NOTICE REGARDING CHANGE IN DEPRECIATION METHOD

Nippon Telegraph and Telephone Corporation (“NTT”) hereby announces that, at a meeting of its Board of Directors held today, NTT resolved to change its method for calculating depreciation of property, plant, and equipment. NTT and its subsidiaries traditionally used the declining-balance method. However, starting from the consolidated fiscal year ending March 31, 2017, NTT and its subsidiaries adopted the straight-line method of depreciation as a general rule.

NTT aims to announce its consolidated and non-consolidated financial forecasts for the fiscal year ending March 31, 2017 including the impact of this change in depreciation method as soon as the forecasts are determined.
