)	50,716
Provision for legal contingencies and claims		38,847	8,540	-	(16,163)	(304)	30,920
Others		41,623	14,209	(3,450)	(1,680)	2,687	53,389
	₩	178,775	390,505	(366,766)	(22,838)	(1,747)	177,929

(\*1) Includes adjustments of foreign currency translation differences and others.

#### 21. Employee Benefits

#### (a) Defined contribution plans

The Company operates a defined contribution plan for participating employees. Though the Company pays fixed contributions into a separate fund, employee benefits relating to employee service in the future is based on the contributions to the funds and the investment earnings on it. Plan assets are managed by a trustee within a fund separate from the Company's assets.

The expenses related to post-employment benefit plans under defined contribution plans for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012
Expense related to post-employment benefit	₩	19.126	16,520
under defined contribution plans	**	17,120	10,520

#### (b) Defined benefit plans

The Company also operates a defined benefit pension plan for employees. The employees who chose defined benefit pension plan will receive defined payment upon termination of their employment if they fulfill the condition to qualify as recipients. Before the termination of employment, the Company recognizes the pension liability related to defined benefit plans at the end of the reporting period, and measures it at the present value of the defined benefit obligation less the fair value of the plan assets. The Company uses the projected unit credit method in the actuarial valuation of plan assets and the defined benefit obligation.

1) The amounts recognized in relation to net defined benefit liabilities in the statements of financial position as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012	
Present value of funded obligations	₩	1,515,426	1,394,675	
Fair value of plan assets		(1,247,483)	(1,064,711)	
Present value of non-funded obligations		5,217	15,724	
Net defined benefit liabilities	₩	273,160	345,688	

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

2) Changes in present value of defined benefit obligations for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013	2012
Defined benefit obligation at the beginning of period $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \$	1,410,399	1,173,238
Current service costs	238,386	212,450
Interest costs	47,039	51,351
Remeasurements:	(12,615)	83,050
- Gain from change in demograhpic assumptions	(5,624)	(7,842)
- Loss from change in financial assumptions	7,667	85,483
- Others	(14,658)	5,409
Business combinations	11,379	1,684
Benefits paid	(129,038)	(116,846)
Others	(44,907)	5,472
Defined benefit obligation at the end of period \widetilde{\text{W}}	1,520,643	1,410,399

3) Changes in fair value of plan assets for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Fair value of plan assets at the beginning of period	₩	1,064,711	832,771
Interest on plan assets		37,677	37,669
Remeasurement of plan assets		(1,482)	2,157
Contributions to plan assets(*1)		254,771	267,420
Business combinations		9,372	906
Others		(34,942)	(489)
Benefits paid		(82,624)	(75,723)
Fair value of plan assets at the end of period	₩	1,247,483	1,064,711

<sup>(\*1)</sup> The Company expects to make a contribution of  $\mbox{$\mathbb{W}$254,771}$  million to the defined benefit plan assets in 2014.

4) The fair value of plan assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013		2012	
Equity instruments	₩	35,364	12,002	
Debt instruments		98,686	107,303	
Deposits		958,509	743,884	
Others		154,924	201,522	
	₩	1,247,483	1,064,711	

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

5) The amounts recognized in consolidated statements of comprehensive income for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)

		2013	2012
Current service costs	₩	238,386	212,450
Net interest costs(*1)		9,362	13,682
	₩	247,748	226,132

(\*1)The actual return on plan assets amounted to ₩36,195 million and ₩39,826 million for the years ended December 31, 2013 and 2012, respectively.

The above expenses by function were as follows:

(in millions of Won)		2013	2012	
Cost of sales	₩	180,090	164,763	
Selling and administrative expenses		66,327	60,457	
Others		1,331	912	
	₩	247,748	226,132	

6) Accumulated actuarial gains (losses), net of tax recognized in other comprehensive income for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Beginning	₩	(245,229)	(182,702)	
Current actuarial gains (losses)		6,224	(62,527)	
Ending	₩	(239,005)	(245,229)	

7) The principal actuarial assumptions as of December 31, 2013 and 2012 are as follows:

(%)	2013	2012
Discount rate(*1)	3.47~4.91	3.29~4.46
Expected future increase in salaries(*2)	1.07~5.75	1.04~6.72

- (\*1) Discount rate is the yield at the end of the reporting period on high quality corporate bonds that have maturity dates approximating the terms of benefits obligations and that are denominated in the same currency in which the benefits are expected to be paid.
- (\*2) The expected future increase in salaries is based on the average salary increase rate for past three- years.

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

All assumptions are reviewed at the end of the reporting period. Additionally, the total estimated defined benefit obligation includes actuarial assumptions associated with the long-term characteristics of the defined benefit plan.

8) Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(in millions of Won)		1% Incr	ease	1% Decrease		
		Amount	Percentage(%)		Amount	Percentage(%)
Discount rate	₩	(102,996)	(6.8)	₩	114,323	7.5
Expected future increases in salaries		112,291	7.4		(101,720)	(6.7)

9) As of December 31, 2013 the maturity of the expected benefit payments are as follows:

(in millions of Won)		Within	1 year	5 years	10 years	Later than		Total
(in millions of won)		1 year	- 5 years	- 10 years	- 20 years	20 years		Total
Benefits paid	₩	69,334	239,632	532,724	992,760	254,495	₩	2,088,945

The maturity analysis of the defined benefit obligation were nominal amounts of defined benefit obligations using expected remaining working lives of employees.

#### 22. Other Liabilities

Other liabilities as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Other current liabilities		_	
Due to customers for contract work	₩	898,605	529,104
Advances received		1,176,621	1,289,805
Unearned revenue		29,217	46,963
Withholdings		192,497	162,073
Deferred revenue		202	235
Others(*1)		268,032	283,474
	₩	2,565,174	2,311,654
Other long-term liabilities	·	_	
Advances received	₩	201,432	312,668
Unearned revenue		1,465	841
Others(*1)		57,954	64,305
	₩	260,851	377,814

(\*1) Includes other current liabilities amounting to \$\pmu261,855\$ million, \$\pmu274,490\$ million and other long-term liabilities amounting to \$\pmu8,935\$ million and \$\pmu14,939\$ million as of December 31, 2013 and 2012, respectively, due to proportionate consolidation of joint ventures which are owned by POSCO's subsidiaries.

## 23. Financial Instruments

- (a) Classification of financial instruments
  - 1) Financial assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012
Financial assets at fair value through profit or los	SS		
Derivatives assets held for trading	₩	78,222	71,354
Available-for-sale financial assets		4,166,384	3,914,522

### (b) Credit risk

## 1) Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012	
Cash and cash equivalents	₩	4,208,562	4,680,526	
Financial assets at fair value through profit or loss	VV	78,222	71,354	
Available-for-sale financial assets		97,618	203,353	
Held-to-maturity investments		3,834	34,488	
Loans and other receivables		5,408,163	3,927,248	
Trade accounts and notes receivable, net		11,492,601	11,037,973	
Long-term trade accounts and notes receivable, net		97,000	142,204	
	₩	21,386,000	20,097,146	

The Company provided financial guarantees for the repayment of loans of associates and third parties. As of December 31, 2013 and 2012, the maximum exposure to credit risk related to the financial guarantee amounted to \$\footnote{W}4,520,052\$ million, \$\footnote{W}4,607,773\$ million, respectively.

#### 2) Impairment losses on financial assets

① Allowance for doubtful accounts as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2012	
Trade accounts and notes receivable	₩	439,073	379,536
Other accounts receivable		81,470	47,565
Long-term loans		127,990	42,721
Other assets		13,118	5,055
	₩	661,651	474,877

② Impairment losses on financial assets for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Bad debt expenses on trade receivables	₩	90,119	79,258	
Impairment of available-for-sale financial assets		280,237	224,171	
Other bad debt expenses(*1)		111,065	44,115	
Less: Recovery of impairment of held-to-maturity financial assets		(84)	(79)	
	₩	481,337	347,465	

<sup>(\*1)</sup> Other bad debt expenses are mainly related to other receivables and loans.

③ The aging schedule and the impaired losses of trade accounts and notes receivable as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013			2012		
	Trade accounts and notes receivable		Impairment	Trade accounts and notes receivable	Impairment	
Not due	₩	8,465,892	48,147	9,106,925	52,063	
Over due less than 1 month		1,849,829	12,675	1,313,554	4,387	
1 month - 3 months		239,498	3,124	278,029	3,264	
3 months - 12 months		503,171	10,681	413,251	41,291	
over 12 months	970,284		364,446	447,954	278,531	
	₩	12,028,674	439,073	11,559,713	379,536	

4 Changes in the allowance for doubtful accounts for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013		
Beginning	₩	474,877	406,721	
Bad debt expenses		90,119	79,258	
Other bad debt expenses		111,065	44,115	
Write-off		(10,368)	(40,138)	
Others		(4,042)	(15,079)	
Ending	₩	661,651	474,877	

#### (c) Liquidity risk

1) Contractual maturities for non-derivative financial liabilities, including estimated interest, are as follows:

(in millions of Won)	В	ook value	Contractual cash flow	Within 1 year	1 year - 5 years	Later than 5 years
Trade accounts payable	₩	4,231,881	4,231,881	4,231,322	559	-
Financial guarantee liabilities(*1)		38,459	4,520,052	4,520,052	-	-
Other financial liabilities		2,253,989	2,253,989	2,047,355	206,634	-
Borrowings(*2)		26,246,605	29,293,081	11,946,021	11,723,706	5,623,354
	₩	32,770,934	40,299,003	22,744,750	11,930,899	5,623,354

- (\*1) For issued financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.
- (\*2) Includes cash flows of embedded derivatives instruments in relation to exchangeable bonds (exchange right).
- 2) The maturity analysis of derivative financial liabilities is as follows:

(in millions of Won)	·	Within 1 year		Later than 5 years	Total
Currency forward	₩	20,166	24,882	-	45,048
Currency futures	₩	35,605	-	-	35,605
Currency swaps		72,267	23,459	5,291	101,017
Interest swaps		332	-	<u> </u>	332
	₩	128,370	48,341	5,291	182,002

#### (d) Currency risk

1) The Company has exposure to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The exposure to currency risk as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		201	3	2012		
	Assets		Liabilities	Assets	Liabilities	
USD	₩	3,929,623	8,953,287	3,933,448	9,120,893	
EUR		365,021	408,542	317,381	330,481	
JPY		482,691	1,727,946	239,569	2,017,179	
Others		372,715	212,287	264,299	65,679	

2) As of December 31, 2013 and 2012, provided that functional currency against foreign currencies other than functional currency hypothetically weakens or strengthens by 10%, the changes in gain or loss during the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013			2012			
	109	% increase	10% decrease	10% increase	10% decrease		
USD	₩	(502,366)	502,366	(518,745)	518,745		
EUR		(4,352)	4,352	(1,310)	1,310		
JPY		(124,526)	124,526	(177,761)	177,761		

#### (e) Interest rate risk

1) The carrying amount of interest-bearing financial instruments as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Fixed rate		_	
Financial assets	₩	8,195,153	7,325,825
Financial liabilities		(15,633,891)	(15,301,208)
	₩	(7,438,738)	(7,975,383)
Variable rate	-		
Financial liabilities	₩	(10,612,712)	(9,620,225)

2) Sensitivity analysis on the fair value of financial instruments with variable interest rate

As of December 31, 2013 and 2012, provided that other factors remain the same and the interest rate of borrowings with floating rates increases or decreases by 1%, the changes in gain or loss for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		201	13	2012			
	1% increase		1% decrease	1% increase	1% decrease		
Variable rate financial instruments	₩	(106,127)	106,127	(96,202)	96,202		

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

#### (f) Fair value

#### 1) Fair value and book value

The carrying amount and the fair value of financial instruments as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	201	13	20	012	
	Book Value	Fair Value	Book Value	Fair Value	
Assets measured at fair value					
Available-for-sale financial assets(*1)	₩ 3,560,515	3,560,515	3,349,606	3,349,606	
Derivatives assets held for trading(*2)	78,222	78,222	71,354	71,354	
	3,638,737	3,638,737	3,420,960	3,420,960	
Assets measured amortized cost(*3)		_			
Cash and cash equivalents	4,208,562	4,208,562	4,680,526	4,680,526	
Trade accounts and notes receivable, net	11,589,601	11,589,601	11,180,177	11,180,177	
Loans and other receivables, net	5,408,163	5,408,163	3,927,248	3,927,248	
Held-to-maturity investments	3,834	3,834	34,488	34,488	
	21,210,160	21,210,160	19,822,439	19,822,439	
Liabilities measured at fair value					
Derivatives liabilities held for trading(*2)	357,466	357,466	185,142	185,142	
Liabilities measured amortized cost(*3)					
Trade accounts and notes payable	4,231,881	4,231,881	4,391,787	4,391,787	
Borrowings	26,246,605	26,550,721	24,921,433	25,382,344	
Financial guarantee liabilities	38,459	38,459	25,312	25,312	
Others	2,253,989	2,253,989	1,802,175	1,802,175	
	₩ 32,770,934	33,075,050	31,140,707	31,601,618	

- (\*1) The fair value of available-for-sale financial assets publicly traded is measured at the closing bid price quoted at the end of the reporting period. Meanwhile, the fair value of unquoted available-for-sale financial assets is calculated using the valuation results from an external pricing service in which weighted average cost of capital of evaluated companies is used as a discount rate. Available-for-sale financial assets which are not measured at fair value are excluded.
- (\*2) The fair value of derivatives is measured using valuation models such as Black-Scholes model and others in which the market yields on government bonds are used as a discount rate.
- (\*3) The fair value of financial assets and liabilities measured at amortized cost is determined at the present value of estimated future cash flows discounted at the current market interest rate. The fair value is calculated for the disclosures in the notes. On the other hand, the Company has not performed fair value measurement for the financial assets and liabilities measured at amortized cost except borrowings since the fair value is close to their carrying amounts.

### 2) Interest rates used for determining fair value

Interest rates used to discount estimated cash flows as of December 31, 2013 and 2012 are as follows:

	2013	2012
Interest rate of borrowings(%)	0.76~5.18	1.47~7.22

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

## 3) The fair value hierarchy

1 The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in measurements.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices that are observable for the asset or liability either directly or indirectly.

Level 3: inputs for the assets or liability that are not based on observable market data (that is, unobservable inputs).

