(Yen in millions)

|   | (Tell III I                            |                                       |        |  |
|---|--|---------------------------------------|--------|--|
|   | Balance before<br>Additional Borrowing | Balance after<br>Additional Borrowing | Change |  |
| Short-Term Loans Payable                                | 0                                      | 0                                     | 1      |  |
| Long-Term Loans Payable                                 | 146,894                                | 146,894                               | -      |  |
| Investment Corporation Bonds                            | 34,500                                 | 34,500                                | ı      |  |
| Interest-Bearing Debt                                   | 181,394                                | 181,394                               | -      |  |
| Ratio of Interest-Bearing Debt to Total Assets (Note 2) | 40.7%                                  | 40.7%                                 | -      |  |

<sup>(</sup>Note1) Long-term loans payable and investment corporation bonds each include the current portions.

Ratio of Interest-Bearing Debt to Total Assets (%) = Interest-Bearing Debt ÷ Total Assets x 100

### 4. Other Matters Required for Investors to Appropriately Understand and Evaluate the Above Information

There will be no changes made to the content of the investment risk indicated in the Securities Report filed on March 27, 2017 with respect to the risks involved in repayment, etc. of the current borrowings.

\*JPR website: http://www.jpr-reit.co.jp/en

<sup>(</sup>Note2) Ratio of Interest-Bearing Debt to Total Assets mentioned above is calculated using the following formula and then rounded to the first decimal place:
