1. Secondary offering through over-allotment, etc.

Upon the Domestic Public Offering, taking into account the demand conditions and other factors of the Domestic Public Offering, there may be cases where a Domestic Underwriter conducts a secondary offering of the JHR investment units that is to be borrowed from JHRA with 3,700 units set as the maximum number (secondary offering through over-allotment). The number of investment units scheduled for the secondary offering through over-allotment is the maximum number of investment units of the secondary offering through over-allotment. There may be cases where the number is reduced or the secondary offering through over-allotment itself does not take place at all depending on the demand conditions and other factors.

In relation to the secondary offering through over-allotment, JHR has resolved at the meeting of JHR's Board of Directors held on January 8, 2019 (Tuesday) to issue new investment units by way of the Third-party Allotment for 3,700 units of the JHR investment units to the Domestic Underwriter as the allottee and with February 20, 2019 (Wednesday) as the payment date in order for the Domestic Underwriter to acquire the JHR investment units necessary to return the Borrowed Investment Units.

In order to return the Borrowed Investment Units, there may be cases where the Domestic Underwriter also purchases the JHR investment units up to the number of investment units of the secondary offering through over-allotment on the Tokyo Stock Exchange, Inc. (hereinafter called the "Syndicate Cover Transaction") during the period from the day following the close of the subscription period of the Domestic Public Offering and secondary offering through over-allotment until February 15, 2019 (Friday) (hereinafter called the "Syndicate Cover Transaction Period"). All of the JHR investment units purchased by the Domestic Underwriter through the Syndicate Cover Transaction will be used to return the Borrowed Investment Units. During the Syndicate Cover Transaction Period, there may be cases where the Domestic Underwriter does not conduct the Syndicate Cover Transaction at all or completes the Syndicate Cover Transaction with a number of investment units that is less than the number of investment units of the secondary offering through over-allotment, at its own discretion.

Furthermore, the Domestic Underwriter may conduct a stabilizing transaction in relation to the Domestic Public Offering and secondary offering through over-allotment. All or a part of the JHR investment units purchased through such stabilizing transaction may be used to return the Borrowed Investment Units. The Domestic Underwriter may also transfer to the Overseas Underwriters the whole or part of the JHR investment units purchased through the stabilizing transactions, for the purpose of having such JHR investment units used for settling part of the Overseas Offering.

In such a case, for the number of investment units obtained by reducing the number of investment units purchased through the Syndicate Cover Transaction and stabilizing transaction and used to return the Borrowed Investment Units from the number of investment units of the secondary offering through over-allotment, the Domestic Underwriter intends to acquire the JHR investment units by accepting the allotment of the Third-party Allotment. Thus, there may be cases where there is no subscription for the number of investment units of the Third-party Allotment, in whole or in part. As a result, there may be cases where the final number of investment units of the Third-party Allotment is reduced by that extent or the issuance itself does not take place at all due to forfeiture.

Whether the secondary offering through over-allotment takes place or not, and the number of investment units of the secondary offering through over-allotment if the secondary offering through over-allotment takes place, will be determined on the Pricing Date.

Note: This press release has been prepared for the purpose of announcing to the public certain matters relating to the issuance of new investment units and secondary offering of investment units of JHR, and not for the purpose of soliciting any investment. JHR asks that investors make investment decisions only after they have referred to the prospectus for the issuance of new investment units and secondary offering of investment units as well as amendments thereto (if any) prepared by JHR, and that the investment decisions are made at their discretion and responsibility.
This press release does not constitute an offer of securities in the United States. The securities referred to above have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "Securities Act"). The securities may not be offered or sold in the United States absent registration or an exemption from registration under the Securities Act. The securities referred to above will not be publicly offered or sold in the United States.

If the secondary offering through over-allotment does not take place, the foregoing borrowing of the JHR investment units from JHRA by the Domestic Underwriter does not take place. Accordingly, the Domestic Underwriter does not accept and does not subscribe for the allotment of the Third-party Allotment, and the issuance of new investment units by way of the Third-party Allotment itself does not take place at all due to forfeiture. Moreover, the Syndicate Cover Transaction on the Tokyo Stock Exchange, Inc. also does not take place.

The foregoing transactions will be conducted by the Domestic Underwriter upon consultation with the other domestic joint lead managers.
