Overview of Asset Replacement

Notes (1)

1 Notes in "Executive Summary"

- (Note 1) As of the date of this document, the sales of CP10 Building and MY Atsugi building along with the acquisition of Nishi-Gotanda 102 Building have not been completed. As for the details (dates, price, expected gain on sales, etc.) regarding the asset replacement, they are recorded based on matters decided upon as of the date of this document and forecasted values. This applies hereinafter in this document.
- (Note 2) For the end of each fiscal period, market rent is the expected new contract office rent unit price for each property assessed by CBRE (if assessed in a range, then the median value), and the rent gap (%) is the rate of divergence between the total monthly rent based on the contracted rents of existing office tenants and the total monthly rent based on market rent. The calculated value (%) is rounded to the first decimal place. The same calculation method and display format are applied hereafter in this document.
- (Note 3) Asset size based on acquisition price as of the end of each period is indicated.
- (Note 4) Yields are based on the acquisition price, are annualized according to the number of operating days in each operating period and are rounded to the first decimal place. The same calculation method and display format are applied hereafter in this document.
- (Note 5) LTV (%) is calculated with the formula [Period-end balance of interest-bearing debt / Period-end total assets] and is rounded to the first decimal place. "After refinancing" is calculated using the total asset balance as of the end of the Twelfth Fiscal Period (ended August 2019) and the balance of interest-bearing debts, after subtracting 874 million yen from both of these values. The same calculation method and display format are applied hereafter in this document.
- (Note 6) "Average interest rate" is calculated by seeking the weighted average at applicable interest rates as of the end of the fiscal period (as of September 9, 2019 for "After refinancing") according to the balance of interest-bearing debt and is rounded to the third decimal place. The same calculation method and display format are applied hereafter in this document.

2 Note in "Overview of Financial Results and Earnings Forecasts"

(Note 1) "NAV per unit" is calculated by dividing the sum of the period-end unitholders' capital and unrealized gain by the period-end outstanding number of investment units and is rounded down to the nearest thousand yen. "Unrealized gain" is calculated by subtracting the total book value of owned assets from the total appraisal value of owned assets, as of the end of each fiscal period.

Portfolio Status **Growth Strategy**

■ While the effect of the fixed asset and city planning tax of properties acquired in the previous period (Eleventh Fiscal Period ended February 2019) has disappeared, a high portfolio yield was maintained with the maintenance of high occupancy rates and rent due to rent revision, etc.

■ Given the rent increases coinciding with increases in rent and tenant replacements, the appraisal value rose, which also steadily expanded the portfolio's unrealized gain (amount and ratio)

- The occupancy rate in the Twelfth Fiscal Period (ended August 2019) was approximately 99% through the whole period, and as downtime and freerent periods were contracted during tenant replacement, the period-average CF occupancy rate increased by approximately 1% period on period.
- Leasing of the portion scheduled to be vacated in the Thirteenth Fiscal Period (ending February 2020) remained favorable and One REIT aims to further increase lease revenue by backfilling at an early stage and increasing rent upon tenant replacement.
- Rent increase due to rent revision and tenant replacement in the Twelfth Fiscal Period (ended August 2019) steadily increased and total monthly rent increased by approximately 1 million yen, period on period.

- Given the favorable office market and the effects of value enhancement work, rent increase through revision for the Twelfth Fiscal Period (ended August 2019) increased by approximately 48% period on period (based on monthly rent).
- Rent increase for the Thirteenth Fiscal Period (ending February 2020) has already increased by 1,739 thousand yen per month as of the end of August 2019, and One REIT is aiming for further increase.
- In addition, One REIT is also raising its stock of rent increase in and after the Fourteenth Fiscal Period (ending August 2020) by introducing step-up rent for tenants with rent that differs largely from market rent.

■ Under rent tenants accounted for approximately 75% of total rent, expanding from the previous fiscal period when it was approximately 68%. One REIT is focused on increasing unit rent by starting negotiations for rent increase ahead of schedule.

