Proposal No. 3: Entrusting the Board of Directors of the Company with the Determination of Subscription Requirements for Stock Acquisition Rights as Stock Options to Executive Officers and Employees of the Company and Its Subsidiaries

Shareholders are asked to give approval for entrusting the Board of Directors of the Company with determining the subscription requirements for stock acquisition rights, which will be issued without consideration, as stock options to Executive Officers and employees of the Company and its subsidiaries in accordance with the provisions of Articles 236, 238 and 239 of the Companies Act, as follows.

- I. Reason for the need to invite subscribers to stock acquisition rights under especially favorable conditions
The Company intends to issue stock acquisition rights as stock options to Executive Officers and employees of the Company and its subsidiaries, without consideration, as a way of motivating them and raising their morale to improve the Company's business performance on a consolidated basis.
- II. The maximum number and the necessity of money payment therefor of the stock acquisition rights for which the subscription requirements can be determined based on the matters determined by this Annual General Meeting of Shareholders are as follows.
 1. The maximum number of the stock acquisition rights for which the subscription requirements can be determined based on the entrustment
The maximum number of the stock acquisition rights, which are described in III. below, shall be 3,100 units.
The maximum number of shares that may be allotted through the exercise of the stock acquisition rights shall be 310,000 common shares of the Company. If the number of shares allotted (hereinafter defined) is adjusted as determined in III. 1. below, the maximum limit shall be the number of shares allotted after adjustment multiplied by the maximum number of the stock acquisition rights above.
 2. No payment of money shall be required with regard to the stock acquisition rights for which the subscription requirements can be determined based on the entrustment.
- III. The nature of the stock acquisition rights for which the subscription requirements can be determined based on the matters determined by this Annual General Meeting of Shareholders is as follows.
 1. Type and number of shares to be issued upon exercise of the stock acquisition rights
The type of shares to be issued upon exercise of the stock acquisition rights shall be the Company's common shares, and the number of shares per unit of stock options to be issued upon exercise of the stock acquisition rights (hereinafter, the "Number of Shares Allotted") shall be 100.
Provided, however, that if a stock split (including a gratis allotment of the Company's shares; hereinafter, the same regarding the description of a stock split) or a stock consolidation is performed by the Company after the conclusion of the meeting, the Number of Shares Allotted shall be adjusted according to the following formula, and any fractional shares arising as a result of said adjustment shall be truncated.

$$\text{Number of Shares Allotted after adjustment} = \text{Number of Shares Allotted before adjustment} \times \text{Stock split or consolidation ratio}$$

With regard to days to which the said Number of Shares Allotted after adjustment is applied, provisions of 3. (2) 1) shall be applied mutatis mutandis.

Furthermore, in addition to the above, in a case the Company is to engage in a merger or a company split or in cases corresponding to the case where any adjustment of the Number of Shares Allotted is required, the Company may adjust the Number of Shares Allotted to the extent reasonable.

When the Number of Shares Allotted is to be adjusted, the Company shall notify those who hold stock acquisition rights and are recorded in the registry of stock acquisition rights (hereinafter, the "Holder of Stock Acquisition Rights") of necessary matters or publicly announce such matters by the previous day of the day on which the Number of Shares Allotted after adjustment will be applied. Provided, however, that in a case where a notice cannot be given or public announcement cannot be made by the previous day of the day of the said application, the necessary matters shall be quickly notified or publicly announced afterwards.

2. The value of assets to be contributed upon exercise of the stock acquisition rights
The value of assets to be contributed upon exercise of each stock acquisition right shall be determined by multiplying the amount to be paid for one share to be delivered upon exercise of said stock acquisition rights (hereinafter, the "Exercise Price") by the Number of Shares Allotted.
The Exercise Price shall be equal to 1.05 times the average of closing prices of the Company's common shares (hereinafter, the "Closing Price") on the Tokyo Stock Exchange in regular trading on each day (excluding days on which no trading takes place) of the month preceding the month in which the day on which the stock acquisition rights are allotted (hereinafter, the "Allotment Date")

falls (with fractional amounts less than one yen being rounded up to the nearest yen), or the Closing Price on the Allotment Date (if no such Closing Price exists on that day, then the Closing Price on the most recent day on which trading took place), whichever is higher. Provided, however, that the Exercise Price shall be subject to the adjustments specified in the following 3.

3. Adjustment of the Exercise Price

(1) If the Company performs the following 1) or 2) for the Company's common shares after the Allotment Date, the Exercise Price shall be adjusted in accordance with the formula, respectively specified below, (hereinafter, the "Exercise Price Adjustment Formula"); and fractional amounts less than one yen resulting from the adjustment shall be rounded up to the nearest yen.

1) In the event of a stock split or consolidation by the Company

$$\text{Post-adjustment Exercise Price} = \text{Pre-adjustment Exercise Price} \times \frac{1}{\text{Stock split or consolidation ratio}}$$

2) In the event of any new share issuance or treasury stock disposal below the market price by the Company (excluding cases such as the sales of treasury stock under Article 194 of the Companies Act (that is, demand for sale of shares less than one unit by shareholders who hold shares in a number less than one unit); the conversion of securities or convertible securities that may be converted into the Company's common shares; or the exercise of stock acquisition rights (inclusive of those attached to the convertible bonds) with which issuance of the Company's common shares can be requested)

$$\text{Post-adjustment Exercise Price} = \text{Pre-adjustment Exercise Price} \times \frac{\text{Number of shares already issued} + \frac{\text{Number of newly issued shares} \times \text{Amount to be paid per share}}{\text{Market price}}}{\text{Number of shares already issued} + \text{Number of newly issued shares}}$$

i) "Market price" to be used in the Exercise Price Adjustment Formula shall be equal to the average of Closing Price (including indicative price display; hereinafter, the same) of the Company's common shares on the Tokyo Stock Exchange in regular trading on 30 trading days (excluding days on which no Closing Price exists), which commence on the 45th trading day preceeding the "day on which the Post-adjustment Exercise Price is applied" (hereinafter, the "Applicable Date"), which is specified in (2) below. The "average" shall be rounded off to the first decimal place in yen.

ii) In the Exercise Price Adjustment Formula, "Number of shares already issued" shall be equal to the total number of the Company's issued shares on the day if there is a record date and on the day one month before the Applicable Date in other cases, less the number of shares of treasury stock owned by the Company.

iii) In the case of the disposal of treasury stock, "Number of newly issued shares" shall be read as "Number of shares of treasury stock to be disposed."

(2) The day when on which the Post-adjustment Exercise Price is applied shall be as described below.

1) In the case where adjustment is made in accordance with (1) 1), the Post-adjustment Exercise Price shall be applied on and after the following day of the record date (the effective date in the case where the record date is not specified) of the said stock split in the event of a stock split; and on and after the effective date in the event of a stock consideration.
