### I. Corporate Governance Principles & Corporate Structure

#### 1. Basic Policy

Ichigo's mission is to preserve and improve real estate and contribute to a sustainable society. Ichigo is a Japanese real estate owner/operator and clean energy producer whose key businesses include managing the Tokyo Stock Exchange-listed Ichigo Office REIT (8975), Ichigo Hotel REIT (3463), and Ichigo Green (9282), and operating solar plants nationwide. Ichigo works to continually strengthen its corporate governance in order to improve its business performance, enhance transparency, and promote sustainable growth. Ichigo is focused on both optimizing its organizational structure and further developing the capabilities of its officers and employees.

(a) Ichigo has adopted the Company with Committees (Nominating, Audit, Compensation) governance structure.

All Directors on Ichigo's Board of Directors (the "Board") are aware of their fiduciary responsibility towards shareholders and work collaboratively and appropriately with other stakeholders to ensure sustained value creation for shareholders.

- Ichigo's Board focuses on setting long-term corporate strategy and management policy and the supervision thereof, and delegates day-to-day operation of the company to Statutory Executive Officers while making clear respective roles and responsibilities for the executive team. Through its supervision, the Board aims to establish management transparency and agility.

- In order to ensure active and meaningful discussion, the Board is comprised of three Directors who also serve as Ichigo Statutory Executive Officers, thus having direct expertise in Ichigo's field of business, and six Independent Directors with specialized expertise including former CEOs of listed Japanese companies and experts in finance and accounting.

- The Nominating Committee is comprised of a majority of Independent Directors and selects Director candidates for approval at Ichigo's shareholder meetings, appoints Statutory Executive Officers, and provides advice on the selection of Directors at group companies.

- Ichigo has established a Compliance Committee directly under the Board and independent from management in order to monitor and evaluate critical compliance matters.

- As of the date of this report, the number of members of the Board and its various committees are as follows:

- Board: 9 (of whom 6 are Independent Directors)

- Nominating Committee: 5 (of whom 3 are Independent Directors)

- Audit Committee: 3 (all of whom are Independent Directors)

- Compensation Committee: 5 (of whom 3 are Independent Directors)

- Compliance Committee: 4 (of whom 2 are Independent Directors)

(b) Ichigo has taken the following measures to ensure that all staff understand and adhere to its mission:

- Ichigo's mission is frequently communicated to staff such as during corporate planning sessions and personnel evaluations.
- Ichigo shares its Code of Corporate Ethics and Code of Conduct with all group companies to ensure that all group staff are informed of the mission and prepared to adhere to it.
- All staff, including group companies, participate in annual mandatory training where the content of Ichigo's Code of Corporate Ethics and Code of Conduct is reiterated, and furthermore, all staff expressly acknowledge their adherence by signing and presenting a statement of compliance to the Chairmen and the President.

### **Explanation of Any Non-Compliance with Corporate Governance Code Principles**

#### **Supplementary Principle 4.11.3**

In addition to formal agenda items presented to the Board, Directors are actively involved in open and constructive dialogue throughout the organization and Ichigo has an open culture of escalating problems and voicing opinions to the Board. As such, Ichigo feels that the Board has effective oversight of Ichigo and therefore has not conducted any formal assessment thereof. However, in light of its pursuit towards continually enhancing its corporate governance, Ichigo will continue to explore if there is a need and/or a better way to assess the effectiveness of its Board.

### **Disclosure with respect to Compliance with Corporate Governance Code Principles**

#### **Principle 1.4 Cross-Shareholdings**

Ichigo does not engage in cross-shareholdings. With respect to its minimal current holdings of shares in other listed companies, it will sell down these shares over time.

#### **Principle 1.7 Related Party Transactions**

Any transaction with a Director or a major shareholder (a "Related Party Transaction") is carefully examined with respect to its purpose, the process of negotiation, the fairness of its price, and whether it will contribute to Ichigo's corporate value, and is further examined by external legal counsel and discussed by Ichigo's audit committee before being submitted for consideration to the Board.

Furthermore, at the end of each business period the audit committee requires all Directors and Statutory Executive Officers as well as Directors of group companies to submit a signed statement confirming the absence of any conflicts of interest, illegal provision of profits, abnormal transactions, and violations of fiduciary responsibilities during the course of their duties.

#### **Principle 3.1 Full Disclosure**

- (i) Ichigo discloses its mission, corporate strategy, and mid-term business plans on its corporate website.
- (ii) Ichigo provides details on its corporate governance through this report, available on its corporate website, and through its Securities Report.
- (iii) Ichigo's policy on Director and Statutory Executive Officer compensation is disclosed in this report, its Securities Report, and its Business Report.
- (iv) While the Board has no explicit policy with respect to the selection of Director candidates and the appointment of Statutory Executive Officers, the two principles described immediately below are considered in the Nominating Committee making its recommendations. Furthermore, independence of Independent Directors is determined in accordance with the standards of independence made available by the Tokyo Stock Exchange, thus ensuring the absence of any special personal relationships and equity relationships with Ichigo. The specific reasons for the selection of Independent Directors are disclosed in Ichigo's shareholder meeting materials.

