**Proposal 3: Determination regarding Adoption of the Basic Policy Regarding Countermeasures to Large-Scale Acquisitions of the Company's Shares (Takeover Defense Measures)**

The "Basic Policy regarding Countermeasures to Large-Scale Acquisitions of Company Shares (Takeover Defense Measures)" approved by the 92nd Ordinary General Meeting of Shareholders held on June 27, 2013 (the "**Former Basic Policy**") and the "Plan for Countermeasures to Large-Scale Acquisitions of Company Shares (Takeover Defense Measures)" (the "**Former Plan**") adopted by resolution of the Board of Directors on the same day will expire at the conclusion of this Ordinary General Meeting of Shareholders.

Accordingly, taking into account social and economic developments since the adoption of the Former Plan, the Company proposes to seek, as provided for in Section III below, the shareholders' approval to reconfirm and approve the content of the Company's basic policy regarding countermeasures to large-scale acquisitions of company shares under Article 17 of the Company's Articles of Incorporation (the "**Basic Policy**") as "measures to prevent decisions on the Company's financial and business policies from being controlled by persons deemed inappropriate" (Article 118, Item 3 (ii)(2) of the Enforcement Regulations of the Companies Act) in light of the "Basic Policy on Persons Who Control Decisions on the Company's Financial and Business Policies" (as provided for in the main text of Item 3 of Article 118 of the Enforcement Regulations of the Companies Act) as provided for in Section I below.

In determining the content of the Basic Policy, no substantial changes were made from the former Basic Policy.

**I. Overall Policy on Persons Who Control Decisions on the Company's Financial and Business Policies**

In order to enhance the Company group's corporate value and the common interests of its shareholders, the Company group believes it is essential to ensure "safe transportation", "stable management", and "sustainable business" and, at the same time, to establish the Company group as the "Top Brand in Trust" with the support of our customers, business partners, and other stakeholders. For our group, it is extremely important to have an integrated business management that will bring out our collective strength through an organic combination of each business field by the multi-faceted expansion of businesses that are highly related to those established along and around our rail lines, thereby enhancing value there and endeavoring to establish the Keio brand while acquiring the trust of local communities. We believe that if these elements are not ensured and enhanced over the mid to long term by persons who intend to acquire the Company's shares, the Company's corporate value and the common interests of its shareholders will be harmed. The Company therefore believes that the persons who control decisions on the Company's financial and business policies need to be persons who understand the importance of ensuring and enhancing the Company's corporate value and the common interests of its shareholders over the mid to long term.

The Company will not reject a large-scale acquisition of Company shares out of hand if the acquisition would contribute to the Company group's corporate value and the common interests of its shareholders. Nonetheless, there are some forms of share acquisition that do not benefit corporate value and the shareholders' common interests, such as those with a purpose that would cause clear harm thereto. The Company also believes that it is not always easy for our shareholders to fully understand the elements that comprise the corporate value of the Company, to consider the acquisition from a mid- to long-term perspective, and to appropriately determine the effects of the acquisition on the Company's corporate value and the shareholders' common interests in a short period of time.

Taking into account the matters described above, the Company believes it necessary to develop a framework for deterring acquisitions that are detrimental to the Company's corporate value and the shareholders' common interests by securing the necessary time and information for shareholders to decide whether or not to accept the proposed acquisition and enable the Board of Directors to present an alternative proposal or to negotiate for the benefit of the shareholders in order to respond to acquisitions of the Company's shares when such acquisitions arise.

## **II. Special Measures to Make Effective Use of the Company's Assets, Form an Appropriate Corporate Group, and Otherwise Realize the Overall Policy**

### **1. Measures to Contribute to the Company's Corporate Value**

The Company group strives to establish itself as the "Top Brand in Trust," as set forth in the Keio Group Philosophy, and endeavors to conduct its management in such a way that it contributes to the improvement of its corporate value and the common interests of its shareholders through such means as strengthening the competitiveness of the Company group, ensuring financial soundness, complying with laws, ordinances, and ethical standards, and engaging in activities to contribute to local communities. In order to achieve sustainable growth for the entire group, the Company group will continue the following policies by maintaining and utilizing the management resources, both tangible and intangible, that it has cultivated over many years.

