I. Basic views on corporate governance, capital structure, corporate profile, and other basic information

1. Basic views

SoftBank Group Corp. ("SBG") and its subsidiaries (collectively, the "Company") are guided by a fundamental concept of "free, fair, and innovative," and a corporate philosophy of "Information Revolution – Happiness for everyone." The Company aims to be a provider of essential technologies and services to people around the world through its endeavors in various businesses in the information and technology industries.

SBG, the holding company of the SoftBank Group (the "Group"), recognizes that it is vital to maintain effective corporate governance in order to realize this vision. SBG continues to strengthen governance within the Group by taking measures such as formulating the SoftBank Group's Charter to share the Group's fundamental concept and corporate philosophy and devising Group Company Management Regulations of the SoftBank Group to set out the management policy and management framework for group companies, among other matters. SBG also sets out various rules with which group companies and their officers and employees must comply.

SBG's corporate governance system centers on the Board of Directors, Audit & Supervisory Board members, and the Audit & Supervisory Board. Three of the 12 directors are external directors to ensure robust mutual monitoring between the directors. Likewise, three of the four Audit & Supervisory Board members are external members to ensure independent auditing functions, thereby strengthening the monitoring of management.

Basic guidelines

SBG stipulates the following basic guidelines for corporate governance based on the principles of Japan's Corporate Governance Code.

Securing the rights and equal treatment of shareholders (General principle 1)

SBG strives to fully secure shareholder rights by developing an environment in which all shareholders, including minority and overseas shareholders, can effectively exercise their rights. SBG also treats all shareholders equally in accordance with their shareholdings, in compliance with laws and regulations.

Appropriate cooperation with stakeholders other than shareholders (General principle 2)

SBG endeavors to build good relationships with all stakeholders, including shareholders as well as customers, employees, and business partners, and to cooperate appropriately with them in order to contribute to maximizing enterprise value. To this end, the Board of Directors and management team seek to establish a corporate culture where the opinions and positions of stakeholders are respected by formulating and disclosing the SoftBank Group's CSR Principles and the SoftBank Group's Officer and Employee Code of Conduct, and complying with these standards.

Ensuring appropriate information disclosure and transparency (General principle 3)

SBG appropriately discloses both financial and non-financial information in compliance with relevant laws and regulations and the rules of the Tokyo Stock Exchange. Furthermore, SBG also strives to actively provide information beyond that required by laws and regulations and the Tokyo Stock Exchange when necessary by carefully considering the impact on investors and other stakeholders. In either case, the Board of Directors strives to ensure that SBG's information disclosure is always fair, clear, and useful.

Responsibilities of the Board (General principle 4)

Given its fiduciary responsibility and accountability to shareholders, SBG's Board of Directors strives to maximize enterprise value by thoroughly engaging all directors, including independent external directors, in timely and appropriate discussions of the Board meeting agenda to decide the entire group's management strategy over the medium to long term. The Board also strives to achieve proactive and bold management strategies while controlling risks. The Board of Directors, Audit & Supervisory Board members, and Audit & Supervisory Board strive to ensure their transparency by carrying out highly effective oversight of management.

Dialogue with shareholders (General principle 5)

SBG proactively engages in constructive dialogues with shareholders and investors in order to contribute to maximizing enterprise value. Through these dialogues, SBG strives to further develop mutual understanding and foster relationships of trust, and to carry out management giving due consideration to their opinions.

Reasons for non-compliance with certain principles of Japan's Corporate Governance Code

Supplementary principle 4.1.2 Commitment of the Board of Directors to achieving the medium-term business plans

SBG constantly reviews the entire group's medium-term business plans based on their progress and market trends and discussions are also held by the Board of Directors. However, SBG withholds its medium-term business plans from public disclosure.

With regard to its long-term management vision, SBG announced "SoftBank's Next 30-Year Vision" at its Annual General Meeting of Shareholders in 2010, its 30th anniversary year. Reaffirming its corporate philosophy, "Information Revolution – Happiness for everyone," and clarifying its vision and strategy for the next 30 years, SBG has made a commitment to its shareholders to become "the corporate group needed most by people around the world," as its vision through to 2040.

