The following is an overview of corporate governance at ITOCHU Corporation.

I Basic Policy, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Policy

ITOCHU Corporation (“ITOCHU” or the “Company”) commits itself to the global good. To realize this mission, ITOCHU strives to respect each individual and to make meaningful contribution towards creating a bright future for all human beings and the environment. In addition, “I am One with Infinite Missions” was adopted as a corporate message to express the ITOCHU Mission in plain terms. Underlying the message is the exceptional ability of each employee, the core strength of ITOCHU.

It is our fundamental management policy to build a fair and good relationship with various stakeholders based on our corporate philosophy and our code of conduct and thus improve our corporate value from a long-term perspective. In accordance with this policy, with the intention to ensure proper and efficient execution by management, we will enhance the transparency of decision-making and establish a corporate governance system in which monitoring and supervision functions are appropriately incorporated.

A strong leadership and a transparent decision-making system are pillars of good corporate governance. ITOCHU adopts an organizational structure with the presence of an Audit & Supervisory Board (*kansayaku secchi kaisha*). In recent years, ITOCHU has gradually shifted to a governance model where executive officers decide and carry out the day to day business under the direction and supervision of the Board of Directors, along with implementing measures to strengthen monitoring.

In order for the Board of Directors to further exercise effective control and management over the corporation, independent outside Directors have already joined the Board and, as another measure to strengthen its corporate governance, ITOCHU has also established a Governance and Remuneration Committee and a Nomination Committee as advisory committees to the Board of Directors. Each committee is chaired by an independent outside Director and is composed of half or more outside members. In order to separate execution by and monitoring over management, we reduced several executive Directors and the percentage of outside Directors in our Board of Directors was increased to one-third or more from April 2017. We keep this percentage of outside Directors also in FY2020 and onwards. In light of the fact that election of senior executives is a quite important strategic decision, we convened the Nomination Committee several times and the new management structure was well discussed in the committee and thereafter it was resolved at the Board of Directors. In appointing outside Directors

CORPORATE GOVERNANCE

and Audit & Supervisory Board Members, ITOCHU places great importance on their independence, and in this connection, ITOCHU has adopted its own independence criteria, augmenting the independence criteria established by the Tokyo Stock Exchange.

This highly independent Board of Directors monitors execution by management as well as deliberates the execution of business that is of high quantitative or qualitative importance. The Company believes this arrangement facilitates not only appropriate monitoring over execution by management but also the consideration of important business execution from an external perspective.

It is also vital that ITOCHU timely and adequately discloses its financial and non-financial information to the stakeholders as part of good governance. In May 2015, in line with the ITOCHU Mission and the Corporate Governance Code of the Tokyo Stock Exchange, ITOCHU adopted a “Basic IR Policy” to further promote a multi-party stakeholder dialogue. Through the communication with its stakeholders, ITOCHU aims to enhance its corporate value on a long-term basis.

We believe that our current corporate governance structure accords with good and effective corporate governance called for by the Tokyo Stock Exchange, in its Corporate Governance Code. ITOCHU will continue to evaluate and improve its corporate governance structure so that it always best suits ITOCHU in any given moment and time in its corporate history.

[Reasons for Not Implementing Principles of Corporate Governance Code]

ITOCHU complies with all principles set forth in the Corporate Governance Code.

[Disclosure Based on Principles of Corporate Governance Code]

(Principle 1.4)

■ Policy on Acquiring and Holding Listed Stocks

ITOCHU classifies investments other than for pure investment purposes and to consolidated companies as “Investments to Non-Affiliated Companies,” and the “Cross-Shareholdings” as set forth in Corporate Governance Code is included in this classification. ITOCHU engages in investments to non-affiliated companies in order to create business relationships. In principle, it is the Company’s policy to limit investments to non-affiliated companies to those that have a high likelihood of generating investment returns, and those with a high strategic significance including affiliation in future or the “reinvention of business”. This policy remains the same, regardless of whether investments are in or outside Japan, or listed or unlisted.

