Moreover, at least once a year the Company analyzes, evaluates, and discusses the Board’s overall efficacy to improve the efficacy of the Board of Directors.

From November to December 2016, the Company carried out an analysis and evaluation of the overall efficacy of the Board of Directors using a questionnaire survey for all Directors and Audit and Supervisory Board Members, and confirmed the results of the survey at a meeting of the Board of Directors held on March 28, 2017.

2. Results of the Analysis and Evaluation of the Efficacy of the Board of Directors

The survey confirmed that an adequate level of support has been provided to Outside Directors and Outside Audit and Supervisory Board Members, who possess diverse experience and expertise, in areas such as preliminary briefings highlighting key issues for the Board of Directors, briefings on management strategies from the presidents of major

group companies, and efforts to promote an understanding of the Group through site inspections of facilities including airport handling, aircraft maintenance, flight operations and passenger cabins. In addition, reviews of rules and regulations were conducted aiming to revitalize discussions on key issues. Considering these, the Company confirmed that active discussions were taking place at the Board of Directors. The survey assessed that the Company's Board of Directors is functioning properly, and that it has sufficient efficacy to ensure decisions on key management issues are appropriately made and business operations are suitably supervised. At the same time, the Company confirmed some areas requiring improvement to further increase the supervisory function of the Board of Directors such as making further efforts than in the past to share industry trends and the long-term vision, etc. when formulating management strategy, following up matters such as the progress of major group companies' strategies, and devising practices in the management of meetings to allow for broader and more in-depth discussion of key issues. In the future, the Company will continue to improve the efficacy of the Board of Directors in light of the evaluation of the overall efficacy of the Board of Directors.
