# Qualitative Information Regarding the Quarterly Financial Results Overview of Consolidated Business Results

Consolidated net sales during the first three months of the fiscal year under review amounted to ¥16,114 million, representing an 8.3% increase from the same period of the previous fiscal year. An overview of consolidated net sales by region is set out below.

#### Overview of Consolidated Net Sales by Region

(In millions of yen)

		Three Months Ended	Three Months Ended	Increase /
		June 30, 2016	June 30, 2017	(Decrease) (%)
Net s	ales	14,876	16,114	8.3%
	Japan	4,973	5,029	1.1%
	North America	2,958	922	(68.8%)
OWD	Europe	2,971	3,531	18.8%
Breakdown	Greater China	1,733	1,832	5.7%
Bre	Other Regions	2,239	4,798	114.3%

#### Domestic Sales

The Japanese economy enjoyed continued recovery backed by rising exports and robust domestic demand. Buoyed by firm printing machinery demand, domestic net sales edged up 1.1% year on year to \(\frac{\text{\tex

#### North America

In North America, corporate earnings remained robust thanks to continuous improvement in employment. Looking at the printing machinery market, however, capital expenditure for facility upgrades associated with offset printing presses was sluggish, causing net sales in this region to decrease 68.8% year on year to ¥922 million.

#### Europe

Despite problems regarding non-performing loans that confront banks in southern European countries, the overall European economy has seen modest but steady recovery thanks to monetary easing policies undertaken by the European Central Bank and growth in production volume in the manufacturing sector. Consequently, net sales in this region increased 18.8% compared with the same period of the previous fiscal year to ¥3,531 million.

#### Greater China

In Greater China, government-led economic policies led to a significant rise in investment in infrastructure and real estate, with exports having made a year-on-year turnaround and getting back onto a growth track in step with expansion in the global economy. Reflecting this, the regional economy enjoyed modest but continued growth. Against this backdrop, orders received for printing machinery were firm, thanks in part to Komori's participation in China Print 2017 (the Beijing International Printing Technology Exhibition) held in May 2017, a major event that provided the Company with an excellent opportunity to promote its products. Consequently, net sales in this region increased 5.7% year on year to ¥1,832 million.

#### Other Regions

In Other Regions, India was struck by disorder associated with the introduction of the Goods and Services Tax (GST) in July 2017. However, economies in ASEAN countries maintained gradual growth due to robust domestic demand and exports. Thanks to these factors and firm sales for security printing presses, net sales in Other Regions increased 114.3% year on year to ¥4,798 million. In May 2017, Currency Conference 2017 was held in Malaysia, with central bank officials as well as representatives from private banknote printing firms and banknote printing machinery makers attending the event from 76 countries around the world. Participating in this conference, the Company made aggressive efforts to facilitate the attendees' understanding of Komori security printing presses and take orders for these presses.

In addition, having launched the full-scale marketing of the Impremia IS29 in 2016, efforts are now under way to secure orders for this digital printing system from customers in Japan, North America, Europe and Greater China. As a result, a growing number of users around the world are taking note of the model's strong potential as a high-end digital printing system that can be used in combination with offset printing presses to realize more effective printing operations.

Turning to expenses, the cost of sales ratio improved year on year, reflecting such factors as the

depreciation of the yen. The ratio of selling, general and administrative (SG&A) expenses to net sales was down compared with the same period of the previous fiscal year due mainly to a decrease in corporate spending on advertising. As a result, the Company posted operating loss of ¥894 million for the first three months of the fiscal year under review, compared with operating loss of ¥2,035 million in the same period of the previous fiscal year. The Company posted an ordinary loss totaling ¥464 million. This was despite the posting of foreign exchange gains totaling ¥336 million, a turnaround from foreign exchange losses of ¥966 million recorded in the same period of the previous fiscal year.

For the first three months of the fiscal year under review, the Company recorded a loss before income taxes totaling ¥608 million, compared with a loss before income taxes totaling ¥2,900 million posted in the same period of the previous fiscal year. The main components of the loss before income taxes included retirement benefit expenses of ¥170 million in connection with revisions in retirement benefit systems at a domestic manufacturing subsidiary during the first quarter of the fiscal year under review. Reflecting these factors, Komori posted a net loss attributable to owners of the parent totaling ¥497 million. This was an improvement from the net loss attributable to owners of the parent in the same period of the previous fiscal year, which amounted to ¥2,178 million despite the posting of deferred tax assets totaling ¥518 million reflecting the retrospective application of accounting standards pertaining to the assessment of the recoverability of deferred tax assets.

#### (2) Financial Condition

#### **Total Assets**

As of June 30, 2017, total assets stood at ¥182,563 million, up ¥2,463 million (1.4%) year on year. Key positive factors contributing to total assets included a ¥3,958 million increase in inventories, a ¥1,304 million increase in current assets—other, a ¥1,092 million increase in electronically recorded monetary claims, a ¥726 million increase in securities and a ¥420 million increase in investments and other assets.

Key negative factors affecting total assets included a ¥3,757 million decrease in notes and accounts receivable—trade and a ¥959 million decrease in cash and deposits.

#### **Liabilities and Net Assets**

Liabilities as of June 30, 2017 were ¥52,440 million, up ¥3,726 million (7.7%) year on year. The key contributors to the increase in liabilities were a ¥2,963 million increase in current liabilities—other, a ¥1,023 million increase in short-term loans payable and a ¥505 million increase in electronically recorded obligations.

Key negative factors impacting liabilities included a ¥751 million decrease in other provisions and a ¥223 million decrease in notes and accounts payable.

Net assets totaled ¥130,122 million, down ¥1,263 million (1.0%) year on year.

Primary positive factors contributing to net assets included a ¥221 million increase in valuation difference on available-for-sale securities, while the key factor contributing to the decrease in net assets was a ¥1,661 million decrease in retained earnings.

#### **Equity Ratio**

The equity ratio as of June 30, 2017 stood at 71.3%, down 1.7 percentage points from 73.0% at the end of the previous fiscal year.
