I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Company makes concerted efforts to reinforce its corporate governance as a means of continuously increasing corporate value. The Company's basic stance on measures related to corporate governance is to implement the necessary policies and fulfill its accountability by setting up and operating a management structure and internal control system that allows the Company to swiftly respond to changes and realize efficient management that is sound, fair, and highly transparent. The Company views accomplishing such tasks as one of its most important management issues. Based on requests from stakeholders and social trends, the Company conducts reviews and implements the necessary measures and improvements, as needed, in an appropriate manner.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Ensure Adequate Coordination with External Accounting Auditor and Outside Directors (Principle 3.2.2 (iii))

The Company expects Audit & Supervisory Board Members, including Outside Audit & Supervisory Board Members, to fulfill the role of coordination with the external Accounting Auditor as contact points on the Company's side, and the external Accounting Auditor's views, issues and other matters are shared with the Members of the Board, including the Outside Directors, through the Audit & Supervisory Board Members. In the course of such information sharing, if the Members of the Board judge it necessary, they ensure efficiency and adequate coordination by establishing opportunities for direct exchange of information with the external Accounting Auditor.

Regular Exchange of Information Solely among Independent Outside Directors (Principle 4.8.1)

To promote discussions from diverse perspectives, independent Outside Directors and

Outside Audit & Supervisory Board Members hold meetings exclusively for independent outside members on their own initiative to exchange information and share awareness of issues related to the Company's management and the activities of the Board of Directors, development of future Senior Management, and other matters. Given the current situation of having good communications, ad hoc meetings among independent outside members are considered more appropriate for such communication than regular meetings scheduled by the Company. Also, a newly appointed member who attended the meeting expressed his view that he was reassured by the fact that outside members can make their proposals directly to the Company through frank exchanges of opinions undertaken at the meeting.

[Disclosure Based on the Principles of the Corporate Governance Code]

The Company makes concerted efforts to reinforce its corporate governance as a means of continuously increasing corporate value. The Company's basic stance on measures related to corporate governance is to implement the necessary policies and fulfill its accountability by setting up and operating a management structure and internal control system that allows the Company to swiftly respond to changes and realize efficient management that is sound, fair, and highly transparent. The Company views accomplishing such tasks as one of its most important management issues. Based on requests from stakeholders and social trends, the Company conducts reviews and implements the necessary measures and improvements, as needed, in an appropriate manner.

(2) Roles and Duties of the Board of Directors, etc. (Effective Utilization of the Diversity of Members of the Board, Audit & Supervisory Board Members and Executive Officers)

In order to properly carry out the formulation of the Business Strategies including the improvement of profitability and capital efficiency, their execution, and the supervision and audit of execution, it is extremely important to place persons with the diverse experience and knowledge, high level of expertise and insight necessary for these purposes in a well-balanced fashion as the Directors and Audit & Supervisory Board Members who attend the Board of Directors meetings and as the Management that lead execution. By doing so, the Company believes it can raise the level of management by enabling each to properly fulfill their respective roles and duties as follows:

1. The members of Management, who have diverse experience and knowledge regarding the operation of each of the Kao Group's businesses and divisions, conduct discussions based on their understanding of the business environment in which the Company operates and the strengths and issues of the Kao Group to create proposals for the Business Strategies. In the event that consideration from more diverse perspectives, including evaluation of risks, is appropriate when planning and otherwise dealing with Business Strategies, the members of Management strive to utilize external experts.

2. Inside Directors and Full-time Audit & Supervisory Board Members who are familiar with the status of the Kao Group's management and businesses, its strengths and issues, and other matters, and Outside Directors and Outside Audit & Supervisory Board Members with diverse experience and knowledge of business and other areas, a high level of expertise and insight, and a neutral, objective perspective deliberate from their diverse perspectives, including evaluating risks, at Board of Directors meetings and make decisions on proposed Business Strategies submitted by the Management.

3. The members of Management quickly and properly execute the Business Strategies utilizing their respective diverse experience and knowledge.

4. Each year, the members of Management ascertain changes in the business environment that forms the premises of the Business Strategies, consider the status of progress of the strategies, issues in their achievement and response to such issues, the necessity of changes to the strategies and other matters and report to the Board of Directors.

5. In response to the above report from the members of Management, the Outside Directors and Outside Audit & Supervisory Board Members through their diverse perspectives supervise and audit whether the Business Strategies have been executed properly and makes decisions on the necessity of changing the Business Strategies and other matters at the Board of Directors meetings.

(3) Effective Utilization of Independent Directors and Audit & Supervisory Board Members, etc. (Principle 4.10.1)

The Company uses a structure with the appropriate number of independent Outside Directors and Outside Audit & Supervisory Board Members who satisfy the “Standards for Independence of Outside Directors/Corporate Auditors of Kao Corporation” (hereafter, the “Standards for Independence”) to provide a check on the status of deliberations of the Board of Directors from an objective perspective independent of the Company’s Management so that the Company’s management judgment is not biased toward the logic of persons inside the Company.

To conduct examinations from an objective perspective independent from the Management, the Committee for the Examination of the Nominees for the Members of the Board, which examines candidates for Director, including for President and Chief Executive Officer, and the Compensation Advisory Committee, which examines the compensation system and remuneration levels of Members of the Board and Executive Officers, both include all independent Directors and independent Audit & Supervisory Board Members, Outside Directors and Outside Audit & Supervisory Board Members (hereafter, the “Independent Directors and Audit & Supervisory Board Members, etc.”).

(For further details regarding the Standards for Independence, please see http://www.kao.com/jp/en/corp_imgs/corp_info/governance_002.pdf.)

