## 3. Other

### 1. Changes in significant accounting policies, Changes in accounting estimates and Restatement

(1) Changes due to revisions in accounting standards and others: None

(2) Changes other than in the above item (1): None

(3) Changes in accounting estimates: None

(4) Restatement: None

### 2. Number of investment units issued

(1) The number of investment units issued (including treasury investment units) as of the period-end

As of August 31, 2015: 484,522 units

As of February 28, 2015: 461,422 units

(2) The number of treasury investment units as of the period-end

As of August 31, 2015: - units

As of February 28, 2015: - units

Disclaimer:

The above forecasts are based on information currently available to NAF and on certain assumptions deemed to be reasonable. Actual operations may differ substantially due to a number of factors.

## **19th Period (August 2015) Overview of Investment**

### **External Growth (Acquisition of properties)**

During the period under review, NAF acquired a total of 4 new properties with a total acquisition price of ¥7,185 million: 1 property in March 2015 and 3 properties in April 2015.

### **Internal Growth (Management and operation of properties held by NAF)**

NAF has chosen Mitsui Fudosan Housing Lease Co., Ltd. as master property management company (below, "Master PM") on management of NAF's rental apartments portfolio. The company and the asset management company collaborate in the management of properties NAF owns with the aim of implementing effective management and operational activities based on regional characteristics and the individual features of each property. These include efforts such as speedy management and operations by the Master PM by applying the portfolio management system, the tenant recruiting activities suited to the circumstances of individual properties, the streamlining efforts such as reduction of management cost, etc., and providing tenants the "accommodation" services by corresponding to various needs based on the results of resident questionnaires.

In order to maintain and improve the competitiveness of NAF's portfolio, operations are adequately planned and carried out at the asset management company. These include appropriate renewal work according to the property age, and work to enhance the property value at Okawabata Apartment Communities, which is one of the core properties of NAF. In addition, NAF is not only making continuous efforts to reduce costs, but also introducing such features as environmentally friendly, energy-saving facilities in a timely manner.

In the period under review, NAF carried out renovations in common areas and private areas at Okawabata Apartment Communities. Changes implemented at other properties include reviews of contract capacity for electricity through the introduction of controllable circuit breakers, and work to change the lighting in common areas to LED lighting.

### **Financial Strategy (Overview of funds procurement)**

One of NAF's basic policies is to carry out financing in a conservative manner while giving consideration to such matters as maintaining stable distributions in the medium and long term, and paying attention to various risk factors and market trends. Based on this policy, during the period under review, NAF issued investment units with a total amount of ¥9,916 million as funds for the acquisition of new properties, etc. Also, while taking into account market trends and interest rate levels, NAF refinanced its existing loans and repaid ¥5,000 million of its loans.

As a result, at the end of the period, total interest-bearing debt amounted to ¥149,500 million, the long-term loans ratio was 96.7%, the fixed-rate loans ratio was 96.7%, the LTV (loan-to-value) ratio was 50.6%. The average annual current maturity of long-term interest-bearing loans was 4.8 years and the number of financial institutions was 20. Furthermore, the weighted average interest rate at the end of the period was 0.85%.

NAF has also established a commitment line with a total maximum borrowing amount of ¥10,000 million, for the purpose of securing flexible and stable fund procurement methods. In the period under review, the expiration date of the commitment line agreement was extended for another year.

With respect to financing through investment corporation bonds, NAF filed a shelf-registration statement regarding its establishment of a maximum issuance amount for investment corporation bonds for public offering in July 2015. The remaining balance of the planned issuance amount at the end of the period is ¥100,000 million.

Planned issuance amount	Up to ¥100,000 million
Scheduled period of issuance	From July 18, 2015 to July 17, 2017
Purpose for funds	Acquisition of specified new assets (as defined in Article 2, Paragraph 1 of the Act on Investment Trusts and Investment Corporations), repayment of borrowings, redemption of investment corporation bonds, repayment of tenant security deposit, payments for maintenance and renovations, and operational use

Rating of NAF as of August 31, 2015 is as follows.

Rating agency	Rating subject	Rating
Rating and Investment Information, Inc. (R&I)	Issuer credit rating	A A - (Trend of rating: Stable)
Standard & Poor's Ratings Japan K.K. (S&P)	Long-term corporate Short-term corporate	A + (Outlook for rating: Stable) A -1
Moody's Japan K.K. (Moody's)	Issuer credit rating	A 3 (Outlook for rating: Stable)

### **Overview of Performance and Distribution**

In the period under review, NAF recorded total revenues of ¥10,435 million, operating income of ¥4,372 million, income before income taxes of ¥3,725 million and net income of ¥3,725 million. In addition to the above, NAF has decided to distribute nearly the entire amount of earnings in accordance with the Distribution Policy (Article 34 of the Articles of Incorporation) set forth by NAF. The distribution per unit was ¥7,688.

### **Management Policy and Issues for the 20th Period Onward**

NAF has always aimed to maximize its unitholder value through investments in "Accommodation Assets" and utilization of the Mitsui Fudosan Group as well as formulation and management of a high quality portfolio centered on "Rental Apartments" located in the 23 wards of Tokyo.

From the 20th period onward, we aim to manage our portfolio stably based on the above-mentioned policies and further maximize the unitholder value by achieving internal and external growth expectations.

