Existence of a policy determining the amount and calculation of compensation	Yes
--	-----

Disclosure of Policy Determining the Amount and Calculation of Compensation

a. Outline of compensation plan of Directors

The Company’s compensation of Directors consists of fixed compensation, comprising base compensation, and variable compensation, comprising bonus and share-based compensation. Each compensation item is as follows.

<Base compensation>

The amount of base compensation is determined according to the role and position of the director.

<Bonus>

The amount of bonus is determined according to the Company’s business performance, such as consolidated operating profit, and evaluation of individuals.

The individual evaluation is used to evaluate the progress of initiatives for single-year and the medium-to-long term, for which achievements are difficult to measure based only on financial results.

	Fiscal Year ended March 2018	Fiscal Year ended March 2019
Operating profit	76,660 million yen	79,162 million yen
Year-on-year	-0.8%	+3.3%

<Share-based compensation>

The Plan was introduced in the fiscal year ended March 2019 to replace the conventional stock option (SO) plan. The compensation under the plan is comprised of a Performance Share (PS) portion in which the vesting, etc. of the Company shares, etc. is conducted three years after the start of each fiscal year, and a Restricted Stock (RS) portion in which the vesting, etc. of the

(Translation)

Company shares, etc. is conducted in principle when a director or an officer of the Company Group resigns. The Plan adopts the system of executive compensation BIP (Board Incentive Plan) trust (the “BIP Trust”). The number of shares to be vested, etc. is set at one Company share per one point, according to the number of points calculated based on the below formula.

By linking Directors’ compensation to the Company’s share price, the Plan is expected to have an effect that it will create an incentive to enhance corporate value in the medium-to-long term and align interests with the Company’s shareholders.

For the fiscal year ended March 2019, the amount of SO was recorded as compensation of Directors for the fiscal year ended March 2018.

(Calculation formula of points)

- PS portion

The number of points (the “Number of PS Points”) to be granted to Target Directors, etc. for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of the Company’s shares by the Trust. The number of achievement-linked points shall be calculated by multiplying the Number of PS Points granted for each fiscal year by the achievement-linked coefficient determined based on the level of performance three years after the beginning of the applicable fiscal year. As the achievement-linked coefficient may vary in a range of 0-200% depending on the level of achievement of target ranges set based on the “business profit” from the viewpoint of profit growth, and return on equity (ROE) from the viewpoint of maintaining the capital efficiency, from the financial performance targets listed in the Mid- to Long-term Business Plan. This portion enhances the consistency with the features of the real estate business, which spans the medium-to-long term, and provides a clearer incentive toward better performance for the medium-to-the long term.

The ranges for the fiscal year ending March 2021, the third year from the start of the plan in the fiscal year ended March 2019, has been determined by the Board of Directors after deliberation by the Advisory Committee Relating to Nominations and Compensation, which consists of a majority of independent external directors, based on factors such as the medium-to-long-term plan at the beginning of the fiscal year ended March 2019.

【The ranges for the fiscal year ending March 2021】

The achievement-linked coefficient: 0% ~ 200%

Business profit: ¥75,400 million ~ ¥105,600 million

ROE: 6.5% ~ 12.5%

(Translation)

- RS portion

The number of points (the “Number of RS Points”) to be granted to Target Directors, etc. for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of the Company’s shares by the Trust. By delaying the vesting of stock until retirement of each Director, etc. from the Company Group, this portion creates incentives to contribute to the Company Group and enhance corporate value over the long term.

<Policy on ratios between fixed and variable compensation>

Compensation of Directors concurrently serving as Executive Officers consists of base compensation, bonus and share-based compensation so that it works as a clear incentive to improve performance not only for the short term, but also for the medium-to-long term. The policy for the ratios of the compensation items is shown below.

Compensation of the Director and Chairman of the Board of Directors who is a director other than executive director, consists of base compensation and the RS portion of share-based compensation, to align interests with the Company’s shareholders, due to his position of overseeing the business execution from an objective standpoint and also of shouldering a duty to enhance corporate value over the long term.

Compensation of External Directors and Directors who are Audit & Supervisory Committee Members consists only of base compensation due to their position of overseeing the business execution from an objective standpoint.

【Ratios of compensation of Directors concurrently serving as Executive Officers】

Fixed compensation: 50%(Base compensation)

Variable compensation: 50%(Bonus: 25%, Share-based compensation: 25%)

* The ratios above indicate a basic model when the Company pays 100% of its standard variable compensation amount.

b. Decision-making process of compensation for officers, etc.

The maximum amount of compensation for Directors(excluding Directors who are Audit & Supervisory Committee Members) is limited to up to ¥550 million per year in a separate framework from the performance-based stock incentive plan, etc. according to a resolution at the Ordinary General Meeting of Shareholders held on June 26, 2018. The number of directors (excluding directors who are Audit & Supervisory Committee Members) at the time of the resolution was 8 (2 external directors).

Furthermore, as for the share-based compensation plan, etc., the maximum amount of money to be contributed to the trust by the Company during the covered period (three fiscal years) is ¥730

(Translation)

million, and the maximum number of Company shares to be vested, etc. to directors of the Company is 423,000 shares according to a resolution at the Ordinary General Meeting of Shareholders held on June 26, 2018. The number of directors who were subject to the Plan at the time of the resolution was 6 (excluding 2 external directors).

The maximum amount of compensation for Directors who are Audit & Supervisory Committee Members is limited to up to ¥150 million per year according to a resolution at the Ordinary General Meeting of Shareholders held on June 26, 2015. The number of directors who were Audit & Supervisory Committee Members at the time of the resolution was 5 (including 3 external directors).

The amount of compensation for each Director (excluding Director who is an Audit & Supervisory Committee Member) is determined at the Board of Directors following discussions at the Advisory Committee Relating to Nominations and Compensation, for which the majority of committee members are Independent External Directors, and the amount of compensation for each Director who is an Audit & Supervisory Committee Member is determined by consultation between Audit & Supervisory Committee Members, within the maximum amount resolved at the aforementioned Ordinary General Meetings of Shareholders.

The Board of Directors determines the establishment, revision and abolishment relating to the compensation system associated with Directors, maximum compensation amounts, individual compensation amounts, bonuses based on performance evaluations and important provisions on compensation for Directors after it requests for advice about its proposals from the Advisory Committee Relating to Nominations and Compensation, which discusses the proposals, and reports on its proposals to Directors.

In reviewing the appropriateness of the compensation level and the content of the share-based compensation system that has been introduced at present, the Company make a determination on the basis of factors such as the size of the Company, after obtaining advice from an external compensation consultant.

The activities of the Board of Directors and the Advisory Committee Relating to Nominations and Compensation during the decision-making process of compensation amounts, etc. in the fiscal year ended March 2019 are as follows.

- About the establishment of the total and individual amounts of compensation for Directors
- About the introduction of the performance-based stock compensation plan and establishment of provisions about stock vesting
- About compensation for Directors in the fiscal year ending March 2020