② The fair values of financial instruments by fair value hierarchy as of December 31, 2013 and 2012 are as follows:

#### a. December 31, 2013

(in millions of Won)

	Level 1		Level 2	Level 3	Total	
Financial Assets						
Available-for-sale financial assets	₩	2,816,484	-	744,031	3,560,515	
Derivatives assets held for trading		<u> </u>	78,222		78,222	
	₩	2,816,484	78,222	744,031	3,638,737	
Financial Liabilities						
Derivatives liabilities held for trading	₩		357,466		357,466	

#### b. December 31, 2012

(in millions of Won)

	Level 1		Level 2	Level 3	Total	
Financial Assets		<u> </u>				
Available-for-sale financial assets	₩	2,590,933	-	758,673	3,349,606	
Derivatives assets held for trading		_	71,354		71,354	
	₩	2,590,933	71,354	758,673	3,420,960	
Financial Liabilities						
Derivatives liabilities held for trading	₩	<u> </u>	185,142		185,142	

③ Changes in fair value of financial instruments measured by Level 3 for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Beginning	₩	758,673	939,241	
Valuation		(15,423)	(182,927)	
Acquisition and others(*1)		19,766	30,729	
Disposal and others(*2)		(18,985)	(28,370)	
Ending	₩	744,031	758,673	

- (\*1) Included \$W16,518\$ million and \$W15,326\$ million transferred to Level 3 for the years ended December 31, 2013 and 2012, respectively.
- (\*2) Included  $\mbox{$W$}12,176$  million and  $\mbox{$W$}17,500$  million excluded from Level 3 for the years ended December 31, 2013 and 2012, respectively.

(g) Offsetting financial assets and financial liabilities

As of December 31, 2013 and 2012, financial assets and financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements are as follows:

#### 1) December 31, 2013

(in millions of Won)					Related amounthe statement of				
	Gross amounts of recognized financial instruments		of recognized financial		Gross amounts of recognized financial instruments set off in the statement of financial	Net amounts of financial instruments presented in the statement of financial position	Finalcial instruments	Cash collateral received or pledged	Net amount
Financial assets									
Trade accounts and notes receivable	₩	73,956	-	73,956	(73,956)	-	-		
Derivatives(*1)		64,408		64,408	(64,408)

In certain circumstances (i.e. when a default occurs), all standing transactions under the agreement are terminated, the termination value is assessed and only a single amount is payable in settlement of all transactions.

## 24. Share Capital and Contributed Surplus

(a) Share capital as of December 31, 2013 and 2012 are as follows:

(Share, in Won)

		2013	2012	
Authorized shares		200,000,000	200,000,000	
Par value	₩	5,000	5,000	
Issued shares(*1)		87,186,835	87,186,835	
Shared capital(*2)	₩	482,403,125,000	482,403,125,000	

- (\*1) As of December 31, 2013, total shares of ADRs of 53,749,064 are equivalent to 13,437,266 of common stock.
- (\*2) As of December 31, 2013, the difference between the ending balance of common stock and the par value of issued common stock is ₩46,469 million due to retirement of 9,293,790 treasury stocks.
- (b) The changes in issued common stock for the years ended December 31, 2013 and 2012 were as follows:

(share)		2013			2012	
			Number of			Number of
	Is sued shares	Treasury shares	outstanding shares	Issued shares	Treasury shares	outstanding shares
Beginning	87,186,835	(9,942,391)	77,244,444	87,186,835	(9,942,391)	77,244,444
Disposal of treasury shares	-	2,539,180	2,539,180	-	-	-
Ending	87,186,835	(7,403,211)	79,783,624	87,186,835	(9,942,391)	77,244,444

(c) Capital surplus as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Share premium	₩	463,825	463,825
Gain on disposal of treasury shares		769,215	763,867
Other capital deficit		(154,774)	(122,878)
	₩	1,078,266	1,104,814

## 25. Hybrid Bonds

(a) Hybrid bonds classified as equity as of December 31, 2013 are as follows:

(in millions of Won)	Date of issue	Date of maturity	Rate of interest (%)		2013
Hybrid bond 1-1(*1)	2013-06-13	2043-06-13	4.30	₩	800,000
Hybrid bond 1-2(*1)	2013-06-13	2043-06-13	4.60		200,000
Issuance cost					(3,081)
				₩	996,919

#### (\*1) Details of hybrid bonds as of December 31, 2013 are as follows:

(in millions of Won)	Hybrid bond 1-1	Hybrid bond 1-2
Issue price	800,000	200,000
Maturity date	30 years (The Company has a right to extend the maturity date)	30 years (The Company has a right to extend the maturity date)
Interest rate	Issue date ~ 2018-06-12: 4.3% reset every 5 years as follows;  · After 5 years: return on government bond (5 years) + 1.3%  · After 10 years: additionally +0.25% according to Step-up clauses  · After 25 years: additionally +0.75%	Issue date ~ 2023-06-12: 4.6% reset every 10 years as follows;  · After 10 years: return on government bond (10 years) + 1.4%  · After 10 years: additionally +0.25% according to Step-up clauses  · After 30 years: additionally +0.75%

Interest payments condition	Quaterly (Optional deferral of interest payment is available to the Company)	Quaterly (Optional deferral of interest payment is available to the Company)	Quaterly (Optional deferral of interest payment is available to the Company)
Others	The Company can call the hybrid bond at year 5 and interest payment date afterwards	The Company can call the hybrid bond at year 5 and interest payment date afterwards	The Company can call the hybrid bond at year 5 and interest payment date afterwards

The Company holds the right to extend the maturity dates of the hybrid bonds and to defer interest payments for the hybrid bonds. If interest payments for the hybrid bonds are deferred, the Company cannot declare or pay dividends attributable to common stock. Since the Company has an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation, the hybrid bonds have been classified as equity instruments (Non-controlling interests). The interest accumulated but not paid on the hybrid bonds as of December 31, 2013 amounts to \(\pi 2,000\) million.

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

#### 26. Reserves

(a) Reserves as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013		2012
Accumulated comprehensive loss of investments in associates and joint ventures	₩	(295,946)	(129,159)
Changes in the unrealized fair value			
of available-for-sale investments		480,409	67,956
Currency translation differences		(189,085)	(8,591)
Others		(18,454)	(18,356)
	₩	(23,076)	(88,150)

(b) Changes in fair value of available-for-sale investments for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Beginning balance	₩	67.956	15/1617
	VV	07,930	154,617
Changes in the unrealized fair value of available-for-sale investments		312,196	(189,664)
Reclassification to profit of loss upon disposal		(73,848)	(54,089)
Impairment of avaiable-for-sale investments		170,892	150,869
Others		3,213	6,223
Ending balance	₩	480,409	67,956

#### **27. Treasury Shares**

Based on the Board of Director's resolution, the Company holds treasury shares for the business purposes including price stabilization. The changes in treasury shares for the years ended December 31, 2013 and 2012 were as follows:

(shares, in millions of Won)	201	.3	2012		
	Number of shares Amount		Number of shares	Amount	
Beginning	9,942,391	₩ 2,391,406	9,942,391	2,391,406	
Disposal of treasury shares	(2,539,180)	(812,282)		-	
Ending	7,403,211	₩ 1,579,124	9,942,391	2,391,406	

# Notes to the Consolidated Financial Statements, Continued As of December 31, 2013 and 2012

#### 28. Revenue

Details of revenue for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Goods sales	₩	50,921,090	55,123,774
Sevice sales		3,614,227	3,488,562
Construction sales		6,886,007	4,660,811
Rental income		24,735	32,056
Others		418,591	298,948
	₩	61,864,650	63,604,151

#### 29. Construction Contracts

(a) Construction contracts in progress as of December 31, 2013 and 2012 were as follows:

(in million of Won)		2013	
Aggregate amount of costs incurred	₩	10,380,202	8,343,117
Add: Recognized profits		950,010	659,555
Less: Recognized losses		(467,023)	(213,055)
Cumulative construction revenue		10,863,189	8,789,617
Less: Progress billing		(10,145,691)	(7,691,482)
Foreign currency gains and losses		(1,379)	(2,589)
Others		(39,795)	(130,941)
	₩	676,324	964,605

(b) Unbilled amount due from customers and due to customers for contract work as of December 31, 2013 and 2012 are as follows:

(in million of Won)	2013		2012
Unbilled due from customers for contract work	₩	1,574,929	1,493,709
Due to customers for contract work		(898,605)	(529,104)
	₩	676,324	964,605

(c) When the outcome of a construction contract can be estimated reliably, contract revenue is recognized in profit or loss in proportion to the stage of completion of the contract.

The Company estimates the stage of completion of the contract based on the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs.

The estimated total contract costs are based on the nature and characteristics of an individual contract, historical costs of similar projects, and current circumstances. Only those contract costs that reflect work performed are included in costs incurred to date.

The following are the key assumptions for the estimated contract cost.

	Key assumptions for the estimation
Material	Estimations based on recent purchasing contracts, market price and quoted price
Labor Cost	Estimations based on standard monthly and daily labor cost
Outsourcing cost	Estimations based on the historical costs of similar projects, market price and quoted price

The management continually reviews all estimates involved in such construction contracts and adjusts them as necessary.

## 30. Selling and Administrative Expenses

## (a) Administrative expenses

Administrative expenses for years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012
Wages and salaries	₩	754,819	694,682
Expenses related to post-employment benefits		67,482	61,261
Other employee benefits		165,751	170,734
Travel		53,003	52,817
Depreciation		228,496	218,747
Communication		14,601	15,088
Electric power		13,389	11,305
Taxes and public dues		55,177	59,664
Rental		110,191	93,268
Repairs		5,708	11,769
Entertainment		17,295	18,239
Advertising		105,663	55,777
Research & development		192,805	192,321
Service fees		240,034	264,439
Supplies		15,031	10,166
Vehicles maintenance		12,109	22,442
Industry association fee		11,924	11,487
Training		12,056	17,772
Conference		17,004	17,745
Warranty expense		19,075	13,148
Bad debt allowance		90,119	79,258
Others		30,073	37,334
	₩	2,231,805	2,129,463

## (b) Selling expenses

Selling expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012	
Freight	₩	1,432,935	1,472,817	
Operating expenses for distribution center		9,838	9,327	
Sales commissions		73,922	74,308	
Sales advertising		3,228	4,575	
Sales promotion		27,129	17,525	
Sample		4,751	7,489	
Sales insurance premium		27,031	32,065	
Contract cost		37,323	52,176	
Others		15,963	8,406	
	₩	1,632,120	1,678,688	

## 31. Research and Development Expenditures Recognized as Expenses

Research and development expenditures recognized as expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Selling and administrative expenses	₩	192,805	192,321
Cost of sales		369,842	385,128
	₩	562,647	577,449

## 32. Adjusted Operating Profit

Adjusted operating profits which include the other profits or losses excluded from operating profit but reflect the results of the Company's operations for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013	2012
Operating profits on the statement of comprehensive income Add	₩ 2,996,134	3,653,108
Gain on disposals of property, plant and equipment	14,177	42,290
Retal revenues	1,588	1,898
Gains on disposals of intangible assets	801	906
Gains on disposals of investment in associates	7,668	39,441
Gains on disposals of assets held for sale	101,611	193,333
Grant income	2,287	3,198
Reversal of other provisions	2,207	16,037
Outsourcing income	25,428	29,136
Gain on disposals of wastes	16,541	38,597
Gain from claim compensation	14,525	31,613
Penalty income from early termination of contracts	16,477	15,054
Others	27,970	36,617

## 33. Finance Income and Costs

Details of finance income and costs for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012
Finance income			
Interest income	₩	260,398	278,807
Dividend income		59,181	124,475
Gain on foreign currency transactions		997,591	935,457
Gain on foreign currency translations		511,143	936,740
Gains on derivatives transactions		370,343	407,791
Gains on valuations of derivatives		72,297	94,492
Gains on disposals of available-for-sale investment		105,563	112,095
Others		4,322	7,206
	₩	2,380,838	2,897,063
Finance costs			
Interest expenses	₩	657,681	871,457
Loss on foreign currency transactions		927,453	839,241
Loss on foreign currency translations		344,900	243,091
Loss on derivatives transactions		286,574	309,067
Loss on valuation of derivatives		291,465	159,604
Impairment loss on available-for-sale investment		280,237	224,171
Loss on disposals of available-for-sale investment		3,721	36,286
Loss on financial guarantee		5,880	38,442
Others		31,342	76,279
	₩	2,829,253	2,797,638

## 34. Other Non-Operating Income and Expenses

Details of other non-operating income and expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013	2012
Other non-operating income		
Gain on disposals of property, plant and equipment	₩ 14,177	42,290
Retal revenues	1,588	1,898
Gains on disposals of intangibles	801	906
Gains on disposals of investment in associates	7,668	39,441
Gain on disposal of assets held for sale	101,611	193,333
Grant income	2,287	3,198
Reversal of other provisions	-	16,037
Outsourcing income	25,428	29,136
Gain on disposals of wastes	16,541	38,597
Gain from claim compensation	14,525	31,613
Penalty income from early termination of contracts	16,477	15,054
Others	27,970	36,617
	229,073	448,120
Other non-operating expenses		
Loss on disposals of property, plant and equipment	121,133	65,486
Loss on disposals of assets held for sale	26,498	9,510
Idle tangible assets expenses	17,624	31,297
Impariment losses on other non-current assets	9,000	36,453
Impairment losses on assets held for sale	1,814	258,451
Impairment loss of property, plant and equipment	9,742	12,977
Other bad debt expenses	111,065	44,115
Donations	60,940	73,963
Impairment losses on intangible assets	125,316	21,776
Penalty and default losses	19,340	149,437
Loss on disposals of wastes	15,231	45,480
Loss on disposals of investment in associates	19,404	15,119
Other provision expenses	65,896	-
Others	47,803	45,401
	₩ 650,806	809,465

## 35. Expenses by Nature

Expenses that are recorded by nature as cost of sales, selling, general and administrative expenses and other non-operating expenses in the statements of comprehensive income for the years ended December 31, 2013 and 2012 were as follows (excluding finance costs and income tax expense):

(in millions of Won)	2013		2012
Changes in inventories	₩	12,163,136	14,161,271
Cost of merchandises sold		25,909,164	25,997,220
Employee benefits expenses(*2)		3,174,316	2,889,829
Outsourced processing cost		9,462,946	8,896,642
Depreciation expenses(*1)		2,505,536	2,405,769
Amortization expenses		180,014	157,991
Research & development expenses		562,647	577,449
Freight and custody expenses		1,432,935	1,472,817
Commissions paid		73,922	74,308
Loss on disposals of property, plant and equipment		121,133	65,486
Donations		60,940	73,963
Other expenses		3,872,633	3,987,763
	₩	59,519,322	60,760,508

<sup>(\*1)</sup> Includes depreciation expense of investment property.

