1. Overview of Financial Results and Financial Position

(1) Overview of Financial Results

(1) Financial Results for FY2018 ended March 2018

In the current fiscal year, vehicle unit sales in Japan fell by 8,079 units (10.1%) compared with the previous fiscal year to 72,262 units.

Overseas vehicle unit sales rose by 3,652 units (0.9%) over the previous fiscal year to 429,630 units as pickup trucks sold well in Thailand and emerging markets showed a recovery trend.

As a result, consolidated total vehicle unit sales in Japan and abroad decreased by 4,427 units (0.9%) year-on-year to 501.892 units.

As regards sales amounts of products other than vehicles, sales of parts for overseas production increased by 13.5 billion yen (23.4%) compared with the previous fiscal year to 71.5 billion yen, engine and component sales jumped by 23.7 billion yen (22.9%) over the previous fiscal year to 127.0 billion yen, and other sales gained by 25.7 billion yen (6.7%) year-on-year to 408.9 billion yen thanks to growth in the vehicle life-cycle management business such as after-sales services.

Consequently, net sales grew by 117.1 billion yen (6.0%) compared with the previous fiscal year to 2,070.3 billion yen, which comprised 786.9 billion yen for Japan, down 0.2% over the previous fiscal year, and 1,283.4 billion yen for the rest of the world, up 10.2% year-on-year, owing to the increases in the pickup truck sales in Thailand and the engine and component sales, as well as thanks to the expansion in the vehicle life-cycle management business.

On the profit and loss front, the afore-mentioned sales growth effect and efforts to reduce and control costs and expenses, combined with favorable movements in foreign exchange rates, all raised operating income by 13.9% compared with the previous fiscal year to 166.7 billion yen and ordinary income by 14.2% over the previous fiscal year to 173.6 billion yen. Net income attributable to owners of the parent climbed by 12.6% year-on-year to 105.6 billion yen.

② Forecast for FY2019 ending March 2019

In FY2019 ending in March 2019, the Company expects net sales to rise, forecasting a sales increase boosted by recovery in emerging economies and a growth in the industrial engine business, though predicting only a slight increase in vehicle unit sales in Japan.

The Company seeks a profit increase by more than offsetting unfavorable turns in the foreign exchange environment and increases in raw material prices by net sales expansion and extensive cost-cutting efforts.

The Company forecasts the consolidated business results for the year ending March 31, 2019 as follows:

Net sales 2,140.0 billion yen
Operating income 176.0 billion yen
Ordinary income 184.0 billion yen

Net income attributable

to owners of the parent 110.0 billion yen

*This forecast for FY2019 consolidated fiscal year is considered reasonable by the Company based on information available today. Hence, this forecast is subject to uncertainty arising from a possible change to world economic and/or market conditions and exchange rates as well as other risk factors.

Actual financial results may differ considerably from this forecast. The above, therefore, should not be the sole basis for any investment decision.

(2) Overview of Financial Position

① Assets, Liabilities and Net Assets

Total assets as of the end of the current fiscal year rose by 186.6 billion yen from March 31, 2017 to 2,067.5 billion yen.

This is primarily because of gains in cash and deposits of 71.5 billion yen, investment securities of 27.4 billion yen, property, plant and equipment of 24.2 billion yen, notes and accounts receivable-trade of 22.8 billion yen, inventories of 20.1 billion yen, and lease receivables and investment assets of 15.8 billion yen.

Liabilities grew by 62.2 billion yen from March 31, 2017 to 981.0 billion yen. This is mainly due to increases in interest-bearing liabilities of 32.3 billion yen and notes and accounts payable-trade of 17.6 billion yen.

Net assets climbed by 124.4 billion yen from March 31, 2017 to 1,086.5 billion yen. This is chiefly because of increases in net income attributable to owners of the parent of 105.6 billion yen, non-controlling interests of 23.2 billion yen, valuation difference on available-for-sale securities of 16.5 billion yen, and foreign currency translation adjustment of 2.1 billion yen, partially offset by a decrease in retained earnings of 25.2 billion yen as a result of

dividend payments.

The capital adequacy ratio stood at 44.5%, compared with 43.5% as of March 31, 2017. Interest-bearing liabilities increased by 32.3 billion yen from March 31, 2017 to 279.6 billion yen.

② Cash flows Data

Cash and cash equivalents (hereinafter referred to as "funds") as of the end of the current fiscal year rose by 69.2 billion yen from March 31, 2017 to 329.9 billion yen; more specifically, out of the funds from operating activities of 176.8 billion yen, 107.0 billion yen was used for investing activities and 4.4 billion yen for financing activities.

Free cash flows, calculated by deducting investing cash flows from operating cash flows, recorded an inflow of funds of 69.7 billion yen, up 9.1% from March 31, 2017.

[Cash Flow from Operating Activities]

Funds provided by operating activities amounted to 176.8 billion yen, up 16.8% from March 31, 2017. This is mainly owing to inflows of funds of 176.0 billion yen and 66.3 billion yen recorded for profit before income taxes and depreciation, respectively, partially offset by outflows of funds due to increases in notes and accounts receivable-trade of 12.8 billion yen, inventories of 5.1 billion yen, and lease receivables and investment assets of 15.6 billion yen, as well as due to income taxes paid of 41.6 billion yen.

[Cash flow from Investing Activities]

Funds used in investing activities reached 107.0 billion yen, up 22.5% from March 31, 2017. This is primarily attributable to purchase of noncurrent assets of 99.4 billion yen.

[Cash flow from Financing Activities]

Funds used in financing activities stood at 4.4 billion yen, down 92.0% from March 31, 2017. This is mostly because of outflows of funds of 25.0 billion yen for repayments of long-term loans payable, 25.1 billion yen for cash dividends paid, and 13.1 billion yen for dividends paid to non-controlling interests, partially offset by inflows of funds of 14.7 billion yen for net increase in short-term loans payable and 42.0 billion yen for proceeds from long-term loans payable.

(3) Basic Policy regarding Earnings Appropriation and Dividend for FY2018 and FY2019

The Company deems dividend payment to shareholders and repurchase of its own stock as important actions for corporate management. Thus, when it decides to do so, it carefully assesses and secures an optimal balance between rewarding shareholders in a continuous and stable manner and securing an optimal amount of retained earnings for building a stronger business foundation and future business development.

The Company plans to submit a proposal to its ordinary general meeting of shareholders that it will pay a year-end dividend of 17 yen per share. In the next term, it plans to pay an interim dividend of 18 yen per share and a year-end dividend of 18 yen per share.

2. Basic Concept on Choice of Accounting Standards

The Company prepares its consolidated financial statements under standards applicable in Japan in light of the ability to compare businesses and periods of financial statements.

The company may consider the application of international accounting standards upon reviewing circumstances in and outside Japan.

3. Consolidated Financial Statements
