1. Overview of Financial Results of the Fiscal Year Ended August 31, 2018

(1) Overview of financial results of the fiscal year ended August 31, 2018

In the fiscal year ended August 31, 2018, Japanese economy continued to recover gradually while employment and earnings environment continuously improved. As for world economy, though there have been some risks of trade conflictions, in overall, it continued to recover gradually.

In the photovoltaic industry, to which the NPC Group ("the Group") belongs, due to the cost reduction in the photovoltaic ("PV") system and increase of the awareness in environmental issues, now, through the biddings, the number of installed panels is increasing in rising countries such as countries in South America, Middle East and Africa, added to the main market such as the USA, China and India. Also, supported by the increase in cost efficiency of PV power generation, private enterprises' needs of PV panel installations for self-consumption have been expanding for expecting the ESG investments. On the other hand, although the annual amount of PV panel installation in Japan is in the decrease, there are several ongoing development projects of mega solar power plants. Also, due to the effect of Japanese national policies, the awareness in maintenance of PV systems and proper disposal of end–of-life panels is increasing more and more.

Under such circumstances, the consolidated net sales were 6,444 million yen, almost as announced as of July 11, 2018, 1,678 million yen increase year on year. Operating income was 506 million yen, 84 million yen decrease year on year, and ordinary income was 458 million yen, 40 million yen decrease year on year. Extraordinary income of 28 million yen was booked, as a settlement received due to the result of settlement of dispute occurred with regard to the business of contract module assembly; in overall resulted 410 million yen of net income attributable to owners of the parent, 127 million yen increase year on year.

Financial results by segment are as follows:

1) Machinery Business

The sales were 6,165 million yen, 1,644 yen increase year on year, as the sales of the large-scale PV Equipment line and automated/labor-saving machine was booked steadily as well as sales of parts. Although there were several business deals of automated/labor-saving machine that included R&D, and loss of valuation of inventory assets, the Group was able to ensure the profit at a satisfactory level, which resulted to the operating income to be 977 million yen, 147 million yen decrease year on year.

2) Environmental Business

The sales were 278 million yen, 34 million yen increase year on year, as market needs to our services has been increasing such as onsite inspection of mega solar power plants and panel reuse business. Operating income was 23 million yen, compared with the operating loss of 56 million yen from the previous fiscal year due to cost reduction efforts such as improvement of work efficiency and allowing high profitability through our unique service with high-added-value.

(2) Future outlook

In the upcoming fiscal year (FY2019), increase in both sales and profit are expected as both our existing business and new business shall progress steadily. As for Machinery Business, a manufacturing line with new specification is expected to be booked to our major customers in the USA, however, due to the timing of booking, the peak of sales booking is expected to be in the latter half of the said fiscal year. As for automated/labor-saving machine, sales of said machines in various industries such as display industry or automobile industry is expected. In the environmental business, it is expected to sell multiple services such as the on-site inspection for mega solar power plants and regular inspections throughout the year. Also the booking of first panel disassembly line for recycling purposes is expected as well.

In conclusion of above activities, the consolidated business forecast for the next fiscal year will be: sales at 7,002 million yen, 557 million yen increase year on year; operating income at 534 million yen, 27 million yen increase year on year; ordinary income at 491 million yen, 33 million yen increase year on year; and net income at 428 million yen, 17 million yen increase year on year.

Forward-looking statements in this report such as financial results forecasts are based on the information available to NPC Incorporated at the time when this report is prepared and the assumption that the forecasts are reasonable. The actual results may significantly differ from the forecast due to various factors.