<sup>(\*2)</sup> The details of employee benefits expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Wages and salaries	₩	2,907,442	2,647,177	
Severance benefit		266,874	242,652	
	₩	3,174,316	2,889,829	

#### **36. Income Taxes**

(a) Income tax expense for the years ended December 31, 2013 and 2012 was as follows:

(in millions of Won)		2013	2012
Current income taxes	₩	615,771	795,601
Deferred income tax due to temporary differences		108,034	154,324
Less: Items recorded directly in equity		(132,808)	32,954
Income tax expense	₩	590,997	982,879

(b) The following table reconciles the expected amount of income tax expense based on POSCO's statutory rates (24.2%) to the actual amount of taxes recorded by the Company for the years ended December 31, 2013 and 2012:

(in millions of Won)		2013	2012
Income before income tax expense	₩	1,946,177	3,368,486
Income tax expense computed at statutory rate		470,975	815,174
Adjustments:		120,022	167,705
Tax effect due to permanent differences		65,526	48,220
Tax credit		(169,166)	(188,713)
Over(under) provision from prior years		(1,178)	1,776
Investments in subsidiaries and associates		193,191	281,437
Others		31,649	24,985
Income tax expense	₩	590,997	982,879
Effective tax rate (%)		30.37%	29.18%

(c) The income taxes credited (charged) directly to other comprehensive income during the period ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012
Net changes in the unrealized fair value of available-for-sale securities	₩	(139,679)	22,585
Gain on sale of treasury stock		(1,707)	-
Others		8,578	10,369
	₩	(132,808)	32,954

(d) The movements in deferred tax assets (liabilities) for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013			2012		
. ,	Beginning	Inc (Dec)	Ending	Beginning	Inc (Dec)	Ending

	₩ 2,324,641	(2,896,472)	(571,831)	2,167,650	(2,634,485)	(466,835)

(f) As of December 31, 2013, the Company did not recognize income tax effects associated with deductible temporary differences of \( \mathbb{W} 3,030,715 \) million (deferred tax assets \( \mathbb{W} 733,433 \) million) mainly relating to loss of subsidiaries and affiliates because realization is not considered probable. As of December 31, 2013, the Company did not recognize income tax effects associated with taxable temporary differences of \( \mathbb{W} 3,258,235 \) million (deferred tax liabilities \( \mathbb{W} 788,493 \) million) mainly relating to increase in retained earnings of subsidiaries since it is probable that the temporary difference will not reverse in the foreseeable future.

## 37. Earnings per Share

(a) Basic and diluted earnings per share for the years ended December 31, 2013 and 2012 were as follows:

(Won, except per share information)

	2013	2012
Profit attribute to controlling interest	₩ 1,376,396,068,069	2,462,080,504,484
Interests of hybrid bonds	(18,313,914,551)	-
Weighted-average number of		
common shares outstanding(*1)	78,009,654	77,244,444
Basic and diluted earnings per share	₩ 17,409	31,874

(\*1) The weighted-average number of common shares used to calculate basic and diluted earnings per share are as follows:

(share)	2013	2012	
Total number of common shares issued	87,186,835	87,186,835	
Weighted-average number of treasury shares	(9,177,181)	(9,942,391)	
Weighted-average number of			
common shares outstanding	78,009,654	77,244,444	

As of December 31, 2013, the Company has no potential dilutive common shares. Accordingly, diluted earnings per share is identical to basic earnings per share.

## 38. Related Party Transactions

(c) For the years ended December 31, 2013 and 2012, details of compensation to key management officers were as follows:

(in millions of Won)		2013	2012		
Short-term benefits	₩	121,054	109,614		
Retirement benefits		20,713	25,049		
Long-term benefits		23,480	22,462		
	₩	165,247	157,125		

Key management officers include directors (including non-standing directors), executive officials and fellow officials who have significant influence and responsibilities in the Company's business and operations. In addition to the compensation described above, the Company provided stock appreciation rights to its executive officers and recorded stock compensation expenses amounted to W436 million for year ended December 31, 2012 (2013: nil).

## 39. Commitments and Contingencies

### (a) Contingent liabilities

Contingent liabilities may develop in a way not initially expected. Therefore, management continuously assesses contingent liabilities to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognized in the financial statements of the period in which the change in probability occurs (except in the extremely rare circumstances where no reliable estimate can be made).

Management makes estimates and assumptions that affect disclosures of commitments and contingencies. All estimates and assumptions are based on the evaluation of current circumstances and appraisals with the supports of internal specialists or external consultants.

Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. Internal and external lawyers are used for these assessments. In making the decision regarding the need for provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiently reliable estimate of the amount of loss.

(c) POSCO ENGINEERING & CONSTRCTION Co., Ltd. has provided the completion guarantees for Samsung C&T Corporation amounting to ₩1,142,459 million while Samsung C&T Corporation has provided the construction guarantees or payment guarantees on customers' borrowings on behalf of POSCO ENGINEERING & CONSTRCTION Co., Ltd. amounting to ₩801,676 million as of December 31, 2013. POSCO ENGINEERING & CONSTRCTION Co., Ltd. provides payment guarantees on borrowings of customers such as Asset Backed Commercial Paper amounted to ₩650,800 million and Project Financing loan amounted to ₩38,800 million as of December 31, 2013.

### (d) Other commitments

Details of other commitments of the Company as of December 31, 2013, are as follows:

**POSCO** 

POSCO entered into long-term contracts to purchase iron ore, coal, nickel and others. The contracts of iron ore and coal generally have terms of more than three years and the contracts of nickel have terms of more than one year. These contracts provide for periodic price adjustments based on the market price. As of December 31, 2013, 193 million tons of iron ore and 14 million tons of coal remained to be purchased under such long-term contracts.

POSCO entered into an agreement with Tangguh Liquefied Natural Gas (LNG) Consortium in Indonesia to purchase 550 thousand tons of LNG annually for 20 years commencing in August 2005. The purchase price is subject to change, based on changes of the monthly standard oil price (JCC) and with a price ceiling.

As of December 31, 2013, POSCO entered into commitments with Korea National Oil Corporation for long-term foreign currency borrowings, which are limited up to the amount of USD 6.86 million, USD 6.58 million and USD 4.12 million. The borrowings are related to the exploration of gas hydrates in Aral Sea, Uzbekistan, the exploration of gas hydrates in Namangan-Chust and the exploration of gas hydrates in Western Fergana-Chenavard, respectively. The repayment of the borrowings depends on the success of the projects. POSCO is not liable for the repayment of full or part of the money borrowed if the respective projects fail. POSCO has agreed to pay a certain portion of its profits under certain conditions, as defined by the borrowing agreements.

POSCO has provided a supplemental funding agreement, as the largest shareholder, as requested from the creditors, including Norddeutsche Landesbank, for seamless funding to POSCO ENERGY Co., Ltd. under construction of new power plant.

& CONSTRUCTION CO., LTD.

POSCO ENGINEERING As of December 31, 2013, POSCO ENGINEERING & CONSTRUCTION CO., LTD. has comprehensive loan agreements of up to \foldar{1}247,000 million and USD 408 million with Woori Bank and \W53,000 million with Korea Exchange Bank. Also, POSCO ENGINEERING & CONSTRUCTION CO., LTD. has bank overdraft agreements of up to \W20,000 million with WooriBank which is included in the limit of comprehensive loan agreements and \(\pi\_3,000\) million with Korea Exchange Bank.

POSCO ICT

As of December 31, 2013, in relation to contract enforcement, POSCO ICT was provided with ₩58,954 million and ₩49,383 million guaranties from Korea Software Financial Cooperative and Seoul Guarantee Insurance, respectively.

As of December 31, 2013, POSCO ICT provided W324 million of guaranties to Seoul Guarantee Insurance to ensure performance guarantee agreement which Busan Navy Residence and others had.

POSCO Specialty Steel Co., Ltd.

As of December 31, 2013, POSCO Specialty Steel Co., Ltd. has agreements for a loan and import letter of credit with Korea Exchange Bank and others.

### (e) Litigation in progress

As of December 31, 2013, POSCO and certain subsidiaries are defendants in legal actions arising from the normal course of business.

1) Civil lawsuits with Nippon Steel & Sumitomo Metal Corporation

During the year ended December 31, 2012, Nippon Steel & Sumitomo Metal Corporation filed a civil lawsuit in the Tokyo District Court of Japan against POSCO and POSCO Japan Co., Ltd., a subsidiary of POSCO, to prohibit production and sales of grain oriented electrical steel sheets using improperly acquired trade secrets and seeking compensation from the Company of JPY 98.6 billion (\(\pm\)990.6 billion). Through trials up to December 31, 2013, the Company submitted its responses that the Japan court did not have jurisdiction on this lawsuit as it should be judged by Korean law and the Company developed grain oriented electrical steel sheets using the Company's own technologies. As of December 31, 2013, the Japan court has not made any judgments on this matter. Since the Company does not believe that it is probable that an outflow of resources will be required, the Company has not recorded any provision for this lawsuit as of December 31, 2013.

In addition, Nippon Steel & Sumitomo Metal Corporation filed a civil lawsuit in the New Jersey federal court, United States, against POSCO and POSCO America Co., Ltd., a subsidiary of POSCO, claiming infringement of intellectual property rights related to the production of grain oriented electrical steel sheets. As of December 31, 2013, no claim amount has been made and the Company is under discovery proceedings related to this matter. Due to the early stage of the litigation and the inherent uncertainties, the Company is not able to reliably estimate the amount of compensation and timing, if any, that might be awarded to Nippon Steel & Sumitomo Metal Corporation. Consequently, it is not possible for the Company to make an estimate of the expected financial effect that will result from the ultimate resolution of this civil lawsuit. Therefore, the Company has not recorded any provision for this lawsuit in the U.S. as of December 31, 2013.

2) Lawsuits related to liability of Daewoo Co., Ltd. which was spun off into Daewoo International Corporation and Daewoo Engineering & Construction Co., Ltd.

In May 2002, Industrial Development Bank of India Limited, the creditor of Daewoo Motors India Ltd. for which Daewoo Co., Ltd. provided a guarantee, filed lawsuits against Daewoo Motors India Ltd., Daewoo Co., Ltd., Daewoo Engineering & Construction Co., Ltd, and Daewoo International Corporation (a subsidiary of POSCO) seeking for the disposition of assets and judgment of debt of Daewoo Motors India Ltd. amounting to \text{\$\pi\$76 billion in India Delhi Mumbai Court. Management of the Company has assessed the likelihood of the outcome of this matter and estimated the amount of possible loss and has made the contingency provision of \text{\$\pi\$23.3 billion for these lawsuits as of December 31, 2013.

## 3) Other lawsuits and claims

(In millions of Won, in thousand of foreign currencies)

## **40.** Cash Flows from Operating Activities

Adjustments for operating cash flows for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Trade accounts and notes receivable	₩	(612,379)	87,830	
Other financial assets		(98,420)	(392,090)	
Inventories		582,287	1,450,431	
Other current assets		181,755	(198,157)	
Other long-term assets		(23,412)	(141,037)	
Trade accounts payable		47,323	225,086	
Other financial liabilities		194,419	357,502	
Other current liabilities		13,522	583,159	
Provisions		(42,052)	17,108	
Payment severance benefits		(129,038)	(116,846)	
Plan assets		(172,147)	(191,696)	
Other non-current liabilities		(58,290)	252,068	
	₩	(116,432)	1,933,358	

#### 41. Non-Cash Transactions

Significant non-cash transactions for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Construction-in-progress transferred to other accounts	₩	6,610,644	3,273,475	
Acquisition of short-term financial statements				
through issuance of treasury stocks		804,496	-	
Other non-current asset transferred to investments				
in associates and joint ventures		-	257,878	
Conversion of bonds to shares		-	315,530	

### **42. Operating Segments**

(a) Our operating businesses are organized based on the nature of markets and customers. We have four reportable operating segments— steel, construction, trading and others. The steel segment includes production of steel products and revenue of such products. The engineering and construction segment includes planning, designing and construction of industrial plants, civil engineering projects and commercial and residential buildings, both in Korea and overseas. The trading segment consists of exporting and importing a wide range of steel products and raw materials that are both obtained from and supplied to POSCO, as well as between other suppliers and purchasers in Korea and overseas. Other segments include power generation, liquefied natural gas production, network and system integration and logistics.

(b) Information about reportable segments as of and for the years ended December 31, 2013 and 2012 was as follows:

# 1) As of and for the year ended December 31, 2013

(in millions of Won)	Steel		Trading	Construction	Others		Total

Share of profit or loss of							
investment in associates		(39,806)	(5,579)	(27)	(2,764)		(48,176)
Income tax expense		(658,307)	(184,318)	(135,469)	(77,139)		(1,055,233)
Segments profit		2,245,977	325,197	345,295	301,670		3,218,139
Segments assets		69,920,261	10,904,747	10,775,895	7,723,374		99,324,277
Investment in associates and joint ventures		15,802,052	1,043,018	1,130,216	435,980		18,411,266
Acquisition of non-current assets		7,629,767	395,081	167,818	781,087		8,973,753
Segments liabilities		23,105,008	7,865,399	7,008,996	4,836,641		42,816,044

(c) Reconciliations of total segment revenues, profit or loss, assets and liabilities, and other significant items to their respective consolidated financial statement line items are as follows:

### 1) Revenues

(in millions of Won)	2013		2012
Total revenue for reportable segments	₩	92,609,460	96,589,238
Elimination of inter-segment revenue		(30,744,810)	(32,985,087)
	₩	61,864,650	63,604,151

### 2) Profit

(in millions of Won)		2013	2012	
Total profit for reportable segments	₩	1,803,588	3,218,139	
Goodwill and PP&E FV adjustments		(91,718)	(58,486)	
Elimination of inter-segment profits		(356,690)	(774,047)	
Income tax expense		590,997	982,880	
Profit before income tax expense	₩	1,946,177	3,368,486	

### 3) Assets

2013		2012	
₩	104,234,170	99,324,277	
	(15,758,936)	(15,365,984)	
	3,560,873	3,657,016	
	(7,580,700)	(8,349,458)	
₩	84,455,407	79,265,851	
		₩ 104,234,170 (15,758,936) 3,560,873 (7,580,700)	

(\*1) As segment assets and liabilities are determined based on separate financial statements, for subsidiaries which are in a different segment from that of its immediate parent company, their carrying amount in separate financial statements is eliminated upon consolidation. In addition, adjustments are made to adjust the amount of investment in associates and joint ventures from the amount reflected in segment assets to that determined using equity method in consolidated financial statements.

### 4) Liability

	2013	2012	
₩	43,551,906	42,816,044	
	337,442	330,791	
	(5,255,971)	(6,310,403)	
₩	38,633,377	36,836,432

Based on a report originally issued in Korean

The Board of Directors and Stockholders POSCO:

We have audited the accompanying separate statements of financial position of POSCO (the "Company") as of December 31, 2013 and 2012 and the related separate statements of comprehensive income, changes in equity and cash flows for the years then ended. Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with Korean International Financial Reporting Standards. Our responsibility is to express an opinion on these separate financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the separate financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In our opinion, the separate financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012 and its financial performance and its cash flows for the years then ended, in conformity with Korean International Financial Reporting Standards.

Without qualifying our opinion, we draw attention to the following:

KPMG Samjong Accounting Corp.

The procedures and practices utilized in the Republic of Korea to audit such separate financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying separate financial statements are for use by those knowledgeable about Korean auditing standards and their application in practice.

Seoul, Korea February 25, 2014

This report is effective as of February 25, 2014, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying separate financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

## 1. Reporting Entity

POSCO (the "Company") is the largest steel producer in Korea which was incorporated on April 1, 1968, under the Commercial Code of the Republic of Korea to manufacture and sell steel rolled products and plates in the domestic and foreign markets.

The shares of the Company have been listed on the Korea Exchange since 1988. The Company owns and operates two steel plants (Pohang and Gwangyang) and one office in Korea, and it also operates internationally through eight of its overseas liaison offices.

As of December 31, 2013 and 2012, major shareholders are as follows:

	2013		2012		
Share holder's name	Number of shares	Ownership(%)	Number of shares	Ownership(%)	
National Pension Service	6,577,907	7.54	5,225,654	7.54	
Nippon Steel & Sumitomo Metal Corporation(*1)	4,394,712	5.04	4,394,712	5.04	
Hyundai Heavy Industries Co., Ltd. and subsidiaries	s 2,197,707	2.52	2,183,997	2.52	
Pohang University of Science and Technology	1,905,000	2.18	1,905,000	2.18

Others	70,264,515	80.60	71,557,699	80.60	
	87,186,835	100.00	87,186,835	100.00	

(\*1) Nippon Steel & Sumitomo Metal Corporation owns American Depository Receipts (ADRs) of the Company, each of which represents 0.25 share of POSCO's common share which has par value of \$\psi\_5,000\$ per share.

As of December 31, 2013, the shares of the Company are listed on the Korea Exchange, while its depository shares are listed on the New York, Tokyo and London Stock Exchanges.

### 2.Statement of Compliance

### Statement of compliance

The separate financial statements have been prepared in accordance with Korean International Financial Reporting Standards ("K-IFRS"), as prescribed in the Act on External Audits of Corporations.

These financial statements are separate financial statements prepared in accordance with K-IFRS No. 1027 "Consolidated and Separate Financial Statements" presented by a parent, an investor in an associate or a venture in a jointly controlled entity, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### **Basis of measurement**

The separate financial statements have been prepared on the historical cost basis, except for the following material items in the statement of financial position, as described in the accounting policy below.

- (a) Derivatives instruments are measured at fair value
- (b) Available-for-sale financial assets are measured at fair value
- (c) Defined benefit liabilities are measured at the present value of the defined benefit obligation less the fair value of the plan asset

#### **Functional and presentation currency**

These separate financial statements are presented in Korean won, which is the Company's functional currency and the currency of the primary economic environment in which the Company operates.

### Use of estimates and judgements

The preparation of the financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

### (a) Judgements

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the separate financial statements is included in the following notes:

- Note 8 Other financial assets
- Note 13 Investment property, net
- Note 14 Property, plant and equipment, net

### (b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Note 19 Provisions
- Note 20 Employee benefits
- Note 38 Commitments and contingencies

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### (c) Measurement of fair value

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS including the level in the fair value hierarchy in which such valuation techniques should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the
  assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from
  prices).
- Level 3 inputs for the assets or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about the assumptions made in measuring fair values is included in the following notes:

• Note 22 – Financial instruments

#### Changes in accounting policies

Except for the change below, the Company has consistently applied the accounting policies set out in note 3 to all periods presented in these separate financial statements.

The Company has adopted the following new standards and amendments to standards with a date of initial application of January 1, 2013.

- (a) K-IFRS No. 1001, "Presentation of Financial Statements"
- (b) K-IFRS No. 1019, "Employee Benefits"
- (c) K-IFRS No. 1107, "Financial Instruments: Disclosures"
- (d) K-IFRS No. 1113, "Fair Value Measurement"

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

The details of changes in accounting policies are as follows:

### (a) Classification of other comprehensive income

As a result of the amendments to K-IFRS No. 1001, the Company has modified the presentation of items of other comprehensive income in its statement of comprehensive income to present

separately items that would be reclassified to profit or loss from those that would never be reclassified to profit or loss. Comparative information has been re-presented accordingly.

### (b) Post-employment defined benefit plan

As a result of the amendments to K-IFRS No. 1019, the Company has changed its accounting policy with respect the basis for determining the income or expense related to its post-employment defined benefit plans. Under the amendments to K-IFRS No. 1019, the Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Consequently, the net interest on the net defined benefit liability (asset) now comprises: interest cost on the defined benefit obligation, interest income on plan assets, and interest on the effect on the asset ceiling. Previously, the Company determined interest income on plan assets based on their long-term rate of expected return. The impact of the amendments on the Company's separate financial statements is not significant.

### (c) Offsetting of financial assets and financial liabilities

As a result of the amendments to K-IFRS No. 1107, the Company has expanded its disclosures about the offsetting of financial assets and financial liabilities (Note 22).

#### (d) Fair value measurement

K-IFRS No. 1113, establishes a single framework for measuring fair value and making disclosures about fair value measurements when such measurements are required or permitted by other K-IFRSs. It unifies the definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It replaces and expands the disclosure requirements about fair value measurements in other K-IFRSs, including K-IFRS No. 1107. As a result, the Company has included additional disclosures in this regard (Note 22).

In accordance with the transitional provisions of K-IFRS No. 1113, the Company has applied the new fair value measurement guidance prospectively and has not provided any comparative information for new disclosures. Notwithstanding the above, the change had no significant impact on the measurements of the Company's assets and liabilities.

### Impact of changes in accounting policies

As management believes the impact of the amendments to K-IFRS No. 1019 and 1113 on the Company's prior year's separate financial statements is not significant, the comparative period's separate financial statements are not restated.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### Approval of financial statement

The separate financial statements were authorized for issue by the Board of Directors on January 29, 2014, and will be submitted for approval at the shareholders' meeting to be held on March 14, 2014.

#### 3. Summary of Significant Accounting Policies

The significant accounting policies applied by the Company in preparation of its separate financial statements are included below. The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except for those as disclosed in note 2.

The comparative amounts in separate statements of comprehensive income have been re-presented as a result of a change in the accounting policy regarding the presentation of items of other comprehensive income.

### Investments in Subsidiaries, Associates and Joint Ventures

These separate financial statements are prepared and presented in accordance with K-IFRS No. 1027 "Consolidated and Separate Financial Statements". The Company applied the cost method to investments in subsidiaries, associates and joint ventures in accordance with K-IFRS No. 1027. Dividends from a subsidiary, associate or joint venture are recognized in profit or loss when the right to receive the dividend is established.

### Foreign currency transactions and translation

Foreign currency transactions are initially recorded using the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. At the end of each reporting period, foreign currency monetary items are translated using the closing rate. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the original transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rate at the date fair value was initially determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in profit or loss in the period in which they arise. When gains or losses on non-monetary items are recognized in other comprehensive income, exchange components of those gains or losses are recognized in other comprehensive income. Conversely, when gains or losses on non-monetary items are recognized in profit or loss, exchange components of those gains or losses are recognized in profit or loss.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, and short-term investments in highly liquid securities that are readily convertible to known amounts of cash with maturities of three months or less from the acquisition date and which are subject to an insignificant risk of changes in value. Equity investments are excluded from cash and cash equivalents.

#### Non-derivative financial assets

The Company recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Company recognizes financial assets in the separate statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets are measured at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the asset's acquisition or issuance.

### (a) Financial assets at fair value through profit or loss

Financial assets are classified at fair value through profit or loss if they are held for trading or designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

### (b) Held-to-maturity financial assets

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Company has the positive intention and ability to hold to maturity, is classified as held-to-maturity financial assets. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method.

### (c) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method unless the effect of discounting is immaterial.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### (d) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity financial assets or loans and receivables. Subsequent to initial recognition, they are measured at fair value, with changes in fair value, net of any tax effect, recorded in other comprehensive income in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost. When a financial asset is derecognized or impairment losses are recognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Dividends on an available-for-sale equity instrument are recognized in profit or loss when the Company's right to receive payment is established.

#### (e) Derecognition of non-derivative financial assets

The Company derecognizes non-derivative financial assets when the contractual rights to the cash flows from the financial asset expire, or the Company transfers the rights to receive the contractual cash flows from the financial asset as well as substantially all the risks and rewards of ownership of the financial asset. Any interest in a transferred financial asset that is created or retained by the Company is recognized as a separate asset or liability.

If the Company retains substantially all the risks and rewards of ownership of the transferred financial assets, the Company continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

### (f) Offsetting a financial asset and a financial liability

Financial assets and financial liabilities are offset and the net amount is presented in the separate statement of financial position only when the Company currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

### **Inventories**

Inventories are measured at the lower of cost and net realizable value. Costs are determined by using the moving-weighted average method. The cost of inventories comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The allocation of fixed production overheads to the costs of finished goods or work in progress are based on the normal capacity of the production facilities.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

When inventories are sold, the carrying amount of those inventories is recognized as cost of goods sold in the period in which the related revenue is recognized. Inventories are measured at the lower of cost and net realizable value. The amount of any write-down of inventories to net realizable value and all losses of inventories are recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories arising from an increase in net realizable value is recognized as a reduction in the amount of inventories recognized as a cost of goods sold in the period in which the reversal occurs.

### Non-current assets held for sale

Non-current assets or disposal groups comprising assets and liabilities that are expected to be recovered primarily through sale rather than through continuing use are classified as held for sale. In order to be classified as held for sale, the assets or disposal groups must be available for immediate sale in their present condition and their sale must be highly probable. The assets or disposal groups that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell.

The Company recognizes an impairment loss for any initial or subsequent write-down of an asset or disposal group to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036 "Impairment of Assets".

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

### **Investment property**

Property held to earn rentals or for capital appreciation or both is classified as investment property. Investment property is measured initially at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is carried at depreciated cost less any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of investment property at cost or, if appropriate, as separate items if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### **Property, plant and equipment**

Property, plant and equipment are initially measured at cost and after initial recognition, are carried at cost less accumulated depreciation and any accumulated impairment losses. The cost of property, plant and equipment includes expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, when the Company has an obligation to remove the asset or restore the site, an estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The cost of replacing a part of an item is recognized in the carrying amount of the item of property, plant and equipment, if the following recognition criteria are met:

- (a) it is probable that future economic benefits associated with the item will flow to the Company;
- (b) the cost can be measured reliably.

The carrying amount of the replaced part is derecognized at the time the replacement part is recognized. The costs of the day-to-day servicing of the item are recognized in profit or loss as incurred.

Items of property, plant and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the asset is completed and ready for use. Other than land, the costs of an asset less its estimated residual value are depreciated. Depreciation of property, plant and equipment is recognized in profit or loss on a straight-line basis, which most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset, over the estimated useful lives of each component of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Land is not depreciated.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in profit or loss when the item is derecognized.

The estimated useful lives for the current and comparative periods are as follows:

Buildings	20-40 years
Structures	20-40 years
Machinery and equipment	15 years
Vehicles	4-9 years
Tools	4 years
Furniture and fixtures	4 years
Lease assets	18 years

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

The estimated residual value, useful lives and the depreciation method are reviewed at least at the end of each reporting period and, if expectations differ from previous estimates, the changes are accounted for as changes in accounting estimates.

### **Borrowing costs**

The Company capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets and inventories that are manufactured or otherwise produced over a short period of time are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. The Company immediately recognizes other borrowing costs as an expense. To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Company capitalizes during a period shall not exceed the amount of borrowing costs incurred during that period.

### **Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, as there are no foreseeable limits to the periods over which club memberships are expected to be available for use, this intangible asset is determined as an having an indefinite useful life and not amortized.

Intellectual property rights	5-10 years
Development costs	4 years
Port facilities usage rights	5-75 years
Other intangible assets	4-20 years

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

Expenditures on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

#### **Government grants**

Government grants are not recognized unless there is reasonable assurance that the Company will comply with the grant's conditions and that the grant will be received.

#### (a) Grants related to assets

Government grants whose primary condition is that the Company purchase, construct or otherwise acquire long-term assets are deducted from the carrying amount of the assets and recognized in profit or loss on a systematic and rational basis over the life of the depreciable assets.

#### (b) Grants related to income

Government grants which are intended to compensate the Company for expenses incurred are deducted from the related expenses.

#### Leases

The Company classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Company assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

#### (a) Finance leases

At the commencement of the lease term, the Company recognizes as finance assets and finance liabilities the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the Company adopts for similar depreciable assets that are owned. If there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

### (b) Operating leases

Leases obligations under operating leases are recognized as an expense on a straight-line basis over the lease term. Contingent rents are charged as expenses in the periods in which they are incurred.

