Our Mission

Ichigo Preserves and Improves Real Estate

Ichigo is a Japanese real estate owner-operator and clean energy producer.

Our three key businesses are: Value-Add, in which Ichigo preserves and improves real estate; Asset Management, including managing the Tokyo Stock Exchange-listed Ichigo Office (8975), Ichigo Hotel (3463), and Ichigo Green (9282); and Clean Energy, in which Ichigo builds and operates solar and wind power plants on unused land nationwide.

We are committed to serving the needs of society and creating long-term value for our shareholders.

The word “Ichigo” comes from the ancient Japanese proverb, Ichigo Ichie, literally meaning “One lifetime, one encounter.” The phrase was first used by a 16th century master of the tea ceremony, Sen no Rikyu. He called upon his disciples to give total focus and sincerity to each act of the tea ceremony for every guest, because that particular moment will only exist once and must be fully lived and realized. Ichigo embraces the Ichigo Ichie philosophy of sincerity and service, and works to build strong long-term relationships to support the success of all of our clients, shareholders, and stakeholders.

Business Report
(March 1, 2017 – February 28, 2018)

I. Current Operations and Financials

A. Business Conditions in the Current Fiscal Year (FY18/2)

1. Business Results and Progress

During FY18/2 the Japanese economy continued to expand moderately, as a result of economic and fiscal policies implemented by the Japanese government, monetary easing policies implemented by the Bank of Japan, and growth of the global economy. Capital expenditures continued to increase on the back of improved corporate earnings and business sentiment, and household consumption gradually increased due to steady improvements in employment and income.

Turning to Ichigo's prime area of activity, the Japanese real estate industry has seen relatively stable investment returns on the back of ongoing rent increases and low interest rates, in turn driving strong demand for real estate investments. As can be seen in five consecutive years of land price increases in Tokyo, land prices continue to be on the rise, especially for the three major metropolitan areas. Despite a shift of funds from J-REIT mutual funds into J-REIT ETFs, the J-REIT market is expected to see continued strong demand given its stability and product transparency. The office market continues to see rent increases in the five central wards of Tokyo, with further growth of office demand expected from strong corporate earnings, headcount expansion, and efforts to improve work environments in order to attract talent. Although the hotel market continues to see large new supply, demand is growing strongly, centered on inbound tourists from Asian countries, supported by the 2020 Tokyo Olympics and the government's efforts to promote Japan as a global tourist destination.

With respect to clean energy, while changes in the renewable energy feed-in-tariff (FIT) rules have caused some companies to reevaluate project viability, it has also spurred creation of a secondary market for existing solar power plants and development rights. A new solar YieldCo also IPOed on the Tokyo Stock Exchange infrastructure market during FY18/2, as the market continues to grow.

Within this business environment, Ichigo executed on the following initiatives to achieve the goals it set out in its Power Up 2019 mid-term business plan and establish a foundation for sustainable growth.

Core Business Growth

– Value-Add

Given the strong real estate market, Ichigo worked to grow through new initiatives and innovative approaches to asset acquisition. Specifically, Ichigo acquired via M&A a Tokyo-based real estate operator, Centro Co., Ltd., and also made acquisitions in new asset types in logistics and self-storage facilities. FY18/2 asset acquisitions totaled JPY 54.3 billion, which will drive future earnings growth via rental income. FY18/2 asset sales were JPY 23.6 billion.

Because Ichigo's FY18/2 Value-Add profit margins were significantly above forecast, Ichigo was able to be more selective in its Value-Add asset sales and retained more Value-Add assets that will contribute to stable earnings going forward.

Through its strengthened leasing activities and high-quality tenant services, Ichigo has also successfully increased both occupancy and rents at Tradepia Odaiba, Ichigo's first large-scale Value-Add asset, in the first year post-acquisition.

Tradepia Odaiba

– Asset Management

Ichigo worked to support the growth of its two TSE-listed REITs and solar YieldCo by supporting Ichigo Office's (8975) portfolio restructuring and Ichigo Hotel's (3463) hotel acquisitions and selling two solar power plants to Ichigo Green (9282).

– Clean Energy

Ichigo launched the operation of the Ichigo Showamura Ogose ECO Power Plant in September 2017, four months ahead of its initial launch schedule. Ichigo Showamura is the largest solar power plant in Kanto, the region that encompasses Tokyo and the world's largest electricity market. With a 20-year fixed power sale contract (FIT) in place, Ichigo Showamura will be a stable earnings driver for twenty years. Ichigo continues to expand its solar and wind power plant pipeline.

New Business Entry

– Real Estate Owner Services

Ichigo launched Ichigo Owners, a real estate owner services company, on March 1, 2017, as its fourth pillar of business. Ichigo Owners caters to the needs of both experienced real estate owners as well as first-time real estate investors, leveraging Ichigo's value-add capabilities to increase the value of clients' real estate. Ichigo Owners also provides ongoing asset management services tailored to the diverse needs of Ichigo clients, building long-term relationships of trust, and protecting and growing the value of client real estate holdings.