- The top 10 tenants occupy 14.3% of the portfolio's total leasable floor area, the average leased area of office tenants is approximately 92 tsubo, and the ratio of tenants occupying less than 200 tsubo is approximately 88%. One REIT has built a portfolio that is highly diversified.
- Moreover, while a large tenant renting a space comprising 480 tsubo moved out in September 2019, 373 tsubo of space has already been backfilled through the in-house expansions of two tenants.

- In principle, One REIT has a policy to maintain the amount of its capital expenditure within a range of 80% to 90% of depreciation in each period, and strives to review the items upon construction work and reduce costs by obtaining competitive quotes, etc.
- However, when it is deemed that value enhancement work, etc., would have a large impact on rent increases or if there is an emergency, there may be cases when One REIT may plan for capital expenditure equal to or more than depreciation.

Acquisition of "Green Star" in GRESB Real Estate Assessment

- One REIT has acquired "Green Star" for the second consecutive year, as its initiatives for environmental considerations and sustainability were highly evaluated, including its policies that consider sustainability, corporate structure, and environmental certification acquisitions.
- We acquired the "2 Star" in the "GRESB Rating," a relative evaluation of comprehensive scores.
- One REIT will engage in various issues to continue to acquire the "Green Star" and to improve its "GRESB Rating."

■ One REIT will aim for disciplined external growth while improving portfolio quality through asset replacement, given that a basic strategy of One REIT is "disciplined external growth considering the portfolio and financial structure."

Efforts Based on Dialogue with Market

Continue "Asset Replacement" and Build Up Pipeline Properties

- ✓ Focusing again on "location" and "area" and maintaining the stance of "selective investment."
- ✓ Consider the building ages and strictly select properties with building specifications that can be maintained, improved, or enhance value in the long term.
- ✓ Aim for early contribution to dividends after acquisition by conducting renewal work before acquisition by the Investment Corporation for properties in the pipeline.
- ✓ Select candidate properties for sale upon considering leeway to raise rent and future risks, etc., and return the realized unrealized gain to the unitholders through sale.
- ✓ Upon asset replacement, considerations will be made on the increase/decrease of NOI before and after the replacement, and leverage may be considered as well.

Overview of Property with Preferential Negotiation Rights: MSB-21 Minami-Otsuka Building

Location	Minami-Otsuka, Toshima-ku, Tokyo	
Nearest Station	Approximately a five-minute walk from Otsuka Station on the JR Yamanote Line and Otsuka-Ekimae Station on the Toden Arakawa Line	
Total Leasable Area ^(Note 18)	4,123.03 m ²	
Period Allowed for Sale	From September 1, 2020 to September 30, 2021	
Minimum Purchase Price	3,900 million yen (excluding consumption tax)	

<Property Characteristics>

- MSB-21 Minami-Otsuka Building has great traffic convenience as it is located within walking distance from Otsuka Station on the JR Yamanote Line and Shin-Otsuka Station on the Tokyo Metro Marunouchi Line, which gives it excellent access to Tokyo Station and Otemachi Station.
- In addition, the property has high building specifications with a ceiling height of 2,600 mm, an individual air-conditioning system, and seismic isolation structure. Stable tenant demand is expected.
- Eyeing future negotiations for rent increase, One REIT has scheduled renewal work of the common space, etc., during the handover period.

Asset Replacement

- The asset replacement on this occasion was suggested by our sponsor, Mizuho Trust & Banking, and was realized through a reciprocal transaction
- One REIT sold two "over rent" properties, "reducing future risk" while simultaneously aiming for "continuous growth of dividends" with the acquisition of Nishi-Gotanda 102 Building which has large "room for upside rent."

Overview of Property Planned for Acquisition: Nishi-Gotanda 102 Building

Property name	Nishi-Gotanda 102 Building
Location	Nishi-Gotanda, Shinagawa- ku, Tokyo
Planned acquisition price	4,500 million yen

Financial Status

Considered the current interest rate environment and extended the average remaining period to approximately 3.7 years through refinancing of 16.7 billion yen of borrowings, which included the issuance of investment corporation bonds.

■ With the extension of liabilities, the average interest rate rose slightly. However, various indicators such as LTV and fixed-interest borrowing rates are favorable.

