2. Details of the Revision of Year-end Dividend

	Dividend per share		
	Interim dividend	Year-end dividend	Annual
Latest forecast (Announced on May 9, 2017)	40 yen	40 yen	80 yen
Revised forecast		48 yen	95 yen
Fiscal year ending March 2018	47 yen		
Fiscal year ending March 2017	30 yen	50 yen	80 yen

Note: The above forecasts are based on current data available as of the time of this release and certain assumptions that management believes to be reasonable. MC cannot guarantee, however, that performance will unfold as forecast. Actual dividends may differ materially from these statements for various reasons.

3. Reason

In accordance with “Midterm Corporate Strategy 2018”, MC will manage investments and returns to shareholders within the company’s total cash flow. MC is focusing on dividends as the basic approach to returning value to shareholders and on increasing dividend flexibly in line with sustainable earnings growth based on a progressive dividend scheme. As announced separately today, MC has revised its consolidated net income forecast for the fiscal year ending March 2018 to 500.0 billion yen, and as operating income, excluding one-off gains and losses, in both Business-related and Market-related sectors is steadily increasing, MC now plans to raise its original projection for the annual dividend per share by 15 yen from 80 yen to 95 yen. Accordingly, the Board of Directors today passed a resolution setting the interim dividend per share at 47 yen, around half of the revised annual dividend forecast.