- (1) **Nomination of Candidates for Directors and Statutory Executive Officers**  
Ichigo's Nominating Committee, comprised of a majority of Independent Directors, is responsible for nominating candidates for Directors and Statutory Executive Officers. The Nominating Committee holistically considers the candidates' ability to contribute both to Ichigo and to society in adherence with Ichigo's mission and Code of Conduct and the candidates' understanding and compliance with relevant laws and regulations.
- (2) **Nomination of Candidates for Independent Directors**  
Nomination of candidates are based on a holistic consideration of the Tokyo Stock Exchange's standards for independence; the candidates' depth of expertise and experience in fields such as management, law, and finance; and the candidates' ability to objectively monitor Ichigo's management.
- (v) Explanations with respect to the individual appointments and nominations are disclosed in Ichigo's shareholder meeting materials.

#### Supplementary Principles 4.1.1 Roles and Responsibilities of the Board

The Board examines and decides on matters stipulated by law and regulation, set in Ichigo's Articles of Incorporation, defined in internal rules pertaining to the Board, and presented to the Board as an agenda item. All other decision matters are delegated to Ichigo's management.

All Statutory Executive Officers are expected to efficiently and effectively make decisions and lead staff within their specific scope of delegated responsibility and authority. To this end, Ichigo has established internal rules that clearly define the specific roles, responsibilities, authority, and requirements for consultation of the Board, the Chairmen, President, Senior Executive Officers, and Executive Officers such that each individual business case is appropriately examined and decided upon by the relevant organization.

#### Principle 4.8 Effective Use of Independent Directors

The Board has been designed to comprise a majority of Independent Directors in order to ensure effective supervision of execution from a highly independent and objective perspective. Specifically, the Board has a total of nine members comprised of three Directors who also serve as Statutory Executive Officers and six Independent Directors (66.7% Independent Director ratio) pursuant to the Tokyo Stock Exchange's standards on independence.

#### Principle 4.9 Standards for Independence and Qualifications of Independent Directors

Pursuant to both the Company Law and the Tokyo Stock Exchange's standards for independence, Ichigo selects Independent Directors who have significant experience in the field of finance and corporate management, are accountants with extensive experience in advising various tax and accounting transactions, or are former CEOs of listed companies. The specific standards for independence are disclosed both in the Securities Report and Ichigo's shareholder meeting materials.

#### Supplementary Principle 4.11.1

Ichigo's view with respect to the knowledge, experience, and expertise of the Board as a whole is consistent with the criteria used to select individual Directors as disclosed its response to Principle 3-1 (iv). Ichigo's policy with respect to selecting Independent Directors is disclosed in the Securities Report.

#### Supplementary Principle 4.11.2

With the exception of the Independent Directors and Chairman Scott Callon, all Directors and Statutory Executive Officers do not concurrently serve roles at other listed companies, and are therefore able to fully commit and dedicate themselves to their duties at Ichigo.

Although the Independent Directors and Chairman Scott Callon assume roles at other listed companies, these are within reason and such roles are fully disclosed in the Securities Report and the Business Report.

#### Supplementary Principle 4.14.2

Ichigo is a member of the Japan Association of Corporate Directors (JACD) and the Japan Audit & Supervisory Board Members Association (JASBA) and provides its Directors with opportunities to participate in seminars and trainings held by these associations. Furthermore, Ichigo will bear expenses with respect to training and materials that Directors feel necessary in order for them to dutifully execute their supervisory responsibilities. Additionally, Ichigo has established Ichigo University, available to all group company staff, in order to provide opportunities for staff to enhance their skills necessary to successfully perform their respective roles, and also has internal policies that permit employees to pursue relevant licenses and qualifications at Ichigo's expense. A group-wide compliance training (including the topic of insider trading prevention) is conducted at least once a year, with staff of the two group companies possessing Financial Instrument and Exchange Law (FIEL) licenses subject to a strict compliance program consisting of four training sessions each year.

Newly appointed Independent Directors are briefed on Ichigo's business and financial statements, and receive detailed explanations of Ichigo's mid-term business plan as well as individual strategies for each of Ichigo's operating segments.

#### Principle 5.1 Policy for Constructive Dialogue with Shareholders

Ichigo's IR team within the Business Management Division is responsible for shareholder relations. A corporate presentation on Ichigo's financial results is held semi-annually for analysts and institutional investors, and a telephone conference is held during the 1<sup>st</sup> and 3<sup>rd</sup> quarters. In addition, an English-language telephone conference is held every quarter for the benefit of global investors. Small group meetings and one-on-one meetings are also conducted for analysts and investors, both domestically and abroad.

The IR team also services telephone calls, email inquiries, and other correspondences with shareholders, and is responsible for reporting all such shareholder interaction with management.

In recognition that Ichigo's shareholder meetings are a critical forum for dialogue with shareholders, Ichigo always holds its shareholder meetings on weekends in order to maximize shareholder attendance and endeavors to share quality time with shareholders not just at the shareholder meeting but also by conducting a business results meeting and reception for shareholders. Ichigo addresses all questions pertaining to voting agenda items in earnest and tries to ensure that shareholders fully understand Ichigo's business strategy.