In order to manage our investment, we set our internal rule. Through annual review of all investments to non-affiliated companies including the Cross-Shareholdings, we examine economic (quantitative) rationale based on returns on our investment, and review strategic objectives to hold such investments taking into consideration the likelihood that our investment purpose is realized in the future. Investments that do not generate economic added value over two-years or investments that lack strategic objective based on such annual review will be, in principle, sold. Results of such annual review with respect to Cross-Shareholdings are subject to further scrutiny at our Board of Directors from the perspective of economic rationale and strategic objective. Most recently, our Board of Directors made such scrutiny on 12 June, 2019 and reached its conclusion that the result of such annual review was reasonable.

ITOCHU places great importance on communication with each investee with the view to building, strengthening and maintaining business relationship as well as to improving corporate value of both ITOCHU and each investee. In May 2015, ITOCHU adopted the following internal voting guideline with respect to Cross-Shareholdings to ensure that ITOCHU’s voting rights on all of such investments are exercised in a timely and adequate manner.

[Voting Guideline]

- (1) In principle, not to abstain from voting or to grant full authority to exercise voting rights on our behalf.
- (2) To decide for or against a proposal taking into consideration our investment purpose and holding policy.

ITOCHU's final position on voting is determined through internal decision making process based on an initial plan prepared by a department in question through which an investment is made.

(Principle 1.7)

■ Transactions between Related Parties

Based on our Rules of the Board of Directors, ITOCHU requires a resolution of the Board of Directors concerning transactions involving conflict of interests of Directors or transactions by Director which may compete with ITOCHU, and through such requirement, ITOCHU believes such transactions are adequately supervised by the Board of Directors.

(Principle 2.6)

■ Functional Performance of Corporate Pension as an Asset Owner

In ITOCHU, our finance division dispatches several persons with high expertise in asset management to our corporate pension fund, and such persons, one of who is positioned as the executive Director of the pension fund, are in charge of asset management thereof. Appropriate placement of such persons is arranged by sufficient training as well as planned and regular rotation. In addition, ITOCHU respects the intention of the pension fund regarding its investment portfolio and the stewardship activities of the investment management institutions. Furthermore, operating the pension fund in the interest of the third parties is strictly prohibited pursuant to the internal regulation of the pension funds, and the potential conflict of interest is regularly announced and well-known to the Directors of the pension fund. Thus, we appropriately manage conflicts of interest that may arise between the beneficiaries of the corporate pension and ITOCHU. On 6 June, 2019, the corporation pension fund has accepted and announced the Japan's Stewardship Code as an Asset Owner. The corporation pension fund as an asset owner will fulfill its stewardship responsibilities through the actions of the asset managers, to which they outsource their asset management activities.

In order to increase awareness of contribution to raising business performance and enlarging corporate value over the medium to long term, we are including stock remuneration as part of the remuneration plan.

Given our current performance up until today, the purpose of this remuneration plan is sufficiently achieved. In order to continue the expansion in business performance, we are keen to maintain this remuneration plan for Directors.

Our remuneration plan for Directors is resolved at the Board of Directors with consideration of the annual financial plan of each year following the deliberation at the Governance and Remuneration Committee under the Board of Directors as voluntary advisory committees.

■ Scope of the Matters Delegated to the Managements

As a corporation with the Audit & Supervisory Board (*kansayaku secchi kaisha*), ITOCHU has gradually shifted to a governance model where decisions of the day to day business are delegated to the managements to the extent permitted under applicable laws. ITOCHU’s Board of Directors assumes the role to supervise the business execution by the managements, as well as to decide corporate governance related matters and certain business matters which are highly important either qualitatively or quantitatively. Matters to be resolved at the Board of Directors are set forth in our Rules of Board of Directors.

(Principle 4.9)

■ Independence Criteria

ITOCHU’s Board of Directors has adopted its own independence criteria (augmenting the independence criteria established by the Tokyo Stock Exchange) following discussion at our Nomination Committee, which is disclosed at our homepage. Please refer to the following URL:

(Supplementary Principle 4.11.2)

■ Directors’ and Audit & Supervisory Board Members’ Concurrent Positions Held at Other Companies
With the view to monitoring concurrent positions held by our Directors and Audit & Supervisory Board Members at other companies, ITOCHU’s Board requires, by the Rules of Board of Directors, each Director and Audit & Supervisory Board Member to seek approval of or report to the Board prior to holding a position at other entities. In addition, important concurrent positions of our Directors and Audit & Supervisory Board Members have been disclosed in our notice of general meeting of shareholders. ■ Evaluation as to the Effectiveness of the Board of Directors

ITOCHU conducted the evaluation as to the effectiveness of the Board of Directors targeting Directors and Audit & Supervisory Board Members in FY2019.