(For information concerning appointment of Independent Directors and Audit & Supervisory Board Members, etc., please see “Outside Directors’ Relationship with the Company (2)” in “Directors” below, as well as “Outside Audit & Supervisory Board Members’ Relationship with the Company (2)” in “Audit & Supervisory Board Members” below.)

(4) Non-executive Director as Chairperson of the Board of Directors (Principle 4.6)

To more thoroughly separate execution and supervision, the Company uses a structure in which a non-executive Director serves as Chairperson of the Board of Directors.

(5) Company with an Audit & Supervisory Board

The Company has chosen to be a company with an Audit & Supervisory Board for the following reasons.

1. In addition to Outside Directors that include people with management experience, Outside Audit & Supervisory Board Members that include lawyers, certified public accountants and people with academic experience further increase the diversity of the Board of Directors by expressing opinions with a high level of expertise and insight and are useful for proper deliberation and supervision and audit of execution.

(For the Company's stance on nomination of Outside Directors and Outside Audit & Supervisory Board Members, please see "7. Stance on Balance among Knowledge, Experience and Skills, and on Diversity and Size of the Board of Directors" below.)

2. Unlike in companies with a nominating committee and other committees or an audit committee, Audit & Supervisory Board Members with an independent perspective who do not concurrently serve as Directors enable objective audits of the execution of duties because they do not have the right to vote at Board of Directors meetings. In particular, independent Outside Audit & Supervisory Board Members enable audits from a perspective that is more independent from the Management.

3. Ability of Full-time Audit & Supervisory Board Members to Collect Necessary Information for Audits

The Company ensures cooperation on information collected by the Audit & Supervisory Board Members so that it is reported to the Outside Directors as necessary, in addition to audit reports to the Board of Directors.

(6) Promoting communications with shareholders

The Company will develop a structure to promote constructive communications with shareholders, and create opportunities to communicate with institutional investors and individual shareholders. In communication with shareholders, the members of Management participate to the extent possible in order to reflect the opinions of the shareholders in management properly. Pertaining to information of the Kao Group which is the basis for communication with stakeholders, the Company established Disclosure Guidelines, and is committed to timely, accurate and fair disclosure of information and proactively discloses information of social relevance as well as information which it is obligated to release publicly.

(For further details regarding Disclosure Guidelines, please see http://www.kao.com/jp/en/corp_ir/disclosure.html)

(7) Basic Strategy for Capital Policy

The Kao Group’s capital policy follows a basic strategy of securing a sound financial structure to make investments for sustainable growth and tolerate the related risks, and to make stable, continuous returns to shareholders. To realize this policy, the Kao Group uses Economic Value Added (hereinafter “EVA”), a management indicator that takes capital cost into account, as its main indicator and works to enhance its corporate value by improving EVA.

The Group manages all equity and interest-bearing liabilities as subject of capital cost and intends to optimize capital cost from the viewpoint of safety and capital efficiency. For equity, the Kao Group aims for a streamlined and sound structure from a medium- to long-term perspective with efficiency in mind and, while maintaining interest-bearing liabilities at a moderate level, aims to obtain high credit ratings which will allow it to procure capital for large-scale investments. The Kao Group is not subject to significant capital regulations except for general requirements under the Companies Act and others. Although the Kao Group emphasizes shareholder returns, it realizes that investment for growth will meet the expectations of its stakeholders, and therefore prioritizes such investment. In addition to providing stable dividends, the Kao Group aims to continuously increase dividends to reflect improvement in business results. The Kao Group also uses surplus funds to flexibly conduct share repurchases.

In addition to making returns to shareholders, the Kao Group retains the capital necessary to conduct investments for growth in a timely fashion and to ensure sufficient soundness to deal with situations that exceed assumptions while improving EVA.

The Company was selected as the Grand Prix recipient of the “Corporate Value Improvement Award*” (FY2016) due to the positive evaluation of its management aimed at corporate value improvement incorporating EVA®, a concept used to measure true profit by factoring in the cost of invested capital. Continuous growth in EVA® is linked to increase corporate value, which means long-term profit not only for shareholders, but for all Kao Group stakeholders as well.

*“Corporate Value Improvement Award”: The Corporate Value Improvement Award was founded in 2012 to spread and promote management aimed at enhancing corporate value which is deemed desirable by TSE from the perspective of a market provider. All listed domestic companies on the TSE market are eligible for the award. The award is to honor listed companies with high corporate value and management practices deemed to

contribute to the appeal of the TSE market, such as by improving corporate value through initiatives which consider capital cost and other investor concerns.

EVA is a monetary metric defined as NOPAT less capital cost. EVA is a registered trademark of Stern Stewart & Co.

5. Scope of Matters Delegated to the Management (Principle 4.1.1)

The Company has established the regulations of the Board of Directors and deliberation and reporting standards for the Board of Directors and the Management Committee to clearly set forth the matters to be deliberated on and reported at Board of Directors meetings and the matters to be delegated to the Management Committee, which is the highest executive decision-making body.

As set forth in 4-(2) above, the purpose of these regulations and standards is to realize the separation of supervision and execution by mainly having the Board of Directors conduct deliberations from various perspectives, including evaluation of risks, and deciding on the medium-to-long-term direction of management in the Business Strategies and, regarding the execution of the Business Strategies, delegate wide-ranging authority to the Management Committee, which is mainly composed of members with the position of Managing Executive Officer or higher who have abundant experience in business execution as persons responsible for core businesses or divisions, to accelerate decision-making and management. Examples include experience, including global experience, managing a company that provides products and services in a different field from the

Company, and consulting or academic experience. In addition, the Company aims to have Outside Directors comprise approximately half of the Board of Directors to ensure its diversity and influence.

Full-time Audit & Supervisory Board Members are nominated with emphasis on the balance of business experience of each person to date and the knowledge gained therefrom, experience working overseas, and qualities that can ensure independence from persons executing business. The nominees are selected from inside the Company from persons involved in corporate management of accounting and finance, operation of business, the supply chain from R&D to production and sales and persons with overseas and other business experience.

