*Figures in parenthesis indicate the number of franchise stores.

[Monthly comment]

In April, net sales totaled 64.6% for existing stores compared with the previous year and 66.7% for all stores.

To prevent spread of the novel coronavirus infection, business hours at all stores were shortened by 3 hours in principle from April 8, and stores in Tokyo and Kanagawa prefectures were closed on a Saturday and Sunday in the beginning of April. In addition, all Brand Collect and UseLet stores as well as some of the stores in retail facilities are temporarily closed from the beginning of April. As a result of such measures and conducting operations while securing the safety of customers and employees, sales decreased for both existing stores and all stores.

By category, sales of home appliances were close to the level of the previous year, but sales of apparel and brand items largely decreased due to the impact of consumers refraining from going out. On the other hand, sales of digital home appliances performed favorably with the nesting demands.