As a result of this evaluation, in terms of the structure of the Board of Directors and its advisory committees as well as the roles and duties, operation status, information provision and training, the Board of Directors of ITOCHU confirmed that the effectiveness of the Board of Directors was secured.

According to the external consultant, it is evaluated that (1) the score has improved in the majority of the questionnaires, (2) the Chairman of the Board of Directors as well as the secretariat cooperate with the outside Directors to improve the governance and realize more efficient and high-density operation of the Board of Directors and (3) the objectivity, independence and transparency of the advisory committees to the Board of Directors have been improved due to the efforts of both inside Directors and outside Directors.

As to the operation of the Board of Directors based on the transition to “Monitoring-Focused Structure” which we recognized as an issue as a result of the previous evaluation of the Board of Directors, it was opined that the more agenda such as the mid-term management plan review after announcement, internal control and compliance were certainly discussed, but we should more timely discuss the vision and strategy of the specific business area. We will discuss what should be discussed at the Board of Directors based on the opinion from the outside Directors. As to the enhancement of reporting to the Board of Directors the deliberations of the advisory committees which we also recognized as an issue as a result of the previous evaluation, we resolved at the Board of Directors what the Nomination Committee should discuss about the succession plan and how the discussion thereof should be reported to the Board of Directors, and we will follow the resolution.

Based on the results of this evaluation of the Board of Directors, we will continue to maintain and improve the effectiveness of the Board of Directors.

For your reference, please see the result in our homepage at:

(Supplementary Principle 4.14.2)

The Company conducts training related to corporate governance and other matters as part of its training for newly appointed internal and outside Directors and Audit & Supervisory Board Members. The Company also provides Directors and Audit & Supervisory Board Members with opportunities for training at third-party institutions, with the Company bearing the costs of such training. Also, to ensure that management supervision by Directors and audit by Audit & Supervisory Board Members are adequately performed, before each meeting we provide to outside Directors and Audit & Supervisory Board Members prior explanations on matters presented to each meeting of the Board of Directors through respective offices of the Board of Directors and the Audit & Supervisory Board. In addition, ITOCHU strives to ensure that outside Directors and Audit & Supervisory Board Members appropriately understand its business environment and challenges through various occasions such as introductory session concerning ITOCHU’s business upon election, visits to business premises in or outside Japan, meetings with Audit & Supervisory Board Members, periodical discussions with the managements and explanatory sessions on matters requested by outside Directors and Audit & Supervisory Board Members

CORPORATE GOVERNANCE

ITOCHU strives to achieve our group’s continuous growth and to enhance corporate value on mid-to-long term basis. In July 2018, the Japan Fair Trade Commission issued a cease and desist order under Article 7, Paragraph 2 of Japan's Antimonopoly Act to ITOCHU regarding its sales of uniforms to ALL NIPPON AIRWAYS CO., LTD. up until FY2017. Also, in October 2018, the Japan Fair Trade Commission issued a cease and desist order and a surcharge payment order (amount of surcharge to be paid: ¥4.29 million) to ITOCHU for illegal acts under the Antimonopoly Act regarding the supply of uniforms to NTT DOCOMO, INC. up until that same year. Each of these matters is, like its sales of uniforms to West Japan Railway Company and NIPPON TELEGRAPH AND TELEPHONE EAST CORPORATION regarding which the cease and desist orders were issued by the Japan Fair Trade Commission in January and February 2018 to ITOCHU, a matter regarding our uniform sales operations up until FY2017, and in the process of formulating and carrying out measures to prevent recurrence we stopped illegal activities ourselves before the start of the Japan Fair Trade Commission's investigation. Supplementary Information