### Impairment for financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset or group of assets are impaired includes:

- (a) significant financial difficulty of the issuer or obligor
- (b) a breach of contract, such as a default or delinquency in interest or principal payments
- (c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider
- (d) it becoming probable that the borrower will enter bankruptcy or other financial reorganization
- (e) the disappearance of an active market for that financial asset because of financial difficulties
- (f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group.

In addition, for an equity instrument classified as available-for-sale, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

If financial assets have objective evidence that they are impaired, impairment losses are measured and recognized.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### (a) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. If it is not practicable to obtain the instrument's estimated future cash flows, impairment losses would be measured by using prices from any observable current market transactions. The Company can recognize impairment losses directly or establish a provision to cover impairment losses. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed either directly or by adjusting an allowance account.

### (b) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

#### (c) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income shall be reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed, with the amount of the reversal recognized in profit or loss.

#### **Impairment for non-financial assets**

The carrying amounts of the Company's non-financial assets, other than assets arising from employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing their recoverable amount to their carrying amount.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

Management estimates the recoverable amount of an individual asset. If it is impossible to measure the individual recoverable amount of an asset, then management estimates the recoverable amount of cash-generating unit ("CGU"). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is estimated by applying a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

Any impairment identified at the CGU level is used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### **Derivative financial instruments**

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

### (a) Embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met: (a) the economic characteristics and risks of the host contract and the embedded derivatives are not clearly and closely related to a separate instrument with the same terms as the embedded derivative that would meet the definition of a derivative, and (b) the hybrid (combined) instrument is not measured at fair value through profit or loss. Changes in the fair value of separable embedded derivatives from the host contract are recognized immediately in profit or loss.

### (b) Other derivatives

Changes in the fair value of a derivative that is not designated as a hedging instrument are recognized immediately in profit or loss.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### Non-derivative financial liabilities

The Company classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement and the definitions of financial liabilities. The Company recognizes financial liabilities in the separate statement of financial position when the Company becomes a party to the contractual provisions of the financial liability.

### (a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the acquisition are recognized in profit or loss as incurred.

### (b) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities.

Financial guarantee liabilities are initially measured at their fair values and, if not designated as financial liabilities at fair value through profit or loss, they are subsequently measured at the higher of:

- 1) the amount of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period; and
- 2) the amount initially recognized less, cumulative amortization recognized on a straight-line basis over the guarantee period

At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the acquisition. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method..

The Company derecognizes a financial liability from the separate statement of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### **Employee benefits**

### (a) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within twelve months after the end of the period in which the employees render the related service. When an employee has rendered service to the Company during an accounting period, the Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as profit or loss. If the Company has a legal or constructive obligation which can be reliably measured, the Company recognizes the amount of expected payment for profit-sharing and bonuses payable as liabilities.

### (b) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service, and are calculated at the present value of the amount of future benefit that employees have earned in return for their service in the current and prior periods, less the fair value of any related assets. The present value is determined by discounting the expected future cash flows using the interest rate of corporate bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid. Any actuarial gains and losses are recognized in profit or loss in the period in which they arise.

### (c) Retirement benefits: Defined contribution plans

For defined contribution plans, when an employee has rendered service to the Company during a period, the Company recognizes the contribution payable to a defined contribution plan in exchange for that service as an accrued expense, after deducting any contributions already paid. If the contributions already paid exceed the contribution due for service before the end of the reporting period, the Company recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

### (d) Retirement benefits: Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The fair value of plan assets is deducted. The calculation is performed annually by an independent actuary using the projected unit credit method.

The discount rate is the yield at the reporting date on corporate bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The Company recognizes all actuarial gains and losses arising from actuarial assumption changes and experiential adjustments in other comprehensive income when incurred.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Company recognizes an asset, to the extent of the total of cumulative unrecognized past service cost and present value of any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of net defined benefit liabilities, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Company determines the net interest expense(income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments, net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss in curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### **Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement shall be recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision is used only for expenditures for which the provision was originally recognized.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### **Equity instruments**

### (a) Share capital

Common stock is classified as equity and the incremental costs arising directly attributable to the issuance of common stock less their tax effects are deducted from equity.

If the Company reacquires its own equity instruments, the amount of those instruments ("treasury shares") are presented as a contra equity account. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or cancellation of its own equity instruments. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase to equity, and the resulting surplus or deficit on the transaction is recorded in capital surplus.

### (b) Hybrid bonds

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of financial liability and an equity instrument. When the Company has an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation, the Company's hybrid bond has been classified as an equity instrument.

#### Revenue

Revenue from the sale of goods, services provided and the use of assets is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates, which are not significant for all periods presented.

### (a) Sale of goods

Revenue from the sale of goods in the ordinary course of activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. The appropriate timing for transfer of risks and rewards varies depending on the individual terms and conditions of the sales contract. For international sales, this timing depends on the type of international commercial terms of the contract.

### (b) Rental income

Rental income from investment property, net of lease incentives granted, is recognized in profit or loss on a straight-line basis over the term of the lease.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest method. Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established.

Finance costs comprise interest expense on borrowings and changes in the fair value of financial assets at fair value through profit or loss. Borrowing costs are recognized in profit or loss using the effective interest rate method.

### **Income taxes**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

### (a) Current tax

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit of future periods, and non-taxable or non-deductible items from the accounting profit.

### (b) Deferred tax

The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Company recognizes a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, associates, and joint ventures, except to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Company recognizes a deferred tax asset for deductible temporary differences arising from investments in subsidiaries, associates and joint ventures, to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized. However, deferred tax is not recognized for the following temporary differences: taxable temporary differences arising on the initial recognition of goodwill, or the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting profit or loss nor taxable income.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset the related current tax liabilities and assets, and they relate to income taxes levied by the same tax authority and they intend to settle current tax liabilities and assets on a net basis.

### Earnings per share

Management calculates basic earnings per share ("EPS") data for the Company's ordinary shares, which is presented at the end of the statement of comprehensive income. Basic EPS is calculated by dividing profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

### New standards and interpretations not yet adopted

The following new standards, interpretations and amendments to existing standards have been published and are mandatory for the Company for annual periods beginning after January 1, 2013, and the Company has not early adopted them. Management believes the impact of the amendments on the Company's separate financial statements is not significant.

(a) Amendments to K-IFRS No. 1032 "Financial Instruments: Presentation"

The amendments clarified application guidance related to offsetting of a financial asset and a financial liability. The amendments are mandatorily effective for annual periods beginning on or after January 1, 2014 with earlier adoption permitted.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### 4. Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk
- capital risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these separate financial statements.

### (a) Financial risk management

### 1) Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

#### 2) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. In addition, credit risk arises from finance guarantees.

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit rate evaluated based on financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of a nation or an industry in which a customer operates its business does not have a significant influence on credit risk. The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for companies of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets. Debt securities are analyzed individually, and an expected loss shall be directly deducted from debt securities.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high international credit ratings. The Company's treasury department authorizes, manages, and overseas new transactions with financial institutions with whom the Company has no previous relationship. Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

### 3) Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's cash flow from business, borrowing or financing is sufficient to meet the cash requirements for the Company's strategic investments. Management believes that the Company is capable of raising funds by borrowing or financing if the Company is not able to generate cash flow requirements from its operations. The Company has committed borrowing facilities with various banks.

### 4) Market risk management

Market risk means that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The goal of market risk management is optimization of profit and controlling the exposure to market risk within acceptable limits.

### ① Currency risk

The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the functional currency of the Company, Korean Won.

The Company's policy in respect of foreign currency risks is a natural hedge whereby foreign currency income is offset with foreign currency expenditures. The remaining net exposures after the natural hedge have been hedged using derivative contracts such as forward exchange contracts. In addition, the Company's derivative transactions are limited to hedging actual foreign currency transactions and speculative hedging is not permitted. Based on this policy, the Company has foreign currency borrowings from banks and hedges foreign currency risks of the foreign currency borrowings by using foreign currency swaps.

### 2 Interest rate risk

The Company mostly borrows at fixed interest rates. The Company's management monitors interest rate risks regularly.

### 3 Other market risk

Equity price risk arises from listed equity securities among available-for-sale equity securities. Management of the Company measures regularly the fair value of listed equity securities and the risk of variance in future cash flow caused by market price fluctuations. Significant investments are managed separately and all buy and sell decisions are approved by management of the Company.

### (b) Management of capital risk

The fundamental goal of capital management is the maximization of shareholders' value by means of the stable dividend policy and the retirement of treasury shares. The capital structure of the Company consists of equity and net debt, deducting cash and cash equivalents and current financial instruments from borrowings. The Company applied the same financial risk management strategy that was applied in the previous period.

The equity attributable to owners as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013	2012		
Total borrowings	8,663,071	9,603,774		
Less: Cash and cash equivalents	1,394,315	1,752,560		
Net borrowings	7,268,756	7,851,214		
Total equity	42,311,462	39,164,548		
Net borrowings-to-equity ratio	17.18%	20.05%		

### 5. Cash and Cash Equivalents

Cash and cash equivalents as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012		
Checking accounts	₩	302,434	660		
Time deposits		859,148	1,320,000		
Money market trust		152,500	321,400		
Money market funds		30,000	110,000		
Money market deposit account		50,233	500		
	₩	1,394,315	1,752,560		

### 6. Trade Accounts and Notes Receivable

Trade accounts and notes receivable as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012	
Current				
Trade accounts and notes receivable	₩	3,403,316	4,099,006	
Less: Allowance for doubtful accounts		(9,872)	(11,976)	
	₩	3,393,444	4,087,030	
Non-current				
Trade accounts and notes receivable	₩	7,806	502	
Less: Present value discount		(3,114)	-	
Less: Allowance for doubtful accounts		(228)	(228)	
	₩	4,464	274	

The trade accounts and notes receivable sold to financial institutions, for which the derecognition conditions were not met, amounted to  $$\mathbb{W}$203,138$$  million and  $$\mathbb{W}$258,680$$  million as of December 31, 2013 and 2012, respectively, and are included in bank borrowings (Note 16).

### 7. Other Receivables

Other receivables as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012	
Current				
Other accounts receivable	₩	281,667	391,264	
Accrued income		10,055	12,531	
Other checking accounts		10	1,538	
Less: Allowance for doubtful accounts		(10,571)	(10,571)	
	₩	281,161	394,762	
Non-current				
Long-term loans	₩	54,945	66,775	
Long-term other accounts receivable		2,723	6,410	
Deposits		2,523	1,920	
Less: Allowance for doubtful accounts		(14,453)	(14,453)	
	₩	45,738	60,652	

### 8. Other Financial Assets

(a) Other financial assets as of December 31, 2013 and 2012 are as follows:

Short-term available-for-sale securities (bonds) Current portion of held-to-maturity securities (bonds) Short-term financial instruments(*1) Cash deposits(*2)  Non-current Derivatives assets held for trading		2013	2012	
Current	·	_		
Short-term available-for-sale securities (bonds)	₩	-	100,000

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

- (\*1) As of December 31, 2013, it is classified as an investment in a subsidiary as the Company has control over of more than half of the voting rights by virtue of an agreement with Postech, which has 4.72% of ownership in POSCO M-TECH Co., Ltd.
- (\*2) It is reclassified from associate to subsidiary due to the merger with Seoung Gwang Co., Ltd. during the year ended December 31, 2013.
- (\*3) As of December 31, 2013 this investment is collateral for the Company's guarantee provided to certain borrowings of its subsidiary from banks.
- (\*4) As of December 31, 2013, there is objective evidence of impairment due to a prolonged decline on the fair value of the security. Recoverable amounts were determined based on fair value less cost to sell, which was calculated by adding a 28.8% control premium to current stock price as December 31, 2013. The Company recognized impairment loss of W160,492 million as the carrying value was higher than its recoverable amount as of December 31, 2013.
- (c) Details of associates and carrying values as of December 31, 2013 and 2012 are as follows:

		_	2013						2012

### 13. Investment Property, Net

(a) Investment property as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

			2013		2012				
	Acqui	isition cost	Accumulated depreciation	Book value	Acquisition cost	Accumulated depreciation	Book value		
Land	₩	36,020	-	36,020	41,811	-	41,811		
Buildings		95,564	(42,882)	52,682	110,927	(47,230)	63,697		
Structures		7,009	(2,832)	4,177	8,136	(3,118)	5,018		
Total	₩	138,593	(45,714)	92,879	160,874	(50,348)	110,526		

The fair value of investment property as of December 31, 2013 is ₩290,136 million. The Company used the prior year's fair value for the investment property since it is believed to be approximately same.

- (b) Changes in the carrying value of investment property for the years ended December 31, 2013 and 2012 were as follows:
  - 1) For the year ended December 31, 2013

	Beginning		Depreciation(*1)	Transfer(*2)	Ending	
Land	₩	41,811	-	(5,791)	36,020	
Buildings		63,697	(2,793)	(8,222)	52,682	
Structures		5,018	(186)	(655)	4,177	
Total	₩	110,526	(2,979)	(14,668)	92,879	

- (\*1) The useful life and depreciation method of investment property are identical to those of property, plant and equipment.
- (\*2) Mainly includes assets transferred to property, plant and equipment in relation to change in rental ratio and the purpose of use.

2) For the year ended December 31, 2012

(in millions of Won)

	Be	ginning	Depreciation(*1)	Transfer(*2)	Ending
Land	₩	43,258	-	(1,447)	41,811
Buildings		68,776	(2,905)	(2,174)	63,697
Structures		5,384	(194)	(172)	5,018
Total	₩	117,418	(3,099)	(3,793)	110,526

- (\*1) The useful life and depreciation method of investment property are identical to those of property, plant and equipment.
- (\*2) Mainly includes assets transferred to property, plant and equipment in relation to change in rental ratio and the purpose of use.

Finance lease liabilities		1,124	1,088	
Withholdings		11,660	9,070	
	₩	791,883	1,270,040	
Non-current				
Long-term accounts payable	₩	91,827	88,938	
Accrued expenses		22,922	24,664	
Finance lease liabilities		5,042	6,246	
Long-term withholdings		4,888	8,964	
	₩	124,679	128,812	

<sup>(\*1)</sup> During the year ended December 31, 2012, a fine of \( \partial \text{98,326} \) million was imposed for price-fixing galvanized steel sheets as a result of the Korea Fair Trade Commission's investigation.