– Boutique Hotels

Ichigo launched its first boutique hotel brand and opened THE KNOT YOKOHAMA on December 1, 2017, having transformed and upgraded the old Yokohama Kokusai Hotel. THE KNOT brand is positioned between luxury hotels and budget hotels, which is common in Europe and the US, but new for Japan. Ichigo's second boutique hotel, THE KNOT TOKYO (provisional name), is currently being developed in Shinjuku.

THE KNOT YOKOHAMA

– Self-Storage

Ichigo entered the self-storage market through its acquisition of Centro, which offers indoor storage equipped with the industry's leading security and air conditioning management systems. The self-storage market has significant growth potential in Japan, and Ichigo will accelerate new openings, leveraging its extensive network and solid financial standing.

– Ichigo Land

Ichigo established a new subsidiary, Ichigo Land Shinchiku ("Ichigo Land"), on October 17, 2017 to further contribute to a sustainable society via Ichigo's Value-Add capabilities.

– Hotel AI System

Ichigo has allied with Fujitsu Kyushu Systems Limited, a major hotel systems developer and member of the Fujitsu Group with deep expertise in AI (artificial intelligence) and IoT (Internet of Things), to develop an AI-based revenue management system. Ichigo's goal in this alliance is to develop technology solutions that increase guest satisfaction, increase hotel values, and drive higher earnings.

Improved Borrowing Terms, Share Buybacks, JPX-Nikkei 400 Index, Branding

- Ichigo further strengthened its financial standing by extending its loan maturities, lowering borrowing costs, hedging against future rises in interest rates, and expanding its uncollateralized borrowings.
- Ichigo conducted two share buybacks during FY18/2 to grow EPS for Ichigo shareholders.
- For the second year in a row, Ichigo was selected for inclusion in the JPX-Nikkei Index 400 in August 2017. In its Power Up 2019 mid-term business plan, Ichigo is seeking to rank within the JPX-Nikkei 400's top 200 companies by August 2019.
- Ichigo implemented a number of measures to strengthen the Ichigo brand.

Ichigo thus recorded FY18/2 revenue of JPY 57.8 billion (-47.1% year-on-year); operating profit of JPY 20.9 billion (-4.2% year-on-year); recurring profit of JPY 19.2 billion (-2.9% year-on-year); and net income of JPY 14.0 billion (-5.9% year-on-year).

2. Capital Expenditures

During FY18/2, solar power plant equipment and solar power plants under construction (fixed assets) increased by JPY 3.4 billion.

3. Financing

In order to drive earnings growth and further strengthen its financial standing, Ichigo took advantage of the current low interest rate environment to improve borrowing terms by lowering borrowing costs, staggering loan maturities, and extending loan durations.

Ichigo has significantly reduced its interest rate risk should Japanese interest rates rise, hedging 60.2% of interest-bearing corporate loans as of the end of FY18/2 via interest rate swaps and interest rate caps. If asset acquisition and sales and loan repayments proceed as forecast, then 79.6% of FY21/2-end interest-bearing corporate loans will be hedged against interest rate movements.

Ichigo has also been increasing its uncollateralized borrowings, which total JPY 29 billion as of March 2017.

	Lender	Amount	Term	Use of Funds
Uncollateralized Loans	SMBC-led syndicated loan ¹	JPY 8 billion	7 years	Refinancing
Uncollateralized Commitment Lines	SMBC	JPY 10 billion	2 years from drawdown date	Acquisition of new hotels
	Mizuho Bank	JPY 4 billion	2 years from drawdown date	Acquisition of new hotels

Total		JPY 29 billion		

¹ SMBC, Shinsei Bank, Hokuriku Bank, Yamaguchi Bank, Tokushima Bank, ShinGinko Tokyo

As a result, Ichigo's outstanding balance of interest-bearing corporate loans as of the end of FY18/2 was JPY 118.5 billion (+20.5% year-on-year), and its outstanding balance of non-recourse loans and bonds was JPY 67.5 billion (-11.0% year-on-year). Average interest rates during FY18/2 for interest-bearing corporate loans and non-recourse loans were 1.0% (-0.2% year-on-year) and 1.2% (-0.1% year-on-year), respectively.

Ichigo continues to have an extraordinarily stable and durable balance sheet, with 95.3% of interest-bearing corporate loans as of the end of FY18/2 being long-term. Specifically, JPY 82.0 billion of interest-bearing corporate loans have remaining terms of more than 5 years, with total interest-bearing corporate loans having an average loan term of 10.2 years. Furthermore, 47.8% of Ichigo's interest-bearing corporate loans as of the end of FY18/2 are with Japanese megabanks.

D. Key Business Priorities

Ichigo's Power Up 2019 mid-term business plan sets out as its key goals to drive further sustainable earnings growth in Ichigo's core businesses and develop new Ichigo businesses that will be forward growth engines. Consistent with this strategy and in response to potential changes in market conditions in Japan's currently strong real estate market, Ichigo has been building a foundation for sustainable growth for its shareholders.

Ichigo has been successfully generating steady earnings growth in its three core businesses: Value-Add, Asset Management, and Clean Energy.

