(2) Challenges

Mid and long term business strategy and challenges

Lifenet formulated the Mid-term Business Plan through fiscal 2018 as follows, aiming to achieve its stable growth in the future.

Summary of Mid-term Business Plan

| FY2018 Management Goal | 13.5 billion yen in ordinary income Positive profitability of ordinary profit (loss) |
|------------------------------|---|
| Business Strategy | The pillars of business: "Online direct sales", "KDDI (exclusive alliance agent)" and "Over-the-counter agent" Continuous creation of unique sales point in all channels Commitment to business development for future growth |
| Organizational Strategy | Change, Challenge and Unity |
| Risk Management Area | Sophisticate systems for risk management and customer protection that support business strategy |

First, as the Management Goal of fiscal 2018, we will seek to achieve 13.5 billion yen in ordinary income, pushing the Company toward profitability on an ordinary profit (loss) basis in fiscal 2018. In fiscal 2016, the first year of Mid-term Business Plan, new business performance returned to growth, exceeding the performance of the previous year for the first time in five fiscal years. Lifenet establishes a system that enhances the new business performance steadily and realizes sustainable profitability in fiscal 2017. As a result of the foregoing efforts, we will endeavor to achieve the Management Goal in fiscal 2018.

Aiming to achieve its stable growth in the future, Lifenet promotes its initiatives for the following issues to be addressed based on its manifesto of "offering simple, convenient and competitively priced products and services based on the highest levels of business integrity."

1. Stable growth of new business performance with three core channels

With three channels as the pillars, Lifenet will pursue its stable growth to achieve its Management Goal of Mid-term Business Plan.

First, in the online direct sales channel, we will strive to develop our new products and enhance our sales structure for the launch, aiming at enhanced recognition and sales of the new products. In addition, by reinforcing approaches tailored to customer's attributes and stages of life and media utilization, we will work to increase the numbers of visitors to the website, and eventually gain new businesses with our current products. We will continuously explore efficient routes for customer inflow other than TV commercials.

Secondly, in the KDDI (exclusive alliance agent) channel, we plan to start offering "au Life

11

Insurance" with Refunds at certain au shops on a trial basis as one of ways for sales expansion, in order to deliver the products to more customers leveraging the customer platform of KDDI CORPORATION ("KDDI"). Together with initiatives to improve a comprehensive website of "au Life Insurance" for customer with our accumulated know-how as an online life insurer, we will aim to establish a new product distribution model that mutually utilizes three sales routes of the website, au Financial Support Center (KDDI's call center) and au shops.

Lastly, in the agent channel, we will expand sales of a long-term disability insurance product, "Hataraku-Hito 2", released in June 2016. We strengthen our sales structure so that each agent can explain about our long-term disability insurance to customers comprehensively and enhance our competitive advantage of long-term disability insurances, for which the market is growing.

2. Improvement of operating expenses efficiency

With the aim of the further growth of the new business performance in fiscal 2017, we plan to allocate our marketing expenses proactively, continuing from fiscal 2016. Meanwhile, with aiming to achieve the positive profitability of ordinary profit (loss), one of the Management Goal of the Mid-term Business Plan, we will strive to improve our operating expenses efficiency. In the online direct sales channel, efforts to improve sales efficiency as well will be made by investing advertising expenses including TV commercial efficiently. In each of the agent channels, including KDDI, we will deliver our insurance products efficiently to the customers with different characteristics than those in the online direct sales channel by leveraging each agent's customer platform and their brand. Furthermore, with regard to operating expenses for other purposes than the insurance policy acquisition, we will pursue improved operating expenses efficiency by means of thorough cost control and enhanced operational productivity.

3. Realization of proactive product development and enhancement of services utilizing smartphone Lifenet remains committed to developing products and services that meet the needs of customers and the times. For that purpose, we will further strengthen our product development structure, aiming at the proactive development of new products.

In addition, as the ratio of brochure request and applications via smartphone tends to increase because we have offered services utilizing smartphone proactively. Using this feature, we will strive to enhance services utilizing smartphone to strengthen contacts with our policyholders. In particular, we will work to expand the scope of our service using LINE, commenced in fiscal 2016 for customers who consider our products, to services after the conclusion of the insurance policy. We aim to maintain and strengthen long-term relationships with trust and enhance customer satisfaction, by promoting communications with our policyholders exceeding 150,000 through smartphone utilization, and bringing them a sense that Lifenet is as close and ready to help after signing an insurance policy as ever.

In order to realize the stated above plan, we continue to challenge to meet the needs of the times and customers as a unique life insurance company. By means of taking a solid implementation of the strategy, we will work steadily to achieve the Management Goal.

(3) Others

Dividend policy

As stated in Article 17-6 of the Insurance Business Act, Lifenet was not permitted to distribute retained earnings as dividends while deferred assets under Article 113 of the Insurance Business Act were held on its balance sheet. Though the one-time amortization of the deferred assets in fiscal 2016 lifted such restrictions under the Insurance Business Act with respect to distributing retained earnings as dividends, Lifenet has yet to determine its specific dividend policies and dates for the start of distributing retained earnings as dividends because we still record cumulative loss. Lifenet will consider paying dividends in the future.