Outside Audit & Supervisory Board Members are nominated with emphasis on a high level of expertise and insight from their experience as an lawyers, certified public accountant, academic or other profession, and their legal qualification in terms of being outside the Company and their independence. 10. Details of Current Efforts to Effectively Use Independent Directors and Audit & Supervisory Board Members, etc.

(1) Status of Appointment of Independent Directors and Audit & Supervisory Board Members, etc.

Three of the seven Directors are Outside Directors, all of whom satisfy the Standards for Independence. Three of the five Audit & Supervisory Board Members are Outside Audit & Supervisory Board Members, all of whom satisfy the Standards for Independence.

(2) Chairperson of the Board of Directors (Principle 4.6)

In the current structure, an independent Outside Director acts as Chairperson of the Board of Directors as a measure to further increase the neutrality and independence of the Board of Directors.

(3) Communication and Cooperation among Independent Directors, Audit & Supervisory Board Members and Management (Principle 4.8.2)

The Chairperson of the Board of Directors takes the role of promoting communication and cooperation with members of Management and Audit & Supervisory Board Members. In addition, all the Audit & Supervisory Board Members, including the independent Outside Audit & Supervisory Board Members, and the Representative Directors hold meetings to exchange opinions multiple times during the year.

11. Analysis and evaluation of effectiveness of the Board of Directors taken as a whole and summary of the results thereof

On at least an annual basis, the effectiveness of the Board of Directors is evaluated by all of the Members of the Board and Audit & Supervisory Board Members at a meeting of the Board of Directors, and discussions are held based on such evaluation, by those present at the meeting, in order to make improvements aimed at enhancing the effectiveness of the Board of Directors. Based on the idea that the roles and responsibilities of the Board of Directors must be shared by the entire Board of Directors, the Company believes that it is effective for all members who participate in meetings of the Board of Directors, including Audit & Supervisory Board Members, to express their own opinions and evaluate those opinions by engaging in free and open discussions. Evaluation of effectiveness of the Board of Directors is therefore conducted through self-assessment.

<Current Efforts>

At a meeting of the Board of Directors held in June 2016, the remarks, including following viewpoints, were presented by each of the seven Members of the Board and each of the five Audit & Supervisory Board Members

(1) Efforts to address issues pointed out in last year's evaluation of effectiveness of the Board of Directors

(2) Viewpoints that are particularly expected of boards of directors in the Corporate Governance Code

(i) Discussion of the broad direction of corporate strategy (General Principle 4)

(ii) Establishing an environment where appropriate risk-taking by the senior management is supported (General Principle 4)

(iii) Carrying out effective oversight of Directors and the management from an independent and objective standpoint (General Principle 4)

(iv) Constructive communication with shareholders and investors (General Principles 3 and 5)

(3) General operation of meetings of the Board of Directors (proceedings, agendas, reports, materials, discussion, etc.) (Supplementary Principle 4-12 (1))

(4) Future issues for the Board of Directors

The following is a summary.

(1) Efforts to address issues pointed out in last year's evaluation of effectiveness of the Board of Directors

With regard to medium-to-long-term growth strategies, a review of the "Kao Group Mid-term Plan 2015 (K15)," which was completed in 2015, took place in a meeting of the Board of Directors. In addition, the details of discussions on the execution side regarding K20, the next mid-term four-year plan, which will start in FY 2017, are being reported to the Board of Directors in a timely manner. Those reports have been the basis for lively discussions including the direction of long-term targets beyond the period of the plan. A view is also shared that there is a need for more specific, deeper discussions on topics such as personnel strategy to increase the ability to execute mid-to-long-term business plans. Furthermore, positive steps are being taken, including establishment of special organizations, with regard to improvement of the business portfolio balance for profit generation, promotion of external cooperation for effective use of outside resources, and mergers and acquisitions for further growth. These initiatives are beginning to produce results.

(2) Viewpoints that are particularly expected of boards of directors in the Corporate Governance Code

(i) Discussion of the broad direction of corporate strategy

Under explicitly sharing the "Kao Way," which expresses the vision of the kind of company Kao intends to be, the Board of Directors is discussing matters such as the broad direction for achieving K20 and the specific numerical targets and corporate governance structure to support them. The Board of Directors formulates annual themes for deliberation, which are composed with mid-to-long-term business plans in mind, and at the start of the meeting of the Board of Directors each month, representative directors including President and CEO report immediate and mid-to-long-term matters of concern in execution, changes and signs in the business environment, etc. and measures to respond to them, and appropriately link the broad direction with the most recent activities. The Members of the Board share the awareness that such discussions should be further enhanced.

(ii) Establishing an environment where appropriate risk-taking by the senior management is supported

Systems that enable appropriate risk-taking, including compliance, internal control, and risk and crisis management systems, are in place and are operating effectively. Outside Directors and Audit & Supervisory Board Members express pros and cons and points to consider in making investments after confirming the measurement of risks on the execution side and preparations against those risks. This contributes to the execution side moving plans forward with confidence while taking risks.

(iii) Carrying out effective oversight of Directors and the management from an independent

and objective standpoint

Under the Chairman of the Board, who is a non-executive, independent Outside Director, lively discussions are undertaken that transcend the boundaries separating internal and external perspectives. Inside Directors are aware of and strive to incorporate these discussions in execution. Independent Outside Directors who have extensive management experience, full-time Inside Audit & Supervisory Board Members, who regularly have access to detailed and specific internal information, and Outside Audit & Supervisory Board Members, who have diverse experience and expertise, cooperate with each other. As a result, highly effective oversights are carried out based on objective opinions that are premised on timely and accurate information.