In Asset Management, there is a significant gap between the share prices of J-REITs and YieldCos versus the realizable value of the underlying real estate and renewable energy assets, which underscores the current undervaluation of Ichigo Office, Ichigo Hotel, and Ichigo Green. To close this valuation gap, Ichigo is working to increase earnings by generating profits on asset sales that can fund growth investments and value-add capex, strategically restructuring asset portfolios, and acquiring new assets taking advantage of the Ichigo Office, Ichigo Hotel, and Ichigo Green's strong financial standing.

In Value-Add, Ichigo has expanded into new asset types, including logistics and self-storage. In Clean Energy, Ichigo has been adding wind power plant projects to its existing portfolio of solar power plants. Ichigo is working across all of its businesses to drive sustainable growth by accelerating the development of new earnings drivers, such as real estate owner services and self-storage.

I. Dividend and Distribution Policy

Ichigo views distributions to its shareholders as an important priority.

Ichigo's Board of Directors adopted on April 19, 2016 a progressive dividend policy. This policy underscores Ichigo's commitment to driving continued organic earnings and dividend growth for its shareholders. Under a progressive dividend policy, the previous year's dividend becomes the floor for the current year's dividend. The dividend will be raised (or kept flat) but not cut, providing shareholders downside dividend protection.

In addition to this progressive dividend policy, Ichigo has adopted a minimum DOE (dividend on equity) payout ratio of 3%. In contrast to a "earnings payout ratio policy," which pays dividends based upon more volatile annual earnings, a DOE policy that pays dividends based upon more stable shareholder equity is by its very nature more stable. Ichigo believes that the combination of a progressive dividend and a DOE-based payout policy will significantly increase the security, certainty, and visibility of its dividend to the benefit of Ichigo's shareholders.

The FY18/2 dividend per share is JPY 6, up 20% year-on-year.

Pursuant to Article 14 of Ichigo's Articles of Incorporation, Ichigo has made this policy available on its corporate website:

www.ichigo.gr.jp/ir/management_policies/internal_controls.html

Internal Controls to Ensure that Statutory Executive Officers and Employees Execute Their Duties in Full Compliance with Japanese Law and Ichigo's Articles of Incorporation (Article 416, Paragraph 1 of the Company Law, Article 112, Paragraph 2, Item 4 of the Enforcement Regulation of the Company Law)

Overview

The Board supervises the Statutory Executive Officers by receiving periodic reports on the status of business execution. The Audit Committee audits the performance of duties for both Statutory Executive Officers and employees.
- (2) The Board sets internal rules, establishes relevant divisions and appoints Statutory Executive Officers, and engages external experts with respect to establishing compliance, financial reporting controls, internal audit, prevention of dealings with anti-social forces, and prevention of insider trading.

Status

- (1) The Board is comprised of six independent and three internal directors, and had a total of 9 meetings during FY18/2 with a 100% attendance rate. Statutory Executive Officers make decisions and/or seek board approval through board proposals, and report their activities to the Board at least quarterly. The Audit Committee is comprised of three Independent Directors, and held a total of 17 meetings during FY18/2 with a 100% attendance rate.
- (2) (a) Compliance – The Compliance Committee held two meetings to deliberate material compliance matters and conducted training sessions based on the company's Code of Corporate Ethics and Code of Conduct. (b) Financial Reporting Controls – The President and Statutory Executive Officers of each division and subsidiary work to ensure compliance with internal controls and the evaluation thereof.

(c) Internal Audit Department – The objective of the Internal Audit Department for FY18/2 was to contribute to management level decision-making through a group-wide, risk-based approach focusing on recommendations to prevent problems and improve operations. Specifically, the Internal Audit Department examined the execution of management duties, IT system security, and the status of investment securities.

(d) Prevention of Dealings with Anti-Social Forces – Ichigo has written manuals on how to handle Anti-Social Forces as well as rules that require Anti-Social Force clauses to be included in contracts. Furthermore, Ichigo works with the Tokyo Metropolitan Police Department and other external experts in conducting due diligence of business counterparties. (See “System Against Anti-Social Forces.”)

(e) Prevention of Insider Trading – Through its internal rules on the management of insider information, Ichigo strictly manages all critical corporate information and ensures proper disclosure thereof. Internal rules require that all officers and employees must pre-clear any transaction in designated securities with the Statutory Executive Officer of their respective divisions.

2. Systems to Ensure Proper Storage and Management of Information Required for Execution of Duty by Statutory Executive Officers (Article 112, Paragraph 2, Item 1 of the Enforcement Regulation of the Company Law)

3. Risk Management Policies and Systems (Article 112, Paragraph 2, Item 2 of the Enforcement Regulation of the Company Law)

Overview

Ichigo’s policy is that the Statutory Executive Officer of each division is responsible for the compliance of respective business operations and for managing business risks. In addition, a Chief Risk Officer has been appointed and a Risk Management Division established in order to ensure a proper risk management framework exists across the entire group and to deal with any significant risks that arise. Ichigo's risk management framework also prescribes how to respond to any loss of basic business functions as a result of natural disasters or accidents.