3 Notes in Growth Strategy

- (Note 1) As for properties owned (hereinafter referred to as "Existing Properties") as of the end of August 31, 2019, the appraisal value as of August 31, 2019, is listed. As for Nishi-Gotanda 102 Building, the appraisal value as of September 1, 2019, is listed. This applies hereinafter in this document.
- (Note 2) Occupancy rates as of August 31, 2019, are indicated for both Existing Properties and Nishi-Gotanda 102 Building. In the "Subtotal Average" and "Total Average" column, the weighted average of the above occupancy rates is indicated. Furthermore, information for Nishi-Gotanda 102 Building is indicated based on information provided by the seller.
- (Note 3) For Existing Properties, "building age" indicates the number of years elapsed from the completion of each owned asset to the end of August 2019, and for Nishi-Gotanda 102 Building it indicates the number of years elapsed from its completion to October 31, 2019, the planned acquisition date. In the "Total Average" column, the weighted average of the building age of each owned asset of Existing Properties is calculated based on acquisition price.
- (Note 4) Yields are based on acquisition price, are annualized according to the number of operating days in each operating period and are rounded to the first decimal place. The same calculation method and display format are applied hereafter in this document.
- (Note 5) Occupancy rates based on earnings forecast are calculated based on the assumptions of the earnings forecast and may vary due to the progress in leasing, new move-out of tenants and other factors.
- (Note 6) Period-average CF occupancy rate is calculated with the following formula and is rounded to the first decimal place:

 Period-average CF occupancy rate (%) = (Sum of total leased floor area at end of each month Area subject to free rent in target operating period) / Sum of total leasable floor area at end of each month
- (Note 7) The average occupancy rate during the period (%) is calculated with the following formula and is rounded to the first decimal place: Sum of total leased floor area at end of each month.
- (Note 8) "Tenant renewal rate" indicates the ratio of tenants that conducted contract renewals among tenants whose contracts had expired during the Twelfth Fiscal Period. It is calculated based on leased area and rounded to the first decimal place.
- (Note 9) The departed area for the 13th FP(ending February 2020) is based on the earnings forecast as of the date of this document and may differ from the actual departed area.
- (Note 10) "Average rent" is calculated by dividing the sum of each tenant's monthly rent and the common space charges indicated in their lease agreements by the leased floor space and does not include floor area in which lease agreements are yet to begin or where lease agreements are not yet concluded.
- (Note 11) The office move-out rate targets assets classified as offices from among assets owned by One REIT, is calculated using the following formula and is rounded to the first decimal place: Move-out rate (%) = (Total departed area in the target operating period ÷ Average leasable floor area as of the end of each month during the targeted operating period) X 365 ÷ Number of operating days in the target operating period. The same calculation method and display format are applied hereafter in this document.
- (Note 12) "Leased floor area" column shows the floor area indicated in the lease agreements concluded with each tenant effective as of the end of the Twelfth FP (ended Aug. 2019). Parking spaces and land provided for other uses are not included.
- (Note 13) The "% of total leasable floor area" column shows each tenant's percentage of the total leasable floor area of all the assets One REIT owns and is rounded to the first decimal place.
- (Note 14) The information is undisclosed as consent for disclosure has not been obtained from either of the tenants.
- (Note 15) As for the status of distribution by leased area, each ratio is calculated with the number of tenants occupying each office building. Tenants occupying multiple properties are calculated as a single tenant.
- (Note 16) The plan is as of the date of this document and the content of construction work may be changed or cancelled due to revision of plans in the future and other factors.
- (Note 17) This is calculated based on the portfolio status as of the end of the Twelfth Fiscal Period (ended August 2019).
- (Note 18) Status as of the end of September 2019 is indicated based on information provided by the party One REIT acquired the preferential negotiation rights from.
- (Note 19) "Appraised NOI yield (%) = net operating income (NOI) recorded under "working balance, income price through direct capitalization method" of the appraisal report ÷ acquisition price" and is rounded to the first decimal place.
- (Note 20) Both are indicated as of August 31, 2019 based on information provided by seller.
- (Note 21) The average remaining period is calculated by seeking the weighted average of remaining period as of the end of September 9, 2019, according to the balance of interest-bearing debt and is rounded to the second decimal place.
- (Note 22) The interest rate indicated for "Loans Payable as of September 2019" is the interest rate used when repaying debt, while the interest rate indicated for "Procurement through Refinancing" is the interest rate at the issuance of investment corporation bonds and the interest rates that have been substantially fixed with the interest rate swap.
- (Note 23) Appraised LTV is calculated with the following formula and is rounded to the first decimal place:

 Appraised LTV (%) = Period-end balance of interest-bearing debt / (Period-end total assets + Unrealized gain)

Features of One REIT

Appendix

1 Portfolio Focusing on Middle-Sized Office Buildings^(Note) as the Core Investment Target

- A large number of middle-sized office buildings, the core investment target of One REIT, are located in the 23 wards of Tokyo, and One REIT believes that such buildings have a relatively large market scale and hold abundant acquisition opportunity.
- Middle-sized office buildings maintain a stable occupancy rate over the medium to long term. One REIT believes that middle-sized office buildings are an asset class from which stable profits can be expected while sufficiently utilizing the knowledge and experience of the Asset Management Company, and has set such buildings as a core investment target.

2 Pursuit of Essential Values of Real Estate—"Location" and "Building Specification"

- One REIT believes that most of the essential values of real estate are dependent on "location" and "building specification (functionality, design, etc.)"
- One REIT will invest in carefully selected properties with high building specification situated at locations with high tenant needs and pursue the maintenance and improvement of building specifications over the long term with an aim to create buildings chosen by tenants by taking into consideration "safety," "comfort" and "convenience" from the viewpoint of tenants.

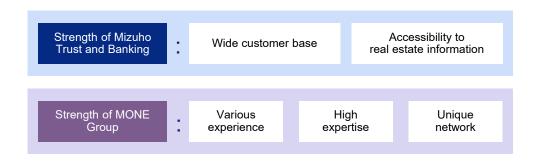

(Note) "Middle-sized office" refers to medium or medium-large-scale office buildings whose total floor area is within the range of 3,300 m² (approximately 1,000 tsubo) to 33,000 m² (approximately 10,000 tsubo) and with certain specifications that satisfy the needs of tenants.

3 Utilization of Abundant and High-Quality Property Information Obtained by Utilizing the Strength of Sponsors

- One REIT utilizes Mizuho Trust & Banking's wide customer base, information network and unique accessibility to real estate information as well as MONE Group's various experience on real estate investment and management, high expertise and unique network.
- One REIT aims to form a high-quality portfolio by widely obtaining high-quality information at an early stage from the viewpoint of properties and accuracy of sales and connecting it to the acquisition of properties against the backdrop of responding to various needs for utilization and sales of real estate.

4 Construction of Stable Financial Base and Strict Internal Control and Risk Management System under Financial Sponsors

- Building a stable financial base with a lender formation centering on Mizuho Trust & Banking, the sponsor, and Mizuho Bank, Ltd.
- Managing conflict-of-interest transactions, information, etc. based on strict rules utilizing know-how at financial institutions.

Efforts on Conflict-of-Interest Transactions

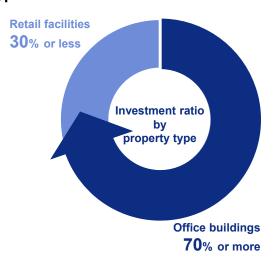

- ✓ Under the interested parties transaction rules, the Asset Management Company will define interested parties^(Note) broader than what is determined as interested parties by the Act on Investment Trusts and Investment Corporations as well as the Order for Enforcement of the Act on Investment Trusts and Investment Corporations.
- ✓ The Compliance Committee conducts reviews in light of the opinions of external members, lawyers that have no conflict of interest with the Asset Management Company. Moreover, there are strict operational procedures, as support from two-thirds of the members at a meeting, including support from external members, are required to make resolutions.

