## Notice Concerning Acquisition (Nihonbashi Central Square) and Divestment (Daiwa Jimbocho) of Assets

Daiwa Office Investment Corporation (the "Investment Corporation") hereby announces that Daiwa Real Estate Asset Management Co. Ltd., to which the Investment Corporation entrusts management of its assets (the "Asset Manager"), has determined today to acquire and divest trust beneficial interest in domestic real estate (the "Acquisition" and the "Divestment." The Acquisition and Divestment are collectively referred to as the "Replacement") as follows.

1. Summary of the Replacement

Scheduled Date of	May 24, 2020
Conclusion of	May 21, 2020
Replacement Agreement	
Scheduled Delivery Date	May 21, 2020
The Counterparty of the Replacement	Not disclosed (Note)

<sup>(</sup>Note) The counterparty of the replacement is a domestic corporation, but the name is not disclosed as consent for disclosure has not been obtained from the seller.

#### I. Summary of Property to Be Acquired

Asset Name Nihonbashi Central Square (the "Property to be Acquired")	
Type of Specified Asset	
Location	2-16-11 Nihombashi, Chuo-ku, Tokyo
Acquisition Price	3,521 million yen (Excluding acquisition costs, consumption tax, etc.)
Payment Method	Lump-sum payment at the time of delivery

(Note) The asset is trust beneficial interest with compartmentalized ownership of floors 1 to 5 as the primary asset in trust. For additional details, please refer to "3. Details of the Property to be Acquired and Lease."

#### II. Summary of Property to Be Divested

Asset Name	Daiwa Jimbocho (the "Property to be Divested")		
Type of Asset	Trust beneficial interest in domestic real estate		
Sale Price (Note 1)	4,000 million yen (excluding settlement amounts of fixed asset tax and city planning tax, consumption tax, etc.)		
Book Value	3,943 million yen (November 30, 2019)		
Difference between the Sale Price and the Book Value	57 million yen (Note 2)		
Receiving Method	Lump-sum receipt at the time of delivery  The funds obtained through the divestment will be used for the acquisition of Nihonbashi Central Square (settlement of difference will be carried out)		

<sup>(</sup>Note 1) Sale price is the price of trust beneficial interest in the Property to be Divested indicated in the trust beneficial interest mutual transactions agreement.

(Note 2) The figure differs from a capital gain from divestment. It is a simple calculation of difference between the sale price and the book value as of November 30, 2019, for reference.

#### 2. Reason for the Replacement

The Investment Corporation decided to conduct the Replacement based on the basic policy for asset management set forth in the Articles of Incorporation and the management policy of the Investment Corporation by taking into account that rejuvenation of the portfolio and improvement in medium- to long-term profitability can be expected with the Replacement. Please refer to the following for further details.

#### I. Acquisition of Nihonbashi Central Square

#### (1) Location

The Property to be Acquired is a 1-minute walk from Nihombashi Station on the Tokyo Metro Ginza and Tozai Lines and Toei Subway Asakusa Line and a 3-minute walk from Kayabacho Station on the Tokyo Metro Hibiya Line. With train rides from Nihombashi Station taking approximately 1 minute to reach Otemachi Station, etc., the Property to be Acquired enjoys excellent access to major stations in Tokyo.

The Nihombashi-Yaesu-Kyobashi area where the Property to be Acquired stands is an area historically concentrated with offices. Located to the east of JR Tokyo Station, the area enjoys excellent access to areas within Tokyo and suburban areas via JR and subway lines, as well as access to various regions through use of Shinkansen bullet lines. As a result, tenants engaged in a wide variety of businesses aspire to be in the area. Furthermore, in addition to the competitive location, the surrounding area underwent functional upgrading in recent years associated with redevelopment of existing buildings. This led to an inflow of foreign companies and IT firms in addition to leading companies in major industries, attracting demand from a broader tenant base.

#### (2) Building Facilities:

The Property to be Acquired has 8 floors above ground with a gross floor area of 4,100.23 m², and a leasable area of approximately 130 tsubos per floor is secured. The building is equipped with 2,800 mm of typical floor celling height and 100 mm of OA floor, and the specifications satisfy office needs from companies representing a wide variety of businesses. In addition, since the office space is without pillars, flexible layout and efficient use is possible.