First, as a public transportation company that provides an element of infrastructure that is indispensable to society, the Company group will make ensuring safety its most important task and will fulfill its social responsibilities from a mid- to long-term perspective.

Second, the Company group will engage in multi-faceted efforts to promote the development of its operation sites and to vitalize local communities so that the areas along the Company's rail lines can maintain their energy and vitality into the future.

Third, the Company group will strive to expand and grow into the future by continually implementing policies that fully respond to the diversifying needs and changing lifestyles of our customers.

Fourth, the Company group as a whole will continue measures to fulfill its corporate social responsibilities, including compliance with laws and ordinances and consideration towards the global environment.

Fifth, the Company group will develop its employees, who are the actual bearers of responsibility for "transportation safety", the source of the group's corporate value, from a mid- to long-term perspective and will firmly maintain a corporate culture that places the greatest importance on "ensuring safety".

Sixth, the Company group will strive to implement and complete various measures, such as investment for growth and selecting and focusing Company businesses based on capital policy that takes the business sustainability into consideration.

### **2. Measures to Strengthen Corporate Governance**

Pursuant to the Keio Group Philosophy and based on the "Basic Policy on Corporate Governance" established by the Company's Board of Directors, the Company has been promoting the enhancement and strengthening of its corporate governance through prompt and decisive decision-making that ensures transparency and fairness in order to secure the trust from its shareholders and all other people with whom it is connected and to achieve sustainable growth and increased mid- to long-term corporate value for the Company group.

The Board of Directors makes decisions on any material matters regarding management as well as matters prescribed in laws and ordinances, and oversees the execution of business. In order to strengthen the management oversight function of the Board, outside directors have been elected, and presidents and other such executives of major group companies have been included as Board members, as well. Additionally, the Board of Directors has appointed special directors and thereby conducts prompt decision-making able to seize each opportunity, and established the Governance Committee and the Nomination and Compensation Committee as advisory bodies to the Board of Directors and endeavors to enhance the group's governance and ensure managerial transparency.

In order to increase the effectiveness of audits by the Audit & Supervisory Board, highly independent Outside Audit & Supervisory Board Members as well as Audit & Supervisory Board Members with significant expertise in finance, accounting and law have been elected, and the Company has established systems for cooperation between the Audit & Supervisory Board and the accounting auditor, internal audit department, and sections in charge of internal control. Each Audit & Supervisory Board Member conducts audits based on the basic policies prescribed by the Audit & Supervisory Board pursuant to laws, ordinances and other standards, and each Member attends and expresses his or her views as necessary at Board of Directors meetings and other important meetings.

Furthermore, the Company endeavors to enhance group governance systems through regular meetings of the Group Management Council, Keio Group Presidents Council, Group Audit & Supervisory Board, and other such bodies.

### **III. #### **1. Outline of the Basic Policy**

For the purpose of ensuring and enhancing its corporate value and the common interests of its shareholders, the Basic Policy of the Company is to adopt countermeasures to large-scale acquisitions of its shares (takeover defense measures under ordinary times) by (i) separately resolving at a meeting of its Board of Directors specific measures (the "**Plan**") in accordance with the details set out in 2 "Framework of the Plan" below, and (ii) widely announcing the details of the Plan such as by including them in timely disclosure to the financial instruments exchanges on which the Company is listed, in disclosure of statutory disclosure documents such as the Company's business report, or on its website, in order to warn in advance any person who intends to acquire or otherwise obtain the Company's shares that there are procedures to be followed by such persons and that the Company may implement a gratis allotment of stock acquisition rights (*shinkabu yoyakuken musho wariate*) with discriminatory exercise conditions and a call provision.