- Following the deliberation at the Governance and Remuneration Committee, Board of Directors has resolved unanimously the Remuneration Plan for Directors for FY2020 consisting of monthly remuneration, performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration.
- The Performance-Linked Bonuses is positioned as compensation linked to short-term (one fiscal year) performance, and the share price-linked and performance-linked stock remuneration are positioned as compensation for the performance for enhancing the corporate value over the medium to long term. Under the current Remuneration Plan for Directors, the ratio of performance-linked bonuses is not fixed, and in conjunction with the expansion of Company's business performance, the ratio of performance-linked bonus in total remuneration of Directors is designed to increase. Regarding the Director's remuneration in FY2019, the ratio of performance-linked bonus is approximately 59% and the aggregate ratio of the market capitalization-linked bonuses (revised to the share price-linked bonuses in FY2020) and performance-linked stock remuneration is approximately 13%. As for the Director's remuneration in FY2020, the estimated ratio of the aggregate amount of the performance-linked bonus is approximately 62% and the ratio of

CORPORATE GOVERNANCE

the share price-linked bonuses and performance-linked stock remuneration is approximately 13%. In the calculation of the ratio in the above for FY2019 mentioned above, as described later in section II (Overview of Business Management Organization and Other Corporate Governance Systems Related to Managerial Decision-Making, Business Execution, and Management Supervision.) -1 (Items Related to Organizational Structure and Operations, etc.), the “special bonus” mentioned in “Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation” is included, and the share price-linked bonus in FY2020 is calculated based on the assumption that the relative stock growth rate with TOPIX is 110%.

- Net profit (consolidated) is of high interest to the stock market because it is an easy-to-understand indicator of capital to growth-oriented investments and to returns to shareholders and we have an unshakeable belief in its importance as an indicator going forward. In addition, bonuses for employees are linked to net profit (consolidated) so we have net profit attributable to ITOCHU (consolidated) as the linked indicator for performance-linked bonuses and performance-linked stock remuneration. Also, regarding share price-linked bonuses, as stated above we have the growth rate of ITOCHU’s share price during the period of each medium-term management plans as the linked indicator, but for the calculation of the growth rate of the share price, we use the simple average of the final price for each fiscal year.
- For the details of the performance-linked bonuses, share price-linked bonuses, and performance-linked stock remuneration mentioned above, please refer to section II (Overview of Business Management Organization and Other Corporate Governance Systems Related to Managerial Decision-Making, Business Execution, and Management Supervision.) -1 (Items Related to Organizational Structure and Operations, etc.) “Disclosed Details of Policy for Determining Amount and Calculation Method of Compensation”.

(b) Directors' Bonuses for FY2020

• Performance-linked Bonuses

Director performance-linked bonuses for FY2020 will be paid in amounts calculated according to the methods described below, following the conclusion of the 96th Ordinary General Meeting of Shareholders.

a. Total amount paid to all Directors:

The total amount paid to all Directors shall be the lesser of the sum of the amount paid to an individual Director in b. below or ¥2.0 billion.

b. Amount paid to an individual Director

The formula to calculate the amount paid to an individual Director is below.

Total base amount paid to all Directors = (A + B + C) x Sum of Position points for all the eligible Directors/55

Where:

A = (Consolidated net profit attributable to the Company for FY2020 for the portion up to ¥200.0 billion) x 0.35%

B = (Consolidated net profit attributable to the Company for FY2020 for the portion more than ¥200.0 billion but up to ¥300.0 billion x 0.525%

C = (Consolidated net profit attributable to the Company for FY2020 for the portion exceeding ¥300.0 billion) x 0.35%

(amount of less than ¥1 shall be rounded down)

The amount paid to an individual Director = (Total base amount paid to all Directors as above x Position Point/Sum of Position points for all the eligible Directors) x 30% + (Total base amount paid to all Directors as above x Position Point/Sum of Position points for all the eligible Directors) x 70% x plan achievement rate of the consolidated net profit of the assigned division/department
(amount of less than ¥1,000 shall be rounded up)

Provided, however, that the plan achievement rate shall be 100% for the eligible Director for whom no plan achievement rate is measurable.

The points assigned to each position are as per below:

Position points	
Chairman and Chief Executive Officer	10
President and Chief Operating Officer	7.5
Executive Vice President	5
Senior Managing Executive Officer	4
Managing Executive Officer	3

CORPORATE GOVERNANCE

Notwithstanding the calculation stated above, the amount paid to an individual Director shall not exceed the maximum amount for each position as set forth below:

Maximum amount paid to an individual Director	(Millions of yen)
Chairman and Chief Executive Officer	560
President and Chief Operating Officer	420
Executive Vice President	280
Senior Managing Executive Officer	224
Managing Executive Officer	168

- Share Price-linked Bonuses

By resolution of Board of Directors held on 2 February, 2018 and for the purpose of the incentive towards increasing the Company's corporate value, ITOCHU introduced Market Capitalization-linked Bonuses structure which is linked to the increased amount of the Company's market capitalization as compared to the last fiscal year.