(Note)

- ① The Asset Management Company or directors/employees of the Asset Management Company
- ② The Asset Management Company's shareholders
- ③ Interested parties, etc., determined by the Order for Enforcement of the Act on Investment Trusts and Investment Corporations, other than ① and ②
- ① Corporations to which those who correspond to ① or ③ conduct the majority of investments, silent partnership of equity investments, or preferred equity investments.
- $\textcircled{\scriptsize \texttt{0}} \textbf{ Corporations that have contracted asset management operations to those who correspond to } \textcircled{\scriptsize \texttt{0}} \textbf{ through } \textcircled{\scriptsize \texttt{3}}$
- ® Corporations in which executives of the Asset Management Company also hold an executive position

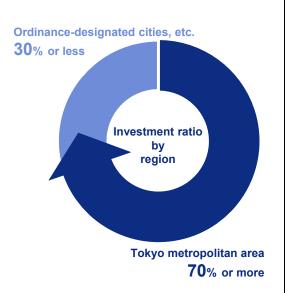

Investment Ratio by Property Type(Note)

We will build a portfolio intending to diversify the investment target by considering middle-sized office buildings as the core investment target and also incorporating office buildings other than middle-sized office buildings as well as urban retail facilities.

Investment Ratio by Area^(Note)

We intend to build a portfolio considering regional diversification by including ordinance-designated cities or their equivalent where certain rental demand is expected in the investment target while focusing on investments in the Tokyo metropolitan area where stability is expected.

Basic Stance

Managing financial products with the "idea of manufacturing"

Creating Value, and More

What Is the "Idea of Manufacturing?"

- Deciding and realizing policies based on accumulated experience and teamwork by viewing and considering things from the viewpoint of external appearance, functionality, interior, facilities, usage, cost and many other positions by not only devoting efforts to manufacturing but also aiming to be appreciated by people engaged in manufacturing.
- Creating not only visible values but also real estate that bring about powerful impressions, trust and appreciation.

The Concept Behind "and More"

- To not just simply increase the value of properties and see that tenants are satisfied but also create "values" for people related to the scheme, real estate market and investors through sufficient consideration.
- Through these efforts, we believe that we can build a long-term relationship with people related to the scheme, contribute to the real estate market and maximize unitholder value.

Our Thoughts in "One"

One REIT aims to maximize unitholder value by understanding the value within the corporate philosophy of "No. 1 credibility," "No. 1 service provision," and "No. 1 group capability" set by Mizuho Financial Group to which the sponsor (Mizuho Trust & Banking Co., Ltd.) belongs as universal, and sharing value in "One" between One REIT, the Asset Management Company and sponsor.

In addition, in naming our company "One REIT Investment Corporation," we reflected the idea of being "Unique," or the "Only One" in the J-REIT market where competition is intensifying

Significance of Logo

The two curving lines forming the mark represent a square scale, which is an important tool of temple and shrine carpenters and derived from One REIT's basic stance on the "idea of manufacturing." The two square scales facing one another resemble "real estate" and "finance" and show that "real estate" and "finance" are integrated elements.

In addition, the slit from the lower left to the upper right shows "continuous growth and development" and expresses One REIT's will to contribute not only to the sustainable growth of unitholder value but also to sound growth and development of the real estate market by providing added value to various stakeholders including society through asset management based on the "idea of manufacturing."

Disclosure of Policy for Consideration of Sustainability

The policy for consideration of sustainability was disclosed on One REIT's website http://www.one-reit.com/ja/environment/index.html

1.	Promotion of energy saving	We will promote operation that saves electrical power and which makes energy use effective, plan to introduce facilities that contribute to energy saving and contribute to the real estate sector's reduction of energy use and greenhouse gas emissions.
2.	Promotion of effective use of resources	We will promote operational efforts related to saving water and reducing waste and contribute to a recycling-oriented society.
3.	Compliance	We will observe laws and regulations concerning environment, society and governance while appropriately managing the risks such as from changes in regulations.
4.	Cooperation with parties within and outside the company	We will continue to educate our employees as well as cooperate with related parties in a way that promotes environmental consideration in order to execute the policy for sustainability.
5.	Disclosure of information	We will make efforts to disclose our policy concerning sustainability and status of activities to investors and other related parties.