Principle 5.2 Establishing and disclosing business strategy and business plan

SBG's basic policy is to maintain a sound financial status while both investing aggressively to ensure sustained growth and returning profits to shareholders. However, SBG withholds specific targets from public disclosure with regard to indexes such as profitability and capital efficiency.

Principle 1.4 Cross-shareholdings

SBG may hold shares under a so-called "cross-shareholdings" structure when it has an important purpose in terms of management strategy other than pure investment purposes, such as anticipating a business alliance or business synergies to sustainably increase enterprise value. SBG appropriately exercises its voting rights related to the shares in these cross-shareholdings after considering whether the proposal will contribute to the sustainable increase of enterprise value.

As of March 31, 2018, SBG held four stocks as "investment shares held for reasons other than pure investment purposes," with a total value on the balance sheet of ¥30,831 million.

Principle 1.7 Related party transactions

Prior to their approval, all transactions at SBG are deliberated by specialist divisions such as the Accounting, Finance, and Legal divisions, based on internal regulations and according to the scale and materiality of the transaction. The process for approval is structured to enable Audit & Supervisory Board members and the Internal Audit Department to check on the details at all times.

The Board of Directors Regulations stipulates that the Board must approve transactions conducted by directors if these may compete or cause conflicts with the Company's interests. Each transaction is subject to approval by the Board of Directors and the transaction results are reported to the Board. SBG discloses related party transactions in its Annual Securities Report and non-consolidated financial statements attached to the Notice of the Annual General Meeting of Shareholders.

Principle 3.1 Full disclosure

(i) Guided by a corporate philosophy of "Information Revolution – Happiness for everyone," SBG aims to be a provider of essential technologies and services to people around the world through its endeavors in various businesses in the information and technology industries. SBG discloses this corporate philosophy and vision on its website.

SBG announced "SoftBank's Next 30-Year Vision" at its Annual General Meeting of Shareholders in 2010, its 30th anniversary year. 2. Matters regarding functions of business execution, auditing, oversight, nomination, and remuneration decisions: overview of current corporate governance system

1. Governance system

(1) Board of Directors

SBG's Board of Directors consists of 12 directors, including three external directors. The Chairman and CEO serves as the chairman of the Board. SBG ensures adequate independence of the three external directors, who bring a wealth of knowledge and experience to the Board related to business management and other matters. Each of the external directors participates actively in the discussions at the Board meetings and SBG makes management judgments and decisions based on these discussions.

Agenda items for discussion at the Board of Directors meetings are set forth in the Board of Directors Regulations. The Board discusses the following at regular Board meetings and at extraordinary meetings that are convened when necessary:

- i. Statutory matters
- ii. Critical matters related to business management, such as (a) fundamental management policy, business plans, and (b) matters such as investments and loans and borrowings, etc., exceeding a certain amount
- iii. Certain matters related to subsidiaries (excluding listed subsidiaries and their subsidiaries), such as investments and loans and borrowings, etc., exceeding a certain amount
- iv. Other matters

The Board of Directors also supervises the execution of duties by directors. Authority to decide matters other than these agenda items discussed by the Board of Directors is delegated to committees, directors, and department managers to enable speed and flexibility in corporate activities.

To elect directors, the Board of Directors selects candidates in accordance with SBG's Articles of Incorporation and the Board of Directors Regulations, and these candidates are proposed at the General Meeting of Shareholders.

(3) Audit & Supervisory Board members and the Audit & Supervisory Board

The Audit & Supervisory Board consists of four members, three of whom are external members. Two of the members are full-time members and two are part-time members. Among the four Audit & Supervisory Board members, one member has extensive experience working as the manager of SBG's Legal Department and as its Chief Compliance Officer, and therefore has a deep understanding of the Company's management and operations. SBG ensures adequate independence of the three external Audit & Supervisory Board members, who possess a wealth of knowledge and experience in their professional roles as a lawyer, certified public accountants, or certified tax accountants.

