Komori Corporation Announces the Receipt of Overseas Orders of Banknote Printing Equipment.

Komori Corporation Japan is extremely pleased to announce the receipt of multiple large-scale orders from 4 countries as follows.

1. Overview

- Purchasers: France/Banque de France, Indonesia/Perum Percetakan Uang Republik Indonesia, China/CBPMC (China Banknote Printing and Minting Corporation) and India/SPMCIL (Security Printing and Minting Corporation of India Limited).
- Orders received: Multiple banknote printing equipment including offset presses, intaglio presses, numbering presses and combination multiprocess numbering & varnishing presses.
- Order amount: Approx. JPY11 billion for the security printing press business category including the above orders from the end of 2018 to March 2019.

2. Outlook

In addition to the manufacturing of offset printing presses, which are our main manufacturing machines, Komori has been producing banknote printing equipment since 1961. For the overseas market, we have delivered banknote printing equipment to BRB, a subsidiary of the Reserve Bank of India in the 1990s. Since 2010, we have been working on the global security printing press business in earnest as part of new business development. Having entered into a comprehensive technological cooperation agreement with the world's largest private security printing company De La Rue in 2012, the company's technologies are widely recognized, and it led to the equipment supply to the fully integrated banknote printing company Crane Currency in the US and the Bank of England. We have steadily increased the supply of banknote printing equipment. In addition, in the comprehensive

bidding evaluation process of each country, our equipment is evaluated as meeting the high performance and quality standards required, and as a result, we have led to these multiple large-scale orders.

3. Impact on Business Performance

Komori Corporation's financial results for the fiscal year ended March 2019 are minimally affected as the revenue from the above orders will be recorded in the subsequent fiscal years.

4. About Purchasers
