## 1. Qualitative information on the consolidated results for the current quarter

### (1) Explanation of the consolidated financial results

Japan's economy gradually recovered during the first three months of the fiscal year ending March 2018, with corporate earnings and employment and income conditions improving as a result of the economic policies of the Japanese government and the monetary easing policies of the Bank of Japan. However, the economy has still not reached a full-fledged recovery, due partly to a lack of strength in consumer spending and overseas economic uncertainty, including slower growth in China and emerging markets.

The printing industry faced a tough business environment, as demand continued to decline for printed media, including published printed materials, due partly to market growth for e-books and internet advertising.

Under these circumstances, the DNP Group (DNP), based on the DNP Group Vision 2015 and the four growth areas of "Knowledge and Communication," "Food and Healthcare," "Lifestyle and Mobility," and "Environment and Energy," focused on creating new value through P&I innovations as a combination of its strengths in printing and information and worked to expand its business. It also implemented structural reforms to bolster competitiveness, working to reorganize and consolidate business divisions and group companies.

As a result of these efforts, consolidated net sales for the first three months fell 1.7% year on year to ¥343.7 billion, consolidated operating income grew 38.9% to ¥8.2 billion, consolidated ordinary income grew 32.0% to ¥11.8 billion, and net income attributable to parent company shareholders grew 883.8% to ¥7.6 billion.

Business segment results are presented below.

#### [PRINTING]

##### Information Communication

In the Publishing business, DNP pursued aggressive sales activities in Publishing & Media Services, but the publication market continued to slump, and sales of books and magazines both decreased year on year. In the Education and Publications Distribution business, DNP focused on expanding business in the "honto" hybrid bookstore network that combines physical bookstores, online bookstores, and e-book services. Sales were favorable for e-books and online bookstores, and aided also by an increase in new accounts in library operations outsourcing services, sales in this business increased from the previous year. However, overall sales in the Publishing business decreased from the previous year, due partly to selling a partial stake in BUNKYODO GROUP HOLDINGS CO., LTD. in October 2016 and switching the company from a consolidated subsidiary to an equity-method affiliate.

In the Information Innovation business, sales decreased for advertising flyers, catalogs, and other printed media, and also fell below year-ago levels for Information Processing Services (IPS; handling data entry, printing, and shipment of personalized mail and other items). However, sales were firm for smart cards for financial institutions and electronic money, and increased for point-of-purchase promotional materials (POP) and other sales promotion tools. As a result, overall sales increased from the previous year.

In the Imaging Communication business, DNP worked to provide high-value-added services that allow consumers to enjoy photo printing, including "ShaGoo!" automated commemorative photo booths and Imaging Mall as a cloud-based image sales solution. It also expanded Southeast Asian sales of dye-sublimation thermal transfer printing media for photo printers (color ink ribbons and receiver paper). However, sales were sluggish in North America and Europe, and overall sales decreased from the previous year.

As a result of the above, overall segment sales fell 4.5% year on year to ¥194.2 billion, but operating income grew 0.5% to ¥5.0 billion.

## **Lifestyle and Industrial Supplies**

In the Packaging business, sales increased year on year for plastic molded products, but decreased for paper packaging, film packaging, and PET plastic bottle aseptic filling systems. As a result, overall sales decreased from the previous year.

In the Living Spaces business, DNP focused on sales of environmentally conscious products that used its proprietary electronic beam (EB) coating technology. Sales also increased for Arttec interior and exterior aluminum panels, and decorative films featuring sophisticated designs such as wood grains and metals along with realistic texture effects, for non-housing applications such as commercial facilities, offices, automobiles, and railway cars. As a result, overall sales increased from the previous year.

In the Industrial Supplies business, sales of lithium-ion battery components were favorable for both mobile and automotive applications, and overseas sales of photovoltaic module components increased. As a result, overall sales increased from the previous year.

As a result of the above, overall segment sales fell 0.8% year on year to ¥93.7 billion and operating income fell 16.7% to ¥2.6 billion.

## **Electronics**

In the Display Components business, sales of LCD color filters decreased year on year on declines for both small- and medium-sized filters for smartphones and tablets and large filters for TVs. However, sales were favorable for metal masks used in the production of organic light-emitting diode (OLED) displays. Optical films increased from the previous year on firm sales of mainstay anti-reflection films for LCDs and higher sales of films for OLED displays.

In the Electronic Devices business, semiconductor photomask sales increased from the previous year on uptake of domestic and overseas demand.

As a result of the above, overall segment sales grew 9.3% year on year to ¥44.8 billion and operating income grew 144.9% to ¥6.3 billion.

## **[BEVERAGES]**

### **Beverages**

The soft drink industry continued to experience tough competition for market share, due partly to price competition among manufacturers. However, DNP worked to expand market share in existing markets and to acquire new customers by releasing new products in core brands and by advancing the vending machine business by leveraging area marketing and operational expertise.

As a result of these efforts, sales increased for the mainstay Coca-Cola brand and for unsweetened tea drinks including Ayataka. However, sales decreased to group bottlers outside the Hokkaido region. Mineral waters also declined. Overall segment sales fell 0.9% year on year to ¥12.1 billion and operating income fell 44.9% to ¥70 million.

## **(2) Explanation of the consolidated financial position**

Total assets at the end of the first quarter decreased by ¥27.2 billion from the end of the previous fiscal year to ¥1,714.6 billion, due mainly to decreases in cash and time deposits.

Total liabilities decreased by ¥23.2 billion from the end of the previous fiscal year to ¥637.3 billion, due mainly to decreases in short-term bank loans and reserve for bonuses.

Net assets decreased by ¥3.9 billion from the end of the previous fiscal year to ¥1,077.3 billion, due mainly to a decrease in retained earnings.

As a result of the above, the equity ratio rose from 59.4% at the end of the previous fiscal year to 60.0%.

## **(3) Explanation of the consolidated earnings forecasts**

Our earnings forecasts for the fiscal year ending March 2018 are unchanged from the forecasts announced on May 12, 2017.
