In cooperation with our domestic and international subsidiaries and affiliates, Financial Products Group Co., Ltd. (FPG) is engaged in the arrangement and placement of leases for aircraft, ships and marine containers in order to provide attractive products to our customers.

In addition to expanding the scope of leased assets, FPG has increased the amount of lease arrangements by developing new regions in the Middle East, Asia, Oceania, and the Americas through transactions with lessees in Europe.

As of the end of December 2018, FPG announced that the cumulative total amount of leases arranged by FPG exceeded 2 trillion yen. In addition, FPG has surpassed 1 trillion yen even in the cumulative amount of arrangements for aircraft that started in 2011.

FPG will make further efforts to increase corporate value through the pursuit of group synergies and through the arrangement and placement of products that appeal to customers.