### 18. Other Financial Liabilities

Other financial liabilities as of December 31, 2013 and 2012 are as follows:

		2013	2012
Current			
Derivative instruments liabilites	₩	36,964	9,499
Financial guarantee liabilities		9,045	7,393
	₩	46,009	16,892
Non-current			
Derivative instruments liabilities	₩	175,463	31,256
Financial guarantee liabilities		56,076	41,664
	₩	231,539	72,920

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### 19. Provisions

Changes in provisions for the years ended December 31, 2013 and 2012 were as follows:

### 1) For the year ended December 31, 2013

(in millions of Won)	Beginning	Increase	Utilization	Ending
Estimated allowance at the end of period(*1)	₩ 6,2	39 12,428	(10,166)	8,501

(\*1) Represents the provision for bonuses for executives.

### 2) For the year ended December 31, 2012

(in millions of Won)	<u>B</u>	eginning	Increase	Utilization	Ending
Estimated allowance at the end of period(*1)	₩	4,451	241,498	(239,710)	6,239

(\*1) Represents the provision for bonuses for all employees.

### 20. Employee Benefits

### (a) Defined contribution plans

The Company operates a defined contribution plan for participating employees. Though the Company pays fixed contributions into a separate fund, employee benefits relating to employee service rendered is based on the contributions to the funds and the investment earnings on it. Plan assets are managed by a trustee within a fund separate from the Company's assets.

The expenses related to post-employment benefit under defined contribution plans for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)

	2	2013	2012
Expense related to post-employment benefit	₩	15.903	13.032
under defined contribution plans	• • • • • • • • • • • • • • • • • • • •	13,703	13,032

### (b) Defined benefit plans

The Company also operates a defined benefit pension plan for employees. The employees who chose a defined benefit pension plan will receive a defined payment upon termination of their employment if they fulfill the condition to qualify as a recipient. Before the termination of employment, the Company recognizes the pension liability related to defined benefit plans at the end of the reporting period, and measures it at the present value of the defined benefit obligation less the fair value of the plan assets. The Company uses the projected unit credit method in the actuarial valuation of plan assets and the defined benefit obligation.

(c) The amounts recognized in relation to net defined benefit liabilities in the statements of financial position as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012
Present value of funded obligations	₩	905,918	817,618
Fair value of plan assets		(805,268)	(677,362)
Net defined benefit liabilities	₩	100,650	140,256

(d) The changes in present value of defined benefit obligations for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Defined benefit obligation at the beginning of period	₩	817,618	690,321
Current service costs		118,975	99,066
Interest costs		27,942	31,156
Remeasurement:		11,553	63,184
<ul> <li>Loss from change in financial assumptions</li> </ul>		13,555	74,728
<ul> <li>Loss(Gain) from change in demographic assumptions</li> </ul>		277	(1,640)
- Others		(2,279)	(9,904)
Benefits paid		(70,170)	(66,109)
Defined benefit obligation at the end of period	₩	905,918	817,618

(e) The changes in the fair value of plan assets for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Fair value of plan assets at the beginning of period	₩	677,362	513,673	
Interest on plan assets		24,261	23,115	
Remeasurement of plan assets		86	2,732	
Contributions to plan assets(*1)		140,000	180,000	
Benefits paid		(36,441)	(42,158)	
Fair value of plan assets at the end of period	₩	805,268	677,362	

(\*1) The Company expects to make a contribution of  $\mbox{$\mathbb{W}$}140,\!000$  million to the defined benefit plan assets in 2014.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

(f) The fair value of plan assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012		
Deposits	₩	805,202	677,296		
Others		66	66		
Total	₩	805,268	677,362		

(g) The amounts recognized in the statements of comprehensive income for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012		
Current service costs	₩	118,975	99,066		
Net interest costs(*1)		3,681	8,041		
	₩	122,656	107,107		

(\*1) The actual return on plan assets amounted to \$\pmu 24,347\$ million and \$\pmu 25,847\$ million for the years ended December 31, 2013 and 2012, respectively.

The above expenses by function were as follows:

(in millions of Won)		2013	2012		
Cost of sales	₩	97,490	85,298		
Selling and administrative expenses		23,834	20,897		
Others		1,332	912		
Total	₩	122,656	107,107		

(h) Actuarial gains (losses), net of tax recognized in other comprehensive income for the year ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Beginning	₩	(149,770)	(103,947)	
Current actuarial losses		(11,467)	(60,452)	
Tax effects		2,775	14,629	
Ending	₩	(158,462)	(149,770)	

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

(i) The principal actuarial assumptions as of December 31, 2013 and 2012 are as follows:

	2013	2012
Discount rate(*1)	3.95%	3.47%
Expected future increases in salaries(*2)	3.30%	3.30%

- (\*1) Discount rate is the yield at the end of the reporting period on high quality corporate bonds that have maturity dates approximating the terms of our benefits obligations and that are denominated in the same currency in which the benefits are expected to be paid.
- (\*2) The expected future increases in salaries are based on the average salary increase rate for past three years.

All assumptions are reviewed at the end of the reporting period. Additionally, the total estimated defined benefit obligation includes actuarial assumptions associated with the long-term characteristics of the defined benefit plan.

(j) Reasonably possible changes at the reporting date to one of the relevant actuarial assumption, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(in millions of Won)		1% Increase			1% Decrease			
		Amount	Percentage(%)	Amount		Percentage(%)		
Discount rate	₩	(65,987)	(7.3)	₩	75,505	8.3		
Expected future increases in salaries		75,234	8.3		(66,959)	(7.4)		

(k) As of December 31, 2013 the maturity of the expected benefit payments are as follows:

	Wi	Within 1 year 5 y		5 years	5 years 10 years			Total	
(in millions of Won)	1	year	- 5 years	- 10 years	- 20 years	20 years		Total	
Benefits paid	₩	1,897	72,674	315,343	702,647	168,978	₩	1,261,539	

The maturity analysis of the defined benefit obligation were nominal amounts of defined benefit obligations using expected remaining working lives of employees.

### 21. Other Liabilities

Other liabilities as of December 31, 2013 and 2012 are as follows:

	2	2013	2012	
Current				
Advances received	₩	20,912	44,488	
Withholding		15,905	20,962	
Unearned revenue		1,292	5,415	
		38,109	70,865	
Non-current				
Unearned revenue		538	842	
Others		3,000	3,000	
	₩	3,538	3,842	

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

## 22. Financial Instruments

## (a) Classification of financial instruments

1) Financial assets as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

		2013	2012
Financial assets at fair value through profit or loss			
Derivatives assets held for trading	₩	7,788	6,016
Available-for-sale financial assets		3,354,770	3,062,057
Held-to-maturity investments		-	29,981
Loans and receivables		7,263,709	6,833,586
	₩	10,626,267	9,931,640

2) Financial liabilities as of December 31, 2013 and 2012 are as follows:

		2013	2012
Financial liabilities at fair value through profit or loss			
Derivatives liabilities held for trading	₩	212,427	40,755
Financial liabilities measured as amortized cost			
Trade accounts and notes payable		735,457	978,581
Borrowings		8,663,071	9,603,774
Financial guarantee liabilities(*1)		65,121	49,057
Others		916,562	1,300,526
		10,380,211	11,931,938
	₩	10,592,638	11,972,693

(\*1) Financial liabilities were recognized in connection with financial guarantee contracts as of December 31, 2013. The details of the amount of guarantees provided are as follows:

Guarantee beneficiary	Guarantee beneficiary Financial institution Foreign currency	Won equivalent		
POSCO(Guangdong)	ANZ	USD	10,000,000	10,553
Automotive Steel Co., Ltd.	BOA	USD	30,000,000	31,659

		USD	3,334,370,500	3,518,761
		CNY	350,000,000	60,932

3) Finance income and costs by category of financial instrument for the year ended December 31, 2013 and 2012 were as follows:

### ① December 31, 2013

(in millions of Won)	Finance income and costs								
		Interest income (cost)	Dividend income(*1)	Gain and loss on foreign currency transactions	Gain and loss on foreign currency translations	Gain and loss on disposal	Others	Total	Other comprehensive income
Financial assets at fair value through profit or loss	₩	-	-	-	-	8,869	1,773	10,642	-
Available-for-sale financial assets		4,568	45,829	-	-	97,013	(170,805)	(23,395)	400,577
Held-to-maturity investments		367	-	-	-	-	-	367	-
Loans and receivables		101,737	-	(8,194)	(11,425)	(80)	(898)	81,140	-
Financial liabilities at fair value through profit or loss		-	-	-	-	-	(195,719)	(195,719)	-
Financial liabilities at amortized cost		(271,020)	-	46,749	257,880		(314)	33,295	
	₩	(164,348)	45,829	38,555	246,455	105,802	(365,963)	(93,670)	400,577

(\*1) Finance income in the statement of comprehensive income includes the dividends from subsidiaries, associates, and joint ventures of \$142,383 million for the year ended December 31, 2013.

### ② December 31, 2012

(in millions of Won)	Finance income and costs								
		Interest income (cost)	Dividend income(*1)	Gain and loss on foreign currency transactions	Gain and loss on foreign currency translations	Gain and loss on disposal	Others	Total	Other comprehensive loss
Financial assets at fair value through profit or loss	₩	-	-	-	-	(1,084)	6,016	4,932	-
Available-for-sale financial assets		970	110,897	-	-	72,028	(63,466)	120,429	(153,345)
Held-to-maturity investments		1,580	-	-	-	-	-	1,580	-
Loans and receivables		111,263	-	(62,901)	(24,476)	(182)	(569)	23,135	-
Financial liabilities at fair value through profit or loss		-	-	-	-	-	(27,984)	(27,984)	-
Financial liabilities at amortized cost		(391,767)		126,193	628,822	-	(606)	362,642	
	₩	(277,954)	110,897	63,292	604,346	70,762	(86,609)	484,734	(153,345)

(\*1) Finance income in the statement of comprehensive income includes the dividends from subsidiaries, associates, and joint ventures of \W112,514 million for the year ended December 31, 2012.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### (b) Credit risk

### 1) Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposures to credit risk as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

	2013		2012
Cash and cash equivalents	₩	1,394,315	1,752,560
Financial assets at fair value through profit or loss		7,788	6,016
Available-for-sale financial assets		20,855	119,142
Held-to-maturity investments		-	29,981
Loans and other receivables		2,471,486	993,722
Trade accounts and notes receivable		3,393,444	4,087,030
Long-term trade accounts and notes receivable		4,464	274
	₩	7,292,352	6,988,725

The Company provided financial guarantees for the repayment of loans of subsidiaries, associates, and joint ventures. As of December 31, 2013 and 2012, the maximum exposure to credit risk amounted to 3579,693 million and 3651,631 million, respectively.

### 2) Impairment losses on financial assets

① Allowance for doubtful accounts as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

	2013		2012
Trade accounts and notes receivable	₩	10,100	12,204
Other accounts receivable		10,571	10,571
Long-term loans		14,453	14,453
Other assets		13	13
	₩	35,137	37,241

② Impairment losses on financial assets for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Bad debt expenses	₩	3,980	10,613	
Impairment loss on available-for-sale securities		170,805	63,466	
	₩	174,785	74,079	

③ The aging schedule and the impaired losses of trade accounts and notes receivable as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013			2012		
	Trade accounts and notes receivable		Impairment		Impairment	
Not due	₩	3,072,283	_	3,758,894	-	
Over due less than 1 month		68,759	58	120,848	11	
1 month - 3 months		26,657	674	103,407	584	
3 months - 12 months		174,479	1,241	102,255	9,458	
over 12 months		65,830	8,127	14,104	2,151	
	₩	3,408,008	10,100	4,099,508	12,204	

4 Changes in the allowance for doubtful accounts for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012	
Beginning	₩	37,241	27,212	
Bad debt expenses		3,980	10,613	
Others		(6,084)	(584)	
Ending	₩	35,137	37,241	

### (c) Liquidity risk

1) Contractual maturities for non-derivative financial liabilities, including estimated interest, are as follows:

(in millions of Won)	Во	ok value	Contractual cash flow(*3)	Within 3 months	3 months - 6 months	6 months - 1 year	1 year - 5 years	Later than 5 years
Trade accounts payable	₩	735,457	735,457	735,457	-	-	-	-
Borrowings(*1)		8,663,071	9,827,387	1,563,946	90,360	567,062	5,247,369	2,358,650
Financial guarantee liabilities(*2)		65,121	3,579,693	3,579,693	-	-	-	-
Other financial liabilities		916,562	919,516	779,375	279	12,229	127,633	
	₩	10,380,211	15,062,053	6,658,471	90,639	579,291	5,375,002	2,358,650

- (\*1) Includes cash flows of embedded derivatives instruments in relation to exchangeable bonds (exchange right).
- (\*2) For issued financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.
- (\*3) Includes estimated interest.
- 2) The maturity analysis of derivative financial liabilities is as follows:

(in millions of Won)		Vithin nonths	3 months - 6 months	6 months - 1 year	Later than 1 years	Total
Currency futures	₩	6,611	-	-	-	6,611
Currency swaps		-	-	30,353	-	30,353
	₩	6,611		30,353		36,964

### (d) Currency risk

1) The Company has exposure to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The exposure to currency risk as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013			2012		
	Assets		Liabilities	Assets	Liabilities	
USD	₩	701,159	3,815,529	876,780	4,599,558	
JPY		450,938	1,370,603	62,602	1,863,516	
CNH		76,678	-	-	-	
EUR		7,208	3,131	25,127	5,554	
Others		38,337	226	46,306	149	
	₩	1,274,320	5,189,489	1,010,815	6,468,777	

2) As of December 31, 2013 and 2012, provided that functional currency against foreign currencies other than functional currency hypothetically strengthens or weakens by 10%, the changes in gain or loss during the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013			2012		
	10% increase		10% decrease	10% increase	10% decrease	
USD	₩	(311,437)	311,437	(372,278)	372,278	
JPY		(91,967)	91,967	(180,091)	180,091	
CNH		7,668	(7,668)	-	-	
EUR		408	(408)	1,957	(1,957)	

### (e) Interest rate risk

1) The carrying amount of interest-bearing financial instruments as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	
Fixed rate			
Financial assets	₩	3,773,978	2,752,342
Financial liabilities		(8,580,517)	(9,508,984)
	$\overline{\mathbb{W}}$	(4,806,539)	(6,756,642)
Variable rate		_	
Financial liabilities	₩	(82,554)	(94,790)

2) Sensitivity analysis on the fair value of financial instruments with fixed interest rate

The Company does not account for derivative instruments such as interest swaps as hedges in fair value hedging accounting. Therefore, fluctuations in interest rates do not affect gain or loss.