On October 1, 2015, the residential leasing business of Mitsui Fudosan Co., Ltd. was transferred to Mitsui Fudosan Residential Co., Ltd. by way of a company split. Accordingly, residential leasing business and residential property sales business were integrated within Mitsui Fudosan Residential Co., Ltd.

### **External Growth (New acquisition of properties)**

We will strive to obtain the best real estate information possible by utilizing our pipeline to the Mitsui Fudosan Group and fortifying the asset management company's unique information channel. Our basic strategy will be to stably expand our portfolio based on the acquisition of the Park Axis Series developed by the Mitsui Fudosan Group in addition to the Park Cube Series constructed by companies outside the Mitsui Fudosan Group. Moreover, we will work to steadily acquire properties considered to possess mid- to long-term competitive advantages through NAF's individual strategies such as enhancing our portfolio within the 23 wards of Tokyo and other parts of the Tokyo area, mainly with single-occupant and compact residential properties for which a high occupancy rate is expected, and carefully selecting properties for investment in major cities of regional areas. We will also consider making investments in "Equity Interests in Anonymous Partnerships relating to Real Estate" or "Real Estate-Backed Securities" (including obtaining first refusal rights) for such purposes as securing opportunities of property acquisitions.

The main part of NAF's acquisition strategy continues to be stable acquisition of "Rental Apartments". However, we will continue making acquisitions of "Dormitories" and "Student Apartments", "Corporate Housing" and "Senior Residences", as the investment market in "Other Accommodation Assets" appears to have matured. In the management of its portfolio, NAF has set the upper limit of the share of "Other Accommodation Assets" in the overall portfolio to around 10% on an acquisition price basis for the time being. The share of "Other Accommodation Assets" in the overall portfolio was 3.6% at the end of the 19th period.

We will also continue to work towards achieving high quality due diligence at acquiring properties in order to avoid risk.

### **Internal Growth (Management and operation of leasehold properties)**

NAF will aim to improve its rent levels and occupancy rate through the formulation and implementation of a leasing strategy that takes into account the characteristics of each individual property with the objective of maximizing rent revenues over the mid- to long-term range of years. NAF will review the adequacy of the grade of property management, cost of management and operation as to each invested property in an appropriate timeframe and manner, and reduce the cost by reviewing rationally the management cost by utilizing the merits of outsourcing all property management tasks to the Master PM. NAF will continue to maintain and enhance market competitiveness by implementing strategic renovations, primarily at Okawabata Apartment Communities.

Further, NAF will collaborate with the Mitsui Fudosan Group to establish brand power by concentrating on the "Park Axis" brand, NAF's main investment asset to penetrate the market and further enhance brand recognition in the rental housing market.

### **Financial Strategy**

NAF will emphasize the continued use of long-term, fixed-rate loans by taking measures to counter future interest rate and refinancing risks. With respect to the upper limit of LTV (loan-to-value) ratio, although the limit is set at around 60% in the asset management guidelines,

NAF is aiming for a near-term upper limit at a level of around 55% in its external growth process.

NAF will examine the necessity of issuance of new units by paying attention to market trends and distribution amount levels, and taking into consideration the demand for funds for the purpose of property acquisition, as well as our financial position. Additionally, NAF will examine future issuances of investment corporation bonds in accordance with market trends, within the range of the remaining balance of planned issuance amount for which shelf-registration of NAF bonds has been carried out.

**Significant Subsequent Events**

Not applicable

## **Forecasts of Investment Performance**

The forecasts for the 20th period (from September 1, 2015 to February 29, 2016) are as follows.

*(in millions of yen, rounded down; except as noted)*

	20th period (February 2016)
Total revenues	10,369
Operating income	4,429
Income before income taxes	3,780
Net income	3,779
Distribution per unit (not including distributions in excess of earnings) (yen)	7,800
Distribution in excess of earnings per unit (yen)	—

### **Notes: Underlying assumptions of forecasts**

**Number of operating days:** -From September 1, 2015 to February 29, 2016 (182 days)

**Investment assets:** -The number of properties held by NAF as of the date of this document is 116. In the forecasts of investment performance, it is assumed that no subsequent transfer of properties (such as acquisition of new properties, sale of properties acquired, etc.) shall occur until February 29, 2016.

-The average month-end occupancy rate during the 20th period for total properties is expected to be 96.1%.

**Expenses:** -The following expenses are assumed.

*(in millions of yen)*

	20th period
Fixed property taxes and urban planning taxes	580
Depreciation and amortization	2,073
Interest expense and interest expenses on investment corporation bonds	645
Amortization of investment unit issuance expenses	4

**Interest-bearing debt:** - It is assumed that NAF's balance of interest-bearing debt that is ¥149,500 million as of the date of this document shall not change until February 29, 2016.

**Number of units issued:** - We assume 484,522 units outstanding as of the date of this document.

- It is assumed that, there shall be no issuance of new units until February 29, 2016.

The forecasts are the figures calculated based on the above assumptions at the time of preparation of this information. Therefore, actual total revenues, income before income taxes, net income and distribution per unit may change due to future acquisitions or sale of investment assets, fluctuation in the real estate market or other changes in the environment in which NAF operates. Accordingly, the forecasts are not a guarantee of any cash distribution amount.
