## **Notice Concerning Acquisition of Asset**

Japan Rental Housing Investments Inc. (hereafter referred to as the "Investment Corporation") hereby announces that Mi-Casa Asset Management Inc. (hereafter referred to as the "Asset Manager"), asset manager of the Investment Corporation, has decided at a meeting of its Investment Committee and Board of Directors held earlier today to acquire the following asset (hereafter referred to as the "Acquisition").

### I. Basic Policy

In order to distribute stable profits to investors over the long term, the Investment Corporation will aim for continued growth of the asset size and increase of the portfolio's quality by (1) acquiring new properties in the Tokyo metropolitan area centering on the 23 wards of Tokyo (over JPY1bn per property as a general) as well as new regional top-class properties outside the Tokyo metropolitan area (over JPY1bn per property as a general), and (2) selling primarily small (especially properties below JPY500mn) and relatively older properties outside the Tokyo metropolitan area to increase management efficiency.

### II. Reasons for the Acquisition

The Asset Manager decided on the investment after having comprehensively considered the location of the asset to be acquired, its characteristics (total of 224 units (1R: 14 units, 1K: 168 units and 1DK: 42 units)) as well as the profitability of the property, and as a result, judged that the property to be acquired would be an appropriate fit according to the criterion outlined in Basic Policy (1) above.

With the Acquisition, the total asset size is expected to reach approximately 193.0 billion yen for the 190 portfolio properties (acquisition price base, total of 11,814 units.)

the actual acquisition prices, and show the sum of the amounts rounded off to the nearest thousand yen. (Note 3) In the column "Share," the figures are calculated as a percentage of the acquisition price of the concerned property under management to the aggregate total of acquisition prices of properties under management and rounded off to the first decimal place.
