2. Differences between Non-Consolidated Forecasts and Results (April 1, 2018 to September 30, 2018)

	Ordinary income	Ordinary profit	Net income	Per share Net income
	Million Yen	Million Yen	Million Yen	Yen
Previously announced forecasts (A)	59,900	22,400	100	0.08

Actual (B)	60,405	22,826	701	0.58
Increase (decrease) in (B)-(A)	505	426	601	
Rate of changes (%)	0.8	1.9	601.0	
(Reference) Results for the Second Quarter of the Previous Fiscal Year (Q2 FY18)	58,186	21,507	14,808	12.43

3. Reason for the difference

In overseas businesses, there is no significant difference between the forecast and results.

In Japan, on the other hand, ordinary income exceeded the ordinary income forecast due to the steady result of the ATM business. Ordinary expenses were lower than planned due to the effects of continued cost reduction, and ordinary profit and net income exceeded forecasts. Accordingly, there are differences between the forecasts and results for both consolidated and non-consolidated financial results in the current interim financial results.

The full-year earnings forecasts has not changed from the previous forecasts.
