Reasons for Non-Compliance With the Principles of the Corporate Governance Code

Aeon Mall adopts and implements every principle defined under the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1-4. Cross-Shareholdings]

The Aeon Mall policy on cross-shareholding is to hold shares for the purpose of contributing to improved Aeon Mall Group corporate value over the medium and long term. This policy considers a number of factors including business strategy and business relationships.

We review individual cross shareholdings on an annual basis, considering the purpose for holding shares, whether share dividend income exceeds the cost of capital, risks involved in holding shares, and transactions with the issuing party. These factors are part of determining the overall benefits of holding shares for the long-term. This annual review is conducted by the board of directors, the final determination of which we disclose publicly.

When exercising voting rights of cross-held shares, we verify whether each proposal contributes to the medium- and long-term improvement in Aeon Mall corporate value and whether said proposal holds the potential to damage our corporate value. As necessary, we hold discussions with the issuing company as part of our overall decision-making process.

[Principle 1-7. Related-Party Transactions]

Aeon Mall has established a system to ensure transactions with officers or major shareholders (related-party transactions) do not infringe on the interests of the Company or our shareholders.

1. We carefully investigate in board of director deliberations whether competitive transactions by directors and transactions involving conflicts of interest with directors and Aeon Mall infringe on the interests of the Company and our shareholders. Our investigations include consulting with experts regarding the reasonable nature of the transactions in question. The Company ensures fairness in this process through a number of means, including recusing directors having special interests in transactions with the Company from voting in the resolution.

2. When the company enters into transactions with related parties, we clarify the identity of such parties in our Related Party List according to the provisions of our Rules for Managing Related-Party Transactions. We ensure objectivity in transaction terms through rules that include providing comparison tables in period-end financial reports that show examples of transactions with non-related parties. According to the importance and nature of the transaction in question, we comply with our Authority Rules in soliciting opinions from outside directors and members of the Audit & Supervisory Board during board of director meetings regarding the rationality (business purpose) and reasonable nature of the transaction terms. On an annual basis, we investigate the rationality and reasonableness of transactions, issuing a report on the annual increase or decrease in transactions with related-party companies.

[Principle 2-6. Functions as a Corporate Pension Asset Owner]

Aeon Mall is a member of the Aeon Corporate Pension Plan. This fund is managed to ensure the total income required over the long-term, within the scope of acceptable risks, to provide pension benefits and lump-sum payments to beneficiaries over the future. Policy asset allocation structures are created in regulator reviewed in consideration of the financial status of the plan and opinions of outside experts. An Asset Management Committee has been established for this fund, which selects investment products and provides quarterly monitoring of performance. Decisions are made by a committee of delegates to maximize beneficiary returns and manage conflicts of interests in an appropriate manner. This committee of delegates includes one delegate from Aeon Mall. This Asset Management Committee includes individuals responsible for corporate finance and outside experts knowledgeable in related matters.

At present, two board members are highly independent outside directors. Internal directors have an understanding of our overall business operations, a sense of balance, a history of achievements, and decision-making skills, contributing to the diversity of expertise among board members. Outside directors consist of independent individuals with management experience and expertise in a variety of industries, contributing a diversity of viewpoints, a wealth of experience, a depth of knowledge, and expert opinions. As a developer, manager, and operator of shopping malls, Aeon Mall seeks the values and conceptual ideas of women. Accordingly, we pursue diversity in management, including appointing women as constituent members of our board of directors. The Company employs a diverse workforce without regard to nationality, race, gender, age, educational background, religion, etc.

Nominations of director candidates are proposed by the president and chief executive officer. Nominations are determined by board resolution, having considered the opinions of outside directors, and are presented to the annual general shareholders' meeting for approval.

[Supplementary Principal 4-11-2. Concurrent Service by Board Directors]

Under the provisions of our corporate charter, the Company determines the necessary number of directors and members of the Audit & Supervisory Board, including outside directors and outside members, to ensure sufficient time and effort required for accomplishing assigned roles and responsibilities in an appropriate

manner.

When appointing directors and members of the Audit & Supervisory Board, we determine whether the individual serves concurrently as an officer at another publicly traded company or equivalent company/organization. Individuals are discussed in board of director meetings and nominated as candidates for director or member of the Audit & Supervisory Board after verifying that the individual(s) in question is reasonably capable of attending meetings of the board of directors or meetings of the Audit & Supervisory Board. The Company subsequently verifies that the officer in question contributes actively to board deliberations and facilitates rapid decision-making. Positions concurrently held by directors and members of the Audit & Supervisory Board are disclosed in our annual convocation notice of general shareholders' meeting and our annual securities report.

[Supplementary Principal 4-11-3. Analysis and Evaluations of the Effectiveness of the Board of Directors]

The Company evaluates the effectiveness of the board of directors through self-assessments based on questionnaires. A third-party organization conducts analysis of questionnaire answers, while outside directors and others provide further opinions and feedback. The results of this investigation and analysis are examined and discussed at a meeting of the Company's board of directors.

At the board of director meeting in question, sufficient time was set aside for discussing board effectiveness. After a lively exchange of varied opinions and experiences from directors and members of the Audit & Supervisory Board, the board of directors determined that the board functioned appropriately during fiscal 2017 and had improved in general compared to the prior fiscal year.

In particular, the board recognized improvements in monitoring the Company's medium- and long-term vision and in providing regular opportunities for outside directors and managers to exchange opinions.

On the other hand, the board identified matters for future investigation. These matters included ensuring greater objectivity and transparency in processes related to nominating director candidates and director remuneration, as well as the need to improve risk management in support of taking appropriate risks associated with global expansion.

The Company will continue to implement policies to improve board of director functions, striving for more robust board meeting deliberations and greater board effectiveness.

[Supplementary Principal 4-14-2. Policies Regarding Director Training]

- The Company provides senior manager training and other opportunities for directors and members of the Audit & Supervisory Board to cultivate stronger leadership skills and strategic business thinking, as well as to gain a stronger understanding of compliance and governance. Of our 551 employees serving in management roles, 136 are women (24.7 percent). Our aim is to create a positive workplace for women, exceeding legally mandated requirements related to child-rearing leave, maternity leave, etc. In 2007, we were awarded the <i>Kurumin</i> award by the Ministry of Health, Labour and Welfare in recognition of our support for next-generation child nurturing programs. We strive to remove work restrictions affected by day care operating hours that prevent ongoing service by employees raising children. As of February 2018, the Company has 20 such nurseries in operation, including six Yume-Mirai facilities at other Aeon group companies and two facilities operated in cooperation with third parties. Aeon Mall promotes diversity management, fostering an environment in which employees may exercise work styles matched to their various life stages. As one case in point, we established the Diversity Promotion Group as an internal steering committee responsible for advancing women in our organization. Aeon Mall was awarded the <i>Eruboshi</i> mark, certifying the company under the Act on Promotion of Women's Participation and Advancement in the Workplace, promulgated on April 1, 2016. We met the standards in all five categories under this program, including hiring, continuity, employment, work hours and other work styles, ratio of female managers, and career path diversity. As a result, we earned the highest of the three ranks awarded under the Eruboshi program. For the second consecutive year, Aeon Mall was selected as a Nadeshiko Brand, a recognition jointly sponsored by the Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange. This program highlights companies listed in the First Section of the Tokyo Stock Exchange from each industry that promotes the participation of female employees and creates a supportive working environment.