#### **2. Framework of the Plan**

##### **(1) Plan Outline**

The Company will require any person effecting or proposing to effect an acquisition as set out in (2) below (the "**Acquirer**") to effect the acquisition in accordance with the procedures set out in (3) below, and will secure provision of information relating to, and time for examination of, the acquisition. In addition, the Company may, if the situation falls under any of the items set out in (5)(i) below, implement a gratis allotment, to all shareholders at the time excluding the Company', of stock acquisition rights (*shinkabu yoyakuken mushou wariate*) with terms and conditions set out in (5)(iv) below (the "**Stock Acquisition Rights**"), including (a) an exercise condition that does not allow the Acquirer to exercise the rights (i.e., a discriminatory exercise condition) and (b) a call provision to the effect that the Company may acquire the stock acquisition rights in exchange for the Company's shares from persons other than the Acquirer. The Company has also established an Independent Committee for the Assessment of Corporate Value (the "**Independent Committee**") (as defined in (6) below) in order to eliminate arbitrary decisions by the Board of Directors of the Company with respect to matters such as the implementation or non-implementation or otherwise of a gratis allotment of Stock Acquisition Rights under the Plan.

If the Independent Committee determines that the Acquisition Document does not include sufficient Essential Information, it may request the Acquirer to additionally submit information by setting a reply period, and the Acquirer is required to additionally submit such information within such time limit.

In order for the Independent Committee, from a perspective of ensuring and enhancing the Company’s corporate value and the common interests of its shareholders, to compare the Acquisition Document and the Essential Information with the management plan prepared by the Board of Directors and the company valuation conducted by the Board of Directors and to examine alternative proposals by the Board of Directors to the shareholders of the Company, the Independent Committee may also request that the Board of Directors submit its view on the Acquirer’s acquisition terms, materials supporting such view, alternative proposals, and any other information, materials and other matters that the Independent Committee considers necessary, by setting a reply period (not in excess of 60 days, in principle) considering the necessary period of time, such as for the Board of Directors to collect information and examine the company valuation, etc. (including examination by third-party experts as necessary).

The Independent Committee may at the cost of the Company obtain advice from third-party experts (including financial advisers, attorneys, certified public accountants or any other experts).

**(5) Implementation of the Gratis Allotment of Stock Acquisition Rights**

The Company will decide whether to implement or not a gratis allotment of Stock Acquisition Rights after receiving a recommendation by the Independent Committee as follows.

**(i) Recommendation for Implementation by the Independent Committee**

If the Independent Committee determines that an acquisition falls under any of the items below, it will recommend to the Board of Directors to implement a gratis allotment of Stock Acquisition Rights. However, even in such a case, if the Independent Committee believes it is reasonable to obtain a resolution at a shareholders meeting on whether to implement the gratis allotment of Stock Acquisition Rights, it will recommend the Board of Directors to convene a shareholders meeting and submit to the shareholders’ vote a proposal on whether to implement a gratis allotment of Stock Acquisition Rights.

- (a) If the Acquirer does not comply with the procedures for securing the provision of information and the time for examination for considerations set out in (3) above or other procedures prescribed in the Plan;
- (b) If, as a result of evaluating, considering or otherwise examining the information, materials or other documents provided by the Acquirer and the Board of Directors, and discussion, negotiation or other communication with the Acquirer, the Independent Committee determines that the acquisition by the Acquirer falls under any of the items (A) through (G) below and that it is reasonable to implement a gratis allotment of Stock Acquisition Rights.
  - (A) An acquisition that threatens to cause clear harm to the corporate value of the Company and the common interests of its shareholders through the following or similar acts thereto:
    - a. Buyout of share certificates, etc. to require the Company to buy back such share certificates, etc. at a high price.
    - b. Conduct of management that exploits the Company group for the Acquirer, such as temporary control of the Company’s management for the low-cost acquisition by the Acquirer of the material assets of the Company group.
    - c. Exploitation of the Company group’s assets to secure or repay debts of the Acquirer or its group company.

- d. Temporary control of the Company's management to dispose of high-value assets that have no current relevance to the Company group's business and paying temporarily high dividends from the profits of such disposal, or selling the shares at a high price taking advantage of the opportunity from the sudden rise in share price created by such temporary high dividends.
- (B) An acquisition that threatens to have the effect of coercing shareholders into selling share certificates, such as coercive two-tiered tender offers (meaning acquisitions of shares including tender offers that do not offer to acquire all shares in the first step acquisition, and set acquisition terms in the second step that are unfavorable to shareholders or do not set clear terms for the second step).
- (C) An acquisition that does not provide reasonable time necessary for the Company to present alternative proposals against the acquisition.
- (D) An acquisition that does not provide sufficient information reasonably necessary for the shareholders to make a judgment on the details of the Essential Information and acquisition terms.
- (E) An acquisition whose terms (including amount and type of consideration to be offered, the timing of acquisition, the legality of the acquisition method, the probability of the acquisition being effected, post-acquisition management policies dealing with the Company group's customers, business partners, employees or other stakeholders in the Company group) are inadequate or inappropriate in light of the Company's intrinsic value.

