**Press Release** 

Company: Idemitsu Kosan Co.,Ltd. (Code Number: 5019, TSE 1<sup>st</sup> Section) Representative: CEO, Representative Director Takashi Tsukioka Contact : Treasury Department, Investor Relations Office, General Manager, Taiji Hashidoko Tel: +81-3-3213-9307

Company: Showa Shell Sekiyu K.K. (Code Number: 5002, TSE 1<sup>st</sup> Section) Representative: Group CEO, Representative Director Tsuyoshi Kameoka Contact : Corporate Communications, Tomoji Nakamura Tel: +81-3-5531-5793

### Execution of Memorandum of Understanding Regarding the Business Integration of Idemitsu Kosan Co.,Ltd. and Showa Shell Sekiyu K.K.

Idemitsu Kosan Co.,Ltd. (3-1-1 Marunouchi, Chiyoda-ku, Tokyo: CEO, Representative Director, Takashi Tsukioka) ("Idemitsu") and Showa Shell Sekiyu K.K. (Daiba 2-3-2, Minato-ku, Tokyo: Group CEO, Representative Director, Tsuyoshi Kameoka) ("SSSKK") (collectively, the "Companies" or "we"), as announced in the press release of the "Announcement Regarding Acquisition of Showa Shell Sekiyu K.K. Shares (33.3% of the voting rights) from Royal Dutch Shell plc" issued by Idemitsu on July 30, 2015 and the "Full-scale Discussions Aimed at Management Integration with Idemitsu Kosan Co.,Ltd., Notice of Changes of Major Shareholder" issued by SSSKK on July 30, 2015, have decided to fully devote ourselves to negotiations toward the business integration of the Companies, and today have signed a Memorandum of Understanding for the Business Integration of Idemitsu and SSSKK based on the spirit of equal partnership (the "Business Integration") (the "MoU").

#### 1. Objectives of the Business Integration

(1) Objectives of the Business Integration

The Companies, as energy companies whose main businesses consist of providing oil refining and distribution services, have a social responsibility to provide a stable supply of energy that ensures the

basic livelihood of Japanese citizens - in other words, to support the energy security of Japan.

In recent years, the domestic oil market has been in a prolonged period of oversupply, which endangers the stability of business continuity for players across the entire value chain from refiners to distributors. The oil industry has implemented certain countermeasures including an effort to reduce refining capacity in accordance with the "Sophisticated Method of Energy Supply Structures Law," but domestic demand is expected to decline further. With this prolonged contraction of the overall market, the industry cannot expect any healthy future development, making it difficult to establish a stable business platform supporting Japan's energy security.

We have agreed, in the MoU, to create an industry-leading player with an unparalleled competitive position by combining the strengths and management resources of the Companies. The new company will lead the effort to resolve various structural issues in the industry to improve the lives of Japanese citizens through more efficient and stable energy supplies. In addition, we have confirmed our common intent to proceed with the Business Integration based on the following spirit.

- (i) The Companies, as partners to develop their businesses into the future, will establish a new company (the "NewCo") through the Business Integration based on the spirit of equal partnership.
- (ii) The NewCo, in an effort to establish a company where its employees can enjoy a sense of pride and high level of satisfaction, will define a new culture (such as management philosophy, core values, policies and processes, and a code of conduct) envisioning the next 100 years, while respecting the existing sound corporate culture of the Companies; furthermore, it will implement this new culture from the first day after the Business Integration.
- (iii) The NewCo will create a policy and an environment that will ensure all its employees work as "members of the NewCo" and not based on their original organizations.
- (iv) The NewCo will value the relationship of trust with dealers/distributors and business partners, and will build a powerful supply chain based on a shared strategy.

#### (2) Vision / Management Philosophy / Core Values of the NewCo

The Companies will continue to discuss the Business Integration issues further in order to achieve the following vision.

- (i) The NewCo, as the leading company with exceptional efficiency, will develop a powerful supply chain together with its dealers/distributors and business partners and, simultaneously, lead the reform of the Japanese oil industry, which faces various structural issues, and stabilize its earnings base in order to support Japan's energy security.
- (ii) The NewCo will use its stabilized earnings base to actively expand overseas, apply the experience and know-how developed to date to establish a new, Japan-originated business model for energy companies, and realize sustainable growth.

The NewCo's management philosophy and core values will be newly defined while respecting the philosophies developed by the Companies over the course of their respective histories. At the same time, the management philosophy and core values shall reflect the NewCo's universal values suitable for the next 100 years of its global development.

