Concerning Takata Corporation's filing for bankruptcy protection under
the Civil Rehabilitation Law

Takata Corporation, a Nissan supplier, filed for bankruptcy protection under the Civil Rehabilitation Law at the Tokyo District Court on June 26, 2017.

Nissan and its affiliates have issued and will issue recalls for Takata airbag inflators. Although we have acquired the right to be reimbursed for the costs of both past and future recalls from Takata and its affiliates, following Takata's filing, it is likely that we will not be able to exercise this right in most cases. Nissan and its affiliates have set aside appropriate reserves for recall costs based upon the current situation.