(iv) Constructive communication with shareholders and investors

The Management, including the President and Chief Executive Officer, proactively conducts IR activities. The Management directly provides explanations in their own words and engages in dialogue, and the Board of Directors receives feedback on the details, which enables interactive communication with investors. Constructive communication between shareholders and the Members of the Board, Audit & Supervisory Board Members and Executive Officers is also conducted through question- and-answer sessions at the General Meeting of Shareholders and shareholder visits to Kao Group facilities. In all of these situations, dialogue is enabled by efforts to understand the other party.

(3) General operation of meetings of the Board of Directors (proceedings, agendas, reports, materials, discussion, etc.)

To allow for productive discussions at meetings of the Board of Directors, the Board of Directors Secretariat provides sufficient explanations by distributing materials on matters such as the background, purposes, and content of the respective agenda items prior to the meeting of the Board of Directors as necessary. Furthermore, announcements are kept to no more than half of the planned time of each presentation, and proceed so that adequate time is secured for questions and discussion. These improvements are recognized, but further measures are necessary with regard to the content of meeting materials and the methods of explanation.

(4) Future issues for the Board of Directors

With regard to personnel strategies, it is necessary to quickly begin taking measures now to discover and develop human resources for ten years in the future in order to expand business globally. Furthermore, incorporating diversity will require careful consideration of how to maintain and balance the rationality and company-wide speed and ability to focus that have been achieved through the permeation of the “Kao Way”. Another issue is placing additional focus on extension of compliance and internal controls to subsidiaries and sub-subsidiaries to aim for further growth, including globalization.

The Audit & Supervisory Board conducts an evaluation of the auditing effectiveness once a

year.

<Current Efforts>

At the Audit & Supervisory Board meeting held in February 2017, all Audit & Supervisory Board Members expressed their opinions on the activities of the Audit & Supervisory Board Members in FY 2016. The attendees engaged in discussions based on those opinions, and made evaluation. In addition, reports were made to the Board of Directors on the following matters:

(1) Efforts to address issues pointed out in last year's evaluation of auditing effectiveness
With respect to cooperation between Audit & Supervisory Board Members and the Accounting Auditor, Audit & Supervisory Board Members and internal auditing division, in relation to the Accounting Auditor, while supervising independence and appropriateness of audits, a report on the audit plan (annual) and reports on accounting audit results (in respect of each quarterly review and year-end closing of accounts) have been received and information and opinions exchanged, and the selection of the Accounting Auditor was also discussed. Furthermore, the Audit & Supervisory Board Members have been working closely with the Department of Internal Audit and other internal auditing divisions, such as by exchanging information and opinions on a regular basis and whenever necessary, and have therefore been working to improve the effectiveness and efficiency of audits.

(2) Audit activities in FY 2016

Audit activities of the Audit & Supervisory Board are functioning effectively, with audits conducted in conformance with the auditing standards prescribed by the Audit & Supervisory Board, and in accordance with the audit policy, allocation of duties and others matters. In addition, proposals made at regularly held meetings to exchange opinions with Representative Directors are immediately implemented, confirming the effectiveness of audits.

(3) Future issues for audits by the Audit & Supervisory Board

Information is being shared closely between Audit & Supervisory Board Members of the Company and those of major subsidiaries in ways such as accompanying them on site visits to subsidiaries. However, it is necessary to increase the effectiveness of the Kao Group's audits by promoting further cooperation with Audit & Supervisory Board Members of other subsidiaries. In addition, the effectiveness of audits should be improved by making effective use of staffs who assist Audit & Supervisory Board Members in their duties.

12. Measures for Directors and Audit & Supervisory Board Members to improve understanding and knowledge required to fulfill their roles and duties (Principle 4.14.2 "Training Policy for Directors and Audit & Supervisory Board Members)

The Company provides Directors and Audit & Supervisory Board Members with opportunities to improve their understanding of the Company's business and business

environment and knowledge about corporate governance, etc and pays expenses which are required to fulfill their respective roles and duties. In particular, the Company provides Inside Directors and Full-time Audit & Supervisory Board Members with basic training as top management and auditors, knowledge regarding the Companies Act, corporate governance and related issues, useful information for observance of laws and regulations and for management, and other matters. Also, to deepen the understanding of Outside Directors and Outside Audit & Supervisory Board Members of the details and current status and other matters regarding the Kao Group's business strategies and businesses, the Company explains these matters at the time of inauguration and thereafter conducts tours of factories and business sites, explanations by the relevant officer and other measures as necessary.

< Details of Current Efforts >

- Explanation of the Business Strategies, details of businesses, operating structure and other matters upon inauguration
- Visits to main factories and major business sites, etc.
- Lectures to foster well-rounded character and insight as a top management
- Lectures on the Companies Act, corporate governance and other matters by experts and lectures on useful information regarding management by top management of other companies and knowledgeable persons
- Briefings on compliance, including prevention of insider trading

13. Policy and Procedures for Determining Remuneration for Members of the Board and Senior Management

In order to ensure remuneration for Directors and Officers is an effective incentive, etc. for achieving business plans, the Company's fundamental position on remuneration of Members of the Board and Executive Officers is as follows: (1) a compensation system which attracts a diverse range of excellent candidates in order to establish and improve competitive advantages; (2) compensation which promotes continuous improvement of corporate value and shares interests in common with shareholders; and (3) a highly objective and transparent decision-making process regarding compensation.

The Company has a Compensation Advisory Committee composed of all the Independent Directors and Audit & Supervisory Board Members, etc. and all the Representative Directors to examine and evaluate whether the compensation system and remuneration levels for Directors and Executive Officers adequately match the abovementioned basic stance. The Company also deliberates as necessary on the abovementioned basic stance. In addition, the Company will consider the appropriate global remuneration system for

officer, managers and employees to promote global business expansion.