Notwithstanding the foregoing, even after the Independent Committee has already made a recommendation for the implementation of a gratis allotment of Stock Acquisition Rights, if the Acquirer withdraws the acquisition or the acquisition otherwise ceases to exist after the recommendation or if the Independent Committee determines that the acquisition by the Acquirer no longer falls under (a) or (b) above due to change in the facts or circumstances or otherwise upon which the recommendation decision above was made, it may make a different decision including to cancel the gratis allotment of Stock Acquisition Rights or to acquire all Stock Acquisition Rights for no consideration and make a new recommendation to the Board of Directors.

**(ii) Recommendation for Non-Implementation by the Independent Committee**

If the Independent Committee determines that an acquisition by the Acquirer falls under neither (i)(a) or (i)(b) above, it will recommend to the Board of Directors for non-implementation of a gratis allotment of Stock Acquisition Rights.

However, even after the Independent Committee has already made a recommendation for the non-implementation of a gratis allotment of Stock Acquisition Rights, if the Independent Committee determines that the acquisition by the Acquirer falls under (i)(a) or (i)(b) above due to change in the facts or circumstances or otherwise upon which the recommendation decision above was made, it may make a different decision including to implement the gratis allotment of Stock Acquisition Rights and make a new recommendation to the Board of Directors .

If the Board of Directors receives a recommendation from the Independent Committee to convene a shareholders meeting and submit to a vote a proposal on whether to implement a gratis allotment of Stock Acquisition Rights, it must, unless it is practically and significantly difficult to hold a shareholders meeting, promptly convene a shareholders meeting so that the meeting can be held as soon as practicably possible and submit to a vote a proposal on whether to implement a gratis allotment of Stock Acquisition Rights.

**(iv) Action to be Taken by the Board of Directors after the Resolution at the Shareholders Meeting**

If a shareholders meeting is convened following a recommendation by the Independent Committee and a proposal on whether to implement a gratis allotment of Stock Acquisition Rights is approved at the shareholders meeting, the Board of Directors will execute procedures necessary for the implementation of the gratis allotment of Stock Acquisition Rights in accordance with the resolution at the shareholders meeting. (If the shareholders meeting resolves to delegate the Board of Directors to make decisions on matters with respect to the gratis allotment of Stock Acquisition Rights, then a resolution by the Board of Directors for the implementation of a gratis allotment of Stock Acquisition Rights will be passed.) In the meantime, if the proposal on a gratis allotment of stock Acquisition Rights is rejected at the shareholders meeting, then the Board of Directors will pass a resolution for the non-implementation of the gratis allotment of Stock Acquisition Rights.

**(v) Prohibited Period of Acquisition by the Acquirer**

The Acquirer must not effect the acquisition until after the Board of Directors resolves to implement or not to implement the gratis allotment of Stock Acquisition Rights or, if a shareholders meeting set out above is to be held, until after the shareholders meeting passes a resolution in favor of or rejecting the proposal for a gratis allotment of Stock Acquisition Rights.

**(8) Abolishment of the Plan**

**(9) Miscellaneous**

The details of the Plan other than these set out in (1) through (8) above will be as separately determined by the resolution in which the Board of Directors adopts the Plan.

**3. Effective Period of the Basic Policy**

The Effective Period of the Basic Policy will be the period until the conclusion of the Ordinary General Meeting of Shareholders relating to the last fiscal year ending within three years of the conclusion of this Ordinary General Meeting of Shareholders.

However, if, even before the expiration of the Effective Period, a shareholders meeting of the Company passes a resolution to revise or abolish the Basic Policy, the Basic Policy will be revised or abolished at the time of that resolution in accordance therewith, in which case, the Plan will promptly be revised in line with the revised Basic Policy or abolished.