In order to further strengthen awareness of enhancing corporate value from a medium- to long-term perspective, the following changes were made, and the name was changed from market capitalization-linked bonus to share price-linked bonus:

- Changed a design based on the medium-term business plan (3 years) rather than on a single year
- Changed a linked indicator from market capitalization to stock price in order to better align with shareholders
- In order to secure fairness, included an index relative to the absolute amount

For Share Price-Linked bonuses, the bonus amount for individual director is calculated for each fiscal year based on the following specific calculation formula for individual payment amounts, and when the director retires or, in the case of taking on the position of executive officer after retirement of the director, the executive officer retires, such amount will be paid.

a. The First Fiscal Year for the Medium-Term Management Plan

$$[(\text{The simple average of daily stock closing price of the Company ("Average of Daily Closing Price") in the First Fiscal Year of the Medium-Term Management Plan} - (\text{Average of Daily Closing Price in the previous year of the first Fiscal Year of the Medium-Term Management plan})) \times 1,300,000 \times (\text{Points assigned to each Director according to the position ("Position Point")}) / 108.8 \text{ points} \times \text{Relative Stock Price Growth Rate (Note 1)}$$

Note 1 Relative Stock Price Growth Rate = (Average of Daily Closing Price in the First Fiscal Year of the Medium-Term Management Plan / Average of Daily Closing Price of the previous year of the First Fiscal Year of the Company-Medium-Term Management Plan) / (Simple average of daily TOPIX (Note 2) in the First Fiscal Year of the Medium-Term Management Plan / Simple average of TOPIX in the previous year of the first Fiscal Year of the Medium-Term Management plan)

Note 2 TOPIX = Tokyo Stock Price Index, the principal index consisting of all Japanese common stocks listed on the First Section of Tokyo Stock Exchange.

b. The Second Fiscal Year of Medium-term Management Plan

$$[(\text{Average of Daily Closing Price in the Second Fiscal Year of the Medium-Term Management Plan} - (\text{Average of Daily Closing Price in the previous year of the first Fiscal Year of the Medium-Term Management plan})) \times 1,300,000 \times (\text{Total Position Points in the First and Second Fiscal Year} / (108.8 \text{ points} \times 2 \text{ (years)})) \times \text{Relative Stock Price Growth Rate (Note 3)} - (\text{share price-linked bonus calculated in the above a.})]$$

Note 3 Relative Stock Price Growth Rate = (Average of Daily Closing Price in the Second Fiscal Year of the Medium-Term Management Plan / Average of Daily Closing Price of the previous year of the First Fiscal Year of the Medium-Term Management Plan) / (Simple average

of daily TOPIX of the Second Fiscal Year of the Medium-Term Management Plan / Simple average of TOPIX in the previous year of the first Fiscal Year of the Medium-Term Management plan)

c. The Final Fiscal Year of the Medium-term Management Plan

[(Average of Daily Closing Price in the Final Fiscal Year of the Medium-Term Management Plan) – (Average of Daily Closing Price in the previous year of the first Fiscal Year of the Medium-Term Management plan)] × 1,300,000 × (Total Position Points in First, Second and Final Fiscal Year) / (108.8 points × 3 (years)) × Relative Stock Price Growth Rate (Note 4) - (share price-linked bonus calculated in the above a. + share price linked bonus calculated in the above b.)

Note 4 Relative Stock Price Growth Rate = (Average of Daily Closing Price in the Final Fiscal Year of the Medium-Term Management Plan / Average of Daily Closing Price of the previous year of the First Fiscal Year of the Medium-Term Management Plan) / Simple average of daily TOPIX of the Final Fiscal Year of the Medium-Term Management Plan / Simple average of TOPIX in the previous year of the first Fiscal Year of the Medium-Term Management)

The Position Points assigned to each position are same as those applied for performance-linked bonuses.

The share price-linked bonuses together with performance-linked bonuses are paid to the eligible Directors within the Director bonuses limit of ¥2.0 billion.