(For further information, please see “Disclosed Details of Policy for Determining Amount and Calculation Method of Remuneration” in “Remuneration for Members of the Board” in “II. Business Administration Organization for Managerial Decision-Making, Execution and Supervision, and Other Corporate Governance Structure” below.)

14. Policy Concerning Measures and Organizational Structures to Promote Constructive Dialogue with Shareholders (Principle 5.1)

The Company considers its shareholders and investors to be important stakeholders. It emphasizes constructive dialogue to raise corporate value, and considers it important to deepen mutual understanding of stances and standpoints and to adopt proper responses based on such understanding.

To contribute to realizing constructive dialogue with shareholders and investors to raise corporate value, the Company proactively discloses socially useful information about the Kao Group in addition to disclosures required by law. The Company established rules on information disclosure and the prevention of insider trading, conducts information disclosures fairly without selective disclosure to specified persons, clarified the obligation to maintain confidentiality of insider information, as well as regularly conducts education for their thorough implementation.

An investor relations division is in charge of measures for dialogue with institutional investors, and in addition to routine meetings with institutional investors inside and outside Japan, it conducts briefings and other presentations on summaries and the progress of the Business Strategies, the status of operating results and businesses, shareholder returns and other matters. The President and Chief Executive Officer and Management participate to the extent possible in order to have opportunities for direct conversations with institutional investors that enable dialogue for increasing corporate value from a long-term perspective, and to make it easier to reflect the results of the dialogues in management.

The content of questions and opinions received from institutional investors and other matters from the abovementioned briefings and other presentations are reported as required at meetings of the Board of Directors and of the Executive Officers for utilization in the future management of the Company.

A shareholder relations division is primarily in charge of measures for dialogue with individual shareholders, and conducts tours of factories and facilities that introduce details of the Company’s businesses so that individual investors understand such details and hold the Company’s stock with a longer-term perspective. Moreover, when conducting these initiatives, the members of Management participate to the extent possible in order to have opportunities for dialogue with shareholders. In addition, the Company regards the

operation of the General Meeting of Shareholders as an opportunity for dialogue with its valued and important shareholders, and secures sufficient time for questions, among other measures.

In the future, in addition to explaining financial information, the Company intends to further enhance its explanation of non-financial information including its stance on corporate governance. To promote constructive dialogue with shareholders, relevant divisions including the investor relations division, accounting and finance division, legal and compliance division, and corporate strategy division will cooperate to consider and implement methods for explaining non-financial information such as publication on the Company's website and holding presentations, an organizational structure for dealing with dialogue with shareholders and other matters. Managers in charge of the investor relations division, the shareholder relations division and the corporate communications division, which integrates public relations, sustainability and other areas, will work together to integrate and promote these activities.

(For further details regarding IR Related Activities, etc., please see, in "III. Status of Measures Taken in Respect to Shareholders and Other Stakeholders" below, the section entitled "2. Status of IR Related Activities.")

15. Policies for Cross-Shareholdings* and Standards for Exercise of Voting Rights (Principle 1.4)

The Kao Group holds the shares of other listed companies only in cases where it considers such shareholdings, including the number of shares held, to be reasonable in consideration of their necessity in terms of business activities such as maintaining and strengthening business alliances and transactions and other matters. These cross-shareholdings are subject to the impact of trends in stock markets and the business environment in which the Company operates. However, each year the Board of Directors ascertains the reasonableness of cross-shareholdings and reviews their continuance and the number of shares held.

The Company exercises the voting rights of cross-shareholdings after comprehensively determining whether the proposals contribute to the establishment of a proper corporate governance system and to increasing the medium-to-long-term corporate value of the issuing company, as well as their impact on the Company. The Company engages in dialogue with the issuing company on the details of the proposals and other matters as necessary.

< Details of Current Efforts >

Under the above policy, the Company has reviewed the purpose and size of its shareholdings for each issue of stock it holds, and worked to revise its holdings while engaging in dialogues and negotiations with business partners and others. As a result, the number of issues of cross-shareholdings the Company holds as of December 31, 2016

decreased to 56 from 74 as of December 31, 2015 (the total amount on the balance sheet decreased from ¥10,349 million to ¥8,093 million). All voting rights at annual general meetings of shareholders held during 2016 by companies in which the Company holds shares were used to approve proposals, because there were no proposals that raised concerns of damage to the corporate value of the relevant company.

The above details were reported at the meeting of the Board of Directors.

*Cross-Shareholdings: There are cases where listed companies hold the shares of other listed companies for reasons other than pure investment purposes, for example, to strengthen business relationships. Cross-shareholdings here include not only mutual shareholdings but also unilateral ones.

16. Procedures for Approval of Related Party Transactions (Principle 1.7)

To obligate Members of the Board, Audit & Supervisory Board Members, Executive Officers and employees of the Kao Group to act with priority on the interests of the Kao Group, the Company has established the “Kao Guidelines on Preventing Conflicts of Interest” after their approval by the Board of Directors. In cases where Directors and Officers, managers and employees of the Kao Group engage in transactions with the Kao Group on behalf of themselves or of a third party, these guidelines provide that a notification be submitted to the Compliance Committee Secretariat and that, depending on the details of the notification, the Compliance Committee Secretariat shall require notification of or approval from the Board of Directors, the Management Committee or the Compliance Committee Secretariat Meeting.

In addition to these guidelines, Directors obtain the approval of the Board of Directors in cases of self-dealing or transactions involving conflicts of interest pursuant to the Companies Act.

Because the Company has no major shareholders who hold 10% or more of its stock, the Kao Group has not established procedures for approval of transactions with major shareholders.