#### (3) NewCo's Basic Strategy

The NewCo's basic strategy for its domestic downstream and petrochemical businesses will be as follows:

- to outperform competitors in efficiency to establish a leading company with the highest profitability and create a domestic oil refining/marketing business capable of generating stable cash flows;
- (ii) under the circumstance where the drop in domestic demand is structurally unavoidable, to actively integrate and rationalize the assets owned by the Companies and pursue collaborations with third parties that would lead to an effective utilization of existing assets;
- (iii) within the domestic oil refining/marketing business areas, to make disciplined investments in areas where the NewCo has a competitive advantage;
- (iv) to place emphasis on the value of transactions with dealers/distributors based on our relationship of mutual trust and to further strengthen the supply chain centered around dealers/distributors;
- (v) to make the most of the potential of our competitive refineries while domestic demand continues to shrink, and to develop a system enabling flexible demand/supply adjustments from the perspective of profit maximization; and
- (vi) to aim to expand the competitive petrochemical business.

With respect to the NewCo's energy solution business, resource business and other businesses, the Companies will discuss basic strategies based on the following principles:

- (i) In order to achieve the NewCo's vision to become the "Japan-originated new energy company," the NewCo will anticipate society's ever-changing needs for energy, consistently supply energy as required by society, and expand its competitive businesses without missing opportunities.
- (ii) With respect to businesses operated by only one of the Companies, after gaining a deep understanding of those businesses through concentrated study sessions for a certain period after the Business Integration, the management of the NewCo will then transparently discuss the strategic positions of those businesses and the NewCo's competitiveness and economic standing in order to decide on which business domains to deploy resources towards.
- (iii) With respect to the continuation of the Companies' existing projects, the management of the NewCo will transparently discuss this by considering of economic rationality and other

#### factors.

The Companies have, to date, proactively achieved profitability improvement through improved efficiency of refineries as well as rationalization of logistics and their sales network. On top of their individual efforts, we will aim to achieve approximately 50 billion yen of annual synergies by the 5<sup>th</sup> anniversary of the Business Integration through cost reduction and enhanced added-value in refinery, logistics, sales, administrative functions, and other corporate functions. We will also study and discuss other possible synergies expected from the Business Integration.

#### 2. Overview of the Business Integration

#### (1) Method of the Business Integration

The Companies have set a merger as the basic structure of the Business Integration subject to further consideration and discussion, and will definitely agree on the method of the Business Integration.

#### (2) Schedule of the Business Integration

The schedule of the Business Integration will be discussed further, with the aim to commence due diligence of the Companies and their subsidiaries after the signing of the MoU, followed by the signing of a binding definitive agreement (the "Definitive Agreement") providing for the definitive details and terms of the Business Integration, approval at the shareholders meetings of both parties, and the launch of the NewCo between October 2016 and April 2017. However, if necessary, changes to the schedule may be made upon consultation between the Companies for certain reasons such as delays in the review process by the relevant competition law authorities, delays in the progress of post-merger integration preparation required for a smooth start of operations on Day 1, and for other reasons.

#### (3) Integration Preparation Committee / Subcommittee Meetings

The Companies will continue to discuss and deliberate on the Business Integration in the Integration Preparation Committee meetings, co-chaired by the Representative Directors of the Companies, and subcommittee meetings organized by members appointed by the respective Representative Directors.

(Unit: millions of yen unless noted otherwise)

Note 1: Idemitsu conducted a 1:4 share split on its common shares owned by shareholders recorded as of December 31, 2013 with the effective date of January 1, 2014. Thus, the 125 yen dividend per share for the business year ending on March 31, 2014 is the combined amount of the 100 yen interim dividend per share paid before the share split and 25 yen year-end dividend per share paid after the share split.

#### 4. Status after the Business Integration

#### (1) Name of the NewCo

The name of the NewCo is currently undetermined and is scheduled to be decided upon further discussion between the Companies.

#### (2) Location of the Head Office of the NewCo

The Companies have yet to decide the location of the NewCo's head office, but are planning to find a location different from the current offices of the Companies by the effective date of the Business Integration or as soon as possible thereafter.

#### (3) Corporate Governance

The basic policy of the NewCo's corporate governance structure will be to secure a transparent management structure by actively adopting the ideas proposed in the Corporate Governance Code strengthening the monitoring function of the Board of Directors as well as by appointing two or more independent outside directors, and implementing swift and decisive corporate management through a bold delegation of authority to the executive officers.

#### (4) Structure of the Board of Directors

While the structure of the Board of Directors will be decided upon further discussions between the Companies, representative directors and executive directors are expected to comprise an equal number of representatives from each company.

