- (1) The Company's Board of Directors, which consists of six Directors (including two Outside Directors), determines the policy for business execution of the Company and oversees business execution by Directors. The board monthly holds a meeting where all significant matters are submitted for discussion and proceeding of business results is discussed to examine measures, etc.
Outside Directors offer opinions from an outside and independent viewpoint and give useful advice from a broad perspective at the meetings of the Board of Directors to manage and oversee general management while exchanging opinions with Corporate Auditors and Directors controlling the Internal Control Department.
- (2) In addition to the regular Board of Directors meeting, an executive meeting is weekly held. As a result, the information is shared by all executives about all significant matters on the Company and the system is established to sufficiently discuss and immediately make decisions on significant management matters.
- (3) The Company's Board of Corporate Auditors consists of four members (including three Outside Corporate Auditors). Each Corporate Auditor audits the business execution by Directors by attending significant meetings, including the Board of Directors meetings and surveying the work and property according to the audit policy and plan made by Board of Corporate Auditors. To warrant effectiveness of internal audit, the department instructs audited departments to improve business activities based on the audit results and requires them to report proceedings of improvement without delay.