Supplementary Explanation

The Company has established the Committee for the Examination of the Nominees for the Members of the Board and the Compensation Advisory Committee which fulfill functions similar to the nominating committee and compensation committee of a “company with committees.”

To incorporate an independent and objective perspective, the Committee for the Examination of the Nominees for the Members of the Board consists exclusively of all Outside Directors and all Outside Audit & Supervisory Board Members (five males and one female), with the chairman chosen by the members, and in FY 2016 an Independent Outside Director held the position. Prior to the election or re-election of Members of the Board (including Representative Directors), the Committee conducts examinations and submits its opinions of the nominees’ appropriateness to the Board of Directors. The Chairman of the Board of Directors (the Chairman of the Board of Directors has been absent since the Board of Directors meeting held on March 28, 2014) and the President and Chief Executive Officer contribute by submitting necessary and sufficient documents for an examination (including a summary of the new management structure, incorporating a classification of duties of the Members of the Board and Executive Officers, in addition to materials related to the subjects of the examination) to each member of the Committee and work to enhance the examination by making arrangements such as creating opportunities for the Director nominees and the Committee members to meet beforehand. The Committee met three times in FY 2016, and in addition to examining the appropriateness of Director nominees, it discussed the composition and diversity of the Board of Directors, including the proportion of Inside Directors and Outside Directors, and the qualities and abilities required of the Chief Executive Officer and Members of the Board of the Company, among other issues, and reported the results of its examination to the meeting of the Board of Directors.

The Compensation Advisory Committee is composed of the Chairman of the Board of Directors and all Representative Directors, who are familiar with the current compensation system and the duties of each position, and all Outside Directors and all Outside Audit & Supervisory Board Members to incorporate independent, outside perspectives (eight males and one female). The chairman is chosen by a vote among the Committee members, and in FY 2016 an independent Outside Director served as the chairman. The Committee is asked to provide its opinion on and conducts reviews of the compensation system and remuneration levels of the Members of the Board and Executive Officers. In FY 2016, the Committee convened three times, and mainly discussed the introduction of a new performance-based share incentive plan linked to the Kao Group Mid-term Plan “K20” as a new long-term incentive plan to replace the existing stock options. The results of the Committee’s reviews are reported to the Board of Directors. The introduction of the

performance share plan was approved by the Board of Directors and by the Annual General Meeting of Shareholders held on March 21, 2017.

☐ Cooperation between Audit & Supervisory Board Members and the Accounting Auditor

At the start of the accounting audit for each fiscal year, the Audit & Supervisory Board Members receive from the Accounting Auditor an audit plan describing matters such as the fundamental audit policy, the major items and sites to be audited and the main contents of the audit. The Audit & Supervisory Board Members also exchange views with the Accounting Auditor regarding the contents of the audit plan.

In each quarterly settlement of accounts, the Audit & Supervisory Board Members receive from the Accounting Auditor, in the course of the quarterly audit conducted by the Accounting Auditor, reports on the main content of the audit and whether any material problem has been found in the audit so far conducted, and also exchange views with the Accounting Auditor. At the time when the Accounting Auditor submits a quarterly audit report to the Board of Directors of the Company, a quarterly audit report meeting is held, where the quarterly summary of the audit results are reported to the Audit & Supervisory Board Members by the Accounting Auditor.

Similarly, in the settlement of accounts for each fiscal year, the Audit & Supervisory Board Members have opportunities to mutually discuss with the Accounting Auditor the contents of their audits, in the course of the audit conducted by the Accounting Auditor. Furthermore, the Audit & Supervisory Board Members receive an audit report from the Accounting Auditor within the time frame prescribed by law, as well as a summary of the audit results, which are later used by the Board of Audit & Supervisory Board Members in preparing its audit report.

The Audit & Supervisory Board Members also contact the Accounting Auditor whenever necessary to cooperate in forming their respective audit opinions.

□ Cooperation between Audit & Supervisory Board Members and Internal Auditing Divisions

Audit & Supervisory Board Members regularly meet, on a quarterly or semiannual basis, with the Department of Internal Audit and the Legal and Compliance Department, as well as the internal auditing divisions of the Company concerned with environment and safety, product quality management, risk management, and other areas, to hear about their activities and to exchange views. When necessary, Audit & Supervisory Board Members and these divisions provide each other with the information they have, which serves to deepen the cooperation and raise the levels of their respective audit activities.

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods
--

Policy on determining remuneration Amounts for 2017, as below, is determined after reviewing at the Compensation Advisory Committee held in 2016.

The Company's compensation system for Members of the Board, Audit & Supervisory Board Members and Executive Officers is aimed at (1) securing and retaining diverse and excellent personnel to establish and improve competitive advantages; (2) promoting prioritized measures for lasting increases in corporate value; and (3) sharing interests in common with shareholders.

Remuneration of Members of the Board, other than Outside Directors, and Executive Officers consists of (i) a base salary, (ii) a bonus as short-term incentive compensation, and (iii) performance-based share incentive plan as long-term incentive compensation, and is designed to provide an impetus for continuing annual improvement in business results and medium-to-long-term growth. Linkage of remuneration to business results increases with rank and takes into account the responsibilities of each position and individual performance. An overview of the components of remuneration is as follows.

(i) Base salary

A base salary is paid as fixed monthly remuneration in an amount determined in accordance with duties as a Member of the Board or Executive Officer and rank.

(ii) Bonus as short-term incentive compensation

When the full bonus payment rate is paid, the bonus is set at 50% of the base salary for the President and Chief Executive Officer, 40% of the base salary for the Chairman of the Board of Directors and Executive Officers with titles other than the Chief Executive Officer, and 30% of the base salary for other Executive Officers. The bonus payment rate is set within a range of 0 to 200%, depending on the degree of achievement of targets for net sales and income (gross profit less selling, general and administrative expenses), the degree of their improvement from the previous year, and the degree of achievement of the target for Economic Value Added (EVA), the Company's main management metric, which takes into account capital cost.