Governance

Construction of a System that Aims to Align with Unitholder Interest

Sponsors' funding of **One REIT**

- Mizuho Realty One Co., Ltd., a sponsor, holds 22,530 units in One REIT (9.39% of outstanding number of investment units)(Note 2).
- · The investment units have continually been held without them being sold.

Introduction of Cumulative **Investment Unit Investment Program**

• The Cumulative Investment Unit Investment Program was started in November 2014 with the aim of deepening awareness among executives and staff of the MONE Group of the sustained growth of One REIT.

Aim to align the interest of unitholders to the interest of sponsors and emplovees

Decision-Making Process that Contributes to the Protection of Unitholder Interest

- When an issue pertains to a transaction with an interested party, prior consent from One REIT's Board of Directors must be obtained in addition to resolutions by the Compliance Committee and the Investment Committee.
- In light of the fact that the Asset Management Company is a member of a financial institution group, the same rule is applied not only for issues of acquisition and sale of assets but also of borrowing of funds and underwriting of investment units.

Aims to form and promote brand strategies and create optimum added value for tenants and unitholders

Brand name

("ONE" (uniqueness, oneness) + "BEST" (greatest)) × "HONEST"

One REIT intends to contribute to the improvement and development of existing building stock by defining specifications to realize "safety," "comfort" and "convenience" for tenants under the name "ONEST" as well as spreading it widely throughout the market.

"ONEST" Specifications

- "Safety" To provide safety and security to ONEST buildings
- ⇒ Securing safety and having an environmentally-friendly and detailed building management system.
- "Comfort" To provide beauty and comfort to ONEST buildings.
- ⇒ Having excellent design and comfortable office space.
- "Convenience" To make ONEST buildings more convenient
- ⇒ Having high functionality and convenience in buildings .

Internal Reserves

Deliberation Policy of Internal Reserves

➤ Deliberating internal reserves within the range of not falling below the forecast figures of dividends per unit announced immediately before when temporary income such as gain on sale of real estate, etc. are generated

Purpose of Use of Internal Reserves

One REIT has a policy to utilize internal reserves to stabilize dividends or secure a certain level of dividends. Stabilization of dividends indicates cases when dividends are expected to fall below the forecast due to the following events, etc.

- Occurrence of loss on sale of real estate, etc. and loss caused by the impairment of owned assets
- > Dilution of dividends per unit associated with the issuance of investment units
- ➤ In case sufficient rental revenue cannot be secured due to agile property acquisitions such as acquisition of properties during the period
- > Occurrence of expenses and loss due to other disasters and sudden events, etc.

Asset Management Fee Scheme(Note 1)

		Calculation method
	1	Total assets \times 0.3% \times (Number of months in the fiscal period / 12)
Management fees ^(Note 1)	2	$NOI^{(Note 2)} \times 2.5\%$
	3	EPU ^(Note 3) × 2,000
Acquisition fees		Acquisition price × 1.0% (Transactions with interested parties: Acquisition price × 0.5%)
Transfer fees		Transfer price × 1.0% (Transactions with interested parties: Transfer price × 0.5%)
Merger Fee		Appraisal value of real-estate related assets, etc. (effective date of the merger) × 1.0%

- (Note 1) This will start applying in the Thirteenth Fiscal Period (from September 1, 2019 to February 29, 2020).
- (Note 2) NOI is the amount arrived at after deducting property-related operating expenses (excluding depreciation and loss on retirement of noncurrent assets) from the sum total of property-related operating revenue, silent partnership dividends and revenues from Real Estate-Related Loans and Other Assets for each operating period.
- Note 3) EPU is the amount arrived at after dividing net income before income taxes (the amount before deducting Management Fee 3 and non-deductible consumption tax for Management Fee 3 and after adding amortization of goodwill and deducting gain on negative goodwill) for each operating period (if there is loss carried forward, the amount after covering the amount) by the total number of investment units issued and outstanding as of the period's settlement for the relevant operating period.
