100 common shares of the Company per one (1) stock acquisition rights

In case of a stock split or stock consolidation by the Company, the formula below shall be used to adjust the number of shares in scope of the stock acquisition rights (the "Number of Allotted Shares"). However, such an adjustment shall be made to the number of shares in scope of stock acquisition rights to which the Optionee has not executed their rights as at the time of stock split/consolidation. Any fraction of a share resulting from such adjustment shall be rounded down to the nearest whole share.

$$\frac{\text{The Number of Allotted Shares after adjustment}}{\text{The Number of Allotted Shares before adjustment}} = \text{Ratio of stock split or consolidation}$$

Additionally, if any circumstance not described above necessitates an adjustment to the Number of Allotted Shares, it shall be adjusted within the rational boundaries.

(b) Amount to be paid upon exercise of each stock acquisition rights

The amount of payment for the exercise of the stock acquisition rights shall be an amount per share to be delivered upon exercise of the stock acquisition rights (the "Exercise Price"), multiplied by the number of shares to be issued.

If the Company proceeds with a stock split or consolidation, the formula below shall be used to adjust the Exercise Price, and any fraction of a yen after such adjustment shall be rounded up to the nearest whole yen.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of stock split or consolidation}}$$

If the Company issues new shares that is less than the market price or dispose of treasury stocks (excluding any exercise of the stock acquisition rights), the formula below shall be used to adjust the Exercise Price, and any fraction of a yen after such adjustment shall be rounded up to the nearest whole yen.

"The number of issued and outstanding shares" used in the above formula shall be the total number of issued and outstanding shares of the Company less the number of treasury stocks held by the Company, and if the Company disposes of treasury stocks, "newly issuance (issued)" shall be read as the "disposition of (disposed) treasury stocks".