(iii) Performance-based share incentive plan as long-term incentive compensation

Within a four-year target period from fiscal 2017 to fiscal 2020 (hereinafter, the target period), the period covered by the current mid-term plan, Company shares, etc. are delivered to the Members of the Board excluding Outside Directors and Executive Officers in accordance with the degree of achievement of targets adopted under the mid-term plan, etc. This performance-based share incentive plan comprises two parts: a performance-based part in which Company share, etc. is delivered in accordance with the degree of achievement of targets adopted under the mid-term plan, etc., and a fixed part in which a certain number of Company share, etc. is delivered annually. The purpose of the performance-based part of the system is to provide an impetus for achieving the targets of the Company's mid-term plan as well as to increase the link between performance and compensation over the medium to long term. The purpose of the fixed part of the system is to strengthen shared interest with the Company's shareholders by promoting the holding of shares by the Members of the Board excluding Outside Directors and Executive Officers. The performance-based part

accounts for 70% of shares delivered, with the fixed part accounting for 30%. When the performance-based coefficient for the performance-based part of the system is at 100%, the yearly share remuneration amount is set at approximately 30% to 40% of a base salary.

1. Performance-based part

Based on a point system where points are determined beforehand by rank (hereinafter, rank points), single-year points are granted to the Members of the Board excluding Outside Directors and Executive Officers every business year and are calculated using the formula below. Performance-based points are calculated by multiplying the single-year points accumulated within the target period by the performance-based coefficient, which reflects the degree of achievement of the mid-term plan's targets, etc. Based on these points, shares, etc. will be delivered to the Members of the Board excluding Outside Directors and Executive Officers upon the conclusion of the mid-term plan. The performance-based coefficient fluctuates within a range of 0% to 200% in accordance with the degree of achievement of targets, etc. for the CAGR of actual sales as well as consolidated operating margin, etc.

Formula for calculating single-year points: Rank points \times 70%

Formula for calculating performance-based points: Cumulative single-year points over the target period \times performance-based coefficient

2. Fixed part

Fixed points are granted to the Members of the Board excluding Outside Directors and Executive Officers every business year. These points are based on rank points and calculated using the formula below. Shares, etc. are delivered to the Members of the Board excluding Outside Directors and Executive Officers in the year following the corresponding business year in accordance with the number of fixed points. Furthermore, shares acquired in the fixed part of the performance-based share incentive plan are held continuously until the conclusion of the target period.

Formula for calculating fixed points: Rank points \times 30%

Compensation for the Outside Directors, who hold a position independent from the Company's business execution function, is limited to a fixed monthly salary.

The compensation system and compensation standards for the Members of the Board and Executive Officers are examined by the Compensation Advisory Committee and determined by the Board of Directors. The Compensation Advisory Committee comprises the chairman of the Board of Directors as well as all of the Company's representative directors. In addition, the Committee includes all of the Company's Outside Directors and Outside Audit & Supervisory Board members, from the perspective of ensuring objectivity and transparency in the decision-making process.

As such, over half of the Committee's members are independent.

Compensation for Audit & Supervisory Board Members consists of fixed monthly remuneration. Compensation standards are determined at meetings of the Audit & Supervisory Board.

Compensation standards for the Members of the Board, Executive Officers, and Audit & Supervisory Board Members are determined each year after ascertaining standards at other major manufacturers of a similar size, industry category, and business type to the Company using officer compensation survey data from an external survey organization.

The Company has no retirement bonus system for the Members of the Board or Audit & Supervisory Board Members.

[Supporting System for Outside Directors and Outside Audit & Supervisory Board Members]

To allow for active discussions at meetings of the Board of Directors, the Board of Directors Secretariat provides Outside Directors with sufficient explanations by distributing materials on matters such as the background, purposes, and content of the respective agenda items, as necessary, prior to the meeting of the Board of Directors as necessary.

Furthermore, under this support system, administrative divisions such as the Department of Internal Audit, and the Legal and Compliance Department provide the Outside Audit & Supervisory Board Members with assistance upon the Outside Audit & Supervisory Board Members' request.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

☐ Outline of the Current Corporate Governance Structure

The Company has introduced, within the framework of a "Company with an Audit & Supervisory Board*," the Executive Officer system in order to separate the supervision function from the execution function. Following the conclusion of the 111th Annual General Meeting of Shareholders held in March 2017, the Company has: seven (7) members of the Board, including three (3) Outside Directors (seven (7) out of seven (7) are male); five (5) Audit & Supervisory Board Members, including three (3) Outside Audit & Supervisory Board Members (four (4) out of five (5) are male and one (1) is female); and twenty-six (26) Executive Officers, including five (5) Executive Officers, with the title of Senior Managing Executive Officer or Managing Executive Officer and

without concurrent positions in the Board of Directors (twenty-four (24) out of twenty-six (26) are male and two (2) are female). All Outside Directors and all Outside Audit & Supervisory Board Members maintain their neutrality, independent from the Company's management. In order to improve the transparency and other aspects of discussions in the Board of Directors, an Independent Outside Director has become the chairman of the Board after the 108th Annual General Meeting of Shareholders held in March 2014. The term of office for Directors and Executive Officers is one year.

*For information concerning reasons for adopting a company with an Audit & Supervisory Board, please see "(5) Company with an Audit & Supervisory Board" in "4.Basic position and policy on corporate governance" in "Matters to be disclosed based on each principle of the Corporate Governance Code" in "1.Basic Position on Corporate Governance" in "Basic Position on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information" above.

