1. Qualitative information on consolidated results for the period under review

(1) Consolidated operating results

During the first nine months of the current fiscal year (May 1, 2015 to January 31, 2016), the Japanese economy recovered at a moderate pace, supported by firm consumer spending and improvements in corporate earnings and the employment market.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business and increase earnings. Specifically, the Group opened new dispensing pharmacies and used M&A to expand the business. It also developed its urban drug and cosmetic store business.

In addition, effective from November 1, 2015, the Group moved to a holding company structure. By separating the Group's management and business execution functions, the Group aims to enhance corporate governance, clarify the authority and responsibility of each business segment and promote greater management autonomy, creating the foundations for further business expansion.

In the first nine months of the fiscal year, net sales rose 24.2% year on year to ¥169,395 million, operating income increased 33.2% to ¥10,004 million, ordinary income increased 31.8% to ¥10,315 million, and profit attributable to owners of parent increased 23.7% to ¥5,531 million.

Financial results by business segment are as follows.

(Dispensing pharmacy business)

In the dispensing pharmacy business, sales continued to rise at existing dispensing pharmacies, supported by an increase in average sales per prescription due to growth in prescriptions for new medicines.

In drug price and dispensing fee revisions scheduled for April 2016, we expect the role of pharmacies located near hospitals to be reevaluated, but in order to realize patient-focused non-hospital dispensing services, pharmacists and dispensing pharmacies will be strongly required to play a key role at the heart of local communities.

To ensure our pharmacists and dispensing pharmacies fulfill their role at the heart of local communities, the Group will continue to build links with local healthcare service providers, mainly in the area of home-based dispensing, step up the integration and continuous management of drug information using patient medication notebooks and other means, and promote wider use of generic drugs.

In business development, the Group continued to push ahead with business expansion by opening new dispensing pharmacies and using M&A, including the acquisition of NP HOLDINGS Co., Ltd. (Takamatsu-shi, Kagawa Prefecture) in November 2015. NP HOLDINGS is the largest dispensing pharmacy chain in the Shikoku region and is now a subsidiary of the Group.

As a result, for the first nine months of the fiscal year, the dispensing pharmacy business reported sales and profit growth with sales rising 23.9% year on year to ¥151,884 million and segment income increasing 38.9% to ¥13,341 million.

During the period under review, the Group opened 97 new dispensing pharmacies, including those acquired through M&A deals, and closed nine pharmacies, resulting in a total of 842.

(Drug and cosmetic store business)

In the drug and cosmetic store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors.

Against this backdrop, the Group continued to open *ainz & tulpe* urban drug and cosmetic stores, strengthened merchandise lineups, particularly drug and cosmetics products, and worked to capture inbound demand. As a result, sales at existing drug and cosmetic stores increased year on year.

In addition, in February 2016, the Group opened *ainz & tulpe* NEW CHITOSE AIRPORT (Chitose-shi, Hokkaido) in the airport's international passenger terminal, in order to further strengthen efforts to capture inbound demand.

The Le trois retail facility (Chuo Ward, Sapporo), which was opened in September 2015, saw steady customer traffic and sales, supported by efforts to promote it as a mixed-use integrated beauty complex in Sapporo's Odori area.

As a result, for the first nine months of the fiscal year, the drug and cosmetic store business reported an increase in sales of 19.1% year on year to ¥15,601 million. However, segment loss was ¥336 million, compared with segment income of ¥92 million in the same period a year earlier.

In the third quarter of the fiscal year, the Group opened *ainz & tulpe* MARUI CITY YOKOHAMA (Nishi Ward, Yokohama), *ainz & tulpe* SHINJUKU HIGASHIGUCHI (Shinjuku Ward, Tokyo) and *ainz & tulpe* Le trois (Chuo Ward, Sapporo) and closed four stores, centered on suburban-type stores, resulting in a total of 55 cosmetic and drug stores at the end of the third quarter.

(Other businesses)

Net sales from other businesses rose 173.1% year on year to ¥1,910 million and segment loss was ¥786 million compared with the loss of ¥34 million a year earlier.

(2) Consolidated financial position

The balance of total assets at the end of the third quarter increased by ¥23,434 million from the end of the previous fiscal year to ¥137,584 million.

This mainly reflected cash on hand and in banks and increases in inventories, property, plant and equipment such as land, buildings and structures, and goodwill due to the Group's business expansion through new store openings and M&A.

The balance of liabilities increased ¥19,246 million to ¥85,349 million.

The balance of short-term and long-term debts increased by ¥9,049 million to ¥23,020 million.

Total net assets increased by ¥4,188 million to ¥52,234 million and the shareholders' equity ratio decreased 4.1 percentage points to 37.9%.

(3) Forecast of consolidated financial results and other forward-looking information

The Group has made no change to its earnings forecasts for the full fiscal year, announced on May 27, 2015.

2. Matters concerning summary information (notes)

(1) Major changes in subsidiaries during the period

There are no applicable matters to be reported.

(2) Application of specified accounting methods for the preparation of quarterly consolidated financial statements

Tax expenses were calculated by reasonably estimating the effective tax rate after the application of tax effect accounting to income before income taxes for the consolidated fiscal year including the third quarter, and multiplying the estimated effective tax rate by income before income taxes for the quarter.

(3) Changes in accounting principles, changes in accounting estimates, and restatement of revisions

[Application of accounting standard for business combinations, etc.]

The Company has applied the "Accounting Standard for Business Combinations" (Accounting Standards Board of Japan (ASBJ) Statement No. 21, September 13, 2013), the "Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No. 22, September 13, 2013) and the "Accounting Standard for Business Divestitures" (ASBJ Statement No. 7, September 13, 2013) from the first quarter of the current fiscal year. As a result, the accounting method was changed to record the difference arising from changes in the equity in subsidiaries under ongoing control of the Company as capital surplus, and acquisition-related costs as expenses for the fiscal year in which they are incurred. In addition, with respect to any business combination entered into on or after the first day of the first quarter under review, the accounting method was changed to reflect adjustments to the allocation of acquisition cost under provisional accounting treatment on the consolidated financial statements of the quarterly financial period in which the relevant business combinations became or will become effective. Furthermore, the presentation method for "net income" was changed, and references to "minority interests" were changed to "non-controlling interests." To reflect these changes, the Company has reclassified its quarterly and full-year consolidated financial statements for the third quarter of the previous fiscal year and the previous fiscal year.

The Company has applied the Accounting Standard for Business Combinations and the other standards in accordance with transitional provisions in paragraph 58-2(4) of the Accounting Standard for Business Combinations, paragraph 44-5(4) of the Accounting Standard for Consolidated Financial Statements and paragraph 57-4(4) of the Accounting Standard for Business Divestitures, prospectively at the beginning of the first quarter under review.

As a result, during the first nine months of the fiscal year, capital surplus decreased ¥214,890 thousand and operating income, ordinary income and income before income taxes each declined by ¥482,292 thousand.