(If the amount of performance-linked bonus and share price-linked bonus based on the above formula exceeds 2.0 billion yen, the performance-linked bonus is preferentially allocated to the limit amount)

(c) Performance-Linked Stock Remuneration Plan

- By resolution at the 92nd Ordinary General Meeting of Shareholders held on 24 June, 2016, ITOCHU introduced the performance-linked stock remuneration plan (the “Stock Remuneration Plan”) and, by resolution of the Board of Directors held on 2 May, 2018, we continue this plan from FY2019. This plan is described below.
- Under this plan, in June of every year during the trust period, Directors who served as Directors from 1 July of the previous year to the last day of June of the said year are granted points based on performance in the fiscal year that ended on 31 March of said year and in accordance with the number of months of service during that period.
- The method of calculating the number of points granted to Directors (excluding outside Directors) in FY2020 is described below. One point corresponds to one share in ITOCHU, and amounts of less than one point are discarded.

Points = Individual stock remuneration amount (Note 1) / Average acquisition stock price of ITOCHU shares in the trust (Note 2) × {(Number of months of service from July, the beginning month of the applicable period of payment, to June of the following year (rounding up fractions of less than one month)) / 12} (rounding down fractions)

(Note 1) the individual stock remuneration amount is calculated on the basis of the total stock remuneration amount, which is calculated as indicated below.

a. Total stock remuneration amount

= (the amount of consolidated net profit attributable to ITOCHU for FY2020 – ¥300.0 billion) × 0.175% × Sum total of position points of eligible Directors / 55 (rounding up fractions of less than ¥1)

b. Individual stock remuneration amount

= Total stock remuneration amount × Position points of each Director / Sum total of position points of Directors (rounding down fractions of less than ¥1,000)

Position points for each Director are the same as the number used for calculating Director bonuses.

(Note 2) In the event that the trust period has been extended, this is the average acquisition stock price of ITOCHU shares that were acquired by the Trust in accordance with the extension of the trust period.

CORPORATE GOVERNANCE

(However, if no ITOCHU shares are acquired by the trust in accordance with the extension of the trust period, then this is the closing stock price of ITOCHU shares on the market of Tokyo Stock Exchange on the first day of the extended trust period).

- Points to be granted to executive officers (excluding those serving concurrently as Directors) in June of each year will be calculated using the similar method as points for Directors.
- As the Stock Remuneration Plan, ITOCHU has adopted a framework called “Board Incentive Plan Trust (BIP)” (“BIP Trust”). The BIP Trust is a stock incentive plan for executives, based on the performance share and restricted stock plans in the United States. ITOCHU will conduct delivery and payment of ITOCHU shares acquired by the BIP Trust and an amount of money equivalent of the conversion value of said shares (“ITOCHU Shares, etc.”), together with dividends derived from ITOCHU shares, to Directors, etc. following retirement from office (or after death in the event of the death of a Director, etc.; the same applies hereinafter), based on performance, etc. Please see Chart 1 below for overview of the BIP Trust.
- Outline of the Stock Remuneration Plan is as follows:
 - (1) Persons Entitled to Receive Stock Remuneration: Directors and executive officers of ITOCHU (excluding outside Directors and those who are non-residents of Japan, as of the date hereof, the numbers of the Directors applicable is 5 and of the executive officers not being Director is 17)
 - (2) Maximum Amount of Money Contributed by the Company to the Trust: a total of ¥1.5 billion for 2 fiscal years
 - (3) Method for the Acquisition of Shares by the Trust: Scheduled to be acquired on the stock market (thus no dilution of shares is anticipated)
 - (4) Upper Limit on the Number of Shares to be acquired by Directors, etc.: For the trust period, with an applicable period of 2 fiscal years, the upper limit will be 1,300,000 points (an average of 650,000 points per year)
 - (5) Performance Index under the Stock Remuneration Plan: Consolidated net profit attributable to the Company (upon which the amount of total stock remuneration will be calculated. See above for more details)
 - (6) Timing of Delivery of Shares: After retirement from Office
 - (7) Voting Rights Concerning Shares in the Trust: Will not be exercised in order to ensure neutrality toward management

