1. Overview of Operating Results

(1) Overview of Operating Results and Financial Conditions

Kansai Mirai Financial Group, Inc. completed the merger between Kansai Urban Banking Corp. and The Kinki Osaka Bank, Ltd. to create Kansai Mirai Bank, Ltd. ("Kansai Mirai") in April 2019 and Kansai Mirai integrated the clerical processes and IT systems in October 2019 without causing delays and major troubles.

Operating results and financial conditions for the fiscal year 2019 became as follows.

Consolidated gross ordinary profit for this fiscal year decreased by ¥5.5 billion from the previous fiscal year and amounted to ¥142.8 billion. Net interest income decreased by ¥3.5 billion and amounted to ¥109.2 billion mainly due to the decline in loan rates. Fees and commission income decreased by ¥3.0 billion and amounted to ¥28.2 billion mainly because fees relating to financial instruments decreased under the unstable market environment. Other operating income increased by ¥1.0 billion and amounted to ¥5.4 billion along with the improvement of bond related income for this fiscal year mainly because realization of loss on foreign bonds recognized for the previous fiscal year was not occurred.

Operating expenses (except for the bank's non-recurring expenses) decreased by ¥2.8 billion from the previous fiscal year and amounted to ¥113.6 billion.

As a result of above, actual net operating profit decreased by ± 2.7 billion from the previous fiscal year and amounted to ± 29.2 billion.

Credit costs (net) increased by ¥1.1 billion from the previous fiscal year and amounted to ¥6.2 billion mainly due to additional costs incurred by the partial amendment of evaluation method. Net gains or losses on stocks decreased by ¥4.0 billion and were losses of ¥4.0 billion mainly because it improved the soundness of securities portfolio and recognized impairment losses on securities due to the turmoil in the financial markets following the spread of COVID-19. In addition, integration costs increased due to the merger resulting in Kansai Mirai in April, 2019 and the operation and system integration completed in October, 2019.

As a result of above, ordinary profits decreased by ¥8.1 billon from the previous fiscal year and amounted to ¥8.5 billion. Other than above, Kansai Mirai recognized impairment losses on fixed assets because it resolved further promotion of channel reform after the merger.

Based on these results, net income attributable to owners of parent decreased by ¥64.4 billion from the previous fiscal year and amounted to ¥3.9 billion. Excluding the effect of gain on negative goodwill recognized in the previous fiscal year, it decreased by ¥7.8 billion from the previous fiscal year.

Total assets on a consolidated basis decreased by ¥404.9 billion from the previous fiscal year-end and amounted to ¥11,225.1 billion.

With regards to assets, securities decreased by ¥158.4 billion and amounted to ¥866.8 billion. Loan and bills discounted decreased by ¥6.5 billion and amounted to ¥9,085.8 billion.

With regards to liabilities, deposits decreased by \$308.7 billion and amounted to \$10,377.0 billion. Negotiable certificates of deposit decreased by \$73.8 billion and amounted to \$133.1 billion.

With regards to net assets, it decreased by ¥18.1 billon and amounted to ¥455.3 billion. Total stockholders' equity decreased by ¥5.3 billion and amounted to ¥466.8 billion.

With regards to cash flows on a consolidated basis, cash flow from operating activities was used in ¥348.8 billion mainly due to decrease in deposits and negotiable certificates of deposit. Cash flow from investing activities was provided by ¥149.1 billion mainly because proceeds from sales and redemption of securities exceeded purchase of securities. Cash flow from financing activities was used in ¥13.3 billion mainly due to dividends paid and repayment of subordinated borrowings.

From these results, cash and cash equivalents decreased by ¥213.0 billion during this fiscal year and amounted to ¥921.8 billion at the end of this fiscal year.

(2) Future Outlook

For consolidated earnings outlook for the fiscal year 2020, ¥6.0 billion of net income attributable to owners of parent is set as target. For total of the group banks, ¥21.0 billion of actual net operating profit and ¥5.0 billion of net income are set as target.

The Group provides financial services such as leasing and credit card administration in addition to its main banking business. Surrounding the business and services, there exist various uncertainties caused by the economic environment, such as long term low interest rate environment due to the continuation of Negative Interest Rate Policy by the Bank of Japan and stagnation of economic activities caused by the spread of COVID-19. Therefore, the Company discloses consolidated earnings targets instead of consolidated earnings forecasts.

With regards to dividends, in view of its public nature as a regional financial institution group, the Company will maintain stable dividends while paying attention to the challenges relating to the Company's capital and financial policies and securing the required capital adequacy ratio.

For the fiscal year 2020, the Company plans annual dividends per share of common stock at ¥10 (year-end dividend ¥10) since it is determined necessary that the Company maintains certain level of capital in order to support the customers by exercising the finance intermediary function as a regional financial institution, while increasing unpredictability about the future caused by the impact of COVID-19 spread.

2. Basic Stance on Selection of Accounting Standards

The Company applies accounting principles generally accepted in Japan. The Group responds appropriately to the application of the International Financial Reporting Standards (IFRS) in the future by considering the situation prevailing in Japan and abroad.