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### 3) Sensitivity analysis on the fair value of financial instruments with variable interest rate

As of December 31, 2013 and 2012, provided that other factors remain the same and the interest rate of borrowings with floating rates increases or decreases by 1%, the changes in interest expense for the year ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	201	3	2012		
	1% increase	1% decrease	1% increase	1% decrease	
Variable rate	(826)	826	(948)	948	

### (h) Offsetting financial assets and financial liabilities

As of December 31, 2013 and 2012, financial assets and financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements are as follows:

### 1) December 31, 2013

(in millions of Won)					Related amounts not set off in the statement of financial position		
		gnized ıcial	Gross amounts of recognized financial instruments set off in the statement of financial position	Net amounts of financial instruments presented in the statement of financial position	Financial Instruments	Cash collateral received or pledged	Net amount
Financail Assets							
Trade accounts and notes receivable, net	₩	203,138	-	203,138	(203,138)	-	-
Financail Liabilities							
Short-term borrowings		203,138	-	203,138	(203,138)	-	-

### 2) December 31, 2012

(in millions of Won)				Related amounts not set off in the statement of financial position		
	Gross amounts of recognized financial instruments	Gross amounts of recognized financial instruments set off in the statement of financial position	Net amounts of financial instruments presented in the statement of financial position	Financial Instruments	Cash collateral received or pledged	Net amount
Financail Assets						
Trade accounts and notes receivable, net	₩ 258,680	-	258,680	(258,680)	-	-
Financail Liabilities						
Short-term borrowings	258,680	-	258,680	(258,680)	-	-

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### (g) Fair value

#### 1) Fair value and book value

The carrying amount and the fair value of financial instruments as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013				2012		
	Book Value		Fair Value	В	ook Value	Fair Value	
Assets measured at fair value							
Available-for-sale financial assets(*1)	₩	3,224,711	3,224,711	₩	2,853,766	2,853,766	
Derivatives assets held for trading(*2)		7,788	7,788		6,016	6,016	
		3,232,499	3,232,499		2,859,782	2,859,782	
Assets measured amortised cost(*3)							
Cash and cash equivalents		1,394,315	1,394,315		1,752,560	1,752,560	
Trade accounts and note receivable, net		3,397,908	3,397,908		4,087,304	4,087,304	
Loans and other receivables		2,471,486	2,471,486		993,722	993,722	
Held-to-maturity investments		_			29,981	29,981	
		7,263,709	7,263,709		6,863,567	6,863,567	
Liabilities measured at fair value					_		
Derivatives liabilities held for trading(*2)		212,427	212,427		40,755	40,755	
Liabilities measured amortised cost(*3)							
Trade accounts and notes payable		735,457	735,457		978,581	978,581	
Borrowings		8,663,071	8,943,063		9,603,774	10,145,751	
Financial guarantee liabilities		65,121	65,121		49,057	49,057	
Others		916,562	916,562		1,300,526	1,300,526	
	₩	10,380,211	10,660,203	₩	11,931,938	12,473,915	

- (\*1) The fair value of available-for-sale financial assets publicly traded is measured at the closing bid price quoted at the end of the reporting period. Meanwhile, the fair value of unquoted available-for-sale financial assets is calculated using the valuation results from an external pricing service in which weighted average cost of capital of evaluated companies is used as a discount rate. Available-for-sale financial assets which are not measured at fair value are excluded.
- (\*2) The fair value of derivatives is measured using valuation models such as Black-scholes model and others in which the market yields on government bonds are used as a discount rate
- (\*3) The fair value of financial assets and liabilities measured at amortized cost is determined at the present value of estimated future cash flows discounted at the current market interest rate. The fair value is calculated for the disclosures in the notes. On the other hand, the Company has not performed fair value measurement for the financial assets and liabilities measured at amortized cost except borrowings since the fair value is close to their carrying amounts.

#### 2) Interest rate for determining fair value

Interest rates used to discount the estimated cash flows as of December 31, 2013 and 2012 are as follows:

	2013	2012
Borrowings	0.76~4.08	1.47 ~ 4.50
	56	

#### 3) The fair value hierarchy

- ① The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in measurements.
  - Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
  - Level 2: inputs other than quoted prices that are observable for the asset or liability either directly or indirectly.
  - Level 3: inputs for the assets or liability that are not based on observable market data (that is, unobservable inputs).
- ② The fair value of financial instruments by fair value hierarchy as of December 31, 2013 and 2012 are as follows:

#### a. December 31, 2013

(in millions of Won)	]	Level 1	Level 2	Level 3	Total
Financial Assets		_		_	
Available-for-sale financial assets	₩	2,554,421	-	670,290	3,224,711
Derivatives assets held for trading		<u> </u>	7,788		7,788
	₩	2,554,421	7,788	670,290	3,232,499
Financial Liabilities					
Derivatives liabilities held for trading	₩	<u> </u>	212,427		212,427

#### b. December 31, 2012

(in millions of Won)	1	Level 1	Level 2	Level 3	Total
Financial Assets					
Available-for-sale financial assets	₩	2,182,741	-	671,025	2,853,766
Derivatives assets held for trading			6,016		6,016
	₩	2,182,741	6,016	671,025	2,859,782
Financial Liabilities					
Derivatives liabilities held for trading	₩	_	40,755		40,755

③ Changes in financial assets classified as level 3 for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012	
Beginning	₩	671,025	855,519	
Change to level 3		6,857	8,372	
Other comprehensive income		(4,015)	(192,866)	
Impairment		(3,577)	-	
Ending	₩	670,290	671,025	

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### 23. Share Capital and Capital Surplus

(a) Share Capital as of December 31, 2013 and 2012 are as follows:

(Share, Won)

		2013	2012
Authorized shares		200,000,000	200,000,000
Par value	₩	5,000	5,000
Issued shares(*1)		87,186,835	87,186,835
Shared capital(*2)	₩	482,403,125,000	482,403,125,000

- (\*1) As of December 31, 2013, total numbers of ADRs of 53,749,064 are equivalent to 13,437,266 shares of common stock.
- (\*2) As of December 31, 2013, the difference between the ending balance of common stock and the par value of issued common stock is \$\footnote{W}46,469\$ million due to retirement of 9,293,790 treasury stocks.
- (b) The changes in issued common stock for the years ended December 31, 2013 and 2012 were as follows:

(share)

		2013			2012		
		Number of					Number of
	Issu	ied shares	Treasury shares	outstanding shares	Issued shares	Treasury shares	outstanding shares
Beginning	₩	87,186,835	(9,942,391)	77,244,444	87,186,835	(9,942,391)	77,244,444
Disposal of treasury shares		-	2,539,180	2,539,180	-	-	-
Ending		87,186,835	(7,403,211)	79,783,624	87,186,835	(9,942,391)	77,244,444

(c) Capital surplus as of December 31, 2013 and 2012 are as follows:

(in millions of Won)

	2013		2012	
Additional paid in capital	₩	463,825	463,825	
Gain on disposal of treasury shares		769,215	763,867	
	₩	1,233,040	1,227,692	

#### 24. Hybrid Bonds

(a) Hybrid bonds classified as equity as of December 31, 2013 are as follows:

(in millions of Won)

	Date of issue	Date of maturity	Rate of interest (%)		2013
Hybrid bond 1-1 (*1)	2013-06-13	2043-06-13	4.30	₩	800,000
Hybrid bond 1-2 (*1)	2013-06-13	2043-06-13	4.60		200,000
Issuance cost					(3,081)
				₩	996,919

(\*1) Details of hybrid bonds as of December 31, 2013 are as follows:

(in millions of Won)	Hybrid bond 1-1	Hy brid bond 1-2		
Issue price	800,000	200,000		
Maturity date	30 years (The Company has a right to extend the maturity date)	30 years (The Company has a right to extend the maturity date)		
Interest rate	Issue date ~ 2018-06-12: 4.3% reset every 5 years as follows;  · After 5 years: return on government bond (5 years) + 1.3%  · After 10 years: additionally + 0.25% according to Step-up clauses  · After 25 years: additionally + 0.75%	Issue date ~ 2023-06-12 : 4.6% reset every 10 years as follows;  · After 10 years : return on government bond (10 years) + 1.`4%  · After 10 years : additionally + 0.25% according to Step-up clauses  · After 30 years : additionally + 0.75%		
Interest payments condition	Quaterly (Optional deferral of interest payment is available to the Company)	Quaterly (Optional deferral of interest payment is available to the Company)		
Others	The Company can call the hybrid bond at year 5 and interest payment date afterwards	The Company can call the hybrid bond at year 10 and interest payment date afterwards		

The Company holds the right to extend the maturity dates of the hybrid bonds and to defer interest payments for the hybrid bonds. If interest payments for the hybrid bonds are deferred, the Company cannot declare or pay dividends attributable to common stock. Since the Company has an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation, the hybrid bonds have been classified as equity instruments. The interest accumulated but not paid on the hybrid bonds as of December 31, 2013 amounts to \(\partial \text{Y}2,301\) million.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### 25. Reserves

(a) Reserves as of December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012	
Accumulated changes in the unrealized fair value				
of available-for-sale investments, net of tax	₩	403,939		3,362

(b) Changes in the accumulated unrealized fair value of available-for-sale investments for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012	
Beginning balance	₩	3,362	156,707	
Changes in unrealized fair value of available-for-sale investments		467,942	(206,555)	
Reclassification to profit or loss upon disposal		(93,976)	(75,518)	
Impairment of available -for-sale securities		170,805	63,466	
Tax effects		(144,194)	65,262	
Ending balance	₩	403,939	3,362	

#### 26. Treasury Shares

Based on the Board of Director's resolution, the Company holds treasury shares for the business purposes including price stabilization. The changes in treasury shares for the years ended December 31, 2013 and 2012 were as follows:

(shares, in millions of Won)	2013		2012	
	Number of shares	Amount	Number of shares	Amount
Beginning	9,942,391	₩ 2,391,406	9,942,391	2,391,406
Disposal of treasury shares	(2,539,180)	(812,283)	<u> </u>	<u> </u>
Ending	7,403,211	₩ 1,579,123	9,942,391	2,391,406

#### 27. Retained Earnings

(a) Retained earnings as of December 31, 2013 and 2012 are summarized as follows:

(in millions of Won)		2013	2012
Legal reserve	₩	241,202	241,202
Reserve for business rationalization		918,300	918,300
Reserve for research and manpower development		1,573,333	1,530,000
Appropriated retained earnings for business expansion		34,310,500	32,710,500
Appropriated ratained earnings for dividends		2,044,113	1,858,725
Unappropriated retained earnings		1,686,836	2,583,770
	₩	40,774,284	39,842,497

(b) Statements of appropriation of retained earnings as of December 31, 2013 and 2012 are as follows:

(in millions of Won)	2013	2012
Retained earnings before appropriation		
Unappropriated retained earnings carried over from prior year	₩ 291,582	284,559
Actuarial losses	(8,692)	(45,824)
Interests of Hybrid bonds	(24,161)	-
Interim dividends	(154,489)	(154,489)
Dividends (ratio) per share		
₩2,000 (40%) in 2013 ₩2,000 (40%) in 2012		
Profit for the period	1,582,596	2,499,523
Tione for the period	1,686,836	2,583,769
	-,,	_,,,
Transfer from discretionary reserve		
Reserve for research and manpower devlopment	383,333	266,667
Appropriated ratained earnings for dividends	237,543	
	620,876	266,667
Appropriation of retained earnings		
Cash dividends		
Dividends (ratio) per share	478,702	463,467
₩6,000 (120%) in 2013		
₩6,000 (120%) in 2012		
Reserve for research and manpower development	410,000	310,000
Appropriated retained earnings for business expansion	1,200,000	1,600,000
Appropriated ratained earnings for dividends		185,387
	2,088,702	2,558,854
Unappropriated retained earnings carried		
forward to subsequent year	₩ 219,010	291,582

The date of appropriation for 2013 is expected to be March 14, 2014 and the date of appropriation for 2012 was March, 22, 2013.