Given the building functionality and favorable location of the Property to be Acquired, it should contribute to the profitability of the Investment Corporation's portfolio going forward as a property having a certain level of competitiveness.

#### II. Divestment of Daiwa Jimbocho

The Investment Corporation decided to divest the Property to be Divested in line with its management policy by comprehensively taking into account the characteristics of the Property to be Divested, measures on return of profits to unitholders, current and future portfolio strategy, the trend of real estate market conditions and other factors for the improvement of unitholder value.

The Property to be Divested will be transacted with the Property to be Acquired as a replacement. The Asset Manager judged that the divestment of the Property to be Divested is reasonable as the improvement of the portfolio (improvement in location and convenience of transportation, rejuvenation of the portfolio, and enhancement of competitiveness through securement of tenants under heightened building specifications) can be achieved through the Replacement.

building.	The compartmentalized co-owners constitute a management association, and				anagement association, and		

- (Note 1) The figures are based on data obtained from the seller for security deposit and guarantee, total leased floor space and total leasable floor space of the tenants concerning compartmentalized ownership of the Property to be Acquired by the Investment Corporation.
- (Note 2) As for rent revenue, the figure calculated by multiplying the ratio of the ownership interest of the area to be acquired by that of the area subject to the master lease business (60.99%) regarding the revenue of the entire building is indicated based on the agreement, etc. among the compartmentalized co-owners of the property. In addition, as for the trend of occupancy rates, the figure for the area subject to the master lease business is indicated
- (Note 3) NOI yield at acquisition is calculated based on the leasing agreement for the Property to be Acquired on the scheduled acquisition date by dividing annual income by acquisition price under the assumption that the occupancy rate is 100.0% in consideration of tax and other costs that may occur. The figure is rounded to the first decimal place. The figure is not the forecast for the current fiscal period or the next fiscal period onward. Moreover, the figure for the property is indicated by assuming the revenue calculated by multiplying the ratio of ownership interest in the area to be acquired by that of the area subject to the master lease business (60.99%) regarding the revenue of the entire building based on the agreement, etc. among the compartmentalized co-owners (the same applies in (Note 4) and (Note 5) below).
- (Note 4) For Midterm NOI yield, it is assumed that following the acquisition of the property, the Investment Corporation will receive rent on an ongoing basis for the medium term (under the assumption that the occupancy rate is 96.0%). Midterm NOI yield is calculated by dividing the net estimated figures obtained by deducting rental business expenses from rental revenue. The figure is rounded to the first decimal place. The figure is not the forecast for the current fiscal period or the next fiscal period onward.
- (Note 5) The figure for appraisal NOI yield is calculated by dividing the net operating income used for calculation of the income approach value as per the direct reduction process as stipulated in the property appraisal report by acquisition price. The figure is rounded to the first decimal place.
- (Note 6) The figure for depreciation is the total of the six-month depreciation conversion figure expected to accrue in the fiscal period in which the acquisition was conducted and appropriate expected depreciation charge for the next fiscal period (six-month period) divided by acquisition price. The figure is rounded to the first decimal place. The figure is not the forecast for the current fiscal period or the next fiscal period onward.

### 4. Details of the Property to Be Divested

Asset Name		Daiwa Jimbocho		
Type of Specified Asset		Trust beneficial interest in domestic real estate		
Trustee		Sumitomo Mitsui Trust Bank, Limited.

Summ	nary of Tenants (as of N	March 31, 2020)		
	Total Number of Tenants	6		
	Rent Revenue	115 million yen (Note)		
Security Deposit and Guaranty		160,798,400 yen		
	Total Leased Floor Space	3,164.26 m <sup>2</sup>		
	Total Leasable Floor Space	3,164.26 m <sup>2</sup>		
	Occupancy Rate	100.0%		

(Note) Rent revenue is for the fiscal period ended November 2019 (from June 1, 2019 to November 30, 2019).

#### 5. Summary of the Replacement Counterparty

The counterparty of the Replacement is a domestic corporation. However, since consent on disclosure of its name, etc. has not been obtained, such information is not disclosed. There is no relationship required to be disclosed between the Investment Corporation/Asset Manager and the seller in terms of capital, personnel and business. In addition, the seller does not fall under the Related Persons of the Investment Corporation/Asset Manager.