**Reference:**

The details of the Basic Policy are as described in Section III above. The impact on shareholders and investors and the decision-making by the Board of Directors and the reason for the decision-making with respect to the measures taken by the Company as set out above are as follows. The Company asks of the shareholders to vote in favor of this Proposal by taking into account the following factors as well.

1. Impact on Shareholders and Investors

- (1) Impact on Shareholders and Investors at the Time when Determinations are made with respect to Adoption of the Basic Policy and the Plan

As gratis allotment of Stock Acquisition Rights will not be implemented At the time when the determinations are made with respect to the adoption of the Basic Policy and the Plan, they will have no direct and specific impact on the rights or interests of shareholders and investors.

- (2) Impact on Shareholders and Investors at the Time of the Gratis Allotment of Stock Acquisition Rights

If the determination with respect to the adoption of the Plan is made and a gratis allotment of Stock Acquisition Rights in accordance with the procedures set out in the Plan is implemented, the Company will make a gratis allotment of Stock Acquisition Rights to those shareholders of the Company (other than the Company) as of the Allotment Date that is separately determined in the Gratis Allotment Resolution for one Stock Acquisition Right per share in the Company held by those shareholders. If the Company's shareholders do not pay the amount equivalent to the prescribed exercise price or otherwise do not carry out procedures in relation to the exercise of the Stock Acquisition Rights within the Exercise Period thereof, the shares they hold in the Company may be diluted by the exercise of Stock Acquisition Rights by other shareholders. However, there may be a case where the Company acquires the Stock Acquisition Rights of all shareholders other than Non-Qualified Parties and, in exchange, deliver shares in the Company if so determined by the Board of Directors. If the Company carries out such acquisition procedures, all shareholders other than Non-Qualified Parties will come to receive shares in the Company as a consideration for the acquisition by the Company of the stock Acquisition Rights without exercising their Stock Acquisition Rights and paying an amount equivalent to the exercise price, and therefore no dilution of the value of the shares in the Company they hold will occur.

In addition, if, even after the Company's Board of Directors passes a Gratis Allotment Resolution, the Company cancels the gratis allotment of Stock Acquisition Rights or acquires all the Stock Acquisition Rights for no consideration, no dilution of the value per share in the Company held by the shareholders will occur, and there would be likely that some shareholders or investors who have sold or bought or otherwise disposed of the shares in the Company based on the premises that such dilution would occur may suffer an unforeseen damages as a result of a fluctuation in the share price.

2. Decision-making by the Board of Directors and Reasons therefor with respect to the Above Measures Taken

- (1) Special Measures to Realize the Overall Policy in Section I above (i.e., Measures set out in Section II above)

The measures set out in section II above, what are to enhance its corporate value and strengthen its corporate governance have been established as specific measures to continuously and sustainably enhance the Company's corporate value and the common interests of its shareholders, and would contribute to realize the overall policy set out in Section I above.

Therefore, these measures are in line with the overall policy set out in Section I and the common interests of the Company's shareholders, and are not for the purpose of entrenching the status of the Company's executives.

- (2) A Measure to Prevent Decisions on the Company's Financial and Business Policies from being Controlled by Persons Viewed as Inappropriate according to the overall policy in Section I above (i.e., Measures set out in Section III above, the Basic Policy)

- (i) The Basic Policy is in line with the overall policy set out in Section I

The Basic Policy sets a framework for maintaining the corporate value of the Company and the common interests of its shareholders in case of the acquisition of shares of the Company by ensuring that necessary time and information is made available for the shareholders to decide whether or not to accept such acquisition and for the Board of Directors to present an alternative proposal to the shareholders, and by enabling the Board of Directors to discuss or negotiate with the Acquirer for the benefit of the shareholders, and therefore it is in line with the overall policy set out in Section I.

- (ii) Such a Measure is not Detrimental to the Common Interests of the Company's Shareholders and is not Intended to Entrenching the Company's Executives

The Company believes that, when viewed in light of the overall policy set out in Section I above, the Basic Policy is not detrimental to the common interests of the Company's shareholders and is not intended to entrench the Company's executives

- (a) Satisfying the Requirements of the Guidelines for Takeover Defense Measures

The Basic Policy satisfies the three principles set out in the Guidelines Regarding Takeover Defense for the Purposes of Ensuring and Enhancing Corporate Value and Shareholders' Common Interests released by the Ministry of Economy, Trade and Industry and the Ministry of Justice on May 27, 2005.