#### (5) Brands of the NewCo

The NewCo will continue to use the existing brands of both Companies for a certain period after the Business Integration. Regarding the service station brands in Japan after the certain period, the NewCo's management will proactively discuss and decide on the introduction of a new brand to be used as a unifying force in order for dealers/distributors of both Companies to join forces for the next 100 years and compete with other brands in the domestic market.

#### 5. Effect of the MoU

The MoU has no binding effect (Note 2), and the Companies plan to consult with each other and separately execute the legally binding Definitive Agreement after taking necessary procedures including, among others, obtaining their Board of Directors' resolutions.

Note2: SSSKK has obtained approval for the execution of the MoU from the Special Committee (as stated below), as well as consent from all of the Directors of SSSKK and all of the Audit & Supervisory Board Members other than Douglas Wood, Ahmed M. Alkhunaini, Nabil A. Al-Nuaim and Christopher K. Gunner. The Special Committee was established as an advisory committee of the Board of Directors at the Board of Directors' meeting held on February 10, 2015, in order to secure a transparent and fair decision-making process of SSSKK in relation to the Business Integration, taking into account the fact that Royal Dutch Shell plc and Saudi Arabian Oil Company may have certain conflicts of interest in relation to the Business Integration and related matters. The Special Committee has four members, who are as follows: Messrs. Yukio Masuda, Takashi Nakamura, Midori Miyazaki and Kenji Yamagishi, each of whom is an independent director/auditor of SSSKK.

#### 6. Future Outlook

Details of any undecided items will be disclosed once they have been decided.

End

# Overview of MoU

Method of the Business Integration	Merger as the basic structure, subject to further consideration and discussion
Location of the Head Office	A different location from the current head offices of the Companies is to be found on the effective date of the Business Integration or as soon as possible thereafter

## (Ref.) Optimization of Nationwide Distribution and Logistics

This document includes "forward-looking statements" that reflect the plans and expectations of Idemitsu Kosan Co.,Ltd. and Showa Shell Sekiyu K.K. in relation to, and the benefits resulting from, their business integration described above. To the extent that statements in this document do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Companies in light of the information currently available to them, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the actual results, performance, achievements or financial position of one or both of the Companies (or the NewCo group) to be materially different from any future results, performance, achievements or financial position to publicly update any forward-looking statements after the date of this document. Investors are advised to consult any further disclosures by the Companies (or the NewCo group) in their subsequent domestic filings in Japan and filings with the U.S. Securities and Exchange Commission. The risks, uncertainties and other factors referred to above include, but are not limited to:

(1) economic and business conditions in and outside Japan;

(2) changes in costs of crude oil and other materials and exchange rates;

(3) changes in interest rates on loans, bonds and other indebtedness of the Companies, as well as changes in financial markets;

(4) changes in the value of assets (including pension assets), such as securities;

(5) changes in laws and regulations (including environmental regulations) relating to the Companies' business activities;

(6) rise in tariffs, imposition of import controls and other developments in the Companies' main overseas markets;

(7) interruptions in or restrictions on business activities due to natural disasters, accidents and other causes;

(8) the Companies' being unable to complete the Business Integration due to the reasons such that the Companies are not able to execute the Definitive Agreement with regard to the Business Integration, the necessary procedures including approval of the agreement with regard to the Business Integration by the shareholders meetings of the Companies are not implemented;

(9) delays in the review process by the relevant competition law authorities or the clearance of the relevant competition law authorities' or other necessary approvals' being unable to be obtained; and

(10) inability or difficulty of realizing synergies or added value by the Business Integration by the NewCo group.

Idemitsu Kosan Co.,Ltd. and Showa Shell Sekiyu K.K., or one of them, may file a registration statement on Form F-4 ("Form F-4") with the U.S. Securities and Exchange Commission (the "SEC") in connection with the possible business combination (or integration) between the two companies, if it is consummated. The Form F-4 (if filed) will contain a prospectus and other documents. If a Form F-4 is filed and declared effective, the prospectus contained in the Form F-4 will be mailed to U.S. shareholders of Idemitsu Kosan Co.,Ltd. and Showa Shell Sekiyu K.K., or one of them, prior to the shareholders' meeting(s) at which such business combination (or integration) will be voted upon. The Form F-4 and prospectus (if the Form F-4 is filed) will contain important information about the two companies, such business combination (or integration) and related matters. U.S. shareholders to whom the prospectus is distributed are urged to read the Form F-4, the prospectus and other documents that may be filed with the SEC in connection with such business combination (or integration) carefully before they make any decision at the respective shareholders' meeting with respect to such business combination (or integration) will be made available when filed, free of charge, on the SEC's web site at www.sec.gov. In addition, upon request, the documents can be distributed for free of charge. To make a request, please refer to the contact on the first page.