#### 28. Revenue

Details of revenue for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
n.			
Revenues			
Sales of goods	₩	30,436,474	35,552,319
Others		107,071	112,614
	₩	30,543,545	35,664,933

#### 29. Selling and Administrative Expenses

#### (a) Administrative expenses

Administrative expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Wages and salaries	₩	198,726	182,393
Expenses related to post-employment benefits		23,994	21,006
Other employee benefits		44,630	60,682
Travel		14,906	15,666
Depreciation		25,074	24,733
Amortization		18,126	18,214
Rental		54,931	41,332
Repairs		13,623	14,090
Advertising		89,584	102,744
Research & development		150,786	136,537
Service fees		183,053	154,363
Vehicles maintenance		7,012	7,153
Industry association fee		7,710	7,364
Training		9,593	12,007
Conference		4,956	5,178
Bad debt expenses		3,980	10,613
Others		42,282	39,833
	₩	892,966	853,908

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### (b) Selling expenses

Selling expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	ions of Won) 2013		2012	
Freight and custody expenses	₩	842,424	873,482	
Operating expenses for distribution center		9,370	8,955	
Sales commissions		70,397	75,207	
Sales advertising		3,145	4,168	
Sales promotion		6,375	6,206	
Sample		1,247	1,932	
Sales insurance premium		7,871	9,578	
	₩	940,829	979,528	

#### 30. Research and Development Expenditures Recognized as Expense

Research and development expenditures recognized as expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012
Selling and administrative expenses	₩	150,786	136,537
Cost of sales		364,876	376,650
	₩	515,662	513,187

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### 31. Adjusted Operating Profit

Adjusted operating profits which include the other profits or losses excluded from operating profit but reflect the results of the Company's operations for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013	2012
Operating profits on the statement of comprehensive income	₩ 2,215,133	2,789,597
Add		
Gain on disposals of property, plant and equipment	6,773	27,688
Gain on disposals of investments in subsidiaries, associates and joint ventures	14,544	8,693
Reversal of impairment loss of property, plant and equipment	-	1,606
Gain on disposals of assets held for sale	67,875	1,150
Others	50,856	30,600
	140,048	69,737
Deduct		
Loss on disposals of property, plant and equipment	(94,533)	(84,990)
Impairment loss on property, plant and equipment	(5,697)	-
Impairment loss on intangible assets	(581)	(6,495)
Loss on disposals of intangible assets	(315)	(617)
Donations	(40,319)	(62,684)
Idle tangible assets expenses	(16,800)	(30,743)

Others		1,772	6,111	
		967,073	1,356,539	
Finance costs				
Interest expenses		271,020	391,767	
Loss on foreign currency transactions		261,019	213,350	
Loss on foreign currency translations		18,159	35,219	
Loss on valuation of derivatives		195,719	-	
Impairment loss on available-for-sale investment		170,805	63,466	
Others		1,638	55,489	
	₩	918,360	759,291	

# Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

### 33. Other Non-Operating Income and Expenses

Details of other non-operating income and expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012	
Other non-operating income				
Gain on disposals of property, plant and equipment	₩	6,773	27,688	
Gain on disposals of investments in subsidiaries, associates and joint ventures		14,544	8,693	
Reversal of impairment loss of property, plant and equipment			1,606	
Gain on disposals of assets held for sale		67,875	1,150	
Others		50,856	30,600	
		140,048	69,737	
Other non-operating expenses				
Loss on disposals of property, plant and equipment		94,533	84,990	
Impairment loss on property, plant and equipment		5,697	· -	
Impairment loss on intangible assets		581	6,495	
Loss on disposals of intangible assets		315	617	
Donations		40,319	62,684	
Idle tangible assets expenses		16,800	30,743	
Impairment loss on investments in subsidiaries, associates and joint ventures		235,794	1,102	
Loss on disposals of investments in subsidiaries, associates and joint ventures		12,295	17,575	
Impairment loss on assets held for sale		1,814		
Loss on disposals of assets held for sale		-	9,391	
Others		10,451	120,704	
	₩	418,599	334,301	

#### 34. Expenses by Nature

Expenses that are recorded by nature as cost of sales, selling and administrative expenses and other non-operating expenses in the statements of comprehensive income for the years ended December 31, 2013 and 2012 were as follows (excluding finance costs and income tax expenses):

(in millions of Won)	2013		2012
Changes in inventories(*1)	₩	304,068	570,136
Raw materials and consumables used		19,380,227	24,090,512
Employee benefits expenses(*3)		1,425,008	1,335,949
Outsourced processing cost		2,078,917	1,996,707
Depreciation(*2)		1,932,002	1,840,807
Amortization		38,067	40,386
Ordinary research & development expenses		515,662	513,187
Electricity and water expenses		836,199	634,045
Service fees		243,954	218,019
Advertising		89,584	102,744
Freight and custody expenses		842,424	873,482
Sales commissions		70,397	75,207
Loss on disposals of property, plant and equipment		94,533	84,990
Other expenses		895,969	833,466
	₩	28,747,011	33,209,637

<sup>(\*1)</sup> Changes in inventories are the changes in product, semi-finished products and by-product.

<sup>(\*3)</sup> The details of employee benefits expenses for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013		2012	
Wages and salaries	₩	1,286,449	1,215,810	
Expenses related to post-employment benefits		138,559	120,139	
	₩	1,425,008	1,335,949	

<sup>(\*2)</sup> Includes depreciation of investment property.

#### 35. Income Taxes

(a) Income tax expense for the years ended December 31, 2013 and 2012 are as follows:

(in millions of Won)		2013	2012		
Current income taxes(*1)	₩	291,035	212,107		
Deferred income taxes		254,790	330,760		
Less: Items credited directly to shareholders' equity		(143,126)	79,891		
Income tax expense	₩	402,699	622,758		

- (\*1) Additional tax payments (or tax returns) arising from finalized tax assessment are added or deducted in current income taxes.
- (b) The expected amount of income tax expense based on statutory rates compared to the actual amount of taxes recorded by the Company for the years ended December 31, 2013 and 2012 are as follows:

(in millions of Won)	2	013	2012	
Profit before income tax expense	₩	1,985,295	3,122,281	
Income tax expense computed at statutory rate		480,441	755,592	
Adjustments:		(77,742)	(132,834)	
Tax credit		(134,670)	(160,139)	
Additional payment of income taxes		2,253	3,328	
Investments in subsidiaries and associates		57,823	-	
Tax effect due to permanent differences		(11,071)	29,722	
Others		7,923	(5,745)	
Income tax expense	₩	402,699	622,758	
Effective tax rate (%)		20.3%	19.9%	

(c) The income taxes credited (charged) directly to equity for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)		2013	2012
Net changes in the unrealized fair value of available-for-sale securities	₩	(144,194)	65,262
Defined benefit plan actuarial losses		2,775	14,629
Gain on disposal of treasury shares		(1,707)	-
	₩	(143,126)	79,891

(d) The movements in deferred tax assets (liabilities) for the years ended December 31, 2013 and 2012 were as follows:

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### 36. Earnings per Share

(a) Basic and diluted earnings per share for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won except per share information)		2013	2012
Profit for the period	₩	1,582,596	2,499,523
Interests of hybrid bonds		(18,314)	-
Weighted-average number of			
common shares outstanding(*1)		78,009,654	77,244,444
Basic and diluted earnings per share	₩	20,052	32,359

(\*1) The weighted-average number of common shares used to calculate basic and diluted earnings per share are as follows:

(share)	2013	2012
Total number of common shares issued	87,186,835	87,186,835
Weighted-average number of treasury shares	(9,177,181)	(9,942,391)
Weighted-average number of		
common shares outstanding	78,009,654	77,244,444

Since there were no potential shares of common stock which had dilutive effects as of December 31, 2013 and 2012, diluted earnings per share is equal to basic earnings per share.

.

#### **37. Related Party Transactions**

(c) For the years ended December 31, 2013 and 2012, details of compensation to key management officers were as follows:

(in millions of Won)		2013	2012		
Short-term benefits	₩	31,332	34,471		
Long-term benefits		8,004	14,934		
Retirement benefits		6,296	6,644		
	₩	45,632	56,049		

Key management officers include directors (including non-standing directors), executive officials and fellow officials who have significant influence and responsibilities in the Company's business and operations. In addition to the compensation described above, the Company provided stock appreciation rights to its executive officers and recorded stock compensation expenses amounted to \$436 million for the year ended December 31, 2012 (2013: nil).

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### 38. Commitments and Contingencies

#### (a) Contingent liabilities

Contingent liabilities may develop in a way not initially expected. Therefore, management continuously assesses contingent liabilities to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognized in the financial statements of the period in which the change in probability occurs (except in the extremely rare circumstances where no reliable estimate can be made).

Management makes estimates and assumptions that affect disclosures of commitments and contingencies. All estimates and assumptions are based on the evaluation of current circumstances and appraisals with the supports of internal specialists or external consultants.

Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. Internal and external lawyers are used for these assessments. In making the decision regarding the need for provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiently reliable estimate of the amount of loss.

#### (b) Commitments

The Company entered into long-term contracts to purchase iron ore, coal, nickel and others. The contracts of iron ore and coal generally have terms of more than three years and the contracts of nickel have terms of more than one year. These contracts provide for periodic price adjustments based on the market price. As of December 31, 2013, 193million tons of iron ore and 14 million tons of coal remained to be purchased under such long-term contracts.

The Company entered into an agreement with Tangguh Liquefied Natural Gas (LNG) Consortium in Indonesia to purchase 550 thousand tons of LNG annually for 20 years commencing in August 2005. The purchase price is subject to change, based on changes of the monthly standard oil price (JCC) and with a price ceiling.

As of December 31, 2013, the Company entered into commitments with Korea National Oil Corporation for long-term foreign currency borrowings, which are limited up to the amount of USD 6.86 million, USD 6.58 million and USD 4.12 million. The borrowings are related to the exploration of gas hydrates in Aral Sea, Uzbekistan, the exploration of gas hydrates in Namangan-Chust and the exploration of gas hydrates in Western Fergana-Chenavard, respectively. The repayment of the borrowings depends on the success of the projects. The Company is not liable for the repayment of full or part of the money borrowed if the respective projects fail. The Company has agreed to pay a certain portion of its profits under certain conditions, as defined by the borrowing agreements.

As of December 31, 2013, the Company has provided two blank promissory notes and a blank check to Korea Resources Corporation as collateral for long-term domestic borrowings, and has provided six blank promissory notes and three blank checks to Korea National Oil Corporation as collateral for long-term foreign currency borrowings.

## Notes to the Separate Financial Statements, Continued As of December 31, 2013 and 2012

#### (c) Litigation in progress

#### 1) Civil lawsuits with Nippon Steel & Sumitomo Metal Corporation

During the year ended December 31, 2012, Nippon Steel & Sumitomo Metal Corporation filed a civil lawsuit in the Tokyo District Court of Japan against POSCO and POSCO Japan Co., Ltd., a subsidiary of POSCO, to prohibit production and sales of grain oriented electrical steel sheets using improperly acquired trade secrets and seeking compensation from the Company of JPY 98.6 billion (\text{\text{\$\psi}}99.6 billion). Through trials to the year ended December 31, 2013, the Company submitted its responses that the Japan court did not have jurisdiction on this lawsuit as it should be judged by Korean law and the Company developed grain oriented electrical steel sheets using the Company's own technologies. As of December 31, 2013, the Japan court has not made any judgments on this matter. Since the Company does not believe that it is probable that an outflow of resources will be required, the Company has not recorded any provision for this lawsuit as of December 31, 2013.

In addition, Nippon Steel & Sumitomo Metal Corporation filed a civil lawsuit in the New Jersey federal court, United States, against POSCO and POSCO America Co., Ltd., a subsidiary of POSCO, claiming infringement of intellectual property rights related to the production of grain oriented electrical steel sheets. As of December 31, 2013, no claim amount has been made and the Company is under discovery proceedings related to this matter. Due to the early stage of the litigation and the inherent uncertainties, the Company is not able to reliably estimate the amount of compensation and timing, if any, that might be awarded to Nippon Steel & Sumitomo Metal Corporation. Consequently, it is not possible for the Company to make an estimate of the expected financial effect that will result from the ultimate resolution of this civil lawsuit. Therefore, the Company has not recorded any provision for this lawsuit in the U.S. as of December 31, 2013.

#### 2) Other lawsuits and claims

The Company is involved in 37 other lawsuits and claims for alleged damages aggregating to  $\mathbb{W}69$  billion as of December 31, 2013, which arose in the ordinary course of business. In the opinion of management, these 37 lawsuits and claims will not have a material adverse effect on the Company's financial position, operating results or cash flows. Additionally, no provision is recorded in connection with these 37 lawsuits and claims as of December 31, 2013 because the Company has not concluded that a probable loss has occurred on any of the lawsuits and claims.

(d) The Company has provided a supplemental funding agreement, as the largest shareholder, as requested from the creditors, including Norddeutsche Landesbank, for seamless funding to the construction of new power plant by POSCO Energy Co., Ltd..

### 39. Cash Flows from Operating Activities

Changes in operating assets and liabilities for the years ended December 31, 2013 and 2012 were as follows:

(in millions of Won)	2013	2012

Financial guarantee liabilities		20,812	45,442

#### Independent Auditors' Review Report on internal Accounting control system

#### English Translation of a Report Originally Issued in Korean

To the President of POSCO:

We have reviewed the accompanying Report on the Operations of Internal Accounting Control System ("IACS") of POSCO (the "Company") as of December 31, 2013. The Company's management is responsible for designing and maintaining effective IACS and for its assessment of the effectiveness of IACS. Our responsibility is to review management's assessment and issue a report based on our review. In the accompanying report of management's assessment of IACS, the Company's management stated: "Based on the assessment on the operations of the IACS, the Company's IACS has been effectively designed and is operating as of December 31, 2013, in all material respects, in accordance with the IACS Framework issued by the Internal Accounting Control System Operation Committee."

We conducted our review in accordance with IACS Review Standards, issued by the Korean Institute of Certified Public Accountants. Those Standards require that we plan and perform the review to obtain assurance of a level less than that of an audit as to whether Report on the Operations of Internal Accounting Control System is free of material misstatement. Our review consists principally of obtaining an understanding of the Company's IACS, inquiries of company personnel about the details of the report, and tracing to related documents we considered necessary in the circumstances. We have not performed an audit and, accordingly, we do not express an audit opinion.

A company's IACS is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in conformity with Korean International Financial Reporting Standards. Because of its inherent limitations, however, IACS may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on our review, nothing has come to our attention that Report on the Operations of Internal Accounting Control System as of December 31, 2013 is not prepared in all material respects, in accordance with IACS Framework issued by the Internal Accounting Control System Operation Committee.

This report applies to the Company's IACS in existence as of December 31, 2013. We did not review the Company's IACS subsequent to December 31, 2013. This report has been prepared for Korean regulatory purposes, pursuant to the External Audit Law, and may not be appropriate for other purposes or for other users.

Seoul, Korea February 25, 2014

KPMG Samjong Accounting Corp.

#### Notice to Readers

This report is annexed in relation to the audit of the separate financial statements as of December 31, 2013 and the review of internal accounting control system pursuant to Article 2-3 of the Act on External Audit for Joint-stock Companies of the Republic of Korea.

#### Report on the Operations of Internal Accounting Control System

To the Board of Directors and Audit Committee of POSCO:

I, as the Internal Accounting Control Officer ("IACO") of POSCO (the Company"), have assessed the status of the design and operations of the Company's internal accounting control system ("IACS") as of December 31, 2013.

The Company's management, including IACO, is responsible for the design and operations of its IACS. I, as the IACO, have assessed whether the IACS has been effectively designed and is operating to prevent and detect any error or fraud which may cause any misstatement of the financial statements, for the purpose of establishing the reliability of financial statement preparation and presentation for external uses. I, as the IACO, applied the IACS Standards established by the IACS Operations Committee for the assessment of design and operations of the IACS.

Based on the assessment of the operations of the IACS, the Company's IACS has been effectively designed and is operating as of December 31, 2013, in all material respects, in accordance with the IACS Standards issued by the IACS Operations Committee.

January 27, 2014

Chung, Joon-Yang, Chief Executive Officer

Park, Ki-Hong, Internal Accounting Control Officer