- (b) Placing High Value on the Intent of Shareholders

The Basic Policy will be determined when approved at this Ordinary General Meeting of Shareholders as described above. Further, as set out above in III.3. "Effective Period of the Basic Policy," the Basic Policy is subject to a so-called sunset clause setting the Effective Period as approximately three years and the shareholders meeting may, even before the expiration of the Effective Period of the Basic Policy, resolve to revise or abolish the Basic Policy. The Board of Directors, the members of which are composed of those Directors who are elected by the Company's shareholders meeting, may also abolish the Plan before the expiration of the Effective Period by passing a resolution to that effect. Accordingly, the intent of the Company's shareholders are duly reflected in the Basic Policy as well as in the Plan as determined in accordance therewith.

(c) Emphasis on the Decisions of Outside and Independent Persons and on Information Disclosure

As set out in III.2.(5) “Implementation of the Gratis Allotment of Stock Acquisition Rights” and III.2.(6) “Independent Committee” above, the Basic Policy states that decisions with respect to matters such as the implementation or otherwise of the gratis allotment of Stock Acquisition Rights must substantially be made by the Independent Committee that is composed only of members who are independent from the management involved in the execution of businesses of the Company. As such, the Independent Committee is required to maintain strict oversight of the Company’s Board of Directors so that the Board of Directors does not arbitrarily implement a gratis allotment of Stock Acquisition Rights, and shall be made disclosure of information on an outline of its decisions to the shareholders as set out in III.2.(7) “Information Disclosure.”

Accordingly, it is ensured that the Plan will be operated according to the corporate value of the Company and the common interests of its shareholders.

Please note that if this Ordinary General Meeting of Shareholders votes in favor of the Basic Policy and the Board of Directors makes a determination to adopt the Plan, the following four members, namely, Outside Director Atsushi Takahashi, Outside Audit & Supervisory Board Member Keiko Kitamura, Norio Kuroiwa and Masashi Kaneko, will assume positions as members of the Independent Committee. Please see their profiles in 3. “Profiles of the Candidates for the Members of the Independent Committee for the Assessment of Corporate Value” below. All four candidates are registered with Tokyo Stock Exchange, Inc. as independent officers.

(d) Establishment of Reasonable Objective Requirements

As set out above in Section III.2.(5)(i) “Recommendation for Implementation by the Independent Committee,” the Basic Policy provides that the gratis allotment of Stock Acquisition Rights will not be implemented unless prescribed reasonable and detailed objective requirements have been satisfied, and it can be said that this ensures a structure to eliminate arbitrary implementation by the Company’s Board of Directors.

(e) Obtaining Opinions of Third-Party Experts

As set out above in III.2.(4) “Examination of Acquisition Terms, Negotiation with the Acquirer and Presentation of Alternative Proposals by the Independent Committee,” if an Acquirer emerges, the Independent Committee may obtain advice from independent third-party experts (including financial advisers, attorneys, certified public accountants or any other experts) at the Company’s expense. This mechanism even further ensures the fairness and objectivity of the determinations made by the Independent Committee.

(f) Term of Office of the Directors is One Year

The Company has set the term of office of the Directors to be one year. Therefore, even during the Effective Period of the Basic Policy, the shareholders may reflect their intentions regarding the Basic Policy and the Plan when they elect the Directors of the Company each year.

(g) No Dead-Hand or Slow-Hand Takeover Defense Measures

As set out in III.2.(8) “Abolishment of the Plan,” the Plan is designed so that the Plan may be abolished by a resolution by the Board of Directors composed of Directors who are elected at the Company’s shareholders meeting. Therefore, the Plan is not a dead-hand takeover defense measure (a takeover defense measure in which even if a majority of the members of the Board of Directors are replaced, the triggering of the measure cannot be stopped). Also, as the Company has not adopted a system of staggered terms of office for the Board of Directors, the Plan is not a slow-hand takeover defense measure either (a takeover defense measure in which triggering takes time to stop due to the system in which all members of the Board of Directors cannot be replaced at once).
