(2) Audit & Supervisory Committee

The Company has adopted an Audit & Supervisory Committee governance structure. The majority of Audit & Supervisory Committee membership is comprised of External Directors; and the committee monitors business management and performs audits utilizing the Company's internal control system. We have developed a system through which the Audit & Supervisory Committee receives periodic reports on internal audits and improvements from the Internal Audit Dept., and has the authority to ask Directors, Executive Officers, and Operating Divisions of the Company and the Group Companies to report such matters when necessary.

(3) Executive Officers System

The Company has introduced a system of executive officers with an aim to strengthen Group management, to separate and enhance the business execution function from the decision-making and supervisory functions of the Board of Directors. Each executive officer appointed by the Board of Directors is delegated management authority based on the Company's internal rules and other stipulations to execute business under the direction of the president & CEO and policies approved by the Board of Directors of the Company.

(4) Management Committee

The Management Committee includes the Chief Executive and Executive Officers from Group companies and discusses certain matters regarding overall Group management and business execution. Director and Audit & Supervisory Committee Members attend the Management Committee meetings as needed to contribute opinions and expertise.

(5) Advisory Committee Relating to Nominations and Compensation

The Company has set up an advisory committee relating to nominations and compensation as an advisory organization to strengthen the impartiality, objectivity and accountability of the functions of the board of directors in relation to decisions on management and director nominations and compensation. The majority of committee members are independent external directors and the committee is made up of one internal director and three independent external directors. The committee will meet as necessary and discuss matters relating to the nomination of and compensation for directors and executive officers and shall report the outcome of discussions to the Board of Directors.

(1) Risk Management System

The Company has established a Risk Management Committee whose members include Directors, Executive Officers, etc. at the Company and Group companies, for the purpose of promoting risk management activities within the Group. The Committee deliberates matters relating to risk management, compliance, and information security for the entire Group, and also cooperates and

(Translation)

provides guidance with regard to countermeasures when risks occur.

(2) Compliance Systems

The Nomura Real Estate Group regards compliance, including the observance of laws and regulations and corporate ethics, as one of the most important management issues. As a set of relevant guidelines, the Company has formulated the Nomura Real Estate Group Code of Action. We have established the Risk Management Committee and Group Compliance Dept., in the Company to promote continuous education and enlightening activities for the executives and employees of the entire Group, and to provide advice, guidance and support to Group companies.

Furthermore, based on our priority of collecting information regarding risks, the Company has set up the Nomura Real Estate group Risk Helpline as a point of contact for internal reporting by group employees.

(3) Internal Audit System

The Nomura Real Estate Group has established an internal audit department at each group company, with the exception of some small companies. Each department is supervised under the direct jurisdiction of the Group company president or an officer who does not hold an additional office in a business operations division, which allows the department to maintain organizational independence.

In addition, we have established the Group Internal Audit Dept. in the Company that, in collaboration with the auditing firm, supervises the internal audit functions of the entire Group and performs monitoring, evaluation and auditing in each division within the Company.

(4) Audit & Supervisory Committee Audit System

The Company has appointed full-time staff in the Audit & Supervisory Committee Dept. to support the execution of duties by the Audit & Supervisory Committee. Each Audit & Supervisory Committee Member attends meetings of the Board of Directors and other important meetings and audits the execution of the duties of directors while cooperating with the Internal Audit Dept. and the auditing firm as needed.

Audit & Supervisory Committee Member Takao Orihara has experience in finance and accounting work over many years, Audit & Supervisory Committee Member Shigeki Fujitani has experience in finance and audit work over many years, and Audit & Supervisory Committee Member Akira Yamate possesses a qualification as a Certified Public Accountant. These individuals thus have a considerable degree of professional insight regarding finance and accounting.

Furthermore, by accepting a number of External Directors and establishing an Advisory Committee Relating to Nominations and Compensation the Company will strengthen the supervisory function of the Board of Directors and realize highly fair and transparent management, and the Company has also established risk management, compliance and internal audit systems, each of which report regularly to the Board of Directors.