#### 6. Status of the Replacement Counterparty

The acquisition of the trust beneficial interest does not pertain to acquisition from any persons having a special interest in the Investment Corporation or the Asset Manager.

7. Schedule of the Replacement

concaute of the replace.	
Date of Determination of Replacement	May 20, 2020
Date of Conclusion of Replacement Agreement	May 21, 2020
Date of Payment and Receipt	May 21, 2020
Scheduled Delivery Date	May 21, 2020

#### 8. Future Prospect

As for the impact of the Replacement, gain on sale of real estate of 14 million yen (estimated value at present) is expected to be recorded for the fiscal period ending May 2020 (29th fiscal period). However, the impact on the management status forecast for the fiscal period ending May 2020 (29th fiscal period) and the fiscal period ending November 2020 (30th fiscal period) is minimal, and there are presently no revisions to the previously released forecasts.

(3) Net Operating Revenue		142	
(4) Profit from deposits/guarantees		1	Return yield is assumed at 1.0%.
(5) Capital Expenditures		8	Recorded based on actual historical data.
	(6) Net Revenue ((3)+(4)-(5))	135	
(7) Capitalization Rate		3.5%	Assessed by adding fluctuation risk of the earnings and principal to the discount rate.
Discounted Cash Flow Value		3,708	
	Discount Rate	3.3%	Assessed by comprehensively taking into account the market trends, etc. after considering the regional factors, specific factors, etc. of the subject property  Assessed considering future uncertainties,
	Terminal Capitalization Rate	3.7%	Assessed considering future uncertainties, deterioration of buildings and divestment risks, based on capitalization rate.
Integ Meth	grated Value by Using Cost nod (Note 3)	1,940	
	Ratio of Land	83.0%	
	Ratio of Building	17.0%	

Other things noted by the appraiser upon valuation	Upon taking into consideration regional and
	individual analyses as well as the characteristics
	of the integrated value and the point pertaining to
	compatibility with the income approach value in
	addition to judgement of relative reliability of the
	materials adopted through each method upon
	valuation, judged that the persuasive price which
	further reflects the actual market conditions is the
	income approach value

<sup>(</sup>Note 1) The above revenue and expenses are based on the appraisal report and are not the figures forecasted by the Investment Corporation or the Asset Manager. Furthermore, it indicates revenue and expenses calculated by multiplying the pro rata share of the area subject to appraisal to the area subject to the master lease business (60.99%) based on the agreement, etc. for compartmentalized ownership of the property.

(Note 2) With no prospective PM's permission given for a specific disclosure of the PM fees, there is no disclosure of the breakdown of the fees. Disclosure of the PM fee figures in a specific manner may cause adverse effects on other

business operations of the prospective PM, leading to bring about negative impact on the planned efficient operation based on the maintenance policy of the investment-target property of the Investment Corporation that the Investment Corporation is to contract with the PM. This may in return further cause adverse effects on unitholders' interest. Therefore, the figure presented in this column is calculated together with maintenance and operation costs.

(Note 3) The above figure indicates the price calculated by multiplying the pro rata share of the area subject to appraisal to the entire building (59.98%) based on the compartmentalized ownership of the property.

<sup>(</sup>Note 1) "Five Central Wards of Tokyo" means Chiyoda-ku, Chuo-ku, Minato-ku, Shinjuku-ku and Shibuya-ku.

http://www.daiwa-office.co.jp/en/

<sup>(</sup>Note 2) "Greater Tokyo" means Tokyo (excluding the Five Central Wards of Tokyo), Kanagawa, Chiba and Saitama prefectures.

<sup>(</sup>Note 3) "Major Regional Cities" means Osaka area (i.e., Osaka, Kyoto and Hyogo Prefectures), Nagoya area (Aichi, Mie and Gifu Prefectures), ordinance-designated cities and core cities under Local Autonomy Act.

<sup>(</sup>Note 4) Figures in the "Investment Ratio" column represent the percentage of the (scheduled) acquisition price of each property to the aggregate amount of the (scheduled) acquisition price and are rounded to the first decimal place. Please note that adding up of the investment ratio of the properties may not exactly match the investment ratio for each investment region or for the overall portfolio.
