Proposal 4: Determination of Remuneration Concerning Stock Options for Directors (excluding Outside Directors)

At the 53rd Annual General Meeting of Shareholders held on June 19, 2015, a limit of 500 million yen per annum (of which 35 million yen per annum is for Outside Directors) was approved for the amount of remuneration for Directors of the Company. With the aim of further raising motivation to achieve sustainable growth and enhance corporate value by sharing risks and benefits of fluctuations in stock prices with shareholders, we request that approval be given to allot share-based-remuneration-type stock options to Directors in the form of share options, while remaining within the limit of 50 million yen per annum.

The amount of stock option remuneration shall be determined by multiplying the number of allotted share options by the fair value of each share option as of the date of its allotment. The compensation of the Company's Directors consists of basic compensation (base salary) and a performance-based bonus (short-term incentive) in the form of a monetary payment. As a new form of compensation, the Company wants to allocate stock acquisition rights in the form of stock options in lieu of part of the basic compensation.

The timing of the issuance of the stock options and their allocation will be left entirely up to the Board of Directors. There are currently twelve Directors (including three Outside Directors). If Proposal 3 is approved, there will be twelve Directors (including three Outside Directors).

Information about the stock acquisition rights as stock options for the Company's Directors (excluding Outside Directors) is as follows:

1. Class and number of shares underlying the stock acquisition rights

The class of shares underlying the stock acquisition rights shall be shares of the company's common stock, and the number of shares underlying the stock acquisition rights ("number of shares granted") shall not be more than 20,000. The number of shares to be delivered per unit of the share options shall be 10.

Provided that, if the Company implements a share split (including an allotment of common shares of the Company without contribution; the same shall apply to the following description of the share split), or share consolidation after the date on which the share options are allotted ("allotment date"), the number of shares granted shall be adjusted using the following formula.

Number of shares granted after adjustment = Number of shares granted before adjustment x ratio of share split or consolidation

In the event of unavoidable circumstances that require an adjustment of the number of shares granted in addition to the preceding items, the Company may make an adjustment to the number of shares granted that the Board of Directors deems necessary.

Any fraction less than one (1) share arising as a result of the preceding adjustment shall be dropped.

2. Aggregate number of share options

The number of share options to be allocated within one year from the date of an Annual General Meeting of Shareholders for each business year shall not be more than 2,000.

3. Amount to be paid for share options

The amount to be paid for each share option shall be determined by the Board of Directors on the basis of the fair value of the share option at the time of its allotment as calculated by a fair calculation method,

such as the Black-Scholes Model.

An individual who has received share options (“Share Options Holder”) shall offset the payment of the amount to be paid with the remuneration claims against the Company and accordingly shall not be required to make any monetary payment.

4. Amount of assets to be paid upon exercise of share options

The amount of the assets to be paid upon the exercise of the share options shall be calculated by multiplying the price of one yen per share to be delivered through the exercise of the share options by the number of shares granted.

5. Exercise period

The share option exercise period shall be determined by a resolution of the Board of Directors up to a maximum of thirty years starting on the day immediately following the Allotment Date.

6. Conditions for exercise of share options

A Share Options Holder may exercise his/her share options only one time, during a period of 10 days within the exercise period starting on the day immediately following the day on which a Director or Audit & Supervisory Board member ceased to hold any such positions.

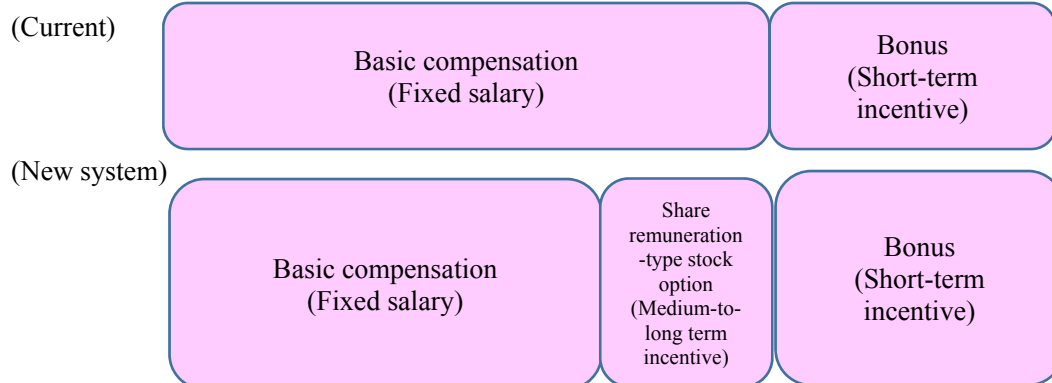

7. Restrictions on acquisition of share options by transfer

Acquisition of the share options by means of transfers require the approval of the Board of Directors.

8. Other items concerning share options

Other matters regarding the preceding items and other subjects shall be determined by the Board of Directors, which determines terms for offering share options.

(Remuneration System for Directors)

*The compensation of the Company’s Directors consists of basic compensation (base salary) and a performance-based bonus (short-term incentive) in the form of a monetary payment. In the new system, share remuneration-type stock options are provided as a medium-to-long-term incentive in lieu of part of the basic compensation.
