The Company has evaluated the effectiveness of the Board of Directors for Fiscal Year 2018 based on its Corporate Governance Policy; below is an outline of the results of the evaluation.

Based on the results of the evaluation of effectiveness for Fiscal Year 2017, discussions regarding the following two points were further enhanced by the Board of Directors in Fiscal Year 2018.

[1] Broader discussions of “non-financial information”: The Board of Directors formulated “KV2027” with a thorough discussion regarding the scenarios for growth through settling key CSV issues from an overall perspective of the Group's “business portfolio.” The Board also fully discussed matters regarding “the

environment, society and governance (ESG)” and “CSV commitments” that were designated as one of key performance indicators, as they pertain to the initiatives in MTBP.

[2] Full discussion of “risk management”: Potential global risks were reported in a timely manner and scenarios of risks escalating to a major crisis were fully considered. Also, the risks in terms of the strategy and business execution were confirmed during the discussions of MTBP.

(2) Fiscal 2018 effectiveness evaluation and results

Similar to Fiscal Year 2017, a questionnaire (multiple choice and short answer) that included questions regarding “an ideal Board of Directors” was developed in 2018 based on a survey conducted by a third-party advisory organization, and was completed by all Directors and Audit & Supervisory Board Members.

<Evaluation criteria>

[1] Supervision of development, execution, and monitoring of strategies, [2] Risk management and supervision of crisis control, [3] Thorough understanding and implementation of healthy corporate ethics and supervision thereof, [4] Supervision of decision-making such as business acquisition/withdrawal, [5] Supervision of executive remuneration and plans such as succession planning for next-generation leaders, [6] Supervision of overall disclosures to stakeholders, [7] Structure and management of the Board of Directors, and [8] Items to improve effectiveness

After the completion of the evaluation, the current status of the initiatives for improvement and the questionnaire results were shared during a board meeting; it was concluded that the Board of Directors was operating properly and generally functioning effectively. On the other hand, regarding the expansion of discussions in Fiscal Year 2018 to “non-financial information” in Fiscal Year 2018, it has been determined to be necessary to further enhance the discussions by monitoring the progress of “KV2027” and MTBP. Also, concerning “risk management,” it has been determined to be necessary to continue making improvements based on the discussions during Fiscal Year 2018.

The performance evaluation indices for the Yearly Bonus shall be the Company's consolidated normalized operating profit and individual performance evaluation indices (for the Chairman of the Board and the President & CEO, only the Company's consolidated normalized operating profit shall be taken into consideration). Restricted Stock Compensation System (performance-based) will be granted to Directors of the Board & Executive Officers (excluding outside members in both cases) of the Company.

*¹ Basic Remuneration (fixed remuneration) only is paid to Outside Directors and *Kansayaku* respectively, because the role of the former is to supervise and provide advice to Company management and the Group as a whole and that of the latter is to audit the business execution of Directors, both from an objective standpoint.