The Audit & Supervisory Board members, including the external members, attend the Board of Directors meetings, allowing them to monitor and verify the decision-making of the Board and fulfillment of the Board's obligation to supervise the execution of duties by each director. Moreover, the Audit & Supervisory Board members conduct regular hearings with directors, employees, Audit & Supervisory Board members, and other personnel of major subsidiaries to audit the execution of duties by the directors of SBG.

The Audit & Supervisory Board meet once a month, in principle. At the meeting, the Audit & Supervisory Board members decide on the audit policy, plan, and other matters, receive quarterly briefings and reports related to the earnings results from the independent auditor, and exchange information and opinions with the independent auditor as necessary. The Audit & Supervisory Board members also receive briefings on individual matters from the directors as necessary.

The Audit & Supervisory Board Office is established to support the duties of all the Audit & Supervisory Board members and the office comprises dedicated personnel who act under the directions of the Audit & Supervisory Board members to gather information, investigate matters, and give other assistance.

Sprint Corporation, Brightstar Corp., and other subsidiaries paid ¥2,904 million as remuneration for audit certification duties. Arm Limited, SoftBank Corp., and other subsidiaries paid ¥993 million as remuneration for non-audit duties.

iii. Non-audit duties provided for SBG by the auditing certified public accountants and assistants

The non-audit duties for which SBG pays remuneration to the auditing certified public accountants and assistants mainly consist of preparation of comfort letters when issuing corporate bonds.

3. Reasons for adoption of current corporate governance system

SBG adopts the company with Audit & Supervisory Board system. As explained in "2. Matters regarding functions of business execution, auditing, oversight, nomination, and remuneration decisions: overview of current corporate governance system," its corporate governance system is built around the Board of Directors, the Audit & Supervisory Board members, and the Audit & Supervisory Board.

The directors carry out lively discussions at each Board of Directors meeting. Moreover, since three of the 12 directors are external directors, management benefits from diverse perspectives and the function for mutual monitoring between directors are enhanced.

The Audit & Supervisory Board members conduct strict audits of the directors' execution of duties from their specialist perspectives as a certified public accountant, a lawyer, or other professional. Moreover, since three of the four Audit & Supervisory Board members, a majority, are external members, SBG's audit function is enhanced by ensuring more independent perspectives.

The current system is thus selected because SBG judges that it can ensure effective corporate governance.

IV. Matters related to the internal control system

1. Basic views on the internal control system and the progress of system development

The information below explains SBG's system to ensure the appropriateness of its operations and its implementation status.

(1) System to ensure the appropriateness of operations

System to ensure that the execution of duties by directors and employees is in compliance with laws, regulations, and the Articles of Incorporation of SBG

SBG has established the SoftBank Group's Officer and Employee Code of Conduct to prescribe the code of conduct to be followed by all directors and employees to ensure that corporate activities are appropriate based not only on regulatory compliance but also on high ethical standards, and has established the following structure to continuously reinforce the compliance system:

1. A Chief Compliance Officer (CCO) is appointed. In addition to proposing and carrying out measures required to establish and enhance SBG's compliance system, the CCO periodically reports to the Board of Directors on compliance-related issues and the status of addressing those issues.
2. Internal and external hotlines (whistle-blowing system) are established for direct reporting and consultations by directors and employees to quickly identify, rectify, and prevent the reoccurrence of any inappropriate issues in corporate activities. SBG ensures that persons who have reported or consulted using the hotlines will not be treated disadvantageously for having done so by prohibiting such treatment of persons on such grounds in the SoftBank Group's Compliance Rules.
3. The Internal Audit Department carries out audits on the effectiveness of the system for compliance in line with laws, regulations, and the Articles of Incorporation, and the results of those audits are reported to the CEO. The Internal Audit Department also works in cooperation with the Audit & Supervisory Board members by explaining the results of those audits to them.

SBG ensures that persons who have reported or

consulted on the Group Hotline will not be treated disadvantageously for having done so by prohibiting such treatment of persons on such grounds in the SoftBank Group's Compliance Rules.

2. The Group Chief Information Security Officer (GCISO) is appointed to promote the establishment and reinforcement of groupwide information security systems, as the person ultimately responsible for information security throughout the Group.