(d) Rules for Directors of non-residents in Japan

A Director of non-residents in Japan is not eligible for performance-linked stock remuneration. As a substitute, the Equivalent Amount of Individual stock remuneration calculated in accordance with the above formula (c) as if such Director were subject to performance-linked stock remuneration will be determined and paid following the conclusion of the 96th Ordinary General Meeting of Shareholders as a performance-linked bonus, (round up less than ¥ 1,000), separately from the performance-linked bonus based on formula (b). Provided, however, that 70% of the Equivalent Amount of Individual stock remuneration will fluctuate based on the achievement rate against the plan of consolidated net profit of the assigned division/department (the plan achievement rate shall be 100% for the eligible Director for whom no plan achievement rate is measurable).

This performance-linked bonus (the Equivalent Amount of Individual stock remuneration) will be paid within the limit of 2.0 billion yen (a resolution of the general meeting of shareholders on June 21, 2019), the overall maximum limit of the bonus including this performance-linked bonus, the performance-linked bonus calculated by formula (b) and the share price-linked bonus. If the total amount exceeds 2.0 billion yen, this performance-linked bonus and the performance-linked bonus calculated by formula (b) will be preferentially allocated.

3. Promotion of Working-Style Reform

For our company aiming for management based on a small number of elite personnel systems, it is essential to achieve high productivity and individual employee skills. We regard "Working-Style Reform" as an important measure of the management strategy for improving corporate value, consider the customer's perspective first, and are practicing measures aiming for not "easy to work", but "a company that takes on challenges and accomplishes worthwhile work. We introduced "Morning Focused Working System" in FY2014 and affected the working-style reform of government as well as many private entities and thereafter, developed "Health and Productivity Management" in FY2017 and "full support measures for balancing cancer care and work" and "Dress-down Days" in FY2018. The Audit Division is to maintain close communication and coordination with the Audit & Supervisory Board Members with respect to matters such as formulation of the internal audit plan for each business year, and internal audit results.

2) Retaining Outside Experts

When deemed necessary, the Audit & Supervisory Board Members are to independently retain outside experts for the implementation of an audit.

For the proper operation of internal control systems, ITOCHU has adopted a system by which it further segments items stipulated by the Basic Policy into more detailed confirmatory items in respect of each fiscal year, and, after setting the department in charge of each of these confirmatory items, conducts checks of the

construction and the operational status of internal control systems by each department (and by other related internal committees) at the Internal Control Committee meetings held each half year. The Internal Control Committee (FY2020), chaired by CAO and with the Corporate Planning & Administration Division as secretariat, consists of CFO, General Manager of Internal Audit Division, and an external expert (attorney) as members. Audit & Supervisory Board Members also attend and voice opinions every time.

At its meetings, the Internal Control Committee verifies the content of checklists summarizing achievement status, issues, etc. for each of the above confirmatory items, as submitted by the departments in charge of each. It also confirms the construction and operational status of internal control systems by verifying the content of individual reports from the departments in charge, with respect to important matters such as systems to ensure the reliability of financial reporting, compliance systems, systems to manage the risk of losses, and the construction and operational status of internal control systems in the ITOCHU Group. The results of deliberations by the Internal Control Committee are reported once per year to the HMC and the Board of Directors, the latter of which conducts a full-year evaluation of the construction and operational status of internal control systems.

Regarding the meetings of main internal committees related to internal control in FY2019, the Internal Control Committee met 2 times, the Compliance Committee 2 times, and the ALM Committee 8 times.

ITOCHU's internal control systems are constructed on the base of the ITOCHU Group, consisting of ITOCHU and its subsidiaries, and the operational status of the Group base internal control systems, and the construction and operational status of internal control systems in subsidiaries, are reported regularly to the Internal Control Committee.

ITOCHU intends to revise and improve these internal control systems tirelessly in order to build systems that are even more appropriate and efficient. Further, a meeting of the Board of Directors convened on 18 April, 2019, evaluated the development and implementation status of each item enumerated in the Basic Policy regarding the Internal Control System for the FY2019 and confirmed that there were no significant deficiencies or defects.

We have also established a special department with overall responsibility for countermeasures in relation to antisocial forces within the Human Resources & General Affairs Division. In addition, we are improving systems and promoting enlightenment education in hopes of preventing unintentional entry into transactional relationships with anti-social forces and groups.