☐ Activity for strengthening the auditing function of the Audit & Supervisory Board Members

For improving the auditing effectiveness and strengthening the auditing function, the Company increased the number of its outside Audit & Supervisory Board Member by one from the 107th Annual General Meeting of Shareholders held in March 2013. Five Audit & Supervisory Board Members, including three Outside Audit & Supervisory Board Members who are independent from Kao's management, have attended important meetings such as meetings of the Board of Directors, the Management Committee, the Internal Control Committee and related committees, etc., made site visits to plants and research laboratories, etc. for auditing purposes, heard opinions from business sections and functional sections, performed investigations concerning domestic and overseas subsidiaries, held meetings for exchanging opinions with Representative Directors of the Company and its material subsidiaries, held meetings by Audit & Supervisory Board Members of Domestic Group Companies (which are held semiannually and intended principally for the exchange of opinions between the Audit & Supervisory Board members of the Company and its subsidiaries) and enhanced cooperation with Compliance Hotlines. To assist the Audit & Supervisory Board Members with their duties, the Company assigns two staff members, one who has considerable financial and accounting knowledge, and one who has considerable legal knowledge. Administrative departments such as the Department of Internal Audit, the Legal and Compliance Department and the Accounting and Finance Department also perform some staff tasks.

In addition, the accounting firm, Deloitte Touche Tohmatsu LLC as the Company's Accounting Auditor, ensures, in accordance with applicable laws, regulations, etc., that none of its employees who become involved in the audits of the Company will be

involved in such audit for more than 7 accounting periods. The Company executed an audit contract with Deloitte Touche Tohmatsu LLC with respect to audits required under the Companies Act and the Financial Instruments and Exchange Law, and pays remuneration to the accounting firm in accordance with this contract. To ensure the reliability of disclosed information relating to the Company's financial results and audit quality, the Accounting Auditor formulates an audit plan and secures necessary and sufficient time for audits. In addition, the Accounting Auditor conducts sufficient coordination, including holding regular meetings and exchange of information with the Executive Officer in charge of accounting and finance, the Audit & Supervisory Board Members and Department of Internal Audit, respectively.

The names of the certified public accountants (CPA) who engaged in the audit for FY2016 (ended December 31, 2016) and the composition of the assistants in the audit are as follows:

- Name of the CPAs engaged in the audit:
Designated Limited Liability Partner/Engagement Partner: Hiroshi Yoshida, Yasushi Suzuki and Kenichiro Shiga
- Composition of assistants in the audit:
17 CPAs and 19 others

The election, reappointment and dismissal of the Accounting Auditor are appropriately evaluated and decided at the Audit & Supervisory Board meeting, after collecting information from the Company's finance and management divisions, internal auditing divisions and the Accounting Auditor, based on evaluation criteria established by the Audit & Supervisory Board, taking into account factors such as the existence of a cooperative network with partner auditors overseas made up of multiple accounting firms and the quality, expertise and independence of proposals and advice for resolving issues, accelerating the settlement of accounts and increasing audit efficiency. As a result, the Audit & Supervisory Board confirmed the suitability of the audit methods and results of the current Accounting Auditor, and resolved at a meeting in January to reappoint the current Accounting Auditor. This resolution was reported at the meeting of the Board of Directors in February.

☐ Summary of liability limitation agreements

According to Article 427, Paragraph 1 of the Companies Act and Articles of Incorporation of the Company, the Company entered into an agreement with each Outside Director and Audit & Supervisory Board Member to effect that the liability of each Outside Director or Audit & Supervisory Board Member under Article 423, Paragraph 1 of the Companies Act will be limited to the higher of: 10 million yen; or any amount prescribed by applicable laws and regulations.

3. Reasons for Adoption of Current Corporate Governance System

The Company has made continuous efforts to improve its corporate governance structure. The Company will continue to examine the issue of corporate governance structure improvement as part of its managerial challenges. The Company considers it appropriate to make efforts to improve its corporate governance structure through establishing the Committee for the Examination of the Nominees and the Compensation Advisory Committee, on the basis of its current structure as a “Company with an Audit & Supervisory Board*” which has the Board of Directors (consists of four (4) Inside Directors and three (3) Outside Directors) and the Audit & Supervisory Board (consists of two (2) Inside Audit & Supervisory Board Members and three (3) Outside Audit & Supervisory Board Members.)

*For information concerning reasons for adopting a company with an Audit & Supervisory Board, please see “(5) Company with an Audit & Supervisory Board” in “4. Basic Position on Corporate Governance” in “Basic Position on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information” above.

☐ Matters Related to Outside Directors (Roles and Functions of Outside Directors)

The Outside Directors are expected to share, in the course of management of the Company, their considerable experience and expertise as a manager of a global manufacturing company or a major financial institution or a management consultant, and the Outside Directors fulfill the checking functions from neutral positions, independent of the Company’s management, to ensure that the managerial decisions of the Company are not biased by the views of its internal members. Also, an Independent Outside Director has become the chairman of the Board.

Based on this policy and plan, departments concerned with risk or subsidiaries and affiliates appropriately manage risk by ascertaining and assessing risks, formulating and implementing necessary countermeasures, and other activities. In addition, after deliberation by the Management Committee, the President and Chief Executive Officer specifies major Company-wide risks as corporate risk and appoints a person to appropriately manage such risk. When a crisis occurs, the Company responds promptly by establishing an organization for countermeasures centered on this person in charge for corporate risk, and on departments concerned with risk or subsidiaries and affiliates for other types of risk. In addition, depending on the magnitude of the impact on the Group as a whole, the Company also establishes a countermeasures headquarters with the President and Chief Executive Officer or other person as its general manager. Management of the abovementioned risks and crises is reported to and discussed at the Meeting of the Board of Directors or the Management Committee on a regular basis as well as in a timely fashion whenever necessary.
